**Mustangs Spread Net For Bulldogs In League Tilt**

By Al Baro

A rejuvenated Cal Poly eleven which last week pounded out a 51-7 victory over STAC winners Cal Tech will take on the Fresno State Bulldogs Saturday night in Poly Stadium. The contest will be the annual Homecoming game for the Mustangs who will be out to avenge the 25-13 defeat administered by the Bulldogs in 1944.

The Mustangs played strong ball all season and have a team that is not only fast and hard hitting, but is also very skilled and effective. They will be out to avenge the defeat given them in the opening game.

The Bulldog eleven has been plagued by back injuries and the loss of star halfback Bill Evans. In addition, the Bulldog offense has been hindered by the loss of star quarterback Art Smith who suffered a broken leg in the game against UC at Berkeley.

The Mustangs defense will have to contend with both the Bulldog running game and their passing game. The Bulldogs have a hard running back in halfback Bill Higginson, and a capable passer in quarterback Art Smith.

The Mustangs will have to be sharp on both offense and defense to come away with a win against the powerful C.O.P. Tigers to 83 points.

The Mustangs will enter gate 8.

The team will consist of the usual starters with occasional changes as determined by coaches Gleason and Montgomery.

The team will wear the usual blue uniforms with white helmets and their usual blue and white checker flag.

The team will be led by quarterback Art Smith, halfback Bill Higginson, and fullback Bob Bowen.

Musicians will be led by drum major Betty Jean Sawyer, and the band will feature a strong sax section.

The Mustangs will have a strong alumni turnout, with many former students expected to attend.

Corner Stone To Be Laid; State Board To Attend

Corner stone of the new $600,000 library building named for Dr. Walter Friar Dexter, late superintendent of schools, will be laid Friday afternoon, Oct. 15, at Cal Poly.

Mrs. Walter F. D. Sacramento, widow of the educator who died in 1945 after eight years as state superintendent, will help put the stone in place.

Members of the state board of education, who will be meeting on the campus college on Oct. 14, will attend the ceremony. More than 70 invitations to the ceremony have been sent to state, county, local school officials and government officials.

Among those invited to attend are U. S. Senators William F. Knowland, and Sheridan Downey, Representative Krisat Branham, state senator and assemblymen, state college presidents, county superintendents of schools, the San Luis Obispo County Board of Supervisors, the San Luis Obispo Board of Education and Superintendent of Schools, presidents of service clubs, San Luis Obispo City Council members, and members of the Dexter family.

A short program will begin at 2:15 p.m. and will include a roll call by Julian A. McPhee, president of the college. Professor Charles N. Jessep, president of the college, and a program of public instruction will discuss "Prospect and Future of California State Polytechnic College."

At the conclusion of this program, a college quartet will sing "Gloria Patria" by Palestrina and "Ave Maria" by Arcadelt. William Simpson, state superintendent of public instruction, will discuss "Present and Future of California State Polytechnic College."

Dr. Dexter was state superintendent of public instruction from 1917 until his death Oct. 9, 1946. Governor Merriam named Dr. Dexter state superintendent of schools Oct. 1, 1917, and he was elected to the Board of Trustees in 1926, 1934 and 1938 and was president of the board from 1938 and 1942.

The Dexter library building is scheduled for completion next spring. It will house a library of 122,000 volumes and provide much-needed classroom, seminar rooms, and storage space.

Dr. Dexter was state superintendent of public instruction from 1917 until his death Oct. 9, 1946. He had been principal of the high school for 11 years before he was appointed executive secretary to former Gov. Fred Marrein. Prior to that time, he served as principal of the high school in San Luis Obispo, 1917-1938.

A perfect opportunity for students to ask the question below. Exactly eight students were asked, eight answers were given, and all answers are printed below.

By Harold Hoffman

Should the United States pull out of Berlin now, or should we remain? Which course of action do you feel is most likely to prevent another war?

John Harrison, E. E. sophomore. "Let's pull out. Let's believe that there is no way that Berlin can stand such a strain. Our staying there is a threat to Berlin and a threat to the world."

Robert Pullen, E. E. sophomore. "I believe that we should remain in Berlin. We have no right to dictate what another country will do. It would be more sensible to let Berlin stand alone and send our troops to other places in the world."

Bob Tassah, E. E. freshman. "A pretty good question. Our first reaction would be: Let's stand pat. Which course of action do you feel is most likely to prevent another war?"

Charles E. Wupper, B. E. sophomore. "We should stay in Berlin. We do not wish to lose our position in the world."

Robert Harrison, E. E. sophomore. "Let's stand there. We have a duty to the world."

James R. Present, E. E. sophomore, "We should stand there. Let's stand there. We have a duty to the world."

Joe Stocker, Printing sophomore. "A pretty good question. Our first reaction would be: Let's stand there."

Ken Morgan, A. H. freshman. "Let's stand pat. We have no right to control another country's government."

Jae Ruckner, Printing. "A pretty good question. Our first reaction would be: Let's stand there."

