McAdams is Soph President

The Sophomores class held its organizational meeting last Thursday night. At that meeting, class officers were elected and plans started for participation in extra-curricular activities. Louis McAdams was elected as proxy of the class. Jim English was elected vice-president and Ted Haskell was elected secretary. English was named to take over in the event of his other duties as vice-president. The Sophomores are planning to handle the class write-up in 88 Banes.

Norman Sharpe, class advisor, presented to the class several ideas concerning activities for the class including a chance for athletic competition between classes.

The next meeting for the class is tentatively scheduled for March 9. All sophomores are urged to attend this meeting.

Instructions For Vet Changing Curricula

On February 18, 1947, a notice was posted to the effect that any veteran enrolled under Public Law 340 must clear through the Veterans Administration Office in order to change his major curriculum or level of instruction.

The Veterans Administration has now ruled that the recommendation of the California Polytechnic School through the department involved will be accepted in cases where a Public Law 340 veteran wishes to change his major curriculum. He is to be given the number of courses he will need in order to complete his bachelor's degree.

Edward Kennedy Addresses Poly P.R.C. Club Meeting

By W. Sanderson

Edward Kennedy, famed journalist and foreign correspondent, was the honored guest at the Poly Press Club meeting held last Monday evening in the Gemda Tea Room. Kennedy gave an informal talk on foreign affairs and answered many questions from the members of the club.

Kennedy, who is now with the San Francisco News Press, was for ten years a correspondent for the Associated Press in Europe, and was widely publicized when he escaped the world by releasing the news of the outcome of the war in February, 1918.

When asked how he was able to bypass the censors in releasing the story, Kennedy stated, "I simply picked up the telephone." He then added that it was not until in 1956 that he had known of a direct line to London, and that the VE Day news was being held for strategic reasons relating to an agreement between the news service and the Allied governments. He considered it his duty to release the news. Kennedy was later cleared of all charges made against him, and was reinstated as a correspondent.

The press club was also honored at the dinner meeting with the presence of President J. A. McPherson.

Prior to Kennedy's talk, a short but interesting meeting was held in which the club adopted a new constitution and reorganized the temporary officers for the remainder of the school year. These officers are: John Patterson, president; Lawrence Eaton, vice-president; Paul Madge, secretary; Kent Varley, treasurer; and Robert Standish, publicity manager.

Other business discussed at the meeting was the national contract meeting was held by R. E. Kennedy, and "Sherry" Polloway, who are the club advisor, and twenty-nine members of the club.

Edward Kennedy, Poly's security officer, took over duties of police and fire protection supervision on the campus this week. He announced that plans are being put into immediate effect to eliminate some of the dangerous driving practices which students use on the college grounds.

Steiner handles police and fire control

Harry A. Steiner, Poly's security officer, took over duties of police and fire protection supervision on the campus this week. He announced that plans are being put into immediate effect to eliminate some of the dangerous driving practices which students use on the college grounds.

Steiner, recently released from the Navy with the rank of Lt. Commander USN, saw active duty in Africa, Italy, and the Mediterranean. He was awarded the Purple Heart, Good Conduct Medal, and Merit Honor Roll. Upon his return to Cal Poly, to begin work in the fire protection department. In the latter capacity he supervised the training of 150 new men and officers in fire protection.

Steiner is a veteran of both wars, having served in the Marine Corps during the first World War, and in a retired fire department instructor of the Berkeley Beach Fire Department.

Steiner stated that his plans were to do everything possible to promote the safety of students, and to prevent loss of life and property on the campus. In addition to his duties as security officer he will instruct classes in fire prevention, accident prevention and safety. He said that in this dual role he felt he could do a great deal to eliminate the causes for most fires and accidents in the campus, and would also be able to give worthwhile instruction in accident prevention.

His program for traffic control and allied problems includes the development of a complete operation of the entire student body. He emphasized the need for the fire protection unit, which is in charge of the safety office, harbor fire marshals, and as an instructor in fire fighting techniques, to teach safety in the use of firearms.

These regulations as they are here the principle for the protection and general safety of the student body. They are made by the students themselves. One of his main tasks was for voluntary to act as a fire crew. He asked that anyone who is interested interested in this project contact the fire chief at the fire station, or call 1-1616.

A.C. Club Plans For Field Trips

By Robert F. King

A weekend trip to the latest A. C. C. Lab was the last A. C. meeting that was held at the time which will take place in the near future.

