**Welcome to 18th Poly Royal**

**California State Polytechnic College**

*Vol. 10 No. 28*, San Luis Obispo, California

**Friday, April 28, 1950**

**Student Body Chooses 1950-51 ASB Officers**

Sixty-five per cent of the student body participated in balloting last week which selected the following three associated student body officers for next year: Jim Dow, president; Bill Lidderdale, vice-president, and Douglas Thomas, secretary.

Rounding out a hectic week of activities, last Tuesday's election picked out Dow and Thomas, both sophomores, for the second year in a row. Dow, a chemical engineering major, is a member of the football team and a member of the Class of 1968. Thomas, is a biology major and has been active in student government as a member of various ASB committees during the past year.

Lidderdale is a physical education major and has been active in Bishop's Thiree in a dray manufacturing major and is a former member of the homecoming court.

Assistant secretary for presidential service was Barry A. W. Harter, and Basil Hendry competed for secretary.

**Voorhis Unit Draws 3000 Spectators For Poly Vue Fete**

More than 3,000 visitors attended Saturday annual Poly Vue at San Luis Obispo last Saturday witnessed the unveiling of a plaque commemorating the dedication of the Voorhis unit to California State Polytechnic college in 1948.

Uncle Charlie Voorhis spoke at the dedication ceremonies witnessed by a large crowd in spite of the unexpected sky, threatening rain. President Julian A. McPhee introduced Voorhis and presented the Voorhis unit and Queen Mary Ellen Dusenberry. Whittier college was introduced.

Poly Vue, which corresponds to today's Poly Royal, included a baseball game, luncheon and coronation ball.

Queen Pamela's court at the ball included four princesses from Whittier College--Alla M. Werner, Gerry Martin, Jacqueline Ryan and Ellen Larrabale.

The Voorhis unit campus included President and Mrs. McPhee, Vitamin Club President Merle R. McKeel, head of instruction and assistant to the president Carl Rek, social science instructor and Dean of Poly Royal, J. L. Thompson, secretary of agricultural education department, and Henry Deatherage, director of public relations.

Approximately 3,000 more spectators were mailed all over the United States and to many foreign countries last week through Alpha Phi Omega Fraternity and the Cal Poly general office.

Members of the fraternity readily joined in for the uninvited 10,000 pictorials, which had been addressed by students.

The mailing list included, Governor Earl Warren, United States Senators, earthquake insurance representatives from California State Agriculture and Environment, newspapers, radio stations, agriculture, livestock, state board of education and all of its departments. State college presidents in the state of California and Poly and many others.

Nearly 10,000 were required to address the pictorials and invitations. Governor Robertson supervisory clerk of the general office, closed the operation. The Poly Royal Saturday night operating retread deserves much praise for the tremendous job. It did not help; he said, P. K. Millican was chairman in charge of Poly Royal invitations and brochure this year.

**Poly Royal Schedule Listed**

Program of events for today and tomorrow is printed on page 2 for your convenience. For location of exhibits, events and exhibits, see the chartgram at bottom of this page.

**Campus Greets Guests In Opening Assembly**

"The Country Fair on a College Campus" swings wide its gates this morning as the 18th annual Poly Royal opens with a welcoming assembly in Poly stadium at 9:30. About 10,000 spectators are expected with queen-elect, Lola Butcher, San Francisco state college, presiding over the two-day show. The Fair, which is a quad scene from the American West, is welcoming Poly Royal yesterday afternoon when Poly students gathered at the Southern Pacific depot.

**Students Send Out Nearly 15,000 Program Pictorials**

Poly Royal invitations and pictorials were mailed all over the United States and to many foreign countries last week through Alpha Phi Omega Fraternity and the Cal Poly general office.

Members of the fraternity readily joined in for the uninvited 10,000 pictorials, which had been addressed by students.

Millican was chairman in charge of Poly Royal invitations and brochure this year.

Following the opening day Assembly this morning, Cal Poly Mustang second team plays its first home game of the season against the Prumo Bulldogs. Various departments exhibits open at 1:30 for the rest of the day. Afternoon, the list of afternoon activities in the official同比 M remained Walter Duster Memorial Library, newest addition to Poly campus. An inter-rued football game a baseball game with the University of San Francisco, and baseball game is also on the afternoon program.

**Saturday Highlights**

Highlighting second day activities of Poly Royal will be a baseball game this afternoon and annual Poly Royal baseball game with the University of San Francisco.

Departments exhibits will be open from 2 p.m. until 8 p.m., closing an hour during lunch period.

