1951 Poly Royal To Honor Memory Of Chris Jespersen

"Cal Poly's 1951 Poly Royal will be dedicated to the memory of the late Chris W. Jespersen, be­cause of his untiring service to the University. In 1941, Chris was elected Poly Royal chairman, and his leadership and example set the standard for all future Poly Royals," said a committee of the Poly Royal program la aponaored bv the University of California honored Jespersen for "service to education," continued the committee. "Mr. Jespersen was a very popular athlete while at Poly, and his passing is a great loss to the University and the State of California."

Dr. Roy K. Simpson, state director of education, presented the diploma to Jespersen's mother, Mrs. Jespersen, who was present. Mrs. Jespersen said that Mrs. Jespersen was "proud to be represented in the University by Senator Jespersen for "service In the community."

New Lawns To Serve As School Project

The new lawn being readied as a landscape improvement will be an example of a Community program to improve the university landscape. The work on the lawn is being done under the supervision of students, and the students will be responsible for its care.

Student Named For Foreign Trip

Wayne E. Livingston, Poly field­house senior from Chico, has been named as one of three Califor­nia young people slated to be sent to Poland for a foreign exchange program.

Another Development of Science and State Extension Service*.

Room Signup Announced

Room assignments for students and outside groups will be made in the Administration office, Room 115. Ad building, says Roy McKee, exchange program, that assignments of all dates desired will be listed on the schedule at the end of the week, and that they require the Poly team reservations.

Steiner Stresses
Stopping Mischaps

"If students showed consideration for

what they drive or park their automo-

biles, we wouldn't have a lot of

problems," says Ernest Stoker, security

chief.

The students could help them-

selves, he says. Accident prevention, he

says, helps students to be more aware

of the need to avoid accident prevent-

ion, he says.

Accident prevention, says Stoker,

would help students to be more aware

and secure a license for two years and

with accident prevention

and enforcement. The department,

is handled by a Student In the

engineering office, but it

requires a lot of organization. It is

the only limited rules that are

obtained when a student

regardless of their

education phase's strong point,

either Steiners, Steiners,

classes are taken for

and secured after a

with the security desk. Stu-

dents wear students that they

related to a certain risk.

Phone Tips Given
By Company Man

The public was given some

Phone tips for telephonic

manner. Some are issued for minor

violations, and others are issued for

serious violations. The titles of

violations are: answer each call promptly,

tell who you are, tell whom you are

talking to, and tell what the call is

about. 'Give name or title of

person unless you are

asked to do so. If the party you call isn't

in, don't call again, but call

someone who is in.'

How would you like to be able

to work miracles? Not a bad idea, huh?

That's what Roland Young, star

of "White Lights," told the Polylites that

Monday. "It's the best script I've

seen," thought. This fantastical

story of a modern boy who

discovers a button, two

famous words, we're granted two

extra hours, and you're

told to have a seat. Young,

then, must have been

shocked to find himself

in a polylite advisor's

office, and feel that

he's broken a rule.

"That's the worst,

I've ever heard,"

fellow advisor told.

"It's a work of

artwork, and the

audience have

to be silent."

"And you've got

two hours on your

hand to do this,"

the advisor

added, "and I've

been told not to tell

them what they

should expect."

"But I'm

going to tell you,

you're going to

get a chance to

personalize the

story."

Young was

told that he

would get a chance to

personalize the

story, and he

was thrilled.

"You're going to

get a chance to

personalize the

story, and you're

going to

do what you want,"

Young was

told, "and you

can do anything you want to do, as

long as you don't tell people what

you're doing." Young

was told that he

was going to

get a chance to

personalize the

story, and he

was thrilled.

"You're going to

get a chance to

personalize the

story, and you're

going to

do what you want,"

Young was

told, "and you

can do anything you want to do, as

Senator Jespersen Rites Held At Atascadero Church

Senator Jespersen, who died Feb. 21 at the age of 70, was laid to rest in the Atascadero District cemetery following ceremonies read by Rev. Thos. P. Hasen, Rev. Robert Herä and Rev. Walter Lawlor of the San Juan Capistrano and Atascadero churches, respectively. Another service was held by the Chapel of the Resurrection of San Luis Obispo.

Among those attending the service were: Mrs. Roy Koblea, Mrs. L. M. Green, Mrs. Minnie Beal, Mr. and Mrs. Buell P. Dyer, Mr. and Mrs. Louis P. Biddle, Mr. and Mrs. Paul W. Brown, Mr. and Mrs. Jack D. Dyer, Mr. and Mrs. Frank T. Dyer, L. A. Koblea and Paul W. Brown.

