Poly Boasts Holiday Victory Over Big Ten

Cal Poly was the only West Coast college that could boast a victory over New Year's Day. The Proud Mustangs were quick to point out that the Poly float was the most beautiful in the Tournament of Roses parade on Jan. 1, honored by Illinois by taking first prize in the educational division.

After several million people lined the streets to watch the parade while others listened to the floats on radio, or watched it on television, or heard it during the radio parade, the Poly float was voted the best by the judges. The float was designed by Warren Morrison and built by the Poly men under the direction of Professor Elmer E. Kline.

The float was designed to represent a Free World Through Education, which was the theme of the Tournament of Roses in 1942. The float was entered by the California State Polytechnic College as a part of the educational division.

The float was designed to be a replica of the United Nations building in New York City. The building was constructed of wood and paper and was covered with plastic. The float was decorated with flowers and other items that represented the different countries that were members of the United Nations.

The float was pulled by a team of six horses and was accompanied by a brass band. The music played during the parade was designed to represent the different countries that were members of the United Nations.

The float was a popular attraction during the parade and was voted the best by the judges. The float was a reminder of the important role that education plays in creating a Free World through education.
Campus Interviews on Cigarette Tests

No. 31...THE MOUNTAIN GOAT

He thought they were trying to make him the butt-end of a joke when he was asked to judge cigarette mildness with a mere puff of one brand and a quick sniff of another. The fancy foot-work didn’t dazzle him! He knew that the pinnacle of pleasure comes from steady smoking...and that is only one test that gives you enough time to permit conclusive proof. Smokers throughout America have made the same decision!

It’s the sensible test...the 30-Day Camel Mildness Test, which simply asks you to try Camel on a day-after-day, pack-after-pack basis. No snap judgments! Once you’ve tried Camel for 30 days in your "T-Zone" (T for Throat, T for Taste), you’ll see why...

After all the Mildness Tests... Camel leads all other brands by billions

Mrs. Lavina Penley

Kellogg Campus Head Librarian Retires; Plans To Read Books

Sharing something of a record 37 years of library work—Mrs. Lavina Penley, head librarian at Cal Poly's Voorhies-Kellogg campus, began her retirement Jan. 2.

Mrs. Penley, who resides in Pomona, served as librarian for the Pomona Public Schools for 18 years, and for Cal Poly for five years.

She announced that she plans to spend her well-earned free time "Just like any other librarian—reading books and visiting libraries." She hopes to make at least one visit to a library with which she has had more dealings—on Cal Poly's northern campus.

Mrs. Penley was born in Indiana and moved to Pomona when a small child. She has many memories of the town in its early days and the rapid growth of the college. She is succeeded as head librarian by Miss Ruth HofT, formerly of Los Angeles.

Mrs. Penley joined the staff at Cal Poly in 1940 and helped to build the college library to keep pace with the growth of the college. She is succeeded as head librarian by Miss Ruth HofT, formerly of Los Angeles.

New Coffee Cups Here; Plastic Dishes On Way

Look sharp! Fast sharp!

According to many students, this describes the new coffee cups at Cal Poly. Not only do the new cups look better, but they also are more practical, says Harry Winemuth, graduate manager. The cups fit into the dishwasher better and come out cleaner.

In addition to the cups, plastic dishes will soon make their appearance. Thousands have been ordered and should be here within two weeks, says Winemuth.

SAC Aims For Future Improvements

Kenneth Alsworthy reported at Tuesday night's Student Affairs council meeting that ground has been leveled for the new student pavilion. It will be near a corner of the 8x2 test lab. The building will accommodate two or three cars for repair; it will be of permanent construction with concrete floor, wooden frame, and corrugated metal sides and roof. The garage will be built by James Mannson and Clyde Rouman's automotive engineering classes.

William Houston, SAC adviser, said that his recommendation that "Green and Gold" be sung after basketball games. Pat Valentine added that the teams should stay on the floor until the alma mater is over. To settle a discussion of whether "All Hail" should be sung at the beginning, half-time or end of the game, Bob McBain proposed to open with the fight song and sing with the alma mater. Student Body President Verner Maze instructed yell leader McBain to lead the songs and contact Coach Ed Jorgensen about the teams.