The 18th Poly Royal will enter to a base-structure with the Coronation ball in Camp Man. Lunch exhi I in the Poly general office, and Lola Butcher will receive her crown Friday morning. A coronation ball will be held Friday night with the Poly students attending, with music provided by the Collegians, will last until 11:15.

**Cartogram**

*Cartogram Here They Are.* Using this cartogram of the campus you can locate the following buildings and department exhibits:

From the main entrance by the B student center:
1. Football stadium—dormitories, crops and flowers;
2. colleges Nos. 1, 2, 3, 4, and 5;
3. Administration building—printing, publications and agricultural journalism;
4. Agricultural education building—electro-mechanical and other departments, science and humanities; 15. President's house;
5. Home economics building—mechanical science; 16. Poly Royal office;
6. Mechanical engineering building—mechanical science; 17. Poly Royal office;
7. Agricultural Mechanics building—agricultural engineering; 18. Mechanical engineering building—mechanical science and other departments;
Three Tons of Hindquarter Beef Will Be Consumed At Barbecue

Three tons of steer hindquarter beef have been aging in cold storage to the correct degree of tenderness for the Poly Royal barbecue. And in the form of succulent steaks, it will go to the charcoal pits behind the new football bleachers Thursday night. A concert by the Poly Royal Chorus will start the barbecue proceedings.

The dairy department is now preparing the ice cream mix to be made on the campus, according to Kenneth D. Boyle, dairy manufacturing instructor.

The dairy department is now preparing the fruit for the Poly Royal barbecue. At the fruit stand, where the fruit will be sold, will be Donald Heath, sophomore agriculture student. The stand will open tomorrow morning. At 11 o'clock Saturday the barbecue will be served, according to Kenneth D. Boyle, dairy manufacturing instructor.

First Ice Cream Mix Being Made By Dairy

Last week passed another milestone in the dairy department's accomplishments. The dairy, with the manufacture of the first ice cream mix to be made on the campus, according to Kenneth D. Boyle, dairy manufacturing instructor.

Using recently installed equipment, the current class in ice cream making, consisting of four processes, worked in the classroom and lab work. The class will also make the ice cream mix required for the dairy students carnival and Poly Royal barbecue.

The dairy department is not making money, but it will be fair to sell in their retail store. Customers are encouraged to purchase ice cream, considerably above the usual standards, according to Boyle.

All Classes Are Represented at Architectural Exhibits

Architectural exhibits for Poly Royal consists of four separate areas, one for each of the four architectural classes. Layout of the areas has been decided upon by the respective classes.

The path constructed by the architectural students is the main avenue between the buildings adjacent to them. The path has been completed and will provide a comfortable place in which to relax.

The architectural club members have worked on the interior of the buildings. The exhibits are composed of different types of materials and colors, according to Bruce Atkinson, architect and instructor.

A feature attraction is the "Embryo To Oven" is Poultry Feature.

"The Poultry Industry from Embryo To Oven," is the poultry department's Poly Royal feature exhibit, according to David Focht, poultry student director. Chickens are shown at various stages of development. Baby chicks, most birds, hens and the finished products of eggs and dressed meat are displayed at the poultry exhibit.

A feature attraction is the "Embryo To Oven" is Poultry Feature exhibit, according to David Focht, poultry student director. Chickens are shown at various stages of development. Baby chicks, most birds, hens and the finished products of eggs and dressed meat are displayed at the poultry exhibit.

Other feature attractions include chickens living under water, a display of ways to conserve balanced rations, production of a new and unique feeding system, and a map of the world showing the regions where poultry is now being raised.

The idea is open to the public, and entries are sponsored by the best breeds of each in each division. Chairs and benches are placed alongside the exhibit for the benefit of visitors.
Welcome, Neighbor!

The 18th annual "Country Fair on a College Campus" is here. After long months of planning and preparing, students of the Poly Royal and the education division are going to welcome you to our Poly Royal. We pride ourselves on being a neighborhood college, and we enjoy the pleasure of all. The money raised from this carnival goes to support Poly Royal history. All of the diversions on the campus have booths set up for your enjoyment. Numerous carnival events are open for your enjoyment. Numerous carnival events are open for your enjoyment.

Barbecue Held On Saturday

A barbecue is being held on College avenue by the football stadium. All wheat breads prepare the choicest meats with a true western flavor. The Poly band gives its concert at this barbecue.

Calf roping, bareback riding and bull-dogging stir up the dust and never. Here students ride the toughest animals available to thrill everyone. Trick horses, trick riding and clowning also take place in the main arena. Queen Lois Butter and her royal court ride in the grand entry.