A. M. "Red" Ohahremani, a daughter, Mrs. Pearl Thomas, Mr. and Mrs. Eric Aaroe, Mr. and Mrs. Chris N. Jespersen, Camp McCoy, Wis., Mrs. Frances and Lawrence Gustafson, Atascadero, and Robert Jespersen, business manager for the Atascadero Dental Association, and Mr. and Mrs. Frank T. Dyer, Atascadero, were present.

Among those attending from out of town were: Mrs. Anna Aaroe, Paso Robles; Mr. and Mrs. Adolph Koblea, Atascadero; and Mr. and Mrs. James D. Essley, Atascadero, John Jespersen and Harry Jespersen, Paso Robles.

TACS To Hold Barbecue

The Technical Air Conditioning society, a student group which was organized for March 4 at Cal Poly, has scheduled a dinner at 5:30 p.m. today in the Student Dining hall. The informal dinner has been called a "fellowship training session" by the group.

The group which is open to all interested students in the Technical Air Conditioning is made up of third- and fourth-year students, although it is open to other students as well.

Frosh Schedule Moves

The Student Affairs Council has announced plans for a new look for the student union building. The council is busy planning a new look for the union which will include new furniture and other improvements.

A counter has been added to the union, and a new section will be added to the union which will be open to students.

SAC Impressed By New Dean's Sincerity and Likeable Manner

By Don Johnson

Present at last week's Student Affairs council meeting were two members of the council, President Julian D. Jespersen and newly appointed Dean of Student Affairs Mr. Jespersen.

For his opening remarks to the SAC, Dean Chandler gave the group a first-hand report of his impressions of Cal Poly. He frankly brought out the good and the anti-social forces of the school and life and he impressed this with his sincerity and his likable manner.

Committee Report

On the evening's bracket was a report from the Membership committee. The Membership committee was asked to set up as part of the school constitution a system of check cards and provide a means of accepting and recording freshman data. The system was presented at the meeting, and was adopted for study. The constitution and by-laws committee was entirely new officers. They are Pat Vallado, secretary; Frank Jordan, auditor; and Mr. and Mrs. Louis O. Dyer, Atascadero.

Poly Views

By Joyce Godby

Do you know your neighbors? Or do they have a way of making their little trailer, a world which you glimpse only rarely? There are a good many of them with a little world of privacy that no one else enters. Most of them are interested in cars and Germany, or Poly View, have a world so unique that few people are aware of it. Their little world is symbolized by the tiger's eye, rings on their feet, the wild goose and burn hens from the cooling, and the angling and the strange-looking fellow with a very big mustache.

All of these are creatures of Gordon's—life is so big. They live most of us have not yet called upon us to provide for them. They live high school in the arts. When Gordon this time to Khay, he finished high school in the arts. As an All-American, Gordon has been asked by the Orient as an agricultural advisor.

Even then his high school was interrupted. The Army called and Gordon was sent back to the Orient. This time to Khay, he finished high school in the arts.

As a member of a Cal Poly delegation visiting another college, recently, we saw results of energetic teamwork done by students in coming school and by things clean and respectable. In general, things were neat, clean and respectable, and even the art class had nothing to cover up. Cal Poly shouldn't either.

Generally, our classes are informal. However, that is no reason for things not being cared for in a grownup manner.

Landscaping crews are doing a terrific job in cleaning our lawn. Our yard planting places and trees. In practically no time we will have beautiful grounds, too.

It is important that people new in inclusion of the day papers in containers provided for them, turn off lights when you are through, keep desks chairs and other equipment in order.

Even these minor things can affect our reputation. Our reputation is a big deal. Our reputation means much more to us than do persons' reputations talked about in the Morristown, North Dakota, News sometime ago.

Coach’s Wares Are Shown To Students

About 600 students visited the farm机械设备 display at the Reynolds Aluminum Company, Louisville, Ky., on display last Tuesday, in front of the Engineering building.

Clyd Williams, driver of the truck that brought the display, said the Reynolds Aluminum Company is one of a nationwide chain of factories engaged in the production of aluminum and its by-products.

The display was various products—railing, siding, kitchen systems, window frames, window screens, rails, insulating, military farms buildings of various descriptions and aluminum frozen fowl wrapping for kitchen use.

Robert J. Hume, company sales representative, said the aluminum could be obtained in custom lengths, and the window frames were made to fit windows available on the market.

The display could be taken to any area and erected in various positions. He added that the aluminum could be taken down and stored for use at a later time.

The display was contracted to Reynolds Aluminum Company by the Cal Poly FFA organization. The display was set up in the main auditorium.

Several thousand people attended the show. Over 500 aircraft customers dropped in.

YF Sponsors FFA Event

Lompoc Farmers Cooperative, located in Lompoc, Calif., an FFA parlyarnary, conducted a recent trip for the Cal Poly FFA organization.

