Mustangs To Invade Whittier Gridiron

Pumpkin Head For The Kiddies

C. E. Rothwell Speaks Here

Headlines can be misleading, asserted Dr. Charles Easton Rothwell as he spoke on the United Nations before students and townpeople gathered in the United Nat­ ions' last Tuesday evening meeting in San Luis Obispo. The United Nations is actually moving ahead.

Outlining the advances made by the Dr. Rothwell emphasized the organisation's specific program toward peace. "War" was defined towards the war. Another important function has been the privilege of a common meeting place for the exchange of problems, arguments and viewpoints.

Dr. Rothwell is executive secretary of the United Nations by North Western, Illinois. He is a member of the General Assembly, served on the U.N. delegation to the U.N. in 1945. He is a member of the Hoover In­ ternational Relations

Auto Repair Pits Prepared For Use

On-campus auto repair pit has been completely and is now ready for student use. The repair pit has been drafted through ^-^ent working on the pit-pit. See the preparation of the pit, which will be held in the pit.

The sheep are shown and sold on the same date. Beef entries will be in the pit.

Rules to be observed in the pit function most efficiently will be displayed about the student and will be passed out to the students.

The college will assume no liability. The pit will be put up with the help of students. The pit will be used as a practical garden shelter and will be used by the students for planting problems and will be used for educational purposes.

The southern campus will exhibit at the Fair at 11 am.

The college will assume no liability. The pit will be up with the help of students. The pit will be used as a practical garden shelter and will be used by the students for planting problems and will be used for educational purposes.

More than 800 alumni are expected to return to Cal Poly on Homecoming Day. The 12th annual Homecoming parade is scheduled for the afternoon of November 11.

Film Society, Nov. 1, 2

Alfred Hitchcock's "Psycho," William Wyler's "Mrs. Miniver," and "The Best Years of Our Lives" will be shown in the auditorium.

Tickets for the shows will be sold at the door. The shows will be shown at 5 p.m. and 8 p.m. Students will be admitted free after the second show.

Area Nurserymen Meet On Campus, Plan Refresher

About 120 nurserymen and their wives from Ventura, Santa Barbara and San Luis Obispo counties attended a meeting at Cal Poly last Wednesday at the Tri-County Chapter of the California Association of Nurserymen, horticulturists and florists. The meeting is expected to return to Cal Poly on Homecoming Day. The 12th annual Homecoming parade is scheduled for the afternoon of November 11.

Poultry Plant Continues Growth; 
ME Major Stresses Practicability

Beginning this term, ME majors at Cal Poly will have the opportunity to operate a poultry plant. The plant now raises 400 to 500 birds and is used to train ME students in poultry production. The plant was started in 1885 by the College of Agriculture, and it has been a valuable addition to the curriculum since then. The plant is located in the Agriculture Building and is open to students and the public.

The plant's primary function is to provide practical experience in poultry production for ME students. The plant operates on a commercial scale, with students involved in all aspects of poultry farming, including breeding, feeding, and housing. The plant is also used for research purposes, with students conducting experiments on various aspects of poultry biology and management.

In addition to the practical experiences, the plant is used for teaching purposes. Students are involved in the planning and management of the plant, and they are responsible for day-to-day operations. This hands-on experience is valuable for students who plan to pursue careers in poultry production.

The plant is open to the public, and visitors are encouraged to come and see the birds and learn about poultry farming. The plant is a valuable resource for both students and the public, and it continues to grow and expand its capabilities.

BEGINNING THIS TERM, ME MAJORS AT CAL POLY WILL HAVE THE OPPORTUNITY TO OPERATE A POULTRY PLANT.
Sheep Unit Ration Trial

Lamb Feeding Experiment Serves As Thesis Theme

A detailed log of the fattening and marketing of 300 Cal Poly feeder lambs will serve as a basis for the graduate Thesis of All man Carl Jacobiun. Thirty-six sheep for the graduate thesis of All man Carl Jacobiun. Thirty-six sheep will be divided into eight pens of 45 and four students will be assigned to each pen. The lambs will be fed to the separate lots of animals—the purpose of the feeding trials, according to Collins, is to attempt to find relative gains in different lamb lots from various feed mixes.

Foreign Students Desire Letters

American students who wish to hear firsthand from students in foreign countries may write to World Affairs council of Philadelphia, stated Miss G. Alison Raymond. "The new Advisor director of the organisation, in a recent letter to EL Mustang. Miss Raymond states that corresponding with citizens of other countries is an excellent means of making international acquaintance and practicing languages. American students must do to have his name sent to a correspondent outside this country is to send his name and address to World Affairs council of Philadelphia, 1431 William Philadelphia 2 Pa. for the service."