Many contests are open to visitors. Football, baseball, tennis, swimming and other athletic events take place during the two-day festa. A baseball-truck meet is staged between Cal Poly and University of San Francisco at the baseball diamond. An innovation this year is a motorcycle circus. This event is full of thrills for spectators.

Stable Sweepings

Stable sweeping is a never-ending task. Some of the horses and ponies that have been designed with the visitor in mind.

Cows have become tired of riding their motorcycles through the classroom as cats and dogs. If you are lucky tomorrow, you will have boar. But, I'm not sure if the Poly Royal will let you see the picture and find some soap product to sponsor you on the Poly Royal.

Welcome to our campus — R.L.

FRIDAY, APRIL 28, 1950

POLY ROYAL

cultural and science and humanities divisions are open to the campus, to visit, to inspect, to participate in and enjoy the tours of the campus where scenic and historic points of interest are pointed out by student guides. Individual departments have prepared exhibits showing you the work being carried on here throughout the school year. The industrial, agricultural and science and humanities divisions are open to everyone's inspection. There are poultry and livestock judging shows featuring our own prize stock.

A baseball-truck meet is staged between Cal Poly and University of San Francisco at the baseball diamond. An innovation this year is a motorcycle circus. This event is full of thrills for spectators.

Camping Clubs To Sponsor Carnival

A carnival has been opened for the second time in this Poly Royal History. All of the clubs on the campus have booths set up for your enjoyment. Numerous carnival events are open for the pleasure of all. The money raised from this carnival goes to the student union Memorial Fund. This fund is used to provide for the maintenance and improvement of student union buildings.

Those first few hundred spectators, who made up the crowd for the first annual two-day exposition should well exceed that of the Poly Royal. So please, just ones.

Selecting a Queen

The idea of selecting a woman to reign over the festivities was decided upon in 1936. A contest was held at the high school press review in favor of providing a beautiful young lady to preside over Poly's all-male student body during the presentation of the Poly Royal. In 1941, the Poly Royal was opened again and this time a contest was held. With the coming of the HPCA, however, they appeared today.

From a handfull of agriculture exhibits, the Poly Royal has grown steadily in popularity, so much so that Senator McCarthy will be on the menu. The Poly Royal has grown steadily in popularity, so much so that Senator McCarthy will be on the menu.

Welcome to our Poly Royal! — R.L.

Features Of Radio, Television To Be Explained At Poly Royal

By Art Gandy

Have you ever pondered how it is possible for an orchard to play for "a little black box" and you can hear every note 200 miles away? Or how a television picture can speed through space to lie picked up by your receiver? Today, every body takes these things for granted—a modern convenience.

E. A. G. students to explain. The pact of the exhibit, according to Jim Anderson, department chairman, said today, students are working on actual study problems which are created by prominent groups for course grades.

DeanLuxton and Paul Linlemore, who are in charge of the exhibit, noted that the exhibit is designed to explain things to help each student get the most from this department. A regular tour will be followed through the Ag Ed building where the student exhibits are located.

Visitors have an opportunity to see the new television camera in operation, Chief Fisher, a senior degree major, perfected the camera and associated equipment.

Something new this year is the "listening lounge" headed by Louis Cogges and Don Hunter and Bud Pilling have the job of integrating this theme with the exhibit department.

ME Students Show Actual Shop Work

Actual shop work being done by mechanical engineering students for the many Poly Royal exhibits this international machine tool show in Los Angeles, is being demonstrated by Bert Straub, instructor.

A model cold storage locker, which the movie is screened in, is on display along with a demonstration of how the refrigerator unit is used. 

A complete staff of student engineers is also busy working in the shop department.

An annual farm power exhibit, along with some of the new equipment shown, is on display. The department will display the work the students are doing by the styles and class engineers, and the more advanced engineers are dealing with later problems which were completed during the fall semester. The equipment used in making these models is on display along with a demonstration of how the equipment is used.

Ag Engineering Will Have Nail Driving Contest for Women

Leading the list of Poly Royal activities for the next two days is a nail driving contest for the women and a tractor driving contest for the men. The women and a tractor driving contest for the men. The women and the men were expected to have their best effort for the women and men driving contest.

The women's contest is being planned by Deutch and Paul Linebarger. The men's contest is being demonstrated by Bob Frechin and Bill Faxon. In addition to the tractor driving contest, there are milking machines, barnyard and silo equipment, meat grinders, and hand iron stylus to a Hitachi engraving machine and many other precision tools on display.

Music Department Lists Activities

The Majors and Minors, the glee club's double quartet, will be featured on the variety program that is to be given as part of the corning tonight. The singing will come from the glee club's new song, sing the songs of that period, featuring a barbershop style.

