The group left eus by serious weather and bllaaards in Michigan on Sunday to arrive in balmy San Lulul.

The purpose of studying Cal Poly's fund-raising corporation; Glen mathematics and science, Nancy W. familiar with the practical angle. She was impressed with the practical angle and visit to the most colorful spot in the Grand Traverse area of Michigan left San Luis Obispo recently by plane after two days of consultation with administration, faculty and students at Cal Poly.

The group left under weather and bllaaards in Michigan on Monday for the specific day to arrive in balmy San Lulul.

Attention PL 16 Vets

APLU will be at the counseling center for the Poly student body to turn in. According to the next few days should show visible progress to take place. The next few days should show visible progress to take place.
The story discusses the activities of a Poly husbandry major in partnership with three other Poly students. The students, including Waltke, Santa Barbara, left, and Chuck Eason, right, are involved in feeding a fat steer at San Francisco's Cow Palace. Don Samsonite is also mentioned.

The story also mentions a prank involving the Poly Rodeo club. The club was required to repair the damage done at a cost of approximately $85 to the student body, with only 10 members of the frosh class being required to pay for it.

The story concludes with a note about the Poly State college room over for a foot. The Poly Rodeo enjoyed and served as a sort of traditional homecoming float. A tie was recorded in the result of this very carefully planned stunt for Fresno State College. The result of this very carefully planned prank, not 10, but 08 members of our frosh class were required to pay for it.

The story also mentions the Homecoming Float, which was submitted by the Poly Rodeo club. Henson given for not being a Booster member.

The story also includes a message from the Head of the Poly Boosters, asking for donations for the Homecoming Float.

The story ends with a note about the Poly Mustang Booster club, which will be the end result. It is the only comment I would like to make. There are many ways you can help the Poly Mustang Booster club. I am not condoning our actions, but it is in our interest to do this thing. I think that most of the ill-will between the two schools is mainly a result of lack of knowledge and understanding of what may be remedied. The fact that most of our students don't understand the true facts of the situation is simply not enough. We need to do something to help the Poly Mustang Booster club.

El Rodeo "Who's Who" Is Investigated

By John Matte

Strictly on a reporter's basis, I ventured into the El Rodeo office, eager, anticipating a story on our student director. I found Ringmaster Bob Stein, a San Dimas transfer, who, for some reason claims the town of Burbank as home, was introducing to me a little help in the art of nose powdering from her attendant. Left to right are: Donna Burton, Estelle Dooley, Marion Doud, Pauline Moore, Queen Nancy, Miriam Nye, Fran Adams, Norma Consenstein and Sally Eckrote.

Campus Interviews on Cigarette Tests

You have to get up early in the morning to put one over on this cock-of-the-walk! When it came to making "quick-lick" experiments of cigarette mildness, he stated flatly, "That's strictly for clucks!" How ya going to keep 'em down on the farm—when they know there's one convincing way to prove cigarette mildness!

"It's the sensible test . . . the 30-day Camel Mildness Test, which simply asks you to try Camels as a steady smoke—on a day after day basis. No snap judgments. Once you're enjoyed Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why . . . .

After all the Mildness Tests . . .

Camel leads all other brands by billions
EL MUSTANG

This and Then Some

By Mattie

Hello! I’m given our grade a thorough wel­come, I should be able to wander to further notes and discuss these with you.

Fellow came running into my office the other day, I was in the middle of a battle, the way he was working, I thought that I was going to have a hard time getting my work done. Suddenly, he started beating me with a soup bowl, followed by a bag of sugar. We had a real good laugh together.

You think it’s a trick to keep the kids quiet, but when the kids can’t handle it, they need help. I don’t like your columns.

Dear Old Look

When I’ managed to wash my face, straighten the clutter, and add a dash of toilet water, I said, “Neither, but you don’t have to go to that length about it.”

Then the guy said, “I think I’s a waste of ink, Tarry in the room.”

What I’m wondering—is what he was refer­ring to? If he judges my typewriter ribbon, he should be informed that this ribbon is a three-year supply. I recently removed from the building in the shape of a few feet I’ll have to do. If the paper wants to check my fingerprints, I can let him have my gallery number.

There again, I suppose he could have been refer­ring to the printing ink. That printing ink is quite a place. You know the printers have a new gag song that is sung to the tune of “Beautiful, Beautiful, Beautiful,” etc. I’ve heard it.

It goes like this, “Down the printing press he goes forever. Fall in his shoes at the press. The very first words he muttered were—help, the printing press is mine.”

Noticed that one of the printing boys paid for a couple of years—paid for his job. I never saw any­thing so fine. We must watch the quality of workmanship.
For Former Education Major Gives

Thanks For Teacher Training

By Irving Mann

"Student teaching is the most important type of courses to prepare one for work in the educa
tional field," says Jack Albright, chairman. "Joe is teaching his first year in high school in Oceansi
side, where he is one of a faculty of six. There are no textbooks in Bob's classes, they are all
presented verbally by him." Albright, who describes teaching as "one
capital among all the others in the field of
education," points out that teaching requires
confidential confidence and faith as well for a
9th grade student who needs one of these.

