Navy Ends NARU Program at Poly; Settles Account

A contracting party for the bureau of navy personnel will meet with local officials here today and tomorrow for a final settlement with the Cal Poly Foundation and the navy. Settlement will pertain to the Naval Academic Refresher unit program and the previous Flight Preparatory program.

The commission also will extend instruction of NARU to Jan. 1, 1648, and extended through January 24, 1646. Adjustments will be made with the teaching staff, clerical help, janitors, housing and commissioning items.

Since the beginning of the navy program here, 6,874 cadets of the NPFS program and about 800 NARU trainees have graduated from the college. The flight preparatory program began in January, 1644, and extended through October, 1644. The NARU program began in July, 1644, and will extend through January, 1646.

A new group of 35 trainees will be transferred to Poly from Kentucky about Nov. 29 and will complete the program here.

The navy contracting party includes Commander Gerard Swope, Jr., Commander F. W. Laurence, Jr., and Lieutenant (J.G.) Paul H. Fox.

State College Deans Here for Meeting

Deans and representatives from all state colleges and the state department of education will meet at Cal Poly this week, Nov. 2 through Nov. 4, for discussions and reports on such subjects as revision of A. B. requirements, rehabilitation of servicemen, vocational education program, uniformity of state college course titles, computation of grade point averages, and other problems that arise.

In addition to the meetings, a luncheon is planned to be followed by a tour of the Poly campus, conducted by the various Poly department heads.

Those in attendance will be Berkman, Landreth, state department of education; DeVoos, Elder, San Jose state; Butler, San Francisco state; Ault, Peterson, (Turn to Page Two).
Cal Poly—A "School" or a "College"?

Although California Polytechnic School has been elevated from the level of a vocational high school to an institution granting the bachelor of science degree, the name California Polytechnic School has lingered on, reminiscent of the days when this was a vocational high school.

While similar institutions are called colleges, the official title of California Polytechnic remains school, although students graduating from the four year course are required to complete curricula similar to that of other colleges.

It is true that it took a long time for the school to convert to a four year institution of higher learning. However, in converting, officials failed to realize the importance of changing the name along with the type of education offered.

An employer has a choice of two applicants for a position. One is a graduate of a college in California; the other a graduate of the California Polytechnic School. The employer writes to the institution each graduated from, and receives his reply on the official stationery. On comparison of the two, he finds on the latter of each, one called a college, and the other referred to as a school. The average person, when asked the difference between the two will answer, "a college is an institution of higher teaching, whereas a school refers to anything from a grammar school on through junior high to high school."

When, in 1901, the California legislature authorized the high school, no consideration was made for the fact that some day the school might change to an institution granting the bachelor of science degree. And yet, in trying to keep in stride with other state colleges, no successful attempt has been made to change the name to a more appropriate title.

Why not give the students an even break by changing the name to California Polytechnic College?

It took 39 years to change from a high school to an institution of college caliber. Will it take as long to change the name from "school" to California Polytechnic "College?"

—L. Garolan

Trainee to Get Medal At Saturday Review

Out Weighed, Cal Poly Loses to Marines, 42-0

By GEORGE H. TUCKER

The Marines of the Goleta Air Base made the Mustangs a bit too much for the Mustangs last Saturday night when they handed the Mustangs a 42-0 defeat. Weight and speed were the main factors of the Marine team over the team from Cal Poly. When two teams are playing with a difference of 20 pounds per man it is easy to figure the odds.

It was a cold night for football both for the players on the field and the spectators. When there was a short breathing spell for the teams they became cold which resulted in stiffness and injuries.

Coach Ronnie Henderson, when asked how the fellows played, said, "The fellows played very good ball with the exception of two long runs that they let go by. There was noticeable roughness in tagging which will be worked on this week in preparation for games against Minter Field and Arizona. It was a mistake to sign the game just as it was with Camp Cooke. Both of these teams are good enough to play in the "big league". Outstanding Performances

Captain Jim Hutto and Elmer Baver turned in two outstanding performances of the evening for the Mustangs at the tackle and guard spots respectively. Howie Page was his toss on pass defense as he intercepted two passes, almost breaking loose for pay dirt on both attempts.

On offense the Mustangs came out with a 26 point down with 28 yards gained compared to 39 lost which gave them a total of a minus quantity against the Marines.

Danny Radakovich was the Marine "Five by Five" that gave the Mustangs so much trouble with his running. When Radakovich carried the ball it was all the Mustangs could do to stop him. They had to get him before he reached the line of scrimmage or he would hold a regular field day for himself. Once in the open there was not a man on the field fast enough to overtake the 190 pound streak of lightning.

The members of the team and the coaches feel satisfied that they held the Marines as well as they did and prepared the greater share of the first quarter either in Marine territory or around midfield.

Marines Score

First Marine score came in the first five minutes of the game when they turned Bob Turner's punt 45 yards to score standing up. Glenn Biagg, right guard, moved in to block for the remainder of the first quarter. Poly's defense looked good and the game was played near the center of the field or in Marine territory.

At the opening of the quarter, Bob Ohm, Mustang, was stopped by Walter Ott, left half, and returned to the Poly 24 yard line before he was downed. On the next play, Danny Radakovich, five foot, five inch, 190 pound sprinter, broke away around the end of his line and followed excellent interference to score. Biagg again converted.

