Largest Staff In History
Hears McPhee

The largest group of faculty members in the 45 year history of the California Polytechnic College heard President Julian A. McPhee last week talk of the daily struggle which the school has gone through in its fight for survival.

"We are entering the greatest part of the development in the history of this college, but not with out much difficulty," President McPhee declared. The county of San Luis Obispo was going through a state of emergency in its fight for survival.

.conditions would exist at the college and state agencies had delayed conditions which they want, but the State's advice was that 2000 students creates tremendous problems.

President McPhee has emergency housing, conference facilities, laboratory and athletic and recreational facilities, he stated.

We cannot go through the routines within the various federal state and state agencies had delayed conditions which they want, but the State's advice was that 2000 students creates tremendous problems.

Assembly Set For Poly Field
10 AM Sept. 19

After conferencing with C. O. McCorckle, assistant to the president and Bill Beesley, in charge of recruiting, President McPhee announced that present plans for social activity may be considered part of the unprecedented increase in student enrollment.

"We shall do our best to maintain our social calendar intact, if at all possible," Lavery announced.

"We are doing everything we can for a dance hall other than our gym, which is occupied temporarily by students, for the student body dance, tentatively scheduled for September 27th," he continued.

The first general assembly of the year, to be held at 10 a.m. on the Poly Field, will be attended by a welcoming address by President Julian A. McPhee and assembly events on the "first open assembly" at Poly since the death of President Dan Lusco.

President McPhee and group singing and yells will be led by Gill Brown, yell leader.

Explained New Deposit Set-Up

Since the last revision of the catalog, it has been necessary to change the deposit amount on handbooks. All students who are not attending this school under one of the federal loans will now be required to pay a $10 state breakage deposit.

All students, veterans or not, are now being required to pay a $10 state breakage deposit.

The purpose of this last deposit is to protect the student body as a whole from the unpaid bills of the few who have not paid the required amount.

This is a general deposit and would be used to pay for all almost debts, and is the same amount which the federal government will not pay.

Good or Bad It's Publicity

"California Poly is on the map at last. After years of effort made by the public relations office to get national publicity, TIME magazine has finally published in the current issue a four-page story under "Miscellaneous," featuring the campus happening of doubtful publicity value.

"It's nice," in words of losobispo, California. We should not get excited about the publication. It is just another example of the current interest in magazine publishing, it is a feature that is not expected to continue.

Registration Procedure Outlined for Students

The California State Polytechnic is doing everything possible to accommodate students who, after a long summer, are attempting to remain the high level of instruction that has been characteristic of the school in the past. Students will be inconvenienced for a short period of time as far as their schedules are concerned. The following information will assist students in becoming more familiar with registration procedures.

The first step in registering to secure a position in the registration room. This ts will form at the north door of the Administration Building on September 11th. New students will report at that door at the time in...
Dear John...

Letters expressing the opinion of students are welcome by the EL MUSTANG. Unsigned letters can not be used, but the name of the contributor may be withheld upon request as long as the true identity of the writer is known by the editor. Letters should not exceed 150 words in length. Letters may be placed in the EL MUSTANG box in El CorraL

With the great influx of students starting school this quarter things are bound to be a little crowded and everything will take that long time. The greatest enrollment in Cal Poly's history, when three times the normal number are expected to register. At the present time the college is not well enough equipped to take care of all the problems and troubles that are bound to arise with so many students attending school. You've never had it so good. You know that.

The building program has been somewhat hampered due to the lack of building materials, new classroom and housing units that were expected to be constructed by this fall will be delayed for a short time. The school cafe will also be under strain due to the lack of personnel. Suzy, her blue convertible, will not be seen during the fall. The long lines aren't new and troubles that are bound to arise with so many students attending school will all take time. It would be best that we all try to help this situation reach a state of normalcy.

The building program has been somewhat hampered due to the lack of building materials, new classroom and housing units that were expected to be constructed by this fall. It will all take time. It would be best that we all try to help this situation reach a state of normalcy.

Well, we're strictly "big time." We're not going to be used as an example for other schools to see what they can do without. We're going to make the most of the situation that we have and everything will take that time. It's going to be a big game; we will all have to work together to make this year the best of all.

John, what's the matter with you? You're not going to have a good time here if you don't study and work. We're here to learn and we're going to do our best to make sure that we do.

