STRATEGIC PLAN

For

SERVICE-LEARNING

Amended and Agendized by the Academic Senate Executive Committee January 30, 2001

MISSION

The Mission of Service-Learning at California Polytechnic State University

is to ensure that all students have the option and the opportunity

to take at least one Service-Learning course as part of their studies,

and thereby instill in students an appreciation

of the academic and social value of service to the community.

DEFINITION

Service-Learning is a structured learning experience in an academic course that combines service to the community with explicit learning objectives, preparation, reflection, and evaluation.

Students engaged in Service-Learning are expected to provide direct service in areas of need experienced by the community and to learn about the context in which the service is provided, the connection between the service and their academic coursework, and their roles as citizens.*

* As distinct from Service-Learning, community service is work or service performed voluntarily by students through nonprofit, governmental, and community-based organizations and schools (K-12) to contribute to the quality of life for individuals and groups in need of assistance at the local, state, national, or international level.
Service-Learning

- has its theoretical roots in experiential learning theory
- is developed, implemented, and evaluated in collaboration with the community
- responds to concerns identified by the community
- enhances the curriculum by extending beyond the lecture hall and allowing students to apply what they are learning in real-world situations
- provides opportunities for critical reflection
- may address a variety of community needs including direct service to people in need, improvement of community resources, community outreach and education, research, or policy analysis
- may or may not include compensation

VISION

Through Service-Learning, we envision a better educated, more capable citizenry and stronger, more sustainable communities.

Service-Learning enhances academic learning through strengthening analytical and critical thinking skills, providing a deeper understanding of subject matter, enabling students to apply knowledge and skills gained through academic study to real-world problem solving, and promoting an appreciation of the connections between academic study and real-world situations.

Service-Learning enhances career learning by strengthening personal traits such as self-esteem and personal efficacy, interpersonal skills such as communications, listening, and the ability to lead, compromise, and adapt, and by enabling students to explore potential careers and gain career-related experience prior to graduation.

Service-Learning contributes to civic learning through helping students understand how communities function, the kinds of problems they face, the strength and richness of diversity, and the importance of individual commitments of time and energy to enhancing community life. Service-Learning reduces stereotypes, strengthens the ability to empathize with others, encourages a sense of social responsibility, and promotes a more democratic citizenry.

Definition

Service-Learning is a structured learning experience in an academic course that combines service to the community with explicit learning objectives, preparation, reflection, and evaluation.

Listing

Designated Service-Learning Courses shall be listed in the University Catalog and Class Schedules.

Catalog Statement

The following statement describing Designated Service-Learning Courses shall be placed in an appropriate place in the University Catalog:

Service-Learning Courses provide students the opportunity to participate in a structured learning experience that combines service to the community with explicit learning objectives, preparation, reflection, and evaluation. Students enrolled in Service-Learning Courses provide direct service in areas of need identified by the community and learn about the context in which the service is provided, the connection between the service and their academic coursework, and their roles as citizens.

Service-Learning Faculty Liaison

Faculty interested in creating a Designated Service-Learning Course through either adding a Service-Learning component to an existing course or creating a new course with a Service-Learning component are encouraged to consult with Cal Poly's Service-Learning Faculty Liaison regarding the Policies and Procedures for Creating Designated Service-Learning Courses and for technical assistance and support.
Criteria

Designated Service-Learning Courses shall meet the following criteria:

1. Academic learning is the primary focus of the course; the Service-Learning component is a support to the academic focus.

2. The course requires at least 10 hours of academically relevant service to the community.

3. The Service-Learning activities and requirements of the course are described in the course syllabus.

4. The course includes a mechanism (e.g. lectures, guided readings, experiential class periods, workshops) to introduce the purposes, goals, and pedagogy of Service-Learning.

5. The course incorporates structured opportunities (e.g. reflection sessions, a paper, class presentations) for critical reflection on the service experience and its connection to course study.

6. Service sites are evaluated and approved by the course instructor and the Center for Community Volunteerism and Service and Learning.

7. The service clearly addresses a need identified by the community.

8. The course includes a contract specifying the requirements for completing the service activity (e.g. establishing clear deadlines for when the service must be begun, when it must be completed, special requirements of the service agency, etc.).

9. The course includes a report from the agency verifying hours served and satisfactory completion of the service.

10. The course should include a student evaluation of how the service experience impacted their learning.

Risk Assessment and Waiver

Each student shall be given a written assessment of the risks associated with the service and sign a waiver acknowledging that they have been apprised of the risk and waive the right to sue the university for injury or damage resulting from performance of the service. Risk assessments, risk assessment procedures, and waiver forms are available through Class and Community Connections and the Campus Risk Manager.
**Procedures**

A proposal to establish a Designated Service-Learning Course through adding a Service-Learning component to an existing course or through creating a new course with a Service-Learning component shall first be submitted to the proposing faculty member’s Department Chair/Head.

With the prior approval of the proposing faculty member’s Department Chair/Head, the course shall then be submitted to the faculty serving on the Service-Learning Advisory Council sitting as the Faculty Subcommittee of the Council. The Subcommittee shall apply the **Criteria** specified above to review and recommend or reject the course as a Designated Service-Learning Course.

A course with a Service-Learning component recommended as a Designated Service-Learning Course by the Faculty Subcommittee of the Service-Learning Advisory Council shall then pass through the normal curriculum review process, with the Subcommittee's recommendation attached to the course proposal:

- Proposing Faculty Member's Department Curriculum Committee
- Proposing Faculty Member's College Curriculum Committee
