Civil Service Engineering Exam

An examination for filling engineering positions at the P.I. grade 1B374 in Washington, D.C., and variously, has been announced by the U.S. Civil Service.

No written test is required of competitors in the examination. In order to qualify, they must have graduated from a college of engineering within the preceding four years, or be radiation to a bachelor's degree, or have had four years of progressive, or considerable experience in technical engineering, or, if any time equivalent to such, by the admission of the Civil Service.

Applications will be accepted from students who expect to complete their college courses within the 18 months of the date of filling applications. Age limits, waived for persons entitled to veteran preferences, are from 18 to 30 years.

Interested persons may obtain information and application forms from the Office of the Secretary of Agriculture in Adm. 12.
Natural History Club
To Sponsor Slide Show

Plans are being concluded for the third annual slide show to be held at Cal Poly. This contest, open to all members, sponsored by the Nature Club, was announced at the last meeting of the club. The contest is limited to 2 x 2 colored slides either nature or technology in subject.

Each contestant may enter three slides at the Biology office in the Office of the Nature Club. The first day of entry will be November 8th.

There will be four classes in which the slides may be entered: (a) Audubon, bird life, (b) Science Art, (c) Popular Biology, and (d) Modern Life. A prize will be awarded to the first place winner in each class. It is necessary to charge a small fee for each slide entered; the proceeds will be used to cover the cost of the prizes.

The official showing will be held Wednesday, November 10th at 7:45 p.m. in the Engineering auditorium.

First Again, with Tobacco Men!

More independent experts smoke Lucky Strike regularly than the next two leading brands combined!

An impartial poll covering all the Southern tobacco markets reveals the smoking preference of the man who really needs tobacco—outliers, buyers and workmen. More of these independent experts smoke Lucky Strike regularly than the next two leading brands combined.

POLY ROYAL BOARD
Holds First Meeting

The board of directors for the 1949 Poly Royal, held its first regular meeting Monday afternoon, November 12. Harvey Kuehn was elected executive secretary; Fred Waterman, secretary; and Walter Nowak, treasurer.

Larry Wells, general superintendent, announced that the next meeting would be devoted to lining up organizational posts within the board.

A budget of $8,450 has been approved for the coming "Country Fair on a College Campus" which will be held next April 29 and 30.

First Again, with Tobacco Men!
Favored Fresno Staters Thrown By Wild Mustang

Was it the influence of the homecoming alumni or a powerful combination of vitamins that Mr. Pavelko feeds his squad of bone-crushers that spurred the green and gold to a binding upset over the visiting Bulldogs Saturday night? No sooner had the opening kickoff begun a battle-battering of Fresno State that resulted in a 1944 conference win, their first victory in seven starts against the Bulldogs.

The much-heralded Fresno pass attack was ensnared into nothing as the inspired Poly line broke through continually to the tune of the next 6,000 yards gained in Poly Stadium. The Mustangs attacked like. These yards were gained balled exactly ten times, losing the ball five of those occasions. The Mustangs were just as careless as they lost the ball three times to the stalls families. Building quarterback Bill Montgomery had little opportunity to display his passing arms as he was rushed and completed only two passes in thirteen attempts.

Games’ Night

On the other hand, Mustang quarterback Allen Gomes reached his greatest height in the game. His brilliant 70 yard rushes of a punt early in the first quarter put the Mustangs ahead 6-0. His perfect passing quirk added a point a moment later to make it 7-0 from where Poly was never headed. In the fourth quarter he sneaked over from the one, after a peculiar situation.

Leading 20-7, Poly had a fourth down on their opponents six as the inspired Holy line broke through continually to the tune of the next 6,000 yards gained in Poly Stadium. The Mustangs were just as careless as they lost the ball three times to the stalls families. Building quarterback Bill Montgomery had little opportunity to display his passing arms as he was rushed and completed only two passes in thirteen attempts.

Not to be dismayed, the green and gold scored several times next time they put their hands on the ball. With Poly in the 20 after the kickoff had gone into the end zone, fullback Jay Phillips swept around left end and broke momentarily into the clear. A desperation dive by opposing fullback Kenny Wagner stopped his feet and all went to the Fresno 29. On the second play the Bulldogs marched Wagner back 22 yards and fullback Earl Bland led the attack. Bland led the attack 88 yards. A spectacular pass to previously mentioned "fish" of the White team broke through continually to the tune of the next 6,000 yards gained in Poly Stadium. The Mustangs were just as careless as they lost the ball three times to the stalls families. Building quarterback Bill Montgomery had little opportunity to display his passing arms as he was rushed and completed only two passes in thirteen attempts.

Outstanding fly in the ointment however, is the rather obvious fact that the game is being enlarged. The blush of another game would be Duffy (Alt)黄昏的 blush. The blush of another game would be Duffy (Alt)黄昏的 blush. The blush of another game would be Duffy (Alt)黄昏的 blush.
guys get your wimmin' folk and homecoming visit back to old alumni In this column on the outcome.

The Cal Poly Bowling league,Chuck Pavelko, calmest man on *  I'm a little acorn. Poultry Club 48 — Crops Club 28

The hottest thing at the game was the Poultry Club scoring 100 points In two game*.

