Background Statement: The challenge facing our educational system is to provide an environment which encourages students of all backgrounds to fully develop their intellectual ability and prepare them to live productively in a multicultural society. Such an environment requires academic programs and services that give consideration to the multicultural heritage of the student population and of society as a whole.

The success of our multicultural society hinges on the productive interaction between people of different cultures, life styles, and views. Our educational system should be a catalyst for this interaction. Our state universities should create an environment in which every student--regardless of race or ethnic origins educated with respect to the cultural pluralism of our society. Cal Poly's academic programs should increasingly reflect this goal. The development of a U.S. Ethnic Pluralism program will promote this university objective.
