Mustangs Travel by Train To Tucson for Sat. Game

By GEORGE E. TUCKER

Yesterday afternoon at 1300 the Mustangs left San Luis Obispo en route to Tucson, Arizona, where they will play the Arizona University in their final football game of the season. The squad will be transported by train and will arrive in Tucson at 1140 Friday morning.

Coach Henderson has worked out the schedule that they will follow while on this trip. After their arrival the team will have a workout on the Arizona field in the afternoon. In the evening the Phoenix high school game will be taken in by the Mustangs. A tour of the university campus will be conducted on Saturday with Ronnie Henderson showing the squad around his alma mater. The game will be played at night which will round out Saturday’s schedule.

SAC Backs Editorial Seeks Quick Action

Endorsing the editorial appearing in the last issue of the Mustang, the regular SAC meeting last Tuesday began to take definite action on the issue of changing the name of California Polytechnic school to college. Acting with the wishes of the council, President Ad Mastel appointed a committee consisting of Dave Graham, Gene Whitney, Archie Ahrendts, Leon Garvin and Santeal to carry the request to President Julian A. McPhee.

SAC Advisor Harold Davidson asked council members and all students of Poly to attend a meeting next Tuesday, November 15, at 8 p.m. in the local junior high school auditorium to discuss the possibilities of added recreational facilities for the community. The coordinating committee, of which Hubert Semans is head, will attempt to acquire the USO building to be used as a recreational hall for young men and women.

What’s Doin’

Nov. 9 to 15

Fri. 9 — Gliss’ Club Dance, El Corral, 8 P.M.

Mov. — “Back to Bataan” with John Wayne, A. C. Ayd. Y.P.M.

Sat. 10 — Cal Poly vs. U. of Arizona at Tucson, 8 P.M.

Sun. 11 — SAC Meeting, 7 P.M.

Rm. 811.

Ladies Faculty Meeting. CR. 9:15 p.m.

Wed. 14 — Faculty Volleyball. 7 P.M., Gym.

Thurs. 15 — Student Body Assembly, 10 A.M., A.C. Ayd. (Turn to Page Two)

Frosh Class Organizes

The pre-game rally and the lighting of the "P" was the result of the work of the spirit committee of the froshmen class, under the leadership of president Boston Robbins. Class elections and rally arrangements were made at a class meeting on November 2. Other officers elected were: Bud Chambers, vice-president; and Don Gardner, secretary.

Poly Dairy Sire Gets Gold Medal

The Gold MedalPreferred Sire award, the highest honor given a sire by the Holstein-Friesian Association of America, was received October 29 by George Drumm, head of the dairy department, for Sir Bess Oettle of Taylaker II, senior Holstein sire.

The Silver Medal Preferred Sire award, only slightly less coveted, was awarded simultaneously. The silver medal is awarded on the basis of improved production of daughters over dams. The silver medal is reserved for those sires who not only greatly improve their daughters' production as compared to the dam, but who also improve the breed type of their progeny.

University of Arizona Favored to Win

College Gets Trailers For Married Students

A trailer community to accommodate the families of veterans attending the Polytechnic college will be established on the campus of the state technical college in less than a month, according to an announcement made by President Julian A. McPhee.

Negotiations are being made with the National Housing Agency for the immediate rental of 52 trailers to be hauled to the campus and made ready for occupancy within a few weeks. The trailers would be grouped around an already existing recreation hall and central utility unit, including laundry rooms, lavatories, and showers.

Each trailer is large enough to house a family of four and will rent to students at below. The college will provide electricity and hot water as well as necessary washroom equipment. Each trailer will have two beds, an ice box, cooking stove, oil heater, table, four chairs, cupboard, closets and sink. The trailer community will be provided with walks and the college horticulture department is planning to landscape the area.

Of the 100 veterans already enrolled at the Polytechnic 40 are married and a number of these have children. Provisions for the campus trailer community were made necessary because of the city’s acute housing shortage. Although the veterans’ welfare committee of the college has been successful in finding off-campus housing for the married veterans now enrolled, this is only a small percentage of the married veterans who have indicated they would enroll at the college if they could find suitable housing for their families.

