Horse Shows Start

At Kellogg Ranch

More than 4000 persons attended the Arkans horsee show presented at the Kellogg unit, at the first public showing under Cal Poly management, March 12. When President Julian A. Mc­ phee visited the Arkans show on that official opening date, he ex­ pressed a desire to have all members of the college student body ad­ mission to the show at a reduced price. Therefore, students will be admitted for 50 cents at the box office.

The shows are being presented every Saturday at 11 a.m. and 3 p.m. through May 28. They will be repeated again on the sec­ ond Sunday in October and will continue through the last Sunday in May.

Candle Light For Tonight

Theater Presents Old Flame

By Dave Goodwin

You may even obtain a number on the phone and received a wrong number. The Little Theater's play tonight is about to begin. It is called "Old Flame." The story is about a man who has never seen the woman he loves again. He realizes that he has loved her for over 20 years.

The show is opening on April 8th and will continue for five weeks. The play opens on April 8th at 8:00 p.m. There is a dress rehearsal on Saturday night. Tickets are $2.50 for the dress rehearsal and $3.00 for the opening night.

Poly Students Wins

Full Grid Program

Released by Board

The 1950 grid slate for the Cal Poly Mustangs was announced today by the Athletic Board. The nine game schedule includes six home games in Poly Stadium with road games in San Luis Obispo, Fresno, Stockton, and Inglewood.

Poultry Entry 4th

In Contest Report

Cal Poly Laghorns stand fourth in the nation slate and are one of the first 10 high points in the Hamburger class of the California State Fair. The annual official agribusiness contest, now in progress at Modesto, was received from the contest's monthly progress reports and published the day-to-day results for each month.

Students Greet Coach At Poly Stadium Rally

Leroy Barry Hughes, newly appointed athletic director and head football coach of Cal Poly, will make his debut at a special student body rally to be held in Poly stadium this morning at 11 a.m. Coach Hughes will be presented to the student body by President Julian A. McPhee. The former star fullback of Menlo CC comes to Poly Poly as head coach of the Mustangs. He has been a student-athlete in football, basketball and track at Menlo, and has been a varsity assistant coach at North Carolina college since that time.

Improving Record

Hughes brought head football coach at Menlo in 1943 after three years as backfield coach under Walt Hertelos. However, a twist of fate from the popular coach to the prominent position did not come before entering the service that summer.

Beginning, with the season of 1946, Hughes' grid team developed a record which would be a credit to any college in the nation. In four years under the Hughes' su­ pervision, the Mustangs have won 50 while losing but three times, taking four consecutive championships in their conference.

Equally impressive has been the Hughes' coaching career at Menlo, which have won 18 and lost 8 since 1939. In 1941, the Mustangs compiled a 2-4-1 record, with a declining 1942 season of 1-6.

Specialized college training in agricultural journalism will be offered by the Poly beginning next September. The announcement of an official state approval of Cal Poly's new agricultural journalism program was made last week by President Julian A. McPhail who named Ken Kitch, 41-year-old aggie from the school for Country Printers, the first director of the new course. Kitch was named at the last meeting of the Poly Phase club which was open to all engineering students. In his talk Kitch stressed the importance of the different codes and standards set up by the industry to protect the consumer and industry itself. hobbs pointed out that the young engineer should know these codes and understand that their enforcement actually protects his job. At the present time hobbs is a member of the codes and standards committee of the National Electrical Manufacturers association, the executive board of illuminating Engineering society.

All Auto Insurance Policies Issued by the Farmers Insurance agents are paid for by the Farmers Insurance company, who is not associated with the Poly Phase club.

A. R. Hobbs of Smoot-Holman Speaks at Poly Phase Meeting
L. A. Hobbs, vice-president and general sales manager of the Smoot-Holman company, was the guest speaker at the last meeting of the Poly Phase club which was open to all engineering students. In his talk Hobbs stressed the importance of the different codes and standards set up by the industry to protect the consumer and industry itself.