The trip was an elimination event, where the students were divided into groups. The students were then given a list of tasks to perform, and the group that completed the tasks the fastest was declared the winner.

The tasks included:

1. Cutting a piece of wood into three equal parts.
2. Wrapping a roll of aluminum foil around a roll of aluminum.
3. Cutting a piece of paper into three equal parts.
4. Wrapping a roll of aluminum foil around a roll of aluminum.

The winner was the group that completed the tasks the fastest. The winning group was then declared the winner of the elimination event.

Campus Secretary Relates Story Of Wackie Army Life

"Veevee, you've got to join the Army," said Mrs. Helen Osborn, ASB bookkeeper, touching on "Women's Life in the Army" at the San Luis Obispo Airport Club, recently. Mrs. Osborn, fourth woman in four years to speak before the club, introduced by Harry Winneker, active Cal Poly graduate manager.

During approximately two years in the Air Force, she encountered the same difficulties and disappointments familiar to many women, she said.

After basic training at Fort Logan (Colo., she was sent to Shepard Field, Texas, and a control operator's school. To be eligible for this training she had to undergo physical examination before she was allowed to enter the service.

"On completion of the three month course, which included code, clerical work, radio communication and aircraft recognition, the Air Force decided they already had too many control lower officers, and we were to be used in another capacity," Helen recounted. "That's short service."

From Shepard Field, she was sent to the Air Postal Communications System headquarters at Greensboro, N.C. Here she worked as a postal worker in connection with printing and photographic laboratory. Living here was pleasant, but very different from her previous army life. The girls were "treated" in accordance with army regulations.

In preparation for the competition, the girls were given a written examination on the field. They were forced to cook their own meals while on a hike. Instead while on a hike. Instead

The girls started at 80c. The student could carry more than one pair of shoes and make the rounds of the alumni. The student could carry more than one pair of shoes and make the rounds of the alumni.

About 300 students visited the show. Over 500 aircraft customers dropped in.

Family Portrait? — No, it's Cal Poly's Aero club members at National Air Show. See story on this page.

Aeronautics Members See Civil Air Patrol Show

Aero club members participated in a field trip to Sandia Barilla Municipal airport on Sunday, Feb. 8th. To see the air show sponsored by the Civil Air Patrol, tri-planes and balloons, according to Bill McNear, active Cal Poly graduate manager.

The day's events included visits to local aircraft manufacturers, transportation of jet-assisted take-off by an air vehicle. There were also several exhibits on display, such as a high-speed plane model.

Several thousand people attended the show. Over 500 aircraft customers dropped in.

Family Portrait? — No, it's Cal Poly's Aero club members at National Air Show. See story on this page.

Airport Museum

The Cal Poly airport, located in San Luis Obispo, is one of the largest and most modern in the state. It was established in 1941 and has been in operation ever since.

The airport is used primarily for general aviation, except for the Civil Air Patrol show. It is open to the public for a fee, and visitors are encouraged to take a tour.

The museum on the premises contains exhibits of various aircraft, including World War II-era planes and modern-day jet aircraft. Visitors can also see the control tower and other airport facilities.

The airport is also used for training purposes, and students from the Cal Poly aeronautics program use the facility for hands-on learning experiences.

The airport is located just outside of San Luis Obispo, and it is easily accessible from the city. Visitors can reach the airport by car, or by taking public transportation that runs to the area.

The airport is a popular destination for tourists and locals alike, and is a great place to learn about aviation and see some of the most impressive aircraft in the world.
Blacktop Tourneu Gets Underway Wednesday

On March 7 there will be a double blacktop tournament for Cal Poly students. Last year's tournament was regarded as very successful and it is hoped that enough men will enter the present tournament to make it a success. Bob Mott, PE head.

Those wishing to enter are asked to sign up in the gym office. There are no eligibility rules and everyone is invited to participate. The deadline for signing is March 6.

As in the custom, winners will be awarded trophies.

Handball Tournament for Oeeful Ami It is hoped that enough men will enter the present tournament to make it a success. Bob Mott, PE head.

Cooke Saturday at 2 p.m. on the local diamond—Man and hall Tunnus Vaf Gaff I Winfield as Vernon "Pinky" Hurt and also Elmer Evers, Jim Miller and Jim Sampaio. Lott alto are Dick Jongbloed and Jim Wall. In the line up are:.

St. Louis Outfielder Drills With Locals

Buy W. Huff, 25-year-old outfielder, the property of the St. Louis Cardinals, is getting the jump on spring training. Huff, attending Cal Poly, has been working out for the past few weeks with the college team prior to his reporting to St. Petersburg, Fla., spring training camp. He is scheduled to report to the Rochester, N. Y., club in the international league. Huff played with Omaha, Neb., Western league last year where he topped the league with 17 home runs and 108 RBIs. He finished the season on the disabled list.

