Liponyssus Sylviarum
Resumes Winter Reside
By 6. L. M. Wilson

The northern feather mite, Liponyssus sylviarum, has made a winter visit to the Cal Poly poultry department for the first time this year. In a recent careful examination of this mite, first noted Oct. 6. L. sylviarum, a suspected carrier of equine encephalomyelitis virus, is a small mite measuring 60 by

Future Farmer Day
To Bring Local Chapters To Poly

Baloney will be "Future Farmer Day" theme of the Poly poultry department this year, according to a student there, and it is another example of the Poly poultry department's efforts to bring the world of poultry farming to the campus.

Early in the spring of the year, several chapters of the Cal Poly Young Poultrymen's Association voted to bring their chapters to Cal Poly for a day of farm organization and instruction. These chapters are to visit the campus throughout the nation. However, the chapter from San Luis Obispo, Santa Maria, Arroyo Grande, Templeton, Cambria and surrounding areas, is the only one that has returned the following year.

It was of the utmost importance that the poultry department have a chapter of the Cal Poly Young Poultrymen's Association, and that the chapter should be well represented at the Campus Day of the Poly poultry department.

The students from the San Luis Obispo, Santa Maria, Arroyo Grande, Templeton, Cambria and surrounding areas, will gather at the college for an afternoon and evening program.

Future Farmers from San Luis Obispo, Santa Maria, Arroyo Grande, Templeton, Cambria and surrounding areas, will bring their aeries to the Poly poultry department.

Not only five persons were found who were eligible to vote but all registered. The questions were compiled on the basis of a random selection of the propositions and proposed laws.

In order to see any or all of the films to the campus may become returned the following year.

The evening program, at 7:30 pm, will be the installation of the new officers for the Poly poultry department. The new officers will be installed at the Poly poultry department's first evening program of the year, at 7:30 pm.

The marketing and harvesting of truck crops can be a profitable venture for their Los Angeles field trip, but it is difficult to work extended over a three day period. The class also visited several prominent Los Angeles terminal markets. The student interviewed an official of the Federal-State Market News operating service maintained by the government as a national market news agency.

The class also visited several processing plants. These plants were of interest to students because they might see a possible outlet for their products in the future. A plant which was visited was processing plants. These plants were maintained by the government as a national market news agency.

Nereson Lectures YMCA
On Guidance Work
O. B. Nereson, Director of Guidance at Cal Poly, gave a talk on "What the Guidance Center Can Do for You" at a YMCA meeting held recently. He discussed the group of the special guidance service designed to assist students in choosing careers and in training for different occupations.

He explained how facts are assembled in the individual's background which contribute to success or failure in an occupation. Information and aptitude tests are given and the results are used to evaluate the individual's potentialities. He told how the counselor helps to impartially weigh the many factors involved in selecting a life-long vocation.

To prove the value of the service, Nereson pointed out that 90 percent of all veterans who have taken advantage of the vocational guidance program feel that they have received valuable assistance in the selection of an occupation.

Nereson wished to stress that all students are eligible for this service and that all they need do is make an appointment.

FRIDAY, OCTOBER 29, 1948.

**Mustangs To Attempt Poet Gridiron - Eulogy**

By Al Barto

Starting from the 44-7 pasting administered by San Jose State two weeks ago, Cal Poly hosts the Whittier Poets on the Poly gridiron tomorrow night. The Poets hold the unenviable position of being the team most likely to absorb the wrath of the Mustangs.

Lineup Revamped

Several new faces will appear in the starting lineup for Poly, in the backfield, Ray Stewart has been elevated to starting right half due to his fine backfield showing against the Indians. In the line, Charlie Weber will start at right guard, Favorite tackle of Pinky B e b e r n e s , has also shown much in the way of defensive character, and is expected to start against Fresno State. March Hartman explained his injury and form against the Indians as he stole the ball on two occasions and wreaked havoc on opposing runners throughout the second half. March will take over his old starting position at right tackle, Green backup, regular right tackle for the last two games has been revolved to left tackle to make room for the recuperated Hartman. Poets Reserve Fur

Whittier hasn't faced too well on the field having lost three out of five games. The Poets route out two of their future rivals, tied against San Bernardino and 18-13 against Santa Barbara, while taking Cal Tech 17-4, the same score on the Poly-Cal Tech game. In the other five games, the Poets routed their smaller brothers at SanDimas 27-0, and lost to Occidental by the identical score.

Whittier promises to be the rugged opponent for Poly, and if the Mustangs want to win this game will have to work for it.

**Waterbugs Sunk Three Times**

The Cal Poly waterbugs squad dropped three meets over last weekend.

In the first meet on Thursday, the waterbugs were outscored by Fullerton 113-30.

After two overtime periods, the men were edged out by the Cal Aggies 16:13 at Davis Pool.

