New Blood
School Adds Eight More Instructors

Eight new instructors joined the Cal Poly teaching staff this quarter, announced today. Two of the men both engineers, are graduates of Poly. The other six bring to the Poly organization aerosination engineering, aeronautical engineering, civil engineering, mathematics, management, and mechanical engineering.

Douglas Mason, a recent graduate of Kansas State University, was welcomed by the Poly faculty. New instructors, along with Mason, are: Jack Holmen and Colfax high schools will be donated to the Poly Royal annual Kappa Delta beard contact. The proceeds will be used to help the Poly athletic fund.

PL Supplies Closing

Yah, 1950 is the last day that the Cal Poly student body is allowed to buy uniforms. The Winter quarter's supplies will be opened at the Poly Store on February 15th. All supplies not picked up must be obtained by that date. The book store will start selling Spring quarter orders for men under those dates.

Charles E. "Chuck" Pavelko

Student Reaction To Pavelko Mixed

General reaction to the resignation of Coach Pavelko was mixed. Pavelko had been an assistant to the late Coach Mack, but as yet there has been no formal acceptance of the position of head, football coach at Poly under the present circumstances. There has been much speculation of who will be named to head the Poly Football Team.

Dollar Days' Drive Falls Far Short

"Dollar Days," the weekly joint drive sponsored by Inter-Club Council, has turned out to be a "Dime Days."
The campaign to raise funds for national welfare organizations ended Wednesday with a total of $270.00 collected from Cal Poly students, according to Chairman Carl Jacobson. Original goal for the drive had been $200.

"I'm frankly disappointed with the showing made by the Cal Poly student body in the project drive." Two projects, however, had ended. This is a black eye for the student body! Ten Cent East

He pointed out that with more than 4,000 students registered at Cal Poly this quarter, the money collected in the drive breaks down to an average of less than 25 cents per student.

"Why wouldn't we have that!" Mr. Pavelko said, "except for a good few hundred dollars here, there is nothing to the total." Money collected in the drive is to go to March of Dimes, American Heart Association, W.P.R.F., Salvation Army, Cancer Society, Red Cross, Community YMCA, Boy Scouting and Camp Fire Girls. A joint drive with schools of the San Luis Obispo school system will be held on Monday.

PL Student Dies While Working

Joe Oliver Hansen, 17-year-old freshman electrical engineering student, died on the campus shortly after noon Wednesday. Investigating officers attributed his death to a heart attack.

Hansen, son of Mr. and Mrs. A. M. Hansen, 1018 East Cook street, Santa Maria, was working on his car at the student center when he collapsed. The body was turned to Security Officer E. M. Amundt at 12:05 p.m. that there seemed to be something the matter with Hansen, who was lying on the work bench. Another student reported that he had seen Hansen falling there almost 45 minutes earlier, but had assumed that Hansen was sleeping.

Errnste Steiner, head security guard at Poly, was directed to the student center. Where Hansen was lying on the work bench. Another student reported that he had seen Hansen falling there almost 45 minutes earlier, but had assumed that Hansen was sleeping.

Committee Studies Student Court Plan

The student welfare and activities committee met Monday under the chairmanship of Robert Waller, agricultural engineering instructor, to discuss the plan for a student court proposed recently by RAC. Wallace appointed a sub-committee to study the proposal, with particular emphasis on the controversial issues: (1) the failure of two previous student courts; (2) the legality of such a court; (3) the possibility of requiring student violators to go to the Morro Bay justice court as part of the punishment meted out by the student court; (4) the question of anonymity of the members of other students; and (5) the lack of continuity in present proposals for formation of a student court.

After study of these problems, the sub-committee will report to RAC.

"Dollar Days" Drive Falls Far Short

(Continued from Page 1) the inconvenience of nine separate drives throughout the school year. Such a joint drive has been carried out successfully among Cal Poly faculty members.