The first field trip that will be taken after final will be the one to Phoenix where the A. C. club members of the club will tour the major air conditioning factories. This trip will require at least three to four days.

There will be an air conditioning lab in the new building following final exam. This will be of interest to the initiated and also to all incoming freshmen.

Jim McGrath has been running several air conditioning trips in different climates and also tests on the different pressures. He has also noted that the field is drying out and will need a new unit of this unit at different temperatures.

This sheet metal shop will be of interest to the students. It is a part of the A. C. Lab to the new air conditioning facilities.

Up and Down; Poly Skiers 'Ye With Tricky Slopes

A weekend in the snow was enjoyed recently by ten members of the Poly Royal. As Poly Royal Princesses, they attended the Badger Pass winter sports area.

The snow was in fair shape, although the weather had been unusually mild, and the skiers left many a beauti- ful track for future visitors to use. The members of the Poly Royal were able to travel by car to the Badger Pass, pass snow, Super Bowl, and Lassen sports areas and are anticipating more snow this year.

As yet the club has not been able to travel to any other arrangements, but by next year arrangements will be made for downhill skiing and snowboarding.
Red Cross Drive

March is the month of the national drive of the American Red Cross. This worthy organization has done a great deal of good with contributions made available to it from the campus safety. The girls deserve a heartfelt thanks for doing a great job.

Earnest Steiner, the security officer, plans a drive to eliminate accident causes which centers around the primary time to say something about safety for several reasons.

That is a compliment that the student body ought to do something about. Perhaps they will learn that safety pays. We think up to the security officer's expectations. In the process per­haps they can furnish definite constructive improvements on the campus. As he ex­pressed the opinion that existing Uni­versity facilities would be more desirable than attempting to branch into new fields.

Any comments or suggestions could be effective are pretty ob­vious to the Dean of Administration. At six or seven years. This committee can fulfill some constructive criticism for a better Aeronautical Maintenance Engineering course.

WHAT'S DOIN... •

Thursday, March 6:
• 6 p.m.—Study staff meeting, adn. build.
• 8 p.m.—Students’ Wives club meeting, Hillcrest.

Friday, March 7:
• 8 p.m.—School dance at gym.

Saturday, March 8:
• 6:30 p.m.—Poultry club banquet, Monday, March 10:

Tuesday, March 11:
• Finals—Dairy club meeting, classroom 14.

Wednesday, March 12:
• 8:30 a.m.—General Engineer­ing club meeting, classroom 6.

Thursday, March 13:
• 8 a.m.—El Rodeo staff meet­ting, Building 214.

The program was well received, and showed signs of being well prepared. And in one of his talks, Ralph Voorheis upheld my remarks about the importance of self­education and the importance of safety to students.

Without their “spirited” music our campus dance would have been a disaster. That is why we back them up. This is a tradition that we hope to keep up. And if you want to get more than just a handful at your next meetings, I’m ashamed to admit it, but I missed the fights last Saturday night, but I have a good excuse—I was job hunting. As much as I hate to work, I have to start sometime. Looks like we can’t get a square deal on our home staffing grounds. Have heard rumors to the effect that the first referee couldn’t see thru the haze. Tsk, tsk, such a loss. The boys really put out and came away with the bacon. The display of sports­manship by the students was great. It was a great credit to a real coach and a great guy, Bob Mott.

This Week’s Kettle of ‘Fish goes to whoever conserved my column of last week.

On the home front, once again the campus was invaded by the same old problems. One of the biggest improvements we’ve had around here in a long time, at least to my estimation, is the trimmed palms along California. It not only makes for better appearance but also easier to see any on­coming trains. The wheel turns slowly but keeps turning at any rate.

Last Saturday afternoon three of us were standing on the lawn in front of the dairy barn when a broke came zooming up the hill passed three cars at once and nearly clipped a white post just below the units. It seems that some guys never learn or never think that they aren’t the only people on this earth. Just last week there was a serious accident on the campus, and if such driving keeps up there will be more, I have a car, but never have yet found any need to drive fifty miles an hour from the Aero shop in Hillcrest. So you in the dark blue roo rdered from Hillcrest, watch your driving.

THANK LA VISTA

This is our last issue of the winter quarter. Our next issue will be March 20.

We wish you all the best of luck in the finals and hope that you all have a happy and successful vacation.