The newly Royal activities code was unanimously approved. In response to questions about the recent football awards assembly, Activities Officer Dan Lawrence pointed out that student time would never again be taken for such a purpose. He also pointed out that individuals who want post assemblies to attend the assembly committee meeting Jan 8 at 4 p.m., in Ad. 807.

B. F. Goodrich Graduate Manager Harry Wineberg's recommendation that all Poly remain an associate member for an annual dues of the Association.

Typist List Proposed
For Those Projects

Owen Servatlua, head of the general office, revealed today that the general office is compiling a list of typists interested in typing these.

According to Servatlua the list of typists is very small at the present time and therefore there is no opportunity for student's wives or anyone else who is interested.

People interested in having their names placed on the proposed list may contact Servatlua at extension 812.

EL Corral book store, smoke shop, and fountain employs 11 students. "The collective monthly salaries which help these students secure an education amounts to $1189.77," reports graduate manager Harry Winermon.

In 1940 the State Board of Education authorized Poly to grant the Bachelor of Science degree for completion of the four-year curricula. The first baccalaureate exercises were held in 1946.

Cal Poly now offers students a year-round insurance policy which is handled by one of the leading Insurers. From just 15 cents per month, students can obtain insurance to cost $1.25 per year.

HUGHES
COOPERATIVE PLAN
for
MASTER OF SCIENCE DEGREES

PURPOSE
To assist outstanding BS graduates in obtaining their Master of Science Degree while employed in industry and making a significant contribution to important military work.

ELIGIBILITY
June 1932 graduates receiving BS degrees in the following fields:
- Aeronautical Engineering
- Electrical Engineering
- Electronic Engineering
- Mechanical Engineering
- Aeronautical Engineering

Those chosen to participate in this plan will be from the upper portion of their graduating class or will have evidenced unusual technical ability. They must also have evidenced imaginative ability and possess personal qualities enabling them to work well with others.

CITIZENSHIP
Applicants must be United States citizens due to their work at Hughes Research and Development Laboratories being a classified nature.

PARTICIPATING UNIVERSITIES
- The University of California at Los Angeles
- The University of Southern California
- The California Institute of Technology

Tuition at either UCLA or USC, covering the required number of units necessary to obtain a Master's Degree, will be paid by Hughes Research and Development Laboratories.

NUMBER OF AWARDS
Approximately one hundred Cooperative Awards shall be made each year, if sufficient qualified candidates present themselves.

SELECTION OF CANDIDATES
Candidates will be selected by a committee of representation composed of two each from the University of California at Los Angeles, the University of Southern California, and the Hughes Research and Development Laboratories.

DATES FOR APPLYING
Informal applications should be mailed prior to January 50, 1952. The Laboratories will then forward formal applications to the candidates, which should be returned, accompanied by up-to-date grades running through February 19, 1952. Selections will be made during the month of March.

ADDRESS CORRESPONDENCE TO

New Year’s Resolutions

Welcome back (or to) Cal Poly.

With the advent of the new year we of the editorial staff made up a whole flock of resolutions. Just how long these vows will be kept depends upon (as they say in the army) the situation and the terrain. This means that they will probably go out the window along about the middle of next month. Maybe sooner.

Here is our list, read it and snicker:

1. No more cutting classes just so we can get El Mustang out.
2. No more cutting classes just so we can sleep.
3. No more using ponies on exams. The West Point story taught us a lesson.
4. To keep off probation for a change. It would be nice to see who would appear on the president’s list which we run every quarter.
5. To find a girl friend in this monastery, we’ll continue to advocate coeducation.
6. To give Steinby and his boys a better break.
7. To pass Math 4.
8. To save a few dollars. Just how this is to be accomplished on this pitifully paid in this community remains a mystery.
9. To write thank you Christmas cards before we graduate.
10. Not to go through another New Year’s eve in the same manner as the last one.