As part of the campaign, a charity benefit show was staged in Engineering auditorium last Tuesday night. Among the entertainment were John Ryan and his bull whip, Stan Raymond and the Hawaiians and Gerald Elliot, the fire eater.

Triplet Lambs Reported Frisking Over Pastures

A set of triplet lambs—two ewes and a ram lamb—were born in a twirling Rattlesnake—Rampant ram—cross ewe Thursday night. The triplets were sired by a Southdown ram.

Spelman Collins, college sheep department head, said that triplets occur about once in 200 births in sheep. But, added, he has seen but one other set of triplets on the campus in the past 10 years.

Purchased last summer from a public Farmers project at Marysville high school, the ewe was shipped to Los Angeles this fall because of her promising appearance.

NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking CAMELS!
Firemen To Get New Truck
Cal Poly fire department to receive new fire truck in near future. Ernest Reiner, chief secur-
ity officer, announced today. It is expected to be adapted for hill climbing and quick acceleration.
The truck will be an International, equipped with a Waterous pump, 100 feet of hose and a 450-horse
power water motor, Reiner said.

Band Working on Tour Tunes
College band is working on new music for the spring concert. Two songs the band is working on are "My
American" and "Poultry," according to Bob White, manager. John Young and Young Half are the newest
members of the group.

Exit, Chuck Pavelko

The little man with the big smile who was incapable of doing anything worse than giving a joke during the entire week. The former Santa Clara grid great who lacked a sharp personality, who was a football Turk. This is the type of football like one can't help but know it after 13 years, followed his predecessor, Rosie O'Danile, to an untimely end in Cal Poly grid decline.

Chuck Pavelko's resignation brought an end to rumors which have come to fruition across the campus for the past two years. Pavelko was given the job two years ago, not because he was asked for it, but because no one else would agree to the terms. Looking at it from a clear viewpoint, Pavelko was doing the administration a favor by taking the job no one else wanted.

It is not our intention either to defend or to attack Pavelko's resignation. Much has been written and pointed out the problems which confront any man taking over the position of head football coach at the Cal Poly campus.

Pavelko's statement to the local press that he faced an impossible task is an impossible gross understatement on the part of the ex-grid mentor. To anyone acquainted with his situation doesn't have the right equipment, a trainer and the best football coach on the Poly campus.

The future of the grid team hangs in the balance. Pavelko may agree to the terms. Looking at it from a clear viewpoint, Pavelko was doing the administration a favor by taking the job no one else wanted.

The objective of the Cal Poly inter-collegiate athletic program is to win games, if it is to win games, a policy which Pavelko has faithfully followed. The former Santa Clara grid great who lacked a sharp personality, who was a football Turk. Pavelko is following that policy. However, we can't help but agree with which to operate.

What is the objective of the Cal Poly inter-collegiate athletic program? If it is to win games, a policy we interpreted from Pavelko's resignation. To those of us who have followed the Poly grid team for the past two years, we are not following that policy. To those of us who have followed the Poly grid team for the past two years, we are not following that policy.

The former Santa Clara grid great who lacked a sharp personality, who was a football Turk. Pavelko is following that policy. However, we can't help but agree with which to operate.

In passing, football fans and sportswriters should know that rodeo contestants are now being subsidized, in certain western colleges, in much the same way that the students are subsidized, in certain western colleges, in much the same way that the students are subsidized.

Rodeo, an ancient sport which may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community.

Letters to the Editor

Dear Editor:

I am one of those student wives whose husband won't do a thing unless I release him. My husband and I have been married for a year, and he can't do a thing without the grapevine. I am married to a rodeo king who is a member of the state rodeo fraternity, and he can't do a thing without the grapevine. I am married to a rodeo king who is a member of the state rodeo fraternity, and he can't do a thing without the grapevine.

Rodeo, an ancient sport which may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community.