The housing of single male students at non-coeducational Cal Poly is no problem as the college has campus dormitories capable of housing 1000 students.

REPORTERS

A Remedy for Our Aliment
In conformance with the California State law forbidding acts of hazing on school property, the administration of Cal Poly has established the policy of allowing no initiations of any sort for freshmen. The administration has firmly stated that no form of initiation or hazing will be tolerated and those participating will be expelled from college.

To many this may seem overly severe, and a few upperclassmen have resented this policy. However, the administration is justified in trying to minimize physical and mental effects on students. With the return of veterans to our college, many will not tolerate the oft used paddles, the long walks in the country, and the other initiational acts.

What this college needs is a good honorary service organization comparable to the “Key” in other colleges which could carry out indoctrination programs for the freshmen. Through an organization of this sort, many activities could be planned and successfully carried out. Members could be called upon by the student president for cooperation and help, and the administration could depend upon them if the need should ever arise.

New students would be met at the train and bus stations, and in this way they would create a friendly atmosphere in the beginning of a student’s life here. They could introduce new students to the old students, and thus unite them in an early friendship. With the active backing of the administration, a very successful organization can be formed on the campus for betterment of student and faculty relations.

The students and the administration should be complimented for minimizing disorderly and riotous initiations this year. Only through planned and well-organized initiations can fun be achieved by those who participate.

—L. Garolan.

Advocate Upper and Lower Unit Unity

Why?? — The Upper units still remain unorganized and therefore are unable to offer the other organized dorms any competition. It clearly seems that the fellows in the Upper units are willing to concede in all sports and other competitive activities to Jespersen, Heron, and Chase halls. The fellows living across the tracks wonder if these elites are shunning their company. Swanson and Prueett and the Upper units believe it would be a fine idea if the Upper and Lower units would merge into one organization and then develop teams worthy of the combined units.

Students Visit Voorhis Branch On Field Trip

The citrus fruit production class, under the direction of Wm. Teamer, journeyed to San Dimas this past weekend where they were shown several of the methods used in the heating of orchards and in the control of insect pests.

The group was met at the Voorhis Branch by Howard Hawkins who acted as their guide during their stay at the southern branch. He took the class to several orchards where they had an opportunity to get the opinions of several ranchers on the problems in the growing of citrus fruits.

Hawkins also took the class to an orange processing plant where they were shown the various steps in producing orange juice, and some of the uses of orange products.

The class returned to the local campus Sunday.

Navy Talent Needed For Publications

In the past, the student publications have been well represented by the Navy trainees. When the El Mustang began publication again this fall there were representatives from TR-B who have worked very hard to make it a success for the Navy as well as the school. There will only be two more issues put out while these men are here and if you fellows from TR-C and SR, do not get busy you will probably not have as much news of interest in this weekly paper or in the monthly magazine since the civilian boys are not made final arrangements for dances, has not made final arrangements for dances, has

Thanksgiving Dance Set for November 16

The annual Thanksgiving dance will be held Friday, Nov. 16, in the gym which will be decorated for the occasion. A gay, festive mood accentuates the spirit of Thanksgiving.

The dance will be in session from 8 until 11:30 p.m. Dave Ingraham, g. a. c. chief, division of architecture, state department of education; Dr. Charles Burch, chief, division of architecture, state department of education; William K. Bartges, senior architectural designer, state department of public works, division of architecture; P. T. Pogge, division of architecture; Julian A. MclFhe, president, B. O. McCormick, assistant to the president, and Donald Nelson, comptroller, all of Cal Poly.

Library First On Poly List

Officials of the state department of education and the division of architecture from Sacramento held a conference this week. The conference was attended by administrative officers of the California Polytechnic college regarding the long time building improvement program of the college.

Careful consideration of Cal Poly’s advancement during the past 25 years was the basis for the recommendations on future buildings and improvements which were studied during the meeting.