We’ve said it and we’ve said it. A 10 percent fulfillment of this program will be considered an accomplishment surpassed only by the development of the H-bomb.

Money In Your Pockets

Advertising in El Mustang pays. Not just the advertiser, not just El Mustang, but you the student.

True, the money obtained by advertising goes to El Mustang, but this is what makes El Mustang pay its own way. It does not require money from the hard pressed student body budget, made up from your membership payments.

More important are the actual savings you can make by checking the ads before you buy. Many of these ads offer merchandise to Poly students at special prices, sales prices that usually are not offered to any other group of readers or listeners.

A couple of examples in this issue can be found in the Mustang Tire and Auto ad, where Poly students only are offered a chance to save on tires purchase, and the Hughes Aircraft company ad, which offers combined job and graduate educational opportunities to engineering majors. Often you will run across special prices on meat tickets, automobile supplies and services, clothing, groceries, laundry, household items and many others. Look them over, now.

El Mustang advertisers want to serve El Mustang readers. A man willing to invest money in you on more is likely to give you speedy, courteous and fair treatment in filling your needs and desires.

This and Then Some

By Mette

Our last major vacation finished for the academic year, went for a week to see the sights. An added thrill is that we’ve struggled through the obstacles course and are ready to face the teachers.

Returning to school is registering on Thursday, this plane is on Friday, invited to meet the student. Just as well as the student. It might be comparable to a new student in a new class, getting everything all over again. It is a shame, though, that some students must feel this way, and a shame, too, that some teachers seem to feel this way, too.

The Downbeat

By Don Perry

1952 is here. First week of winter quarter is behind us. What does this mean? About 10 short.

Weeks ‘til your musical ambitions fade towards the Northern California area known as the San Francisco Bay area. As promised last quarter, we will take the opportunity of this 11th annual tour.

Between now and March 28 the music room and the students involved will be working hard.

Don’t be stupefied and walk off and chucked under the direction of Jim Webster and Bob Schuette. You’ll be given a chance to play for dances during this quarter.

A musical group is directed, composed and development of a musical organization which can perform as well as it can do last year.

Over all these are the leaders of the various groups, including as of the Collegians, Rallesh McMeekin, glee club director: the Collegians, the people who have been around the quarter for the last time:

Cynthia Ford, chairman of the music board of control, and the others.

Letters to the Editor

Waite Me Around Again, Willie

Dear Editor:

In regards to your Letter to Editor column of Nov. 28, I was very much pleased by the seemingly poor selection of dance quotas as pointed out by one student.

But, I think the Collegians played a more balanced musical selection than at earlier colleges where it has been mostly, we say. Good God.

Perhaps a gymnastics course taught musicians and art classes the year before could be a better, or maybe a more accurate one. It might be a good idea to get some people from the dance. When it comes to music you also find people that like it and people that don’t for no matter what you are doing, play for dances during this quarter.

As a point of interest, one is development of a musical organization which can perform as well as it can do last year.

Bill McNab

Veteran’s Corner

By Ernest Bester

World War II veterans who have returned to active duty and who were disabled after the outbreak of that war are eligible for assistance under a new law.

Veterans who have been discharged under a vocational training under a recent law, even though they might have already trained under the GI bill or GI Bill, the VA said today.

Provision for additional training for World War II veterans was included in a law passed late in 1950 and amended last October. Under that law, veterans who received service-connected disabilities after Feb. 27, 1951, may take training if they so desire in order to improve the handicap of those disabilities.

In determining whether ex-GI bill or GI bill, the VA will administer the new law.

The veteran’s recent record of advancement by any of a number of VA-administered benefits.

To be eligible, the veteran must have at least 50 percent of his disability. A number of VA-administered benefits.

A veteran who received service-connected disabilities after Feb. 27, 1951, may take training if they so desire in order to improve the handicap of those disabilities.

Beth McManus

Editor's Note: "Seems the poor Collegians can’t wait. Last year, the Collegians at this time was too fast for us all. Next year, next year they can get it half fast, half slow."