The Cal Poly Bowling league,headed by guarainst Jack Frost and at Camera consistently held Santa Maria at a standstill. Evidence of how really powerful the Cal line was is startling when statistics are checked. The Santa Maria Indians gained only 18 yards during the whole game—gained 12 while the Cal's gained 204. Comparing this difference, the item that won the ball game stands out.

Frigate's catcher, Ed Strickland, outfield and two infielders freshmen who are working out, Dick Caugier and John Parkins, both from Paso Robles, all look very good to Mott.

**EL MUSTANG**

FRIDAY, OCTOBER 15, 1948.

**OBSERVATIONS**

The Santa Maria Athletic club, which the Cal's as suddenly raked out this past week, was undoubtedly the biggest thrill for an athletic junkie. It was an experience that is not likely to be repeated any time soon. Cal Poly assembled one football team, and the Redskin's devoted players, themselves, and those things are coming to a head, and that's all that can be said.

**Intramural Program Resumes With Basketball Tourney**

The intramural sports program for this fall has now gone into full swing. There are twenty basketball teams divided into two leagues; Bird* Leagues 1-16 and the Hound Leagues 17-32.

**BASEBALL TEAM PRACTICE**

Baseball started trying at the athletic field about two weeks ago as coach Bob Mott began putting his charges through fall baseball practice in anticipation of a great season ahead.

Thirty-five candidates turned out for the initial session and have been working steadily. Two more games have been played with Coach Mott "all eyes on" some of the fine men he will be able to use next spring.

Williams and Crawford, two veteran chuckers for the green and gold the past two seasons, head the list of players who are working out. Carl Jacobeon, Dick Sheldrick, Bob Bennett, Hank Wheatley and Jim Luker, pitchers; Bill Uuhlert, Bob Bennett; Hank Wha...
The Way I See It

BY JAMES WALLACE

In the days when my ideal was to be the biggest, busiest, best beer-guzzling, bar-room-sitting, whisky-drinking, college student all the way across the campus, I'd have had no time for the campus. I'd have passed it as a sort of hazy, dim leave, or as a place of noise and confusion. But now we have been away from the college for a few weeks, and the campus seems to me like an old, dear friend, with all its defects and all its virtues.

I believe that the campus is very much a part of the college, and in some ways it is perhaps even more necessary to us than food and drink. We've spent countless hours hour during the school year planning for and working on the campus, and yet, as we pass it by, we find ourselves almost tempted to stop and look back at it. We've left it behind us, but we've taken it with us.

We've found that the campus can be a very helpful place to us. It can be a place of relaxation, as well as a place of activity. We can find a quiet corner to sit in, or we can take a walk and think about things. We can find friends to talk to, or we can find a place to study.

The campus is also a place where we can express ourselves. We can paint murals, or we can plant flowers, or we can build a student house. It's a place where we can make our mark, and it's a place where we can be ourselves.

We've found that the campus is a place where we can find ourselves. We can find a sense of identity, or we can find a sense of purpose. We can find a sense of community, or we can find a sense of independence.

In short, the campus is a place where we can find ourselves and find each other. It's a place where we can grow and learn and become who we want to be. It's a place where we can be free and be ourselves.

But we must also remember that the campus is a place where we are supposed to be. We cannot use it for our own personal gain, or we cannot neglect it. We must use it for the good of the college, and we must take care of it.

We must remember that the campus is a place where we can find ourselves, but we cannot lose ourselves in it. We must find a balance between our use of the campus and our care of it.

In the end, the campus is a place where we can find ourselves, but we must also remember that it is a place where we are supposed to be. We must use it for the good of the college, and we must take care of it.

International Relations Club Offers Opportunity

The International Relations Club held its last meeting of the year recently when Francisco Barrenechea, from Monterrey, Mexico, about customs in Mexico and Mexican culture. The talk was illustrated by the playing of records reproducing typical music of that country. The three main types of Mexican music, namely, that of northern Mexico, that of Yucatan, and that of Yucatan, were represented. A two-week vacation in Mexico, the speaker explained, including all expenses and sightseeing trips, should not cost over $250.00. However, some Cal Poly students were able to get by on a two-month trip through Mexico this summer for the same amount of money per person.

Officers of the club hope for wider participation of the student body in the organization's activities this year. In the club, American students have an opportunity to meet fellow students from all over the world and to exchange ideas with them.

Ag Inspectors Plan Coming Barbecue

With 16 members attending the meeting, Thursday, Oct. 7, the Agriculture Inspection club discussed the date of the dance to be sponsored on March 19. The theme will be developed around St. Patrick's Day—the wearing of the green, no test.

A motion was made to hold a barbecue and beer bust soon. Afternoon, Oct. 25, was the date tentatively decided upon.

The meeting adjourned when the members and their advisors, Bill Troutner, and former member, Fred Ellis, went to the Administration building to see sports movies shown for the club.

The next meeting will be held on Oct. 21 at 6:30 p.m. in Ag Ed 105.

The formal dance will be held on March 19. The theme will be developed around St. Patrick's Day.