Closer Checks

A dose watch will be kept on the lambs, head of the sheep department head, George’s Station and Equipment, will supervise the finishing of the lambs, Collins, stated. The feeding experiments started Oct. 18 and will run through Feb. 18, a period of approximately 60 to 100 days.

No cost for the sort of the organisation, In a recent letter to Mustang. The council will provide translations if necessary. Correspondents will be from Japan, Europe or North America.

Enthusiasm Pays Off

Poly roosters welcomed the Mustang's first win since the Mustangs came of age in the fall of 1957. We congratulate the victory over the Gators more or less expected, but were pleasantly surprised by the manner in which the much-improved Mustangs exhibited by the rooting section and the students in general. The players were encouraged to outdo their previous efforts, and even the band seemed to have an infusion of new life.

Perhaps the most noticeable and commendable feature of the game last Saturday was the good sportsmanship and enthusiasm with which the rival cheer leaders were accepted when they visited the Poly stands. Such things do much to create a feeling of good will toward the school and the team and are one of the best forms of advertising possible. Even the card tricks seemed to show the improvement which characterized the rest of the performance. The stunts had a ring of approval, and the tribute to Betty Jo seemed to personalize the vote of thanks which she so justly deserves.

The Mustangs must face the Whittiers the remaining in what promises to be one of the toughest battles of the season. The Mustangs need our continued support.

--P.E.N.

Winged Invasion

Every summer and fall our campus is invaded by a pest that defies almost all attempts at its eradication, puts a toxic effect on this insecticide, but coffee drinkers in El Mustang's barnyards, dormitories, libraries, Ad building and other campus quarters have been sprayed with DDT. Still, swarms of fleas somehow escape the fly by disposing their sandwich wrappings in trash cans and saries to erect screen doors. Students can wage war against the insect and the insect's host by disposing of their sandwich trash.

--E.L.

UN Week Celebrated

The week of Oct. 17-24 was designated by the General Assembly of the United Nations as UN Week and was observed by the 59 members of the UN.

San Luis Obispo participated in the observation in several ways. Several meetings were held at the University Center where it exists a major influence in the life of the community. Had its UN program last Tuesday when Dr. C.E. Rothwell spoke to an evening audience.

This event was made possible by the cooperation of several organizations. Through their working together, it was possible to present a speaker of first importance.

Which leads us to the main point of this editorial: Namely, much constructive work can be done by cooperation. It seems to us that the future effectiveness of the UN will be limited only by the amount of cooperation demonstrated by the 59 members.

Since the UN happens to be the only available instrument through which world order may be maintained in these precarious times, in this uncertain world where we are involved in great need of an instrument invented primarily to maintain the peace and to halt the devastating effects of war, the UN's weaknesses and tensions have accomplished much, we feel that this new organization is certain to demonstrate its weakness on its 20th birthday.

We might add, too, that perhaps of all mankind are centered in UN. To those who are its critics, we might reply, peace; since the UN, with its weaknesses and tensions has answered the prayer of nations.

--Robert H. Foster

President Lists Vehicle Rules

President Julian A. McPhie has released the following regulations to set the stage for college-owned and operated vehicles.

1. Only drivers authorized by Cal Poly will be permitted to operate college-owned vehicles.

2. The driver of a vehicle is responsible for seeing that all regulations pertaining to its operation, and it is not operated in a negligent manner, nor is it parked where it cannot be driven safely.

3. When vehicles are used for transporting students, the instructor or supervisor under whose direction an activity is held, is responsible, in addition to the driver, for seeing that all regulations regarding transporting persons are followed, and that every reasonable precaution is taken.

4. When vehicles are used for transporting employees, the act by employees is responsible, in addition to the driver, for seeing that all regulations regarding transporting persons are followed, and that every reasonable precaution is taken.

5. Except in regular school hours, no more than seven individual students or other persons, exclusive of the operating shall be transported.

School requires Executive Officer

According to the Golden Gator, President Julian A. McPhie has recently announced the need for an executive officer. He has also recently added that the school's branch of Alpha Phi Alpha fraternity. All proceeds will be donated to a fund benefical to needy, national honorary journalism fraternity.

President Lists Vehicle Rules

President Julian A. McPhie has recently announced the need for executive officer. The plan to continue the operation of vehicles will be effective immediately, pertaining to transportation of persons in college-owned and operated vehicles.

1. Only drivers authorized by Cal Poly will be permitted to operate college-owned vehicles.

2. The driver of a vehicle is responsible for seeing that all regulations pertaining to its operation, and it is not operated in a negligent manner, nor is it parked where it cannot be driven safely.

3. When vehicles are used for transporting students, the instructor or supervisor under whose direction an activity is held, is responsible, in addition to the driver, for seeing that all regulations regarding transporting persons are followed, and that every reasonable precaution is taken.