Library Browsing Room
With Cheerful Reading

Recently finished, the browsing room of the library is now open to the students. Primarily a student reading room, the browsing room will maintain the same hours as the main reading room.

Mrs. Dorothy Wright, assistant librarian, has announced that books in the browsing room have been selected not only for recreation but for usefulness. They are chosen to interest the student and are used as a means to extend library services.

The browsing room will be open to all students, but students are asked to observe the regulations.

New Members of Faculty
To Tour All Divisions
Beginning tomorrow morning a series of tours of the Cal Poly campus will acquaint new faculty members and their wives with the work of the divisions of agriculture, engineering and science and humanities.

First of the three scheduled visits, a tour of the various departments in the agriculture division, will take place from 8 a.m. until noon tomorrow. A tour of the engineering departments is scheduled for Saturday, April 1, from 8 a.m. until noon. The science and humanities division will be visited Monday, April 10, from 7 to 10 p.m.

Television Demonstration Planned For Poly Royal

This year's Poly Royal will feature the electronics department well equipped with display for television as an added attraction. The pièce maîtresse is a television screen, the size of which is regarded as being interesting in full regalia by the student who is to show it off. Displaying this display will be five television engineers that were assembled by the electronics students.

The camera's construction was begun last year by the senior electronics students in one of their experiments and was expected to  be in operation by the Poly Royal. It reached completion by that date, but there were a number of bugs in the camera, and it failed to project a clear picture on the receiver's screen.

This year, the camera was taken over by Clifford Fisher, a senior major who has already built a television camera of his own for war surplus and is now reconceptualizing the entire camera by himself. Clifford also has an A.S. degree in physics.

The camera consists primarily of a synchronizing generator which is the center of the device: a power supply, supplying 11,000 volts at radio frequency, and the camera, itself, consisting of an oscilloscope tube. This tube is designed especially for industrial use and is capable of an output of 110,000 scanning lines. It is one of the cheapest on the market and values at around $1000. The camera should be at full labor to build, in about $1,000.

A new feature that has been added to all the camera's equipment is that it can be operated from time to time. He expects to have May roll around, provided by the date set for Poly Royal.

Improper Parking On Hills

Seven accidents resulting from improper parking on the hillside of the campus have occurred during the last few months. Chief Security Officer E. A. Steiner reported that brake set and the car In gear, the engine would break out and the car In gear according to Steiner.

register in El Corral Today

C. H. Campbell, county deputy sheriff, is registering voters in all the county. A number of students wishing to participate in the primary or general election should register now. Registering for the primary closes April 13, and the election will be held June 6.

Now Is The Hour

What would be the first thought to enter your mind if you were told that the money you have invested in your architecture, English or physics instructor, stopped you on the campus today to talk to you about your future? "Well, I'm going to do." Well, right away you would naturally start thinking, what's with the old boy? What goes?

But yet there are too many of us that have decided. How to go about this is simple. Get active! Participate in something, whether it be the backbone of every student government, every student activity, whatever it be at Poly or Full- due, is the student himself. They can make it or break it. With your help, we'll make it here!

You won't find to that original teacher we referred to earlier. And, also, you can't afford to miss this opportunity of laying the foundation for future happiness. In passing through your college career, you are experiencing some of the best years of your life. As the song title goes, "You won't find a day easier than you think." Start now! Start today! Get active and remember: It's your boat. How about it? — J.A.P.

Ride To Your Classes

With its increasing biregional-carriage population, our campus is rapidly taking on the appearance of L.A.'s Pigasus expressway. How many up-to-date seniors informed to students are easily available. But to anyone who has left campus before 8 a.m. with sincere intentions of making an 8 o'clock class, there is no way you can avoid cor- roboration statistics, becomes starkly clear.