Hort Club Announces Plans For Poly Royal Exhibition

By Paul Trittenbach

The Ornamental Horticulture department has completed plans for the Poly Royal committee, announced a three-point program. This will include raising stock, weaving paths, trimming hedges and shrubs, and adding the buildings. A flower arrangement contest will complete another part of the program, which will be open to all this year, and an expert judge will be selected. This third feature will be the usual plant identification contest, to be held at the Propagation House. Some of the more beautiful plants will be given as prizes for both of these contests.

Chuck Burroughs, chairman of the department’s Poly Royal committee, stated that the Landscape House would, as usual, be open to all visitors during the two day show. Students will be on hand to answer questions and explain phases of the nursery business.

At the Horticulture club’s last meeting, a poll was taken to determine the type of social activities desired by the club. It was found that club members wanted educational, social, party, nature trail, art, and social, and another barbecue. The poll also included suggestions and opinions concerning club business. President Jim Coleman stated that he was forming plans to carry out the activities voted for by the club.

The practice of having student speakers was continued by Al Champion, who presented the following

“Three reasons she had, but the other two reasons were very good average. Primo Fred I Canclini and Clanahan are former members of the Poly Royal, and the club has previously planned to go to Sheets Studios gathering material for one of their length cartoons on South America. The second film, “South America” was a technicolor film distributed by the Disney Studios gathering material for one of their length cartoons on South America. The second film, “South America.”

Drumm to Class

Dr. George M. Drumm, head of the Dairy Department, has been asked to speak at the Poly Royal meeting. He is not the sort of man who spends his evenings at the movies, but the Scudder people, well known as the makers of potato ships, many obscure, peanut butter and various other food products, have built up the plant in Costa Rica, where the plant is being tried out.

Drumm, who is known as a good talker, was asked to address the students on the subject of his trip to Costa Rica. After the last film, refreshments were served. The club is planning to make these social meetings a weekly affair if the members show enough interest in this type of activity.

Field Trip to Turban Dairies

The advanced judging and dairy herd management classes enjoyed a very interesting field trip to Turban Dairies, in the Fresno area. The students were taken on a tour of the plant, where they were shown various parts of the factory operations. The students were impressed with the cleanliness of the plant and the efficiency of the workers.

A beauty by the name of Henley, who was at the Poly Royal meeting, gave a talk on the care of poultry. She spoke on the importance of feeding and watering the birds, and on the different breeds of poultry. She also gave a talk on the care of the chickens, which she had raised from eggs. She spoke on the importance of feeding and watering the birds, and on the different breeds of poultry. She also gave a talk on the care of the chickens, which she had raised from eggs.

Welders Plan Field Trip

To Include Metals Congress

By R. C. Wiley

Fifty-five students from the welding classes with the instructors, R. C. Wiley and C. R. Richards will make an extensive industrial field trip to the San Francisco Bay Area from March 23 to March 26.

The group will attend technical sessions of the Western Metals Congress and Exposition being held at the San Francisco Auditorium. Here the latest developments in machinery and methods are being shown under the sponsorship of various manufacturing societies including the American Society for Testing Materials, American Petroleum Institute, and the American Welding Society.

Also on schedule are inspection tours through the industrial plants of Victor Equipment Company, manufacturers of welding supplies; Enterprises Engine and Foundry Company; manufacturers of heavy machinery and diesel engines; Aerolite Manufacturing Company, builders of heavy earth moving equipment; and Jordan Iron Works, manufacturers of diversified machinery products.

At the Metals Congress and in the nearly one month of the trip, the group will have welding technique and engineering methods used in industry.

SUFFERING?

FROM CHAFITIS?
SKIVVY-GRABBITIS?

Why bother with old-fashioned shovels with a wooden or metal handle? Let someone else take the sun off you and cool off your clothes. The Poly Royal, in a pair of supersweet-tasting Arrow arrows.

The sensation cures a variety of evil, particularly those—can't go, can't-don't-catch.

We carry Arrow underwear.
By Roy Bethel

In the concluding game of the season, Poly captured the title with a victory when they upset the heavily favored San Luis Obispo Indians, 21-18, in the final period. The Mustangs had been defeated by the Indians twice this season, but a strong Poly team went into the game with a 1-0 start and no loss. The Mustangs have been a group oftable tennis players, but they have never been defeated. In the last game, the Poly team defeated the Indians, 21-18, in the final period.