Wives’ Fund To Put Some Hubby Thru
A scholarship fund for a married student is the big project planned by the Students’ Wives’ club for this year, says Elaine Dooley, "Cal Poly Better" in this week's Columbus issue.

The scholarship is to be awarded to a married student in need who cannot otherwise, apply for a similar award. A designee of the club will award the scholarship to the average married student. The club plans to make the first fund raising event planned for the club in a dinner dancing at 7 p.m. on Friday with all women's clubs of San Luis Obispo to be invited. "We only hope the support given is as successful as our first couple projects," says Mrs. Dooley.

Under the present club meeting, held Jan. 8, had John Jones, club president, Bert Fellows, printing head, and Phil McIlrath, Poly president, as guests. They were first of a series of speakers in alternate Poly wives as to where's the focus on the campus.

Ex-Editor On Magazine
Phil Keyes, El Mustang editor in 1948-49, has just been named editor of the California Photographic Society magazine. Keyes is in acting editor and several awards on college publications. The magazine's address is 3304 Pitman St., Berkeley, California.

See Life At The Seashore
When The Tide Goes Out

By Detolle Dooley

"Between Pacific Tides" by Ricketts and Calvin-published by Stanford University press.

"The amazing wealth of life that occurs between the upper and lower limits of the tide pools is a phenomenon of intense interest to the biologist, and an amazing sight to the layman," observes H. Frank Emery, brilliant, colored algal life and animals that the most casual visitor to the seashore can easily see on a tide pool of the beach.

"Almost invariably the curiosity is aroused. Is that gorgeous purple or yellow or blue alga a type of plant or an animal? What does it eat? How does it defend itself and reproduce its kind? Will it hurt me if I touch it?"

"Flora Or Fight"

And while the visitor is puzzling over his first sea anemone, a score of crabs may scurry away at his football or may ray up and offer battle. In defense of their home, when they watch the chances they may see a bed of yellow rock crabs burrowing and half concealed by bits of seaweed.

He may stop to pick up a snail, only to have the creature roll off the rock at the approach of his hands. It moves slowly, yet seems to scramble away at a very un-snail-like pace. He hears grumbling sounds and clicks and bulldozings, perhaps, maybe he has new plants, lots of water shoot up, everywhere, there in color, its movement.

"Curiosity Aroused"

This book of Ricketts and Calvin clearly shows us how to find by study, observation, and experiment, "an easily accessible group. At the end of the second chapter there is a huge green anemone and a border of sea urchins. "It has a lot of long surges and some experience writing for high school and talk to John Healey, news bureau supervisor, about a staff job on El Mustang. There are several staff positions and both newpaper have the same invitation to students.

"Almost Invariably the curiosity is aroused. Is that gorgeous purple or yellow or blue alga a type of plant or an animal? What does it eat? How does it defend itself and reproduce its kind? Will it hurt me if I touch it?"

Marines, Aztecs
Host Local Cagers Tonight, Saturday
Coach Dan Lynch of St. Francis college, New York, says a team should "not hit the road" if it wants to make a trip worth while. But what Cal Poly will do this weekend when they play the Camp Pendleton Marines and the San Diego Aztecs tonight and Saturday, Poly makes the journey southward with a road record of 6-0, no lose.

Coach George "Tiny" Draper's Fighting Cock's Aztec's who holdpoly tomorrow, start with an inexperienced squad and had a lot of absences. Coming in hot, however, is the Cal Polysenior class of Don Watts.

SANTA BARBARANS Lead Dukes Wins
The Santa Barbara Mustangs, lead by former USC, Bob McCutcheon, shared 17 points, Snyder, Rudy Llmon and Center Dimas; and Carl Boosinger ef Ohio, Utah Griffin, a transfer from Sea Dimas; and Carl Boosinger ef Ohio, Utah Griffin, a transfer from Sea

Ed Nichols Leads Mustang Scoring
Forward Ed Nichols, who finished the 1951-52 basketball season at the top of the conference, was named the Mustangs' outstanding player. He averaged 10 points per game, 10 markers in each tilt.