The guy you see tip-toeing in five or ten minutes-past the hour with ear-tied low and lowered head is not the result of a 6 a.m. shutterboard or shiver-board session. Instead, he has just walked down the hill from the blacksmith shop, where, after vainly backing and filling about the campus, he has finally docketed his superiors.

The solution? Well, about a quarter or so ago, something peculiar happened. To describe it is this want to effect. I refer here to the ruling that only cars belonging to non-student residents may be parked on the campus during school hours. Besides alleviating a little of the existing situation on the cam- pus, this rule also provided the inhabitants of Hollister, Fullerton, and Buena Park with a daily walk, with a肚- lightful exercise session several times a day. And until you've really walked down the hill under a two inch down- pour, your friends, you haven't lived.

Another solution would be, to paraphrase Will Rogers, to be bused from the campus. Except that these are not the fees and transportation costs, to keep this in a parking lot. The first of these being impractical and the second sacrilegious, the obvious alternative is to provide a Cal Poly-operated bus line.

This plan, we're told, will be put into operation, would consist of a bus running from the main campus San Luis and Polyview, if it should become necessary to change fees for the service, as outlined above, it would be charged on a season or quarter-pass basis, or the students themselves. But whatever measures need to be taken to bring the Cal Poly bus line to reality, they are but means to an end. And it is the end of the solution to the problem of how it is brought about, it should be brought about.

By Pyle

Stable Sweepings

You win, with rhubarb and ham­ burger replacing hating and pansies as the popular call at local sporting events. It's spring, and the general college girl will once more thumb her nose at the local flora and fauna in favor of the local fauna and flora. It's spring, the season when a young man's fancy turns usually turns towards another man's fancy, and civilization's oldest battle goes deep into the forest and the "hill and dale." It's spring, so you've got another one coming.

Faculty Association
The newly-organized California Polytechnic Student Association (Cal Poly Student Association) held its second meeting Monday, March 18.

Guest speakers at the meeting were Johnny Jonee, who spoke on "The Coming Summer Season," and Dr. Hubert Hodmans, who discussed the coming summer sessions at Cal Poly.

Mr. Roberts, chairman of the student association, discussed the coming summer sessions at Cal Poly.

Reaching its goal of 10 paid-up members during the month of March, the junior association will then be able to elect its officers, with all expenses paid, to the forthcoming summer session's executive council of the CSU to be held in San Francisco April 9 through 12.

Mr. O'Brien, secretary, was elected to make the meeting a success. Mr. Halvorsen, faculty advisor, also attended the meeting.

Soils
An extended four-day trip taken by 17 students and two instructors of the soils class was held between quarters.

While on the trip the group visited the San Fernando and Riverside Soil Conservation districts, the Botanical Laboratory in Riversides and the U.S.D.A. soil laboratory in Las Vegas.

The next regular meeting of the soils club will be held on April 11 at 7:30 p.m. in Ad. 110. Part of the meeting will be devoted to the election of next year's officers.

Alpha Phi Omega
At a recent meeting of Alpha Phi Omega, the following officers were elected: Robert C. Kimball, president; George McMartin, secretary; and Robert W. Helling, treasurer. Other members present were: Donald Robertson, Andrew P. Holub, treasurer, and Charles J. Helin, faculty advisor.

The club is also sponsoring the new film series.

Faculty Wife's
The regular meeting of the Cal Poly Women's club was held Tuesday, March 17 at Hillhurst Lounge. After a short business meeting, all the members present participated in a "Fun Night."
**The Outlook**

By Ed Later

Cal Poly's administration officials seem at last to have taken a big step in the right direction (athletically speaking). On the recommendation of Roy Hughes to the presidency of director of athletics and head football coach, the former Menlo JC mentor brings with him an enviable record in junior college circles.

Naturally, the question of why Hughes was chosen crops up in the minds of many students. Perhaps we can shed a little light on the subject.