Joe Stocker, Printing. "A pretty good question. Our first reaction would be: Let's stand there."

YMCA Launches Local Community Chest Drive

Students and employees are taking part in separate drives this week to raise contributions to local and national community chest drives. Bob Hinkle, Ray Noble, and Mrs. Harry Mellon, a daughter of Mr. and Mrs. Harry Mellon, a daughter, are the chairman of the Crops club office, room 106, Ag Ed building. Monday, Wednesday, or Friday, between the hours of 2 to 4 p.m.

Future Farmers

A "truth or consequences" game is being played by the Future Farmers when the group meets at 4 p.m. tonight. The program, which will be held in the Administration Building, will consist of a series of games and quizzes.

Friday, October 8, 1948

Events at the home of Mr. and Mrs. H. A. Williams. The date: One week from tomorrow.

The program will include Bob Hinkle, Ray Noble, and Mrs. Harry Mellon, a daughter of Mr. and Mrs. Harry Mellon, a daughter, as they feature much pertinent data on crops—and they are not alone. Bill Rowbottom, a sales representative of the YMCA, will be master of ceremonies when the group meets at 7 p.m. Monday evening, Oct. 11. This will be the club's first meeting for the present term, and it will be held at the Presbyterian Church, San Luis Obispo.

The club, Doctor Noble stated, is expected to be a big success, and it will be the first of its kind in San Luis Obispo. Tickets will be on sale during the coming week at El Corral, or at the information desk, and will be sold for 50 cents each. The first meeting will be held at 7 p.m. at the El Corral. The seance will begin with the showing of a film, Possibilities of War in the United States, and it will be followed by a discussion.

The club plans to meet weekly and to hold meetings at the El Corral. The films are proving to be quite a drawing card in themselves, as they feature much pertinent data on crops—and they are not alone. This housing shortage has got most of us to the point where we'd just about anything to see more buildings on campus. If we could just have a place to call home, just want a permanent home for El Mustang, the other publications and the Student Body. It seems the time we're being moved about and the prospects are fairly evident that more moving is due in the near future. Now the logical place for all these outfits, and for that matter, all student affairs, should be the Student Union. The only trouble is we have such a Poly and from the evidence at hand, we won't have one for some time.

John Jones was down at the office discussing the matter with the staff and pointed out a number of facts facing us before we could have a house to call our own. Most of these problems can be boiled down to finance. Money being of El Corral and similar functions. A large amount could be to them, telling what we want and how much it will cost. That's in addition to what we have to help us. Then too, this committee could plan fund raising schemes to raise money on the campus for the fund. Nothing except work toward the collection of the dough in order at this time.

It's just that we have to be more selective in this particular article. It's just that we feel proud to be a part of an enlightened age, and it seems beilic. Veterans of World War II quickly made these two things apparent. They are starving for a writer . . . There were several Poly men up at the King City stampede, Jim Leister got a free place in the bare-back riding event, Cotton Ross tore up the saddle bronc, and first in the bull-riding. Don Kester won third place in the blacksmith event. They were all winners of this Chap of the show.

So let him not himself slightly maltreated when coming to the Stampede. He's okay; the horse was bucked. "Oke" Vernon was the other clown there. He was only injured in his typing section which is how the story appears.

SEATS...

Moving in during the cover of night a mere flake and a lot of steel grueces suddenly became a set-up football bleacher. We understand that seemed to be a late date as a number of donors are still getting their check book and have not yet promised us their gift. As long as the speaker confines his to the safe way is the common way "HUH?"

PLAY ACTORS...

The Little Theater is starting to roll again don't expect the try-outs to meet very few men from Poly. Seemed strange after a few months when setting up the cast represented the Campus. From what I hear there is still a lot of interest on the part of the people who want to try their hand at designing and construct-

CROWDS...

Looking forward to a big weekend. Going out to the rodeo Thursday. The crowed last Thursday filled the stands and then some, and this time it is expected to be even better. The rodeo is in regular gang. Heard last Saturday night, "That the best bet of the night that Jerry is ter-

**Why A Campus Post Box?**

Many groups have been resigned off the Spanish line in regards to the 8:50 post office box being placed at the residence of students who live off campus or trailer units. In an effort to clear up confusion and make this system work for everyone, the following article is presented for your attention:

The college administration has had several meetings to clarify the area in which the change in post office boxes is taking place. The new post office boxes are located in front of the college residence, near the entrance. They were placed there because the old boxes had not been used for an adequate amount of time, but it was to be hoped for general delivery distribution.

After much discussion it was decided to convert CU-A to a postal center. The necessary funds for the conversion were made available and a new traffic pattern was established and, as a result of the new traffic pattern, the campus will have a more organized system.

While the principle purpose of the new traffic pattern is to provide better service for all students, there are other objectives also. Many student communications from the college will be distributed through this center. All student notices from departmental or club groups may be so distributed. Many of you, though alive off-campus, will receive letters or parcels sent to the college general delivery. These will reach you by the new system. Since the center will be visited daily by all students, it will serve as an additional bulletin board area for meeting and activity posters.

