Queen Barbara wins hearts

The new Poly Royal Queen, Miss BIGGS of San Francisco State, was crowned queen officially Saturday night at the Coronation Ball. The ceremony took place at 10:30 p.m. when she was attended by the four princesses: Virginia Colgain, Edith Ludwig, Patrice Kinor, and Joanne Krosby, and was presented with the crown by the former queen, Joanne DePace of 1946's Poly Royal. Miss BIGGS has the honor of being the first queen ever to rule over two state colleges at the same time.

BUSY DAY

Saturday was a very busy and entertaining day for the queen. During the morning she took a sightseeing tour of the campus and the army camp by air and then flew over Morro Rock and the ocean. Upon returning to the campus she attended an argument, co-counseling and various other events. The queen dined with her princesses: Virginia Colgain, Edith Ludwig, Patrice Kinor, and Joanne Krosby, and was presented with the crown by the former queen, Joanne DePace of 1946's Poly Royal. Miss BIGGS has the honor of being the first queen ever to rule over two state colleges at the same time.

Home court applause better late than never

The curtain fell on another year's Homecoming Court at 11:30 P.M. The spectacular Coronation Ball was held at the Poly Royal Ballroom and the student superintendents, Mrs. Cunner, were her hosts and attendants escorting her through the premises of the ball. The proceeds from the Ball will be used to buy the outfits and costumes of the queen and princesses.

CAPACITY CROWD

The program was a wide variety nature and was enjoyed to its fullest by a near capacity crowd. The two-hour show consisted of light opera, familiar old Glee Club numbers, quartets, dance music, a comedy act, popular numbers and novelty numbers. The smoothness with which the staff handled the program was in the contrast to the long hours of practice and preparation. Beautiful recitation, excellent acting and vocal work with the addition of the Poly Royal show brought the house down. The program included the Poly Royal and this year, as every year, a beautiful vocal recital that was enjoyed by everyone.

SPECIAL NOTES--

It will soon be time for the students of California Polytechnic State College to re-elect the Poly Royal and Poly Royal Student organization officers. The new officers will be announced at the Coronation Ball. The new officers will be announced at the Coronation Ball. The new officers will be announced at the Coronation Ball. The new officers will be announced at the Coronation Ball. The new officers will be announced at the Coronation Ball.

BRONC BUSTERS

Singing events were marked by a little more success among the contestants. The hard-hitting event was won by Bill Goold with Grover Memel and Carl Miller first in the sweeping, and Bob Nimmo and Carl Miller first in team roping.

SAN LUIS OBISPO, CALIFORNIA

San Luis Obispo, Calif., April 30

Sheep barn to be scene of Y.F.A. barn dance

The annual Young Farmers' Day will be held in the Y.F.A. barn of the new sheep barn Saturday, April 30, with membership cards to be admitted to the barn. This is to be a state affair and all Y.F.A.'s of San Luis Obispo county are invited. Nominally such as the National Young Farmers' association will be held occasionally, the Y.F.A. barn will be held occasionally by the various Y.F.A. organizations.

During the morning they took a trip to the经销商 and the plant superintendent, Mr. Cunner, were her hosts and attendants escorting her through the premises of the ball. The proceeds from the Ball will be used to buy the outfits and costumes of the queen and princesses.

A social dinner will be served early in the evening for the member for a total of 40 cents per couple. The dance is to be one of the fun- sanding affairs of the year. The presence of cruelty and Horse and Human will assure everyone of a hilarious evening of dancing and merriment. The dance is conceived on a few of the events of the year so far as dances go and no one can afford to miss it.

We are giving this dance event quite right to the students of California Polytechnic State College.

Fussey Fern won by Oregonian

Fussey Fern, fine purpled cow which was bred and raised on the farm by the late Miss Sprague at the Brandywine Farm, was sold by Miss Sprague's daughter, Mrs. C. E. Acheson, to Mr. J. E. Wilson of Oregon, for $1250. Miss Sprague bought Fussey Fern when the cow was a yearling for the sum of $500. Mr. Wilson is a well-known breeder of purebred cattle in the Northwest and is a good admirer of Fussey Fern, a cow which was used in the show ring for many years. Mr. Wilson plans to import the cow to his farm in Oregon and to make her a valuable addition to his herd. Fussey Fern is the only cow that has been sold at the Brandywine Farm for the last few years and she is the pride and joy of Mrs. Acheson. Mr. Wilson is well pleased with his purchase and plans to show Fussey Fern in the future.

END AND MEN MAY COME AND MEN MAY GO

The time is coming closer and closer when that old "Va­
caney" sign will be hung over the door of several student­body offices about the campus. Soon Bill Himmelman will make the trek for a little student speech about "I've enjoyed working with the 1941 student body and will always look back on the group as one of the finest I could ever come in contact with." -- etc.

The treasurer, vice-prexy, secretary, Hele student manager, athletic manager, and the editor are among the valiant who have been ready to critical survey. Year after year students have been critical in the past and therefore ready to criticize the mistakes of the persons whom have installed in the various departments. By the way who are you putting in these offices?

Call Polyites have given many bits of purple and white paper being led about: the campus by some prospective candidate or his campaign manager. One thing there is quantity this year, and it's up to you, the individual student body member, and the college community at large, to get these offices right.

Bill and the rest of the student body offices have done a relatively good job this year and have earned the freedom they will only when they officially turn over their positions to you the latter part of this month. All of the offices that comprise the California Polytechnic College Association student body are absolutely essential to the function of the campus. This is one of the things that must rule if we are to have a cohesive student body as well as those outside of the studentbody as well as those outside of the studentbody. The job is never done, next year's Poly Royal will be the answer to the year's Poly Royal. Let's get the new students interested in these offices.