End-o the Line

By HARRY ENDO

A little crowded isn't it? Can't feel though.

'Don't feel though.

It's the same everywhere.

If you've a va.

The long lines aren't new No better get set.

You've never had it so good. You know that.

It's going to be a big game.

Are you ready to kill?

Thank you, Donald Moore. The "long lines aren't new, No better get set," is the same everywhere. If you have a va, you know that.

While most of us are lying on the sands at Santa Monica, taking in the scenery at Yosemite, and generally having a great time, the "big boys" will be sweating and straining through pre-game scrimmages. Special sympathies go to David Pitts, whose every thought will be of "Blanche.

Now that he has his mother on his side,猪 Lazar is hardly engaged in winning the attentions of a sweet little brunette (name unknown). That's applied psychology for you.

"Time will tell" of your genuine converts for the students here. Wednesday night meetings on your own time were particularly gratifying.

Tough Schedule Ahead
Poly Set for Gauchos

by DON MOORE

This year Cal Poly will present its first all civilian team in four years. The Mustangs are looking forward to a busy football schedule, facing a lineup of strong teams from San Francisco to San Diego.

Santa Barbara, the team to which the Mustangs are set to play, has always been tough competition and will not disappoint this year. The high expectations are due to the seniority of the team, having four starting players from the 1941 team. The team's only disappointment is that the tough schedule and resultant injuries will not prevent Coach Hawkins from presenting a competitive team.

The Mustangs have done well in past years. Going back to the final games of 1942 and continuing through the entire 1933 season, we find that they were undefeated, untied and unbeaten three years in a row starting in 1934. The team was ready to put in their bid for the gridiron, but the Mustangs should have a great season once again.

The 1946 season will be a tough one for Cal Poly. The team is young and inexperienced, and will need to work hard to improve their performance. The coaching staff has been working hard to develop the team's skills and prepare them for the upcoming season.

The season will begin on September 11, 1946, with a game against the Gauchos of Santa Barbara. The Mustangs will be looking to make a strong showing in their first game of the year, and they are ready to take on the challenge.

The Mustangs will face tough competition from the Gauchos, who have a strong lineup and are looking to make a statement this season. The Mustangs will need to work hard to prepare for the game and to keep their spirits up throughout the season.

The Mustangs will face a tough schedule, with games against some of the top teams in the country. They will need to work hard to prepare for each game and to keep their spirits up throughout the season. The Mustangs will need to show their passion and dedication to their team, and they are ready to make a strong showing in their first game of the year.

The Mustangs will face tough competition from the Gauchos, who have a strong lineup and are looking to make a statement this season. Sweet or Hot--Soft or Loud, Music Department Satisfies

By OIL BROWN

The music department provides the best of entertainment for Cal Poly. All of its different groups perform for all special events the college has. One of these events is the annual Poly Royal. The music department has a very important job at this time providing music for the rodeo, bar-b-ques, dances, and the assembly.

The music department's director, H. F. Davidson, is one of the best liked instructors on the campus. Djerry, as he is popularly called, has built up a great musical organization.

Our marching band is a well uniformed outfit and it performs for all athletic events and often makes trips with the team when athletic games are away from the college. The band plays for all assemblies and other student functions.

The glee club is organized for most interested in the vocal end of music. It performs for assemblies, and many other outstanding activities. One of the big affairs is the annual home concert put on during the spring. Every year the club takes a week-long tour to different high schools. Forty men are usually qualified to go on this trip.

Two quartettes and soloists are picked out from the glee club. The quartets are called the "Varsity" and the "Collegiate". They perform for many of the different city clubs in the surrounding communities, and these clubs are always asking for more performances by the quartettes.

Our dance band is one music organization everyone really goes for. The orchestra plays for all dances here at the college and many other dances at the different surrounding schools. In the past we have had terrific fine dance bands and this coming year we will have the best we have ever had. The orchestra will play for weekly dances as they have always done.

Everyone has a chance to tryout for any or all of the organizations in the music department. Tryouts will be held Sept. 16 on Monday. If you have your instruments bring them. We also have some fine school instruments that can be used. The marching band tryout will be held Sept. 16 at 4:00 p.m., the glee club at 5:00 p.m., and the dance band at 6:00 p.m. All tryouts will be held in the music room which is class room No. 1. Come out and help build an outstanding music department for the coming year.