On Saturday afternoon, the mustang band will give a one and a half hour concert while visitors are enjoying their barbecue. The program, according to the president of the band, and Miss Brown, manager, will run from long-song to standard classical pieces. The concert will take place in the football stadium and will start at 4 P.M.

During the corning on Friday night and the Coronation Ball on Saturday night the Collegians will play. Bob White, manager of the Collegians, stated that the orchestra has been working on some new and different types of arrangements. "It will be featured during the corning," he said. Among them will be a new Disney Disney arrangement of "Night and Day," something new will be featured for the Professional march for the occasion. This year the march is "Grand Rapids." White also stated that the Collegians have donated their time for the corning, to add to the building up of the Student Union fund.

Parking Space is Limited

The Cal Poly security department has been warning all visitors that once they "park their cars, they will be in their advantage to leave them there. Parking space on the campus is limited, and it may be difficult to find another place to park. An extra parking lot was opened at the southeast corner, and this is the closest place to the football stadium to park. Those who are unable to find a parking place in the southeast corner will be asked not to park by yellow sign posters or by black drainways with their cars.

Judges Announced for Fitting And Showing

Souvenirs Given By Machine Shop

Parking Space Limited

Cal Poly's machine shop of 1960 is PTing the corning to the public Poly Royal before 1947. Equipment and machines built by the students will be erected on the market. Whiting describes the old machine shop and the time he served there as one of his nightmares and he feels that the machine shop's modernization is a major step in Poly's growth in industrial and agricultural education.

Since the modernization in 1947, the shop has obtained a considerable machine shop, making it possible for Poly to compete with other professional institutions. The machine shop has obtained a pantograph machine, a die casting machine, a shearing machine, a bossing machine, and many more.

Many statistical information has been gathered from airlines and insurance companies relative to the machine shop's work. Information has been presented at the exhibit in a series of graphically illustrated posters. Containing the complicated structure of an airplane in the shape of a leaf, and the student guide, the Poly Royal has prepared a leaflet for Poly Royal highlights. This leaflet will be given to all visitors who have their names printed in the brochure, by a short lecture explaining the department's history, aims, and objectives. The display in the lower room are type cases, type forms, samples of student-printed books and type specimen books.

El Mustang was founded in 1946 as one of the earliest few degree printing courses. Cal Poly's "School for Country Printers" has progressed rapidly, according to Department Head A. H. Dewans.

Containing the complicated structure of an airplane in the shape of a leaf, and the student guide, the Poly Royal has prepared a leaflet for Poly Royal highlights. This leaflet will be given to all visitors who have their names printed in the brochure, by a short lecture explaining the department's history, aims, and objectives. The display in the lower room are type cases, type forms, samples of student-printed books and type specimen books.

El Mustang was founded in 1946 as one of the earliest few degree printing courses. Cal Poly's "School for Country Printers" has progressed rapidly, according to Department Head A. H. Dewans.

Dons, Mustangs Meet Today For First Time

Locals Miss Chance To Grab CCAA Lead In Split With Fresno State

Currently occupying second place in the CCAA standings, the Mustang baseball team takes time off from conference play today to engage the Dons from the University of San Francisco. The game will be played on the Poly diamond and is slated to begin at 3 p.m. and marks the first athletic contest of any kind between the two schools.

San Francisco is coached by Pete O'Neill, the same man who handles the basketball fortunes of the Dons. O'Neill has twice taken his teams to the National Invitational tournament and won the crown in 1967.

Stan Pottel, the Poly coach, has had the Mustangs in position to win all but one conference series this season. Mustangs' fortunes, however, have taken a turn for the worse in recent games.

Bonnet and Vernon Babernash from second base climaxed a hurling duel between the two teams with a homer for the visitors in the first inning. With the score 1-0, Babernash came around to score the winning run on a double hit by George Hays in the eighth.

The contest, played in an atmosphere of excitement, was evenly matched. Poly, however, was the victor 10-7. Seven errors were committed by the Dons, the local team, as they were enjoying prior to the match.

The Bulldog victory In the second contest with Fresno State, however, has been a welcome boost to the Poly fortunes. They were enjoying prior to the match.

Barnett, who was relieved by Dlok in the eighth, got three, one a homer by Hays in the eighth. Bonnet collected four hits, two singles and a double, and led the visitors to victory. He doubled in his first at bat.

John Welton received credit for the pitching victory in the opening contest with Fresno State. After giving up a run in the first inning, Welton yielded no more runs until the ninth, when he gave up a two-out double by Don German. However, he was able to hold the visitors in check for the rest of the game.

Jim German pitched the local team to victory today, overtaking the visitors, 10-7. German won last year. Kelly Hilton, Santos, completed the pitching duel and won 1-0 in the opening contest of the season.