San Francisco State, San--------------

Most of the conference matches played on Friday afternoons, but they have not been completed.

Every Saturday the Mustangs will play the team that is situated furthest south on the ladder.

A southern trip is also planned.

The season will end with the conference championships, which will be held in San Francisco in the first week in June at Santa Barbara. Medal play will be utilised In dual competition.

A southern trip is also planned.

On the road with the Mustangs:

Lolo Soldano, Ava

Moving Lolo will be Kay Ruegg, transferred from Fullerton, to be one of the top players on the team and was a consistent scorer. Ruegg and Soldano will lead the team, with newcomers making the Mustangs a strong team.

Transfer Prospective
An attractive prospect for Poly in Whale is that of former USC, George "Tiny" Draper, a transfer from Fullerton, to be a pitcher from Delphi, Indiana, of the team.

Coach Watts encourages anyone who feels he can shoot a golf ball to try out for the team in February when the tournaments will be held on the ladder.

The conference matches will start in mid-February, with the team meeting each of the leading teams at least twice before the CCAA championship tournament is held in February when they'll compete for the NCAA championship.

A southern trip is also planned.

For camping trips, George "Tiny" Draper, a transfer from Fullerton, to be a pitcher from Delphi, Indiana, of the team.

On the road with the Mustangs:

Lolo Soldano, Ava

Moving Lolo will be Kay Ruegg, transferred from Fullerton, to be one of the top players on the team and was a consistent scorer. Ruegg and Soldano will lead the team, with newcomers making the Mustangs a strong team.

Inter-class Swim Meet Slated
For Jan. 30, 31

With Cal Poly's physical education department's winter sports program getting under way, Coach Dick Anderson has announced plans for an inter-class swim meet.

The meet will be held Jan. 30-31. Preliminaries will be held Jan. 30, and finals, January 31. Eight p.m. will be the starting time for both nights.

Anderson reveals that four teams will compete. Preliminary swimmers will be drawn up on teams from the four night loops. The four teams will be:

Tennis Listed
1. Evergreen
2. Rolling hills
3. Poly
4. Mariner

The meet will be held at the 200-yard freestyle relay, breast stroke, 100-yard breast-stroke, 200-yard back stroke, and 100-yard butterfly.

Admissions for the meet will be free and the meet will be open to the public.

George Pepperdine college went out to meet Poly's some-new some-old courts.

Alameda NAS Wins
From Mustang Grapplers, 23-18

Alameda Naval Air station heavyweight Ray Smith pinned Poly heavyweight Ed Hill to break an 18-18 deadlock and to give the Navy a 25-18 victory last Saturday night.

Poly took the lead before the matches started via forfeit of the 138-pound weight by Alameda.

Navy took two exhibitions from Poly and grouped among themselves. Following the matches, the teams began wrestling for points. Park Sweating, Ed Hill of the Poly team, and Frank Franklin of Poly gave the audience a great battle for the 138-pound weight by Alameda.

Navy got three more points as Howard Bowen failed to pin, but beat Bill Price on points in the 175-pound class. Navy Coach Bob Mott hopes to see good turnouts at the contests every night.

In Monday night's league there are six teams: Newman club, Aero club, Delta Sigma Phi and Dairy club. There will be a playoff sometime later this season.

The match was of the first round.

To Award Trophies
Two trophies will be awarded the team that wins its league. There will be two more in late February or early March for school championship.

Coach Mott hopes to see good turnouts at the contests every night.

More Talent Show Tryouts On Tap: Judges To Decide

Further tryouts for the California Young Farmers Talent assembly will be held tonight at 7:30 in the Engineering auditorium, says Ben F. Arnold, chairman. A group of judges will select the best acts which will be used in the Talent assembly. Because of limited time acts must not be longer than five minutes each. Each club sponsor-
ing the winning act will receive $1 in cash and the second be-
est will receive $1 cash. In addition the first place club will have its name engraved on the Talent assembly plaque. Winning acts will represent Cal Poly at the Santa Barbara Exchange assembly.