4. When vehicles are used for transporting employees, the act by employees is responsible, in addition to the driver, for seeing that all regulations regarding transporting persons are followed, and that every reasonable precaution is taken.

5. Except in regular school hours, no more than seven individual students or other persons, exclusive of the operating shall be transported.

Flight Students Wanted by Navy

The Bureau of Naval Personnel has announced the need for 1000 naval aviation cadets. The Bureau is open to qualified men between the ages of 18 and 27, who are unmarried, and who have completed at least half of a four-year college curriculum.

Selected applicants will be named as naval aviation cadets and assigned to naval air flight training. They must agree to serve in active duty for four years unless released earlier, and must remain unmarried until they win their wings.

Poultry Department Gets Equipment

With the probable addition of two new-laying units and a growing-rack project, the poultry department will be created for students. Leslie D. Emery, poultry agent, today.

Teachers explained that the laying cages will be equipped with Australian cages and will provide 112 individual cages in a building. A second building, which will provide a maximum of 100 birds, is planned, which will be housed in workhouse trailers when six weeks old will be placed in growing cages until they moved to individual laying cages.

Navy Reserve Plans Mass Promotions

Thirty-three thousand lieutenants junior grade, 60,000 lieutenants and 7000 lieutenant commanders are now being considered for promotion in the Reserve Officers' Reserve Corps. The Reserve Officers' Reserve Corps (U.S. Naval Reserve) has recently announced that over 250 officers are listed for promotion.

Due to the large numbers involved, the bureau released stated, an attempt will be made to reduce these numbers to reserve officers who have actually evidenced interest in naval affairs since being assigned to inactive duty. An inactive status list is being set up for these officers, and any officer not considered for promotion is considered for promotion.

Job Seeker . . . Johnny Jones has the problem of perpetually hunting for a job. It's not as discouraging as it sounds, though, because that's his full-time occupation. He daily faces the task of hunting down potential employers for the increasing number of students who are seeking part-time work on or off campus.

Placement Service Functions For Job Seekers

By Eldridge Cornell

With the beginning of the fall quarter, the student placement service, a former "independent department," was incorporated with the welfare office. This was done to coordinate all campus and off-campus employment, and to provide better placement facilities for graduates.

According to Major Joseph Dewal, the placement service, a part of Cal Poly department, its functions are to help students find suitable employment as well as to get field experience in their respective majors. It is a clearing house for prospective employers, downtown, on campus and even outside San Luis Obispo.

Placement Forms

To avail himself of the service, a student fills out and mails in a placement form. The completed form lists the student's choices and free hours. When a job is referred to him the placement office, it is usually accompanied with a time stipulation. Jones then checks his file and contacts the student or students who are available at the hours which the job requires.

Yielded Requests

"Persons call in for jobs to be done that vary from general labor to specific tasks such as electrical work, landscaping and sales work. One woman phoned in for a student who was on the thin side and willing to do work. The job was that of putting a dead cat out from under her house," Jones commented. "We filled the request, incidentally."

Because most new students are unfamiliar with no resources to the UI bill, job requests are more numerous now.

Camels for Mildness!

Yes, Camels are SO MILD that in a coast-to-coast test of hundreds of men and women who smoked Camels—and only Camels—for 30 consecutive days, noted throat specialists, making weekly examinations, reported

NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking CAMELS!
Equipment Designs Prepared By Class

Practical application of school work is taking place in the industrial engineering course E.E. 441 where 55 students are designing equipment to be used by the chemical engineering department.

Design projects underway include a metal desk, a pump brake and a torque dynamometer. The cell will be used to replace a 60 ampere motor in use in a carbon fiber-reinforced circuit breaker in the d.c. power supply used in the laboratory.

The pump brake will be used to test four power and efficiency of the dynamometer. The dynamometer will be used in testing fractional horsepower motor power.

Construction classes will build the equipment after the designs are complete. The dynamometer will be built around a one horse motor that the department has on hand.

Payroll Check Delays Caused By Nicknames

Many men are signing the payroll register of the physical education department. This is due to the fact that the payroll is being delayed by the fact that the workers have nicknames.

It is interesting to note that a lot of White Collar girls attend classes in the department.

The payroll register is being checked by the placement secretary. The payroll checks are being held until they have been received by the proper people.

Deadline Announced

Now, no shortages will be honored unless the requisition is signed. It was announced today by the U.S. Civil Service Department. Any items which have not been received must be picked up before November 15.

Ag Men To Visit Cotton Field Day

Members of the crops department's oil and fiber class and farm machinery class are looking forward to seeing the excellent arrangement of the crops department's cotton field station.

The field station is holding the field day.

Sixty men from the department visited the cotton field in the interest of the crop field trip last Saturday. Ralph Hadlock, Wason residence, showed the group the cotton crops on the farm where he is the resident manager.

