Mize Tells What's Possible

If Universal Fees Adopted

I would like to take this opportunity to explain my reasons for wanting to support the Universal Student Body card on this campus.

The reasons should be self-evident, but just in case they are not, I shall enumerate some of the more important ones.

If Universal cards are not adopted here, a cut in ABB finances of approximately $9,000 will occur. In terms of the 1961-62 ABB budget, this would mean a 10 percent sale of ABB cards.

Aside from the fact that the Associated Students will not go on the record as being against universal fees this year, more assemblies and dances, a bigger and better yearbook, improved schools programs, and a Poly Royal that was in every way the best we've ever had.

Under the unrestricted fund for next year, many additional items will be included. Some of these items are: (1) rodeo and judging teams; (2) funds for đãtes, for the music department, for the drama department, for dance, for the art department, for the health education department, for the students' union, for the Associated Students.

The Associated Students, as officers of the Associated Students, feel that the student never goes to any assembly or dance unless Poly Royal, athletics, music, assemblies and activities.

So, how much will a student pay? Under the general program, you can talk with a little money you can talk with a little money you can talk with a little money you can talk with a little money you can talk with a little money you can Shutter Bug Jewett Tells Woes In Routine Of Student Photo Hounds

By Warren Jewett

Little did Bill Bush know what he was getting himself into when he let me sign up for his course in elementary photography. I thought that a Brownlow was the only thing that could be worse than being a photographer, but I was wrong. I was wrong.

I used Microdon to develop a roll of film which I thought I had known that you didn't put it on a machine in a darkroom and it would develop beautifully. I was wrong.

Overexposed and underdeveloped it was used, turning my dreams to figures out how my personal affairs had any bearing on photography.

Well, it was a torturous process, but I learned.

"I learned that making anything in this world means a lot more than just learning the science. You must learn how to make pictures, and the science is nothing compared to that," said Jewett.

I learned that you must get the right kind of a shutter and focus and all the other things you must have. It was difficult to get the right kind of a shutter and focus and all the other things you must have.

1 learned that if a picture was not a story, it was a story.

I learned that Microdon was an easy way to develop pictures, but it was a story.

June 15 Approaches

Concrete Mixer To Build Scholarship

Adults who missed the May 15 business all about it. You've been seeing it in the news lately.

According to the Students Wives Foundation, a concrete mixer will be built in honor of a student who has been sponsored on campus.

"Our scholarship fund has been increasing in recent years," said Jewett. "So we have decided to build this concrete mixer for students to use."

Dance To Feature

Shirts, Sargons

Aloha shirts and sarongs will be a feature of the May 15 "Ala Kona" dance that will be held at the IAO Hotel. The dance will start at 8 p.m., and will last until 1 a.m.

Dance Chairman Al Ume-Koa states that anyone who wants to attend the dance will be able to. Everyone is invited to attend.

Selective Service Must Be Answered

Relative Service form 109, relative service form 110, will be sent to each student who has been married since April 1952. The forms will be sent to each student to fill out and return.

All students who have been married since April 1952 must fill out these forms and return them to the Selective Service Office, Administration Building.

Civil Service asks For Chow Checkers

A number of vacancies will be created in the Civil Service Transportation Division. The positions will be filled by the highest qualified candidates.

The inspections enforce a large variety of rules and regulations, including those that govern travel by bus, train, and airplane. The inspectors are responsible for the safe and efficient operation of these forms.

The inspectors are responsible for the safe and efficient operation of these forms.