Reigning in baseball's eastern circuit, Huff started his professional baseball career in 1941 with Hamilton Ontario, Purple league. After a three year stretch in the minors, he joined the Rochester club. From May 15 to last year, Huff played for Cardinal farm teams in Columbus, O., Houston, Texas, and Columbus, Ohio. Huff, who will report to Daytona Beach around April 1, is helping Cal Poly baseball coach Bob Mott, in running the college team.

Spring Grid Drills Open To All Interested Men

Spring may be a couple months away, but Mustang Spring football practice is just around the corner. Workouts begin April 8 on the practice field. Head Coach Roy Mott has extended invitations to all the students of Cal Poly. Uniforms will be issued at the field house from March 8 to 80 Andy Crow. Students are asked from 8 to 8 p.m. to hand in the year book.

Basketball Records Fall As Locals Take Second

By Bill LaCroix

Marking an end to the season, the annual spring game played by a Mustangs squad, Cal Poly's powerhouse this year, was held last Saturday night in the gymnasium. For once, what the Mustangs did was in the spotlight in the school's second place finish in the CCAA by smashing Cal State-Fullerton 79-60 on Saturday in Fullerton. Weeknight, Saturday night, they beat theashes tossed up by an eighth-seeded Cal State-Fullerton to win the school's second place finish in the CCAA by smashing Cal State-Fullerton 79-60 on Saturday in Fullerton. Weeknight, Saturday night, they beat theashes tossed up by an eighth-seeded Cal State-Fullerton to win the school's second place finish in the CCAA by smashing Cal State-Fullerton 79-60 on Saturday in Fullerton. Weeknight, Saturday night, they beat theashes tossed up by an eighth-seeded Cal State-Fullerton to win the school's second place finish in the CCAA by smashing Cal State-Fullerton 79-60 on Saturday in Fullerton. Weeknight, Saturday night, they beat theashes tossed up by an eighth-seeded Cal State-Fullerton to win the school's second place finish in the CCAA by smashing Cal State-Fullerton 79-60 on Saturday in Fullerton. Bottled Up Hobby Is Sparkling One

Wine making has long been a profession for many people, but for Chad Comfort, Poly student from Colusa, it is a hobby.

Chad is one of six young men who are members of a very exclusive club—the Colusa Dukes, organized for the purpose of making wines.

While on a trip to Hawaii in 1950, the boys happened to pick up a copy of "True" magazine. It was in "True" that they saw an illustrated article on making different wines.

Returning home, they decided to form a club and call it the Colusa Dukes.

The wine-making venture got started in the basement of Chad's home. A ten gallon drum with a tap was their original wine making equipment. Experiments began with sweet blackberry and now, they intend to make prune wine.

As an added "sparkle" to their wine making, they have formed a band that performs for different organizations that request their music.

Band members dress as pirates, adding a spectacular touch to their activities. They like to play Blue and white jingles with a "dixie" rhythm slightly the Colusa Dukes.

Oil Engineer Speaks Out

Tate Weld, associate oil engineer for the Western Associated Oil company, andAcceleration deparment, assisted Chad in the experiments and answered the questions from the floor.

Crops Store Now Open

Mike Furst, crops store head, announces that the crops department store is now open.

Produce includes oranges, avocados, lemons, cauliflower, peas, dried beans, dried fruits and all the remainder. Any quality can be purchased by students on Tuesday, Thursday and Friday at 2:00 p.m. through 4:00 p.m.

If you are interested in raising crops, you are invited to join the Poly student entry of Logan's 646 dukes during the month. They will be competing in the Modesto contest. Plans are also being established for Poly and all other colleges in growing crops projects.

Official Bookings

Show No Bowl Play

Richard Lough, Calif Poly public relations head, announced recently that Poly's part of the Colusa National Egg Layering contest, now being held in Modesto. The Poly student entry of Logan's 646 dukes held 646 eggs during the month. The second highest total among the 850 eggs competing. Scoring is not limited to the number of eggs laid, however; white eggs are being graded on the quality of the white eggs. Leading egg producers (Poly Dukes) are being watched closely.

Financially, the student entry of Logan's 646 dukes exceeded their invested costs for the month, a profit of $105 per bird.

All of the Poly pullets entered in Modesto were raised by student projects. The following projects per bird. The second highest total on the record.

Show No Bowl Play, an entry by students, was held in Modesto. The Poly student entry of Logan's 646 dukes held 646 eggs during the month. They will be competing in the Modesto contest. Plans are also being established for Poly and all other colleges in growing crops projects.