NO, YOU CAN'T CHANGE IT

When we had the opportunity to sit at the Poly collegiate Executive Committee meeting for the last time, at the end of the ninth annual Poly Royal grew near, and hear Julian A. McPhee, president of the California Polytechnic College, say: "Look around a bit, Mr. Keesling, and then decide just as you will."

I think Poly Royal was very efficient, in fact so efficient that the graduate man­

NO, YOU CAN'T CHANGE IT

When we had the opportunity to sit at the Poly collegiate Executive Committee meeting for the last time, at the end of the ninth annual Poly Royal grew near, and hear Julian A. McPhee, president of the California Polytechnic College, say: "Look around a bit, Mr. Keesling, and then decide just as you will."

I think Poly Royal was very efficient, in fact so efficient that the graduate man­
Poly nine downs local Jr. College team by 15-1

The State Tech ball club knocked their cross-town rivals, San Luis Obispo junior college, 15-1, Tuesday afternoon on the Poly diamond. Three Cal Poly pitchers eliminated the J.C. players to a pair of hits, while the Mustangs batted out four safeties in the game.

JUST NOSING AROUND

By Perkins

The dunk that Howie O'Daniels is serving is turning to the Army. Some of our best football players are going to be drafted this next year. Here's hoping that all the other colleges will be hit just as hard as Poly.

This lunch will break out on the baseball field a new discovery was made. Donald Crawford, a big southpaw, proved that he has developed into a potent chuck-er. He has an amazing fast ball that he has to develop more, and he is still one hit away from the 100 mark as the season operates.

Looking over the swimming resul-
tes for this last year revealed that Poly had one of the best swimming teams on the coast. The swimming marks that she had boys compiled in their meets con­trasted very closely with those of California and Stanford.

The buck of practices due to the unusual rainy season is what pre­vented Poly's hockey team from winning any maps. After all a fellow can't be at his best if he doesn't train consistently. I think they did very well after taking this into consideration.

Les Vanoncini, Poly's basketball star, is doing a wonderful job in managing the Mustang All-Star team. He took them to Atwater this past week. He said he was in a very happy mood. But does he take them to a football game and the team to a pair of hits, while the Mustangs batted out four safeties in the game.

Three more Poly men now flying cadets at Randolph Field

These former California Polytechnic youths were among the proudest students in the nation last week. Three of the 175 men flying in a class of 165 Flying Cadets completing the basic flight program at Randolph Field, Tex., took off Thursday for "Farewell Air." Just four and a half months ago these American college citizens, but now they’ve only ten weeks away from commission as second lieutenants and flying officers in Uncle Sam’s rapidly expanding Air Force.

They are: Don H. Anderson, San Luis Obispo; Donald Raymond D. O. Daugh, Paso Robles, Cala.; Thomas Dollar O’Keefe, Lunar, Calif.; Louis E. Keller, Corona, Calif.; John J. Viles, Los Angeles, Cala.

TROUSSEAU THRU TRAINING

These student aviators entered the South Texas basic training school early in February after having completed ten weeks of elementary flight training and having learned the fundamentals of piloting a high speed, single-engine, home-built" fab-manned" glider. About 65 hours were logged, half of it solo and all aerial maneuvers from takeoffs to snap rolls were mastered.

Starting the primary phases of their training, these cadets moved on to Randolph Field where powerful light provided the setting awaited them. An additional 50 hours were added to their flight training, a course which has a cruising speed of more than 250 miles per hour. They got their first taste of night flying. Making takeoffs and landings only guided by the glare of the huge flood-lights and gliding only by their wing-tip lights. Aerial navigation, cross-country instrument and formation flying have been important parts of the second phase of their training.

FIRE-PEEPING UP

On April 5 this class was transferred to an advanced flight training school where it will be a part of the 284th bomb group, the 37th group, and the 85th squadron of a 75-plane outfit. That’s the goal of the Army Air Corps under recently announced flight training program at Randolph Field. The personnel of the Glee club

Bill Bradley received a letter from a friend of his who was a student of his father’s. The letter said it was a gift of two flat tires of tires that were discovered. The letter said they should be replaced.

Host department flower contest’s popular

For its part during the two-day Poly Royal show, the ornamental Horticulture department had a display of flower arrangements and some of the students enrolled in this course were present to explain the lines of design for good flower arrangements.

A flower and shrub identification contest was held at the propagation house for the students of the Poly Royal. The winners of this contest were given valuable prizes in the form of annual and perennial flowering plants and shrubs, drawn by the students for this event. Members of the Hort club were always present around the glass-houses and lath-houses to show the visitors around and to give valuable pointers about the growing of plants and shrubs.

Besides the event sponsored by the Ornamental Horticulture department, the opening up of the grounds was supervised by students of this department.

Queen feated by Poly students

(Continued from page one)

Committee and then the Coronation Ball.

HONORED AT TEA

Upon arising Friday on the Daylight with her mother, Miss Biggs was happily welcomed by several hundred Poly students. From the station she was escorted by a car cabs to the hotel where she went on the air over the reception program. After the program she made several short tours through a few of the shops and bars. The queen was the hon­ored guest of a tea given at the home of Mrs. McPhee who was sponsored by the Woman’s Faculty Club. The winners of Friday night’s track meet were presented with their awards by the queen.

Miss Biggs toured the campus quite thoroughly in the school’s new engine Sunday morning. Ac­cording to the queen honored her subjects by driving with them in the cafeteria and she was addressed by a message of welcome at 1:30 Sunday afternoon on the Day­light bound for the bay city, San Francisco.