During this quarter the Marines kept Poly in its own territory for the entire period. The Marines scored again in this period when another Poly punt went only 10 yards and was returned 10 yards to the Poly 25 yard line. Following this the Marines again over the center of the line, Lynn Cryar, right half, swept the end to score. Biagg's conversion was good.

Navy Points Bewley

Although the future plans of Mr. and Mrs. Lewis (Lew) Bewley are still in the making, one thing is certain - is on the top of the list, and that is that when he does his civilian work he will not be wearing a Navy blue suit without a pin stripe and a zipper instead of the usual 15 buttons that he wore for the past four years.

Lew will be leaving on the second tour for Shoemaker, California. It is expected that the football will be his major hobby. There at the end of the week he will be on his merry way to Odessa, Texas. The civilian as well as the Navy students here at Poly will miss the well-mannered Texan.

Gym Class Whips 8R In Platoon Grid Play

Two weeks of intraplaton football was ended last Friday by the game between the 1030 Navy gym class and the 8R Team. The game turned out to be a 15-0 defeat for the 8R group. Cause of defeat mostly was a lack of practicing and few substitutions. This was the first time that 8R had played football during the gym period. Chief Cavett hasn't decided which team is winner of last week's round robin as yet.
No Hidden Skeletons, But Halloween Dance Success

By WOODALL

The Glee Club’s Halloween Dance was held in the El Corral decorated in a Halloween manner which included pumpkin lantern faces, Jack-o-lanterns, a large pumpkin, and an assortment of colored lights. The combination of girls and aongsman, Sam Cushman, entertained the girls and made them feel very subdued and relaxed. (The combination of girls and aongsman was the most helpful, however.)

The dance was conducted by the El Corral decorated in a Halloween manner which included pumpkin lantern faces, Jack-o-lanterns, a large pumpkin, and an assortment of colored lights. The combination of girls and aongsman, Sam Cushman, entertained the girls and made them feel very subdued and relaxed. (The combination of girls and aongsman was the most helpful, however.)

Poly Employes Eat, Dance At Annual Party

By RICHARD LIVINGSTON

More than 140 Cal Poly employees, their wives, husbands, or other relatives enjoyed one of the most successful Fall parties in the history of the college Tuesday night at the Monday Club. A goodly number of the employees’ families were on hand for the fun which followed the buffet dinner served at 7 p.m.

The highlight of the evening was the reception of the employees’ families. The reception was held in the Monday Club, where guests were served cocktails and hors d’oeuvres. The reception was a great success, and the guests thoroughly enjoyed themselves.

Attention of student! is called to the fact that there has been an increase in the number of students who are not present in class. This is not only a reflection on the students themselves, but on the entire class. Each student is expected to be in attendance at all times, and any absence will be noted and recorded. Those who are consistently absent will be subject to disciplinary action.

Library’s Night Hours Changed

Starting Monday, Nov. 5, the hours during which the library is open will be shortened from 7 to 10 p.m. to 7:30 to 9:30 p.m., according to Bob Kennedy, librarian. Instead of six days a week, the library will be open at night only on Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays.

The library will be open from 7:30 to 9:30 p.m. on Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays.

P’ Changes to ‘F’; Sophomores Retaliate

Last Saturday morning found Cal Poly students gathering in anticipation at their beloved “P” on the campus. Little did they know that during the night the freshman led by Bob Kennedy, trudged up the steep hillsides under cover of darkness and with the aid of discardable and skillfully changed the “P” to “F.”

The Sophomore, headed by the Super-Mouse and his atomic padlock, retaliated by rounding up all available freshmen on the campus and handing them up the hill to the “P” where they restored it to its original status. It is interesting...

Poly Sci. Class Meets With Council

Instructor Hubert Bemans gave his first public lecture this year as the Poly students and faculty met for the first time in the week. The lecture was conducted in the auditorium and was well attended. Bemans discussed the current political situation and the role of the Poly students in the national and international political arena.

Musical Notes

The Cal Poly Varsity Quartet will sing Saturday night before the Deans meeting and held here by the Poly faculty. The Quartet will perform a selection of popular songs.

Dorm Superintendents

The following appointments of dorm superintendents have been announced by William Troutner: Jefferson Hall, Russell Henderson, superintendent; Irving Grossman, assistant; Heron Hall, Harry Wilson, superintendent; Dick Chauncey, assistant; Chase Hall, Major J. C. Deuel; Cottages, D. M. King, assistant; F., Ralph Ditto, Cottage “B,” Dale McAdams.

Attention Chow Hounds

It seems that there is better chow in sight according to the report made today by Snooks Nogas. Due to the fact that there has been relief to a great extent on meat ration points the students can expect to experience a good meal and less worry in the future.

Program, Recreation Planned for FFA Here

On November 2 the southern section of the Future Farmers of America will be welcomed at California Polytechnic, the “Home of the F.F.A.” Here the members will be given a complete tour of our campus. Later in the day the Young Farmers and the Chil- dren will visit the Children’s Farm. This is the next step upon your ladder of success. The day will not be all work, however, as entertainment consisting of swimming in the afternoon and a football game in the evening.

USO Fetes Sailors at Navy Day Celebration

The only event which reminded the boys that last Saturday was Thanksgiving was the day at the U.S.O. The U.S.O. was decorated with signs that would have made any sailor homesick.

A veteran, lead the group in a community sing dur-