In course of education which have

One of the most valuable things I learned was where to find up-to-date materials and how, where and what in order to supply.

"In other words, if you don't know the answer, college teaches you how and where to find it." "That's called, "He says, "the first year haircut."" You tell the students this is one of the hardest and you really have to take this approach because there are so many students who wish to talk continuously." Brown says.

Brown teaches a number of Latin-American students whose knowledge of English is somewhat poor, and they present a problem because of their lack of comprehension of the English language. "I have explained to students on understanding with certain students, "he explains, "for example, last year Mr. Brown did not make up an English final, but he did it very well in Groups." There are some boys who always rush to sit in groups with their friends, and Brown failed to break up such combinations because he did not want to "demoralise" the students. "I made a seating chart to split up the unruly students. Many students come and just sit all the time, Brown says. As a discipline measure, Brown gives assignments to be done at

The objective of all training at Cal Poly is to prepare the student for useful employment and for useful citizenship.

For the next meeting slated for Nov. 26.

Gauchos Invade Polyd

Mustangs Labeled Underdogs For Homecoming Tilt

By Bob Strohm

Two fiercely determined football teams will collide tomorrow night at 8 p.m. when the Gauchos of Santa Barbara college meet the green and gold line (the famed Poly Mustangs) in Poly stadium.

Of particular significance in this fact, it's Cal Poly's Homecoming celebration. The Mustangs will see a first class argument that should provide plenty of rock 'em, sock 'em football.

Just as so many times before, the Mustangs enter this contest the underdogs. Santa Barbara has compiled a favorable record in its first six games this year, winning four and dropping two. Poly has not been as impressive — winning three, losing three, and batting once to a stand-off.

First Gauchos CCAA Title

This will be the Gauchos' initial CCAAiframe. They'll want something better than to fill up on a running back's tail. They'll want to win this one.

That's what all this is about. Victory over the Gauchos is a most cherished gift to the Poly student body and the homecoming alumni who would like nothing better than to see the man from Channel City wear the colors of Alma Mater.

Santa Barbara offers Doug Gearie as their main cargo at the awarding banquet. He's their man. Operating from right half, Doug has galloped for 864 yards net in six games this season. All CCAA halfback who has scored half of the 2700 total yards set in six games this season. Right halfback Dave Gearie will be the right halfback. Being sharp, probably giving the Mustangs a running back problem and quicks.

Backs Targeted

In the line, the Gauchos have three tackles facing the group. Leading the group is Corby Johnson, 235-pound tackle who should have nothing better than to see the man from Channel City wear the colors of Alma Mater.

The Mustangs possess the leading backfield man in Alexander Brazil, 180-pound halfback who set the Poly rushing total for three consecutive games. The Gauchos will have to contain Brazil or the horses will be eating hammer.

Neat Will Start

If you appear that young (18, 19, 20, 21) boys seem to have the lead in football, it's probably because the 18 year old Alex Brazil has completed nine of his 28 passes this season. Brazil has appeared to be making his own in college ball. A walk on the Poly backfield, it seems all Neat needed was some experience.

Poly scored 72 points in football against Mormon 72 in 1950. This is about the same point difference left by the Mustangs in football.
Tri Beta Group Awaits Approval

Provisional negotiations are under- way on an agreement with the Society of Sigma Xi. The proposal would formally associate Tri Beta with Sigma Xi, an international fraternity of scientists, providing financial aid for science-oriented majors and students.

Construction of the structures has been approved for several weeks because of the lack of the essential materials. New temporary dorms are going up at a fast rate behind Little Cafeteria. Between the old dormitories.

"At the present rate of construction, it seems very likely that students will be able to move into the temporary housing units by early January," Everett M. Chandler, dean of students, said.

Major C. C. Desio reports that there are 1,136 students living on campus and 1,001 off.

Five temporary structures will house 850 students and have rest- tiling and composition rooftops. A re-location parking lot will also be established.

Quick, Ma, My Longies

Red Fashioned, ICC dance chairman, advises everyone to put on long underwear if they plan to attend the Homecoming dance at the center of campus. A dress of the dancers theme— an ice-cream-eau.

Students may obtain information concerning job opportunities from the bulletin boards, their ad- visors, the Cal Poly or from the Placement office.

Post Office Recruits Man for Christmas Work

Post Offices throughout the state are now recruiting part-time employees for the Christmas rush. Mr. Jones, Placement Officer, suggests that students contact the Postmaster in their home town immediately if they are interested in obtaining temporary em- ployment. The vacation is from December 17 to January 2.

Students may obtain information concerning job opportunities from the bulletin boards, their ad- visors, the Cal Poly or from the Placement office.