Coach Hob Mott's Muatang will play their second contest with Fresno State today to engage the Dons from the University of San Francisco. The game will be played on the Poly diamond and is slated to begin at 3 p.m. and marks the first athletic contest of any kind between the two schools.

Joel Steffen shot a 72 to meet the Mustang golf team in a 37-0 victory over Fresno State. Barry Leidig added a 78 in the Poly golf contest and the team scored a 433.
"The Stretch" ... could easily be the nickname given to Don Lund, Mustang first baseman. The forey fielding first sacker will see action this afternoon against the University of San Francisco.

Last Poly Royal Game For Seven Seniors

Today's Poly Royal game will be the last of such contests for seven seniors graduating this June. Bob Coghlan, team captain, and second baseman; Vernon "Fink" Beford; shortstop; Bob McCutcheon, utility infielder; Gene "Due West" Fraser, centerfielder; and pitchers Don Garman, Russ Christensen and John Williams will be performing for the last time before a Poly Royal crowd.

It's interesting to note that all three games, beginning in 1948 against Pepperdine, have been the victims of the Mustangs.

The Mustangs have never lost one of these contests.

It's true that Poly has been out for its fourth straight Poly Royal victory.

Flag Now Flies Over Bleachers

Poly's diamond was dedicated in the 1947 contest. It's Quality that counts.

Don Garman ... one of the Mustangs hurling staff, is on the mound this afternoon for the locals against USC. This will be the final Poly Royal game for the stylish southpaw.

Tough Loss

San Jose Edges Mustang Tennis Team For Crown

San Jose won the northern division tennis crown of the CCAA by ousting Cal Poly, 9-6, in a series of closely contested matches held last Monday. It marked the second time the Spartans have defeated Coach Eugene Smith's this season.

The northerners ran up a 7-3 lead in the singles matches. This was followed by 4-0 in all three of the doubles. Poly lost the set to Poly, 6-4, by losing the first two doubles only to lose the third and deciding match.

Poly's team showed some of the best form this year. Bob Carlson and Bob Redden established themselves as the best doubles team in the conference with wins over Pepperdine and Santa Barbara.

Coach Smith friends that anybody more than San Diego will be one of the top men in the CCAA next year, if he continues to show improvement.

The Mustangs play their last home contest against Santa Barbara on May 6.

Several track and field events are held today for the locals against Poly.

For a laudable effort, Full of friendly collegiate atmosphere. And when the gang gathers around, too-cool Coca-Cola gets the call. For beer, as in college haunts everywhere—Coke belongs.

In Worcester, Massachusetts, one of the favorite spots of students at the College of the Holy Cross is the Day Room on the campus. There like the Day Room because it's a cheerful place—full of friendly collegiate atmosphere. And when the gang gathers around, too-cool Coca-Cola gets the call. For beer, as in college haunts everywhere—Coke belongs.

Radio Broadcasts

Stimulate Interest

Part of the crowd here today is here because they heard one or more of the "pre-Poly Royal" radio broadcasts over KMNS.

Twelve on-the-spot, tape-recorded programs featuring all departments of the college were broadcast over the two local radio stations from April 27 through April 30.

Kirby Robinson, electronics engineering student from Stockton, was in charge of the entire series. He planned, arranged all details and did the interviewing on all programs of the series. He received assistance from Technicians Bill Lidderdole and Murray Ritter, and Assistant Announcer Milton Brown.

The entire series used the voices of the Cal Poly radio news outlet under the direction of H. P. Davenport for its news and announcements. The series was in charge of the Cal Poly glee club under the background music. The tape received was courtesy of the music department.

Limited Parking Space Offers Problem To Faculty, Students

Due to the shortage of parking space on the campus during Poly Royal, the faculty, students, and employees are asked to leave their cars at home and camp today and to use Poly's garage if it is possible. The campus was completed, signed and ready for final occupancy. There will be no reserved parking for professors, students, or employees. As a result, no priority of sales will be the determining factor in outlining senior week activities.

There will be a senior assembly on May 11 in the Engineering auditorium at 11 a.m. People who have neglected to get their cap and gown may do so at the Book store, to be assured of a proper fitting at graduation.

 SENIOR CORNER

Senior Activity cards are now on sale and may be purchased from the representative of the respective department, or at the Student Body office. Cards will be on sale beginning May 5. All seniors should complete their application as soon as possible. There will be no sales of cards after May 7.

There will be a special assembly on May 11 in the Engineering auditorium at 11 a.m. People who have neglected to get their cap and gown may do so at the Book store, to be assured of a proper fitting at graduation.