Poly won a total of 21 points, while San Luis Obispo scored 18. The game was played on the Poly gym floor. The Mustangs' win was the result of a great team effort. The Poly team played with great speed and accuracy, and they were able to outscore the Indians in every game. Poly's win was especially significant because the team had been defeated by the Indians twice before. The game was played on the Poly gym floor, and the Mustangs won with a 21-18 score.

The Poly team included Ken Andrus, playing a good all-round game, and Bill Hume, who made 7 points. Andrus was the key player on the Mustangs' team, and he was able to outscore the Indians in every game. Poly's win was especially significant because the team had been defeated by the Indians twice before. The game was played on the Poly gym floor, and the Mustangs won with a 21-18 score.

Poly Boxing Team Loses To Santa Barbara 5-4

The Mustang leather pushers lost a close 5-4 team score to the Gauchos from Santa Barbara college last Thursday night in the Poly Gym. More than 300 enthusiastic fight fans witnessed a program packed with thrill, cheer, and blood.

The cheers were for the contestants and the fine spectacular performances that the men presented. The loss was for the first time in four years.

Lee Longly began with the sixth fight, Joe Repass of Arroyo Grande took over the duties of referee, and did a very good job of officiating. Raising the curtain for the evening's festivities were Leroy Horey of Santa Barbara and Art Guglielmelli of the Mustangs. George punched his way in an easy three round decision.

Russ Barr then stepped into the ring to oppose Cormier of the Gauchos. The two boxers put on a round of class and class fighting, and the skill and the ability to do a job by a split decision. The Judges referee Longly awarded the fight to Cormier.

Ex-Marine Bob Mathews of Santa Barbara proved that he had too much experience. Pounded out Jerry Peer of Arroyo Grande, 7:5:0 after 1:30 seconds had elapsed in the second round.

Next Lou Mastri of Poly opposed Bob Quirolo of the Gauchos. Golden Glove champions of the state, Barry F. Smith and John Bizna, hopped into the ring by using his left jab to a great advantage. Gaucho, in the third round, forced Mastri with a hard right hand. Mastri came once but Gaucho followed up with a barrage of blows, elbows and knees, K. O., with only five seconds remaining in the fight.

Russ Barr of Poly, then stepped into the ring and showed the face real boxing talent by winning a close cut victory over Sam Coloma. Referee Longly first awarded the fight to Coloma, but both Judges jumped to their feet as they had awarded the fight to Barr. Russ was then declared the winner. At this juncture, a change in offi­cials was made, and Joe Repass took over.

Dave Raising, opposed by Jimmy Wall, put on a fine performance. After three hard fought rounds, Raising was adjudged the winner in a close decision. Raising's ring experience and defensive ability alone, gave him the fight, but Barr fought hard for it.

Howard Rosen, of Cleveland, fighting his first intercollegiate match, had an easy time with Charlie Erreyo, of Santa Barbara. Rosen caught the fast peddling To­mato in the second round with a sequence of lefts and rights. Ref­eree Repass ruled the battle in 1:56 seconds of the second round.

In the light heavyweight division, Billy Risling of the Gauchos was awarded the verdict over San Diego's Elroy Jordan. Forwards will weigh in at about 174 pounds.

George Clark will be a leading contender in the heavyweight divi­sion, will be a contender in the recent Santa A. U. tournament. Referee Longly awarded him the decision.

The main event brought together Los Angeles' Bob Bath and the famous Golden Glove champions of the state, Barry F. Smith, and John Bizna, 7:5:0 pounds. The fight was a hard one all the way. Bath held the bill, the judges ruled it a dead heat.

The entire program was well re­ceived by the participants and those present want to know when another intercollegiate match will be held.

Bartholomew teams that Poly may meet in the very near future are the Cal Aggies and Fresno States.

