Dear John,

For far be it from me to be hearty (snide), but if those two wise men near the campus would only look at some of the California Polytechnic's dialogue, they would find a lot of verbiage that is worthy of notice. I agree with Fox II, but sure had to pull a few hairballs out of the legs, and add some of our own, which is a normal procedure. I'm afraid that we will not be able to stop the masses of students who will refuse to accept the word of two wise men, and will just go ahead with what we have been doing for the last few years.

P.S. I can think of 25 reasons for the above.

John J. Martin

'Editor'

Dear John,

In your last letter we stated that we had "inadequate housing for all of our students."

"Inadequate housing" is a word that is often used by the President of the California Polytechnic University. It does not mean that there is not enough housing, but that the housing is not acceptable to the students.

I hope that you will not feel too astonished, as I am not criticizing the work of our residence halls, but I am sure that there is a need for improvement.

El Mustang

The Coeds and Anti-coeds

COEDS: Coeds & Anti-coeds

Your editor has taken quite a few letters, opinions and statements from the students, but I am sure that you are aware that there is still a lot of room for improvement.

Dear John,

I am writing to you, not as a student, but as a former student of the University. I know that you are not interested in my opinion, but I feel that it is important to share it with you.

I want to thank you for the opportunity to express my thoughts on the subject of co-education.

Sincerely,

J. M. P.
Aeronaughts Students Visit Moffett Field

By J. J. Butler

Aero students took a field trip last Friday to the Ames Aeronautical Laboratory located at Moffett Field. Ames is an extension of the research facilities of the National Bureau of Standards with a staff of scientific investigators.

The laboratories of the Ames cover a wide range of aeronautical research and development. The Ames is divided into five principal research groups: structural, propulsion, control, flight mechanics, and environmental research.

Poultry Club Heats Up

Local Loan Expert

Louis M. Perrotta, asset, cashier at the Bank of America in San Luis, reports that interest in the Poultry Club meeting with a great deal of pertinent information as to the possibilities of securing a higher price for the birds.

Poly Post Office Holds Mail For Many People

Poly's post office personnel are looking forward to the return of parents beginning at 7:30 p.m., Wednesday, February 19, and continuing for eleven weeks. The classes consist of lectures and demonstrations. The first and fifth and the seventh series will be held in the library of the Junior High School on March 17 and 21 and March 31 and April 4.

Values of Parenthood Study Group

The third series of Parenthood Study Groups under the auspices of the County Health Department and the Adult Education Program is offered to parents and expected parents beginning at 7:30 p.m., Wednesday, February 19, and continuing for eleven weeks. The classes consist of lectures and demonstrations. The first and fifth and the seventh series of the study groups will be held in the library of the Junior High School on March 17 and 21 and March 31 and April 4.

The classes of the meeting, Dr. Anderson, vice-president of the American Association of Pediatrics, made a short talk on what the YMCA is doing to help the child. The following is a list of the present difficulties. Many of them are evident in the classroom, and others in the home. Many of them are evident in the classroom, and others in the home.

Mustang Hoopsters Lose Two, Win One on Road

**Aztecs Scalp Mustangs in Border City**

By John Moroaky

The Mustangs dropped their fourth straight UCLA league game Friday night, to the Aztecs of San Diego State, by a margin of 57-38. The Aztecs victory moved them into fourth place in the league standings, and dropped Poly deeper into the cellar. As usual the Mustangs lack of size and reserve strength, proved to be decided handicaps. The "never-say-die" Mustangs managed to play in the ball game, even though the Aztecs controlled both backboards repeatedly. A couple of field goals by John Strewe and Don Nuttal, gave San Diego, a 26-21 lead at the half. "Big" Bill Hutchinson and Henry Moroaky, both forwards, led the Mustangs with 12 points, and Rolland Tilstra, was second with 7. Poly dropped Saturday night's game, 66-34, to the Spahns of San Jose State. Don Nuttal, of Poly, stood the biggest threat to the Mustangs, as he gained 16 points, and Tilstra, was second with 10. Poly lost the game on the boards, losing 48 points to 26, and was tied in the first half.

**At Last! Poly Wins; Beats Mustangs in Border Unit**

By John Moroaky

Having lost six of their last seven games, Cal Poly's Mustangs stopped at San Dimas Thursday night, and trimmed the Mustangs of California Polytechnic by a score of 46-38. Although the "Mustangs" were badly favored, they had to come from behind to win the game. San Dimas pulled away to an early lead, while the Mustangs were trying to find the basket, and emerged from the first half leading by a score of 28-20. The Mustangs, needing a victory, came back in the second half full of fight, and with a display of brilliant ball handling, staged an interesting drive that found them leading San Dimas by 18 points early in the third quarter. Featuring the attack were, Lee Rosa, Hank Moroaki, Walter Timpson, and Ray Hall. High-point man for the Mustangs was little Lee Rosa who garnered 16 points. The "big gun" for San Dimas was Bob Dodson, with 26 points and four points, and gave the Mustangs trouble in the first half. BOX SCORE