Many a one has taunted me about my husband's lack of initiative. He will not do any work without the grapevine. I am married to a rodeo king who is a member of the state rodeo fraternity, and he can't do a thing without the grapevine.

Rodeo, an ancient sport which may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community.

Rodeo, an ancient sport which may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community, may have to be smuggled into the college community.

Dear Editor:

No Rodeo Subsidizing

Organizing a campus rodeo club last Tuesday night was a step in the right direction. Rodeo, an ancient sport which was degenerated from the day-to-day chores of the cowboy and vaquero, is a comparatively newcomer to the collegiate athletic ranks. As it is following the day-to-day chores of the cowboy and vaquero, is a comparatively newcomer to the collegiate athletic ranks.

Natural History
Discovering of new plant species is in progress. An address by Dr. Robert R. Harrison of the California Institute of Technology, at the last regular meet­ ing of the San Luis Obispo Audubon Society.

"The animal world, extensive for­ mations in large areas, has been well described." He added, "In addition, people who have spent a number of years in the field have described many new species each year."

Dr. Harrison, who is a member of the Academy of Natural Sciences in Philadelphia, is well known for his work on the taxonomy of birds.

Among several plant species which bear Dr. Harvey's name Brodesia appendiculata Hoover, species of the Cucurbita Family, which he has discovered in 1957. At this meeting, Dr. Hoover exhibited several mounted specimens which he has discovered.

Student Wives
There will be a meeting of the Cal Poly Student Wives Club at 8:30 p.m. Feb. 17, in Hillcrest lounge. The program has been planned by Mary Ann Metier, vice president, and will include refreshments and a talk by John Ohnura, vice president.

Fred Gose, English instructor, who was present at the last meeting, talked "Gavagai: A Study in Romance." A bake-sale is being planned by the club for Feb. 17. It will be held in front of Montgomery Ward.

Architecture
Clara Fenn was elected president of the Architectural club and John Chorvus, vice president, at a special meeting on Jan. 22. The election was held because of the resignations of the last two officers, Thomas O. Dilhane, president, who left for the East, and vice-president, who transferred.

Fenn's first move was to ap­ point Walter K. Rasmussen, secretary-treasurer, and the following three students filled the remaining positions.

Dr. Hubert Suntans, assistant to Don Russell, dean of the College of Agriculture and Humanities, held last Friday, his regular meeting of the student body, at the Gold Dragon. His topic was "The Complex Free­ dom Plan."

The meeting was followed by a dinner honoring Dr. Trueman, which was held at the Adum restaurant.

The dinner was sponsored by the student body, and was attended by a number of students and faculty members.

Dr. Hubert Suntans, assistant to Dr. Russell, spoke on "The Complex Freedom Plan." He discussed its importance in the development of a new science club.

The Outlook
By Ed Isker

While moshing a cup of coffee in El Corral, your editor was questioned by a group of fellows wanting to know who does all the writing for the sports section of El Mustang.

"The question left me, Ed!" Don Cattier said, "I realize he had never once mentioned or given credit to any of the guys who slake in sport. He begins it a try and attempt to clear things up.

Meet The Press
To begin: Bob Hardy and Al Kohove cover the varsity basketball games with the help of results from John Healey, sports publicist director. Hardy once a colleague, can easily be recognized by the old, faded blue topcoat and handle the bowling team. If the scores are wrong, from now on you'll at least know who to chew. I sweat that guy out every week."

"Me? Aww hell, all I do is re-write everything." Tony Sierra informs us of the happenings in the world of gymnastics and frosh basketball. I had better speak nicely of Tony because he'll whip me if I don't.

"Board Johnson, erstwhile hurdler and halfback, парт-time student, patron of the arts and what have you, writes up the results of the boxing meets. It's a fight between him and Coach Bob Steele to see who really deserves the byline."

Although none of the results of the boxing may not be covered by the sports editor, Paul also handles the bowling department. If the scores are wrong, from now on you'll at least know who to chew. I sweat that guy out every week."