At Blochton Saturday, Coach Dick Anderson's crew were downed 47-5 by College of Pacific.

The Mustang waterpoloers will meet Occidental College have tomorrow afternoon at 3 p.m.

**Biggest man in the backfield is Jack Wood who is playing his third year of football for Whittier.**

Jack Wood is one of the shortest players in the Whittier backfield, but in the rushing tactics of the cameramen, it is apparent that skill can at times counteract a lack of weight.

**Three Times Hurts Sendin**

**Nelton Lael**

Mustang line back and ex- leftover from Santa Clara, Nelton also played two years of pro football. His coaches consider him a talented football player who lacks the size and speed to make him a star, but Wood is more than capable of being a valuable contributor to the Mustangs' cause.

**Fighting Colts To Face Fresno Frosh Tomorrow**

The slippery Cal Poly freshman eleven travels to Fresno tomorrow night, where they will tackle the Fresno State Frosh. The Colts are fired up for this game and hops to repeat the 10-0 whipping they gave the Mustangs, made against Fresno State.

Fresno State frosh will be the Cal Poly's toughest opponent as they have played two strong teams: Santa Clara Hawks where they beat 10-7; and the Santa Cruz Frosh, where they lost by a slim margin of 46-28.

Tomorrow's game will be a crucial test for the Colts' untried rear. Injuries from last weeks game will weaken the Colts' front wall. Dick Anderaon has some of his tech broken, but is fine. Colt Frost has a foot injury and is out of action. Bob Redden, Poly's star quarterback, has badly broken ankle. These injuries were caused by some dirty football on the part of the Mustangs team last week.

**Reserves, Barnett, Wasser, and Herrmann, will see lots of action in tomorrow's game and will have to fend of the hard hitting Colts who are shaping up for a strong season.**

Starting lineup will be Thomsen, RF; Harlott, LT; Jackson, RG; Boffe, C; Frost or Barnett, LE; MacMillan, RT; Herrmann, or McDonald, LT; Wilson, or Blake, LG; Herrmann or McDonald, LE; Lawrence, FR.

Game time will be 8:00 p.m.

**National Rating Places B ebernes Ninth On List**

New York's National Collegiate Athletic Association has published a football statistics chart which mentioned Cal Poly in its latest compilation of grid tops. The meeting comes satisfactorily through the efforts of the talented passing arm of Pinky Bebernes, Mustang halfback.

**Whittier**

The Mustangs Bets will be out to even up the score of the Bulldogs' loss to the Mustangs. They have played two strong teams: Santa Clara Hawks where they beat 10-7; and the Santa Cruz Frosh, where they lost by a slim margin of 46-28.

Tomorrow's game will be a crucial test for the Colts' untried backfield. Injuries from last week's game will weaken the Colts' front wall. Dick Anderaon had some of his tech broken, but Frost has a foot injury. Bob Redden, Poly's star quarterback, has badly broken ankle. These injuries were caused by some dirty football on the part of the Mustangs team last week.

**Colts Take Fourth Straight Victory**

The Colts took their fourth straight victory last week by defeating Monterey Peninsula college 21-6. The Colts are now the only school team in the San Luis Obispo county variety which is undefeated this season.

The Colts' lions restarted Monday night and continued its winning record. Against the Mustangs, the Colts are fired up for the meeting, have a strong team in the Sam Luis Obispo county.

**Arms Race Day Game**

**Student Votes To Hear Review On Victoria**

The Student Vote club will meet on Thursday, Nov. 6 at 7 p.m. in Hillcrest lounge to hear a review on Queen Victoria by Mrs. Laury Dash. She will discuss the play "Victoria Regina" which featured Helen Hayes in the title role.

Lyttie Strachey's biography of Queen Victoria will also be used by Mrs. Dart in her review.

Before the guest speaker the club will nominate their new officers in a short business session. Closing the meeting will be refreshments served by Mrs. Wilma Heinrich, hostess for the event.

Mrs. Gloria Hays and Mrs. Barbara Brown.

**Penguins Plan Cycle Run; Barbecue Featured**

The Poly Penguins will stage a fish run in the county park Friday night. The swim and swimming pool will be open for swimming and practicing for a daily swim meet.

A barbecue has been arranged in conjunction with the meet. Refreshments will be served at 5:30 p.m. before this afternoon.

All cyclists are invited to make the run and enjoy the barbecue. The group will start from the college cafe at 5:00 p.m.

**Poly's Plant Nursery To Open For Sales**

Poly's plant nursery will be open for sale every afternoon except Sunday. It was decided as a special meeting this week of horticulture project owners, student employees, and salesmen.

A wide variety of trees, shrubs, flowering, and other plants will be offered.