**Mustangs Oppose Tough Foe in San Jose State**

This Friday night, Coach Bob Mott's Jackables-Mustangs meet a powerful opponent when they take on the San Jose State varsity. The Spartans are at present in second place as they dropped a 64-45 ball game to the College of Pacific. San Jose defeated San Diego State easily by a score of 42-18 in an early season tilt. The Spartans also have victories over San Jose, U.C. and S. F. and Nevada. Big Tony, a three year veteran, guard at an post, is the team's leading scorer, and has averaged better than 11 points per game. "One of the best guards in the state," says Coach Mott. "As a team they are strong and well balanced."

**Wins; Beats Mustangs**

Hagen and Robinson, two starting forwards, Robinson and Hagen are freshmen. Another powerful player, the team, is six foot six, and has averaged better than 10 points per game. "The tallest man on the team," says Coach Mott. "As a man he is superior, because he is a great defensive player."

Gauchos Ride the Mustangs

Cal Poly dropped its fifth consecutive game last night when the Santa Barbara Gauchos trimmed the Mustangs 85 to 45.

After the first ten minutes the Gauchos led 29 to 8, and had outscored Cal Poly 41 to 22, by the end of the half. Cal Poly's chances were reduced further by the timely shot making of Rolland Tietgen, guard, found out of the game early in the first half. The Gauchos continued to hit the bucket from beyond the arc.

Moroski led the Mustangs scoring with 15 points. Holder of the Gauchos cradled the conference mark of 10 points against Fresno, with 23 scores.

Mariner Hall 4 1 .800

Perfect Record

Bill Hume—star on the gridiron as well as on the hardwood court. His presence has given our athletic program a boost and has been a part of our intercollegiate program, and beginning with the next couple of years. It seems to me that if we can raise $3000 to pay the salary of a graduate manager, there are places in the athletic program where the money can be used to better advantage. For example, we are in need of a new and better scoreboard for the basketball games. I think there is a definite need for a graduate manager to formulate a long term policy. Dr. Votier pointed out that Cal Poly will have to build her reputation in the next couple of years. It seems to me that if we can raise $3000 to pay the salary of a graduate manager, there are places in the athletic program where the money can be used to better advantage. For example, we are in need of a new and better scoreboard for the basketball games.

President McPeck summed up his view by stating emphatically that Cal Poly will not become a "dorm-mat" for other conference members.

MINOR SPORTS

In the field of sports, it always seems that the only ones who make the big print are the football, basketball, or baseball players. This holds true whether the participants are in high school, college, or professional circuits.

At Cal Poly this situation is particularly noticeable, so I'm taking it upon myself to bring to your attention some of our minor sports and of the athletes who participate in them.

The question brought up were these:

1. The possibility and eventual need of a graduate manager.
2. The question of salary and qualifications for the job.
3. Now that Cal Poly is a member of this conference, how are we going to meet the added expenses and responsibilities that go with becoming a member?

As far as the need for a graduate manager goes, there are many, both in and out of the high school, who feel that there is a definite need for a graduate manager to formulate a long term policy. Dr. Votier pointed out that Cal Poly will have to build her reputation in the next couple of years. It seems to me that if we can raise $3000 to pay the salary of a graduate manager, there are places in the athletic program where the money can be used to better advantage. For example, we are in need of a new and better scoreboard for the basketball games. I think there is a definite need for a graduate manager to formulate a long term policy. Dr. Votier pointed out that Cal Poly will have to build her reputation in the next couple of years. It seems to me that if we can raise $3000 to pay the salary of a graduate manager, there are places in the athletic program where the money can be used to better advantage. For example, we are in need of a new and better scoreboard for the basketball games.
Prices Reduced for Club Space in 1947 Yearbook

"Cal Poly's yearbook, El Rodeo, is a publication of the associated students of the college, and as such, strives to represent student body," said John Shea, yearbook editor, in an interview here today.

"Many people have protested that the space charge for their club in this yearbook has been doubled, but in many cases we have found that our let-
ters are rather off and it is necessary to charge the clubs for space, which is designed to help the college in general.

"Additionally, we have found that publishing a better yearbook involves more cost. In the past, we have had to reduce the price of publications near the end of the year, due to the cost of printing and paper. This year, we have been able to maintain a lower price than in previous years."

"The reduced price is now $2.28 for two copies and $3.28 for one copy. All clubs which have already signed with us agree to pay the previous price for space in the yearbook.

"In some colleges, the practice of charging dubs is currently in effect. We are anxious now to remove the extra fee over the student body and charge for the club itself. This is done in all colleges, said Rob-