First building to be approved in the long list of proposed improvements is the $300,000 library building. Preliminary sketches and plans have been completed by the division of architecture and final drawings and specifications are on the drawing boards at the division of architecture.

Participating in the conference were: Dr. Joel A. Burkan, assistant director of education, state department of education; Dr. Charles Burch, chief, division of architecture; Dr. Julian A. MclFhe, president, B. O. McCormick, assistant to the president, and Donald Nelson, comptroller, all of Cal Poly.

What’s Doin’

A report from the fruit and crops department reveals they have a large supply of good apples, as well as supplies of oranges, almonds, grapefruit, squash, and pumpkins.

Orders may be placed with cashier, Miss Nolan. The salesroom in Ag. Ed. basement is open daily from 4:20 to 5 p.m.

Minter Flyers Take to Air To Ground Mustangs, 19-0

By GEORGE H. TUCKER

Cal Poly's Mustangs were unable to break their losing streak when they played their last home game Sunday afternoon.

Starting right out like a powerhouse, Minter Field took the ball on the opening kickoff and in 11 plays pushed the Mustangs to the one-foot line. Great defensive power of the Mustangs showed up in their goal line stand and the Minter Field Flyers were unable to make that last foot to pay dirt.

Baudouin kicked out of the hole to the Cal Poly 35 yard line which gave the Flyers another chance with the ball. After carrying the ball down to Poly's 10 the Flyers were again penalized for 15 yards on a clipping charge, which was called from the 23, thus putting Minter back on Cal Poly's 38 yard line. From there the Flyers were forced to kick which gave Poly the ball on their own 20. The Mustangs were unable to make any ground on offense so Baudouin kicked with a 47 yard boot to keep Minter out of scoring territory. The first quarter ended with no score.

In the second quarter Minter Field had plenty of trouble from Poly's charging defense. Their attack was hampered by the six-yard marker. Two players from scrimmage found the Flyers back to the 22. This did not bother them too much though as Capt. Guy Casey took to the air with Erickson on the receiving end for the first score of the game.

As the half was nearing a close, Casey tossed another pass which was intercepted by Smith. Mustangs now found themselves in the Poly end zone with a 10 yard line. Again the Flyers were forced to kick which gave Poly the ball on their own 20. The Mustangs were unable to make any ground on offense as Baudouin kicked with a 39 yard boot to keep Minter out of scoring territory. The half ended with the score 10-0.

Late in the final quarter Casey took to the air and a mishap that occurred and Huff dove over for the final touchdown. On the following play Montrose drove over for the final touchdown.

FOOD FOR THOUGHT

The dance committee with projects are beginning to wonder if there is a shortage of "regular" feed in bins. A number of items, some of them found in the storage bunks, are considered "extra" feed. Among other things found was a new rope halter and a pocket comb.

Three-day Deans Meeting Ends In Campus Tour

This week Cal Poly had the honor of being host to the deans of the state colleges. In a three-day session the deans discussed topics pertinent to the future of the various institutions represented.

A luncheon given for the deans and Cal Poly faculty members, J. A. McPhee gave a short history of our school. He informed the group as to the extent and general layout of the San Luis Obispo campus and the topioco. President McPhee told of the up-side-down program, the on-campus job opportunities for students, the student housing facilities, and the project fund.

The following deans were in attendance: Capt. O. De Voss, San Jose State; Dr. John H. Butler, San Francisco State; A. R. Lang, Mrs. C. N. Hoviarad, Miss Bernice Moos, Fresno State.—J. W. Ault, A. G. Paterson, San Diego State; Guy A. West, John Brash, Chico State; Capt. Butch Morse, the Methodist Church. The dinner was given by the young people of the Methodist Church for the purpose of forming a social club with students of Cal Poly, the high school, and the J.C.

After the dinner, which was prepared by Mrs. Kerwin and Mrs. Trumble, the students enjoyed a "get together" evening. The Glee Club under the able leadership of George Gibbons planned another of its gala, in support of the Methodist Church. The dinner was given by the young people of the Methodist Church for the purpose of forming a social club with students of Cal Poly, the high school, and the J.C.