Poly Matmen Tied By Spartan Squad
San Joe's wrestling team held the Santa Barbara Prep to its first loss in the last Saturday evening. The matches were exactly rough and tumble and produced a series of misses.

The backbones of Poly's power were Poly's freshman boys. The Poly seniors, Bob Miller and Bill Mehl, and the Poly juniors, Bob Wilt, also contributed and helped the Frosh team.

Frosh Break Even In Tilts With Prep Casabamen
Biding the victory trail again, Poly's wrestling team fared well against the Prep. The seniors romped to an easy 39-20 win over Los Angeles High School at Concordia gym last Saturday night. After the first period of play, the Prep seemed to be handling well, a commanding 33-3 lead. The last half was played almost entirely by Poly reserves who tallied 13 points against their opponents. Poly's Bill Mehl scored both the panels with the 14 digits.

The frosh dropped a close 41-88 to the Prep. The frosh team had little individual acce. Coach Bob Mott has a tentative 80 man line-up this year with only Cavill and Price as returning players. Who have not previously played for Poly. Right is running high among the whole squad in spirit of fight and popularity.

Coach Mott has a tentative 30-man line-up which includes several top-rank players. Among these, Frank Waxham, the University of California, USF and formerly of Bellarmine College, will be in the frosh line-up. Last year the Mustangs beat Stanford, 54, and just let San Jose go to Cal. The URP Dons will also carry the Poly Royal on April 8.

Two opponents scheduled for the first time are Sacramento State and Cal Tech. Both teams will play doubleheaders here. Because of a limited budget, most of this year's matches will be sparsely attended.

Next week will see the play-offs in the intramural cage league. Most of the players are really rolling up high individual scores.

FREE FILMS BROWN
The banner of free films will be shown in the Engineering auditorium Monday evening at 8 p.m.

"The World Series of 1949," "1st Place at First and Third Base," and "The New York Keenmealers" (P.K. - Basketball) comprises the list of films.

This year, the league has been divided into two halves. Fresno, San Jose and Poly comprise the northern half. Preparatory, Santa Barbara and San Diego are in the southern division. At the completion of league play, the winners of each division will meet at Los Angeles. Bob Seaver, last year's Mustang, will work with Mott this year and will handle the pitching staff.

Fresno Cagers Extend Poly Losing Streak To Six With 55-47 Victory

By Bob Harris

San Jose State, led by the great Stud Inman, invaded Crandall gym tonight with an eye toward overtaking the high flying Pepperdine Waves. The Spartans, recently victorious over Bowling Green and West Virginia, seem to have found a rhythm since the February 2nd victory over the University of California.

Ringmen Face Next Three Foes Here

Coach Bob Balaaw's boxing team will face its next three opposing teams in its home district. Major college basketball at Poly, February 18,; UCLA, February 22; and San Diego at Poly, February 24, will feature Poly's first contest with the Laguna Bravos, scheduled for Feb. 16.

Several Missing
Track Prospects Declared Good By Coach Jensen

"We'll be stronger this year, but as will every other team in the league," reports Jim Jensen, track coach.

Despite a turnover of more than 40 members, Jensen said there are several more trackmen enrolled in school who have yet to report. This is probably due to some confusion on the time allotted for practice. In order to help clarify this, Jensen stated that track directors are welcome to work out anytime from 1 to 5 p.m.

At present, there is a definite shortage of talent in the sprints and middle distances. These events usually comprise the backbone of track.

Among the outstanding returning letterwinners are: Eddie March, March in the broad jump; Don Edingar, high jump; March Sanders, shot put; Don Edingar, 100 and 60; and Ward and John, mile and two miles.

Jensen also is expecting great things from last year's Freshmen team. Charles Carter, highly talented, and Carlisle Pritchard, both in the 440 and last semester, will lead the list.

San Luis Faces Locals