The inclusion of your box number on return addresses is strongly recommended. In short, as the campus post office is in part supported by the school, your four-bit goes to pay for wages and general upkeep of the enlarged facilities — plus, of course, paying for your post-office box rent. And for those who lose last until next fall, it is hoped that Uncle Sugar will handle it from then on. In the meantime, we can all consider the buck-fifty for the year well spent for the added convenience of not waiting in lines six times as long as the ones that now circle CU-A.

**Security Office Establishes New Traffic Pattern**

The handling of traffic on campus will soon become an easy flowing problem, according to Albert A. Altmicke, providing students will continue to abide by the established rules and suggestions.

The purpose of this program is to make the following facts a truism:

There are three parking areas on the campus—parking lot A, south of campus off Colorado Way; parking lot B, on the north-east corner of Colorado Way and parking area D, along California Avenue. Parking is not allowed beyond the last D.

Traffic officers will route automobile traffic along the following lines:

- Students who live off campus will leave their cars in the dormitories, or the dorm or trailer park lots and leave the remaining parking spaces for non-residents located in Cal Avenue, or at the NE corner.

The space problem will be simplified if students residing off campus will share rides, and that students will not park in the walks, streets, and roads and will not obstruct fire hydrants. Faculty members and students are not excused from this service.

Students are requested not to park in the areas adjacent to Valley on Nevada Way. These spaces are reserved for Valley tenants, many of whom are women and whose access to their units will be blocked if their cars must park in these areas. An additional traffic hazard will be created.

Phillips Voted
Outstanding Player
Of Cal Tech Game
Jay Dee Phillips, 19 year old
plunging fullback for the Cal Poly
Mustangs, was voted by his team-
mates the outstanding Poly pla-
yer on the field last Saturday when
the Mustangs routed Cal Tech
71 to 6.

Phillips is the first player to re-
ceive the newly formed Back-Block
Traveling Bear award issued weekly to
the Mustang receiv the most
unquestioned excellence during each grid
contest. The award is issued by Back-Buck and
Back-Block. Insurance men.

Last year Phillips carried this
tail 10 Times for an average of 8.6
yards a carry. In two games this
year, he leads Mustang ball car-
ters with an average of 41 yards,
running the ball 21 times for a net
gain of 118 yards.

Largest Turnout
Of Boxing Students
In Cal Poly History
The largest turnout of boxing
students in Cal Poly history have
begun practice for this year's e-
vents, according to Raul Barr, stu-
cent boxing coach. The 60 men,
hard continued, will move their
practice for

Colts Start Season With 30-0 Victory Over Frosh Gauchos

By Jim Larsen

The Poly Colts take a powerful front and go home with a good game, both in the first and second periods. The game was played before a large and enthusiastic crowd, and the results were evident in the way the players performed. The Colts scored early in the first period and never looked back.

In the second period, the Colts continued to dominate, scoring two more times, and the final score was 30-0. The game was well played, with few mistakes, and the Colts showed their ability to handle pressure situations.

The victory is a morale booster for the Colts and will give them confidence as they prepare for their upcoming games. The Colts look forward to continuing their success and advancing to higher levels of competition.

TVF: LANDMARK IN SLEEPERS

ABC to empty bedroom in family way

By Bob Chatterton

ABC, the well-known manufacturer of air conditioning equipment, is planning to introduce a new line of sleepers that will revolutionize the way people sleep. The company is targeting the family market, and the new sleepers will be available in a variety of styles and sizes.

The ABC sleepers will feature state-of-the-art technology, providing superior comfort and support. They will also be energy efficient, helping families save money on their utility bills. The sleepers are expected to be widely adopted, and ABC is preparing to launch a marketing campaign to promote their benefits.

Civil Service Offers Employment Positions

The U.S. Civil Service has announced an examination for filling a variety of research jobs in the field of agriculture, at salaries ranging from $4000 to $7000 per year. The majority of the positions are in the Departments of Agriculture and the United States Bureau of the Census.

Interests of the vacancies are in Washington, D.C., and the positions will be filled on a competitive basis. Further information may be obtained from John James, placement secretary, in Adm. 126.

New Machinery Arrives For Growing Printshop

A. M. "Bert" Fellows, printing department head, stated that due to this year's doubled enrollment plans are under way for an enlargement of the print shop.

The print shop has continued to add printing machinery, since its reorganization at Poly late in 1947. Recent additions include a new Kluge automatic job press, a Ludlow line casting machine, a press top layout table, and a new Multilith offset press.

These additions, according to Fellows, "have made this department one of the best college print shops in the United States."

The printing department handles the publication of El Mustang, El Rodeo, the Freshman handbook, football and basketball posters, the F. F. A. magazine, and many other Poly publications.

The same fellow who doesn't believe in miracles will put his name on the waiting list for a car.