**Athletic Record Unfavorable**

It's no secret that Poly, speaking from the standpoint of competitive athletics, just hasn't had it. A quick glance at the record book will bear that out. We may be wrong, but they don't think the Mustangs have ever won the conference crown in any sport since joining the CCAA. Such a record can't help but bring about much unfavorable comment from the townspeople as well as the student body.

The choice of Hughes to help us out of the wilderness and into the sun seems to be a fitting one. For eleven years the new head man met with considerable success in all sports, and not just football alone. He has proven to be an outstanding leader and has earned the respect of all sports-minded folks in the Area.

In filing his application for his present appointment, Hughes stated that he was interested in raising Poly's athletic record. In the CCAA, he would be named to the all-conference basketball team for the fourth straight year. See story below.

**Moroski on CCAA First Team Again**

Henry "Hank" Moroski was named to the all-conference basketball team for the fourth straight year on March 7.

Playing his senior year for Cal Poly, Moroski is the first man ever to be honored for four straight years in a CCAA all-star squad. Since Moroski first won the honor as a freshman in 1948 and conference voting now prohibits the voting of a player in consecutive years, chances are the Brooklyn native Cancer also will be the last to accomplish such a feat.

In four years, Moroski has topped Cal Poly's scoring with 1,119 points in 1949, 1,140 in 1949, 1,140 in 1948 and 307 in 1948 for a total of 1,140—four years of 308 per season and 18.8 per game. His best season average was 1948 when he hit for a 18.6 game mark.

**Arizona Wins, Downs Mary's**

The Outlook will come to a close by simply saying, "Welcome, Coach Hughes." We feel the school made a wise choice.

**Weightlifters Vie In Contest at Camp**

A weightlifting contest will be held at Camp Ben Lomond recreation hall at 7:30 p.m. March 29. The meet is sponsored by the campus athletic department.

The contest is open to all Cal Poly students and will consist of a competition in three Olympic lifts. The meet is open to men only and the principal at last year was the winner of each division. Weight division are as follows: 158-lb., 175-lb., 192-lb., 185-lb., and heavyweight.

**Fresno Golf Team Garners First Wins, Downs SF State, Fresno**

Poly's golf team recorded its first victory in two years of competition on March 16 by defeating the 2C2A stacks of the California Collegiate Athletic Association and the men from San Francisco State. Harry Root came in with a 77 to capture second place honors among the Polyites.

Apprently enjoying the fruits of victory, Coach Don Watts chose a 19-15 defeat on Fresno State the following afternoon. Harry Root again earned a spot on the all-conference team. The Mustangs' linksman travel to Los Angeles and find themselves in company in the first annual Southern California Intercollegiate Golf association tournament to be held at the Los Angeles Country club on March 20. Watts is far from optimistic concerning Poly's chances but believes that the experience gained will be well worth the trip.

Ticket Date Set For Film Society

By Film Society

Richard C. Wilsey, welding department head, will be a guest speaker at the 30th annual convention of the International Aerial Welding Association, March 8, San Francisco.

Wiley's speech is titled, "Aerial Welding in Agriculture and Industry," College Trouvaille. He will illustrate it by use of slides on welding projects and printing methods. Here at Cal Poly, new welding design students will accompany Wiley on a field trip of the area. They plan to visit the Westminster plant, International, W. A. Arm company in Oxnard, and the Welding Society at the City College of San Francisco.

The film students are: Paul, Christopher, B, Christopher; Lewis, Farthing; Ernest Guercy, Charles, Winston; Stanley, Thompson; Regional Pennsylvania, Convoy Miller; and Elmo Green.

Return Annual Proofs

All proofs will be corrected for all proofs. No corrections will be mailed to the campus early next month. The four shows are: "Don't Get Death Valley," "Sleeping Car," "You'll Be Surprised," "Death Valley." The fourth show will appear in the picture to appear in the yearbook and will be presented to representatives of the California State Library at the Cow palace Thursday and Friday, March 30-31. This is in order to facilitate mailing.