The Athletic Department has an­nounced the list of men who will represent Poly in the 2C2A Winter Carnival to be held in the Santa Barbara Armory this weekend. March 7-8. Santa Barbara college will make the trip to defend their state championship. This will be the first time in the history of the boxing team, has announced ten­ants to the ring to fight for the title of Green and Gold. They are as fol­lows:

- E. S. Hesle, J. D. Farley, W. R. Southall, W. O. Longley, February 18, Santa Barbara.
- Jim Lawson, from Santa Rosa, will represent the Mustangs in the 166 pound class. Lawson will be fighting his first inter-collegiate match, but has shown plenty of spirit and will be all to fight for him his workouts.
- Russ Barr will weigh in at 145 pounds. He will be out to gain经验 and show his way to the decision circle.
- Roy Adams, from Santa Maria, standing 165 pounds, in the Mus­tang's boxing team. Adams has a lot of experience, and in his last bout, won a close cut decision over Roy Hoyt, Santa Barbara.
- Jim Lawson, from Santa Rosa, will represent the Mustangs in the 166 pound class. Lawson will be fighting his first inter-collegiate match, but has shown plenty of spirit and will be all to fight for him his workouts.
- Russ Barr will weigh in at 145 pounds. He will be out to gain experience and show his way to the decision circle.
- Roy Adams, from Santa Maria, standing 165 pounds, in the Mus­tang's boxing team. Adams has a lot of experience, and in his last bout, won a close cut decision over Roy Hoyt, Santa Barbara.
- Jim Lawson, from Santa Rosa, will represent the Mustangs in the 166 pound class. Lawson will be fighting his first inter-collegiate match, but has shown plenty of spirit and will be all to fight for him his workouts.
- Russ Barr will weigh in at 145 pounds. He will be out to gain experience and show his way to the decision circle.

Spring Quarter Registration Information for All Students

Registration instructions and procedures for Spring quarter for students now enrolled at California Polytechnic College.

MARCH 13, 1947

The time you will report to the west door of the west wing of the administration building to register will depend upon the beginning letter of your last name as indicated in the following list:

- C-V-W-Y-Z report between 8:00 A.M. and 9:00 A.M.
- N-P report between 9:00 A.M. and 10:00 A.M.
- F-G report between 10:00 A.M. and 11:00 A.M.
- A-H report between 11:00 A.M. and 12:00 P.M.

Students will be admitted in the order of arrival. Students to be registered in the correct order should assemble in the Lathrop Gymnasium, above:

- Begin to complete in the registration and preparing individual schedules will include:
  1. Secure permit to register at the west door of the west wing of the administration building.
  2. Pay necessary fees at the accounting office.
  3. Secure complete forms of work on second floor of administration building at level of the south wing of the building.

- Report to department head and complete your schedule.
- Turn completed schedules in to instructors in Room No. 6.
- All students who plan to use any motor type of personal transportation must register their vehicles. In the registration line you will be provided with necessary registration forms which must be completed and turned in before registration is complete. These forms will be collected, after you have turned in your class and registration cards.

- Students not owning a car or motorcycle are still required to complete the form and provide the information before they will be driving on the campus during the spring quarter. Students who acquire a car or motorcycle during the quarter must register it in the office of F. A. Balistrer, security officer.

- Report to classes beginning at 8:00 A.M. on Tuesday, March 18, 1947.

Spring Quarter Registration Instructions for New Students, California Polytechnic College.

All new students will have made arrangements for their rooms and meal tickets previous to entering the registration line.

Report to the north door of the administration building beginning at 9:00 A.M. Steps involved in completing registration and schedule include the following:

1. Secure permit to register at the north door of the Administration Building;
2. If you are a veteran, complete and sign your letter of entitlement and submit it to the Office of the Registrar;
3. Report to the accounting office to make deposits and pay fees;
4. Report to the Engineering Building for registration and have completed and turned in your registration forms.

This day will be devoted to the completion of entering examinations.

MARCH 15, 1947

This day will be devoted to the completion of entering examinations.

MARCH 17, 1947

1. Report to the second floor by south stairs of the administration building beginning at 8:00 A.M. on Tuesday, March 17, to complete your schedule.
2. Turn complete schedules in to instructors in Room No. 6.

All students who plan to use any motor type of personal transportation must register their vehicles. In the registration line you will be provided with necessary registration forms which must be completed and turned in before registration is complete. These forms will be collected, after you have turned in your class and registration cards.

FRUIT-CLASS YEARS CARVER

Dee Dr. Carter, soda instructor, spoke to the fruit production class recently on soils and fertilizers. Dr. Carter discussed the importance of soils and fertilizers to the success of the growers. He also discussed clean culture. This is a method of weed eradication by means of oil sprays and is used extensively in Southern California for control of weeds and pests.

Dr. Carter has spent many years testing soils and growing various crops on soils and fertilizers under different conditions. At all times he was employed by the United States government.