Glee Club Members Dance Tonight, 8 p.m.

The Glee Club under the able supervision of Sam Cushman has made some fine gains. They plan to attend the dances and to increase their social activities. Some of these activities include: One will be a "get together" during at the Methodist Church. The dinner was given by the young people of the Methodist Church for the purpose of forming a social club with students of Cal Poly, the high school, and the J.C.

All members should acquire a date. The rules will be a few girls extra for those who do not have an escorted.
Bonfire, Police-Escorted
Parade Sponsored by Frosh

One of the biggest events of the Cal Poly calendar was the football rally last Saturday for which the boys were routed out of their cozy rooms, loaded on two trailers, and taken on a parade through San Luis. The trailers were decorated with various signs which read, "Murder Minter Field," "Cal Poly vs. Minter Field," and others which expressed our hopes of victory. The gentlemen responsible for the masterpieces are Bob Stimmel, Gene Kemper, Bill Mead, Ken Lucas, Leon MacAdams, and Erwin Gove.

The freshman were met by a motorcycle officer just across the railroad tracks and were led into San Luis where they were transported to a hotel in San Luis where they were awakened by the police officers who led them through town. During the ride through town the cheering was led by "Boston" Robbins, Jerry Davis, and Marcel Mayer.

After blasting the ear drums of the defenseless citizens the joke-makers returned to the campus to illuminate the "F" and ignite the bonfires. Chief Caven headed for the Separation Center at Bakersfield, "Boston" Robbins, Tom Young, Richard Livingston, Jack Murasko, Don Gardner, Chris Haugten, Stew Purdy, Jack Smith, Ken Lucas, and Leon MacAdams gathered the bonfire makers in the center of the baseball field. Then Caven, Ramlins, Gardner, and Kuechel trekked up the mountain side to put the red flares into the "F."

Students Attend
On Scholarships

Sears, Roebuck and Company have at last offered scholarships to students here at Poly under their scholarship program. These scholarships are open to all students at Poly and are sponsored by the student council. The student representing the company is a member of the Poly council.

New Navy-Civilian
Octette Entertains

The varsity octette of the men's glee club entertained the crowds of those who were attending the basketball game last night. The members of the octette are: Bill White, John Johnson, Joe Green, Bill Miller, Jack Smith, and Tom Brown.

Facts and Statistics

Kenneth Teal, Jr., a sophomore, was given a scholarship by the company. He is the son of Mr. and Mrs. Teal of Los Angeles. The company has offered scholarships to students who have shown promise in their studies and who have demonstrated a strong interest in sports.

Comin's & Goln's

BY W. G. P ticket, JR.

The athletic department is taking a good shaking up these days. Chief Caven has decided to transfer to the Separation Center at Bakersfield, "Boston" Robbins, Tom Young, Richard Livingston, Jack Murasko, Don Gardner, Chris Haugten, Stew Purdy, Jack Smith, Ken Lucas, and Leon MacAdams gathered the bonfire makers in the center of the baseball field. Then Caven, Ramlins, Gardner, and Kuechel trekked up the mountain side to put the red flares into the "F."

Crops Class Inspired
By Plains Field Trip

Paul Dougherty, the Cornell instructor, took his laboratory class on a field trip to inspect the wheat growing operations at Carissa Plains last month. The class traveled by bus and was met at the edge of the Plains by Mr. Wren, who is the owner of the farm. Mr. Wren gave the class a tour of the farm and showed them the different crops being grown.

Shutterbugs Invited
To Camera Club Meet

Interested in having some fun and learning more about their hobby are invited to the monthly meeting of the San Luis Obispo Camera club on Nov. 14. The local Camera Club, under the guidance of President Paul Davis, meets in Room 14, classroom units, and all interested Poly students, navy and civilians, are invited to attend.

Bring your cameras and plenty of film as the "shooting will be fast and furious with the club supplying the floodlights and the model.