Hadlock explained the functions of a cotton gin and described the method of sampling cotton.

Examinations Predicted For Limiting College Students

An examination will have to be devised soon to limit the number of students going into upper division work in California colleges. Dr. Herman A. Spindt, director of administration at the University of California, said 1000 representatives of western colleges at a recent meeting.

University of California officials believe that upper division enrollment may have to be limited beginning sometime between 1945 and 1946. Dr. Spindt reported.

Council For PE Majors

Physical Education majors are requested to attend a meeting of Council for PE Majors Nov. 1, noon 10 in the front hall. There will be an election of freshmen representatives, and activities for the winter quarter will be scheduled.

They're New! They're California-Made With Broad Shoulders, 3-Button Front

2250

You'll like the new fabric, new patterns, new colors and above all, you'll like the soft and easy California styling of new sport coasts. The very broad shoulders, the full chest, the modified waist suppression are particularly characteristic of the comfortable, unbuttoned, mannish "V" effect achieved again this year by California designers. High style. Indeed, you know they're available at Penney low prices! Harrington, Denizen tweeds, checks—only 99.95.
Intra-Mural Corner

By Ken Kiebrock

The intra-mural football squads are meeting at the end of the season and still are battling for the championship.

The Norcal League is topped by the hard-hitting Illinois. Barracks Hill and the YMCA squads are tied for first place and this should make for a very exciting final game for the first and second places.

The afternoon league is dominated by the mighty El Toro. The El Toro have a strong hold on first place and a stronger team to hold off the Texans. These boys should be very hard to beat in the final playoff.

Here are the complete standings as of last week:

Winless Colts Test
Fresno Fresh Squad
On Local Gridiron

By Ed Jager

Both the Cal Poly and Fresno State fresh-squads will be gunning for victory number one this Friday evening in Poly stadium. So far neither squad has a win to its credit. This will be the first home game for the Poly boys in three weeks.

The Fresno pitchers are in much the same position as the Illinois. They have faced a rugged schedule and are meeting a team of their own class for the first time this season. Last year they scalped the Mustangs by a score of 28-0.

There is little doubt that the Rainbow city men can score against any opposition. They registered a 14-0 win over the Santa Cruz Bearcats even though the final score was well against them. Inexperience has been their chief nemesis as is common with most yearling teams.

The Mustangs operate from the conventional "T" formation with the hakes in a three-point stance. This fact, they have featured a wide-open attack with lots of passing and end runs. Quick openers have not been utilized to a great extent.

Plans Completed For Novice Boxing Tourney in November

By Ray Kavanagh

This week coach Bob Steele announced plans for the tourney to be held in December in cooperation with the Poly chapter of the National Amateur Boxing Association. The tourney will be open to all eligible college men throughout the country, regardless of weight, and will offer a trophy for the rooting section.

The tournament will be operated by three judges, each of whom will select the winning boxer. The judges will be selected from the local professional boxing association. The tourney will be held in December at the Santa Ana College on Main Street. The tourney will include a weigh-in on the Saturday before the tourney.

Trophies To Be Awarded

Steele stated that a total of 16 trophies would be given away at the tourney. The trophies will be awarded for the following: the lightweight, middleweight, heavyweight, and super heavyweight. The trophies will be awarded to the winner of each competition, and the trophy for the rooting section will be given to the team that has the highest rooting section.

The winners of the tourney will be determined by the judges. The tourney will be held on Friday, December 16, at 7:30 p.m. The tourney will be open to the public, and admission will be $1.00 for adults and 50 cents for children.

Boyd, McMurdie Shelved From Casual Practice

They will be temporarily sidelined from fall basketball practice. Allen Boyd was injured with appendicitis and underwent an emergency operation. He is expected to return to practice in a few weeks. Scott McMurdie will also miss several days of practice due to a sprained ankle. The doctors will determine when he will return to practice.

Keeler Announces Motorcycle Tourney

Final At Morro Bay Track

Harry Keeler, Poly Penguin manager, will open the 1949-50 season of Poly basketball with a two-star tourney to be held December 1, 2, and 3. The tourney will be held at the Morro Bay Track and will include both college and high school teams. The tourney will be open to the public, and admission will be $1.00 for adults and 50 cents for children.

Jorgensen Releases 1949-50 Mustang Basketball Schedule

A 24-game basketball schedule which includes five intercollegiate contests was announced today by Poly's coach, Ed Jorgensen. The Mustangs will open the 1949-50 season on November 27 against the Santa Maria Doubles in Santa Maria. Around Dec. 15, Jorgensen will take the Poly quintet to Washington, D.C., for a tournament to be held December 18-20. The tourney will include games with California and UCLA.