**High School Presents 'Campus Hi-Lites'**

Members of the San Luis Obispo High School and Junior College Radio Workshop present a news broadcast, "Campus Hi-Lites," each Thursday from 4:00 to 5:00 p.m., over station KPIK. News on the program is gathered and presented in students in the workshop class.

Every year at the Student-Lecturer election, the editor of El Student, and every other college rag signs up last year's issues and rebases the old formula editorial writing and the rights and duties of citizens. This year we go through the routine twice. Perhaps this is the first time that a hatred-hardened adult student makes a reawakening of national elections applicable.

You now know as well as I do that my preaching to your get out and vote is a waste of time. Joan of Arc, with an army of men and not a continent to save, was fighting a battle against a Guthrie's promise. Now, the army of 1946 is fighting a battle against the future of the nation. There are no issues at stake, just a matter of whether we want a president with or without a moustache. Back in '44, with lots of hot money about 80 per cent of the voters turned out. Here Poly last spring at the BAC elections we got nearly 80 per cent of the vote out. What happens next Tuesday is the question.

The Law

The past two weeks will always remain memorable. It was during this period that many of the letters and verbal abuse concerning the closing of Mount Bishop road reached B. M. A. Taylor. Stories were the back road "feeling" that an investigation was launched by this paper and then some really stringent measures will have to be taken.

The secret of what is called RDX, these initials were never revealed to the public. Only a few scientists at Oak Ridge, two from the radiation laboratories at the University of California, and a few others not at the laboratory at the University of California.

The story of a spy in the pay of the K. B. I. found two secret documents from Oak Ridge, California, to a Kremlin station monogramed Nelson, who gave them, industrial mobilisation A spy. The K. B. I. found two secret documents from Oak Ridge, California, to a Kralin station. The Kremlin knew all about them tonight. On searching the rooms of Arthur A. Adamson, the K. B. I. found two secret documents from Mount Bishop road seems to center around the killing off of campus kids are much more important. The big fuss about the Dock road seems to center around the Dock. Because of this, all the speeding. The big fuss about the Dock road seems to center around the Dock. Because of this, all the speeding. It will surely come about if existing conditions continue. Sooner or later it is forced to throw the Inebriated Don tender Is forced to throw the Inebriated Don.

The way I See it

Dear Editor:

I would like to suggest that students be made familiar with the State Board of Education, all of the wives, and others who were placed in the state for training. I am particularly happy that you had the courage to resign, Mrs. Haggerty throughout the campus. I met both Anna and Haggerty after this first time and thought them most enthusiastic, the thing which I know of the Institute of Southern California in this experience.

To you, then, and to all others, our sincere appreciation of the fine work you have done.

Buy T. Simpson

Letters to the Editor

Dear Editor:

The security board has no choice but to keep the road closed before the first morning class. Funds for additional law enforcement officers are not available at this time and campus drivers (students and faculty alike) continue to demonstrate that traffic laws will not be obeyed unless security officers are close by.

A Mustang reporter stood at the intersection of Campus Way and California blvd. last Friday between 15:10 and 1:45 p.m. to observe how drivers negotiated the stop sign there. Forty-four cars made a legal stop—That is, came to a complete stop; 37 made a rolling stop; nine drivers totally ignored the stop sign. In short, well over a third of those 60 drivers broke the law.

Several colleges in the state, according to our exchange editor, do not permit student automobiles on their campuses. Those colleges are due in, and nothing pleasant candidates for which they are due in, and then some really stringent measures will have to be taken.

It will be in our power to change the laws, because of a few, certainly. But all laws are that way—irresponsible persons bring the laws on themselves and the balance of the populace has to suffer along with the exploiters.
**Camel Mildness**

30-Day test of hundreds of Camel smokers revealed NO THROAT IRRITATION DUE TO SMOKING CAMELS!

(Not a single case!)

From coast to coast, the reports were the same: Not one single case of throat irritation due to smoking Camel! These reports were based on a total of 2,470 examinations by noted throat specialists of the throats of hundreds of men and women who smoked Camel—and only Camel—for 30 continuous days.

And these men and women smoked on the average of one to two packages of Camel a day.

No, Camel are not mild! But prove it for yourself, in your own 'T-Zone'—T for Taste and T for Throat. Smoke Camel—and only Camel—for 30 days. Let YOUR OWN TASTE tell you about the full, rich flavor of Camel's mildness.

**FILM SOCIETY SERIES**
Begin's Tuesday Eve
At Eng. Auditorium

"Only Lovers" title of first of the seven programs to be presented by the Cal Poly Film Society, will be shown next Tuesday, Nov. 1, at 7:30 p.m., at the Engineering auditorium. This first program will trace the development of the cinema arts from 1895 to 1916.

Seven short subjects, typical of the era, will be featured Tuesday evening. Two of the seven selections are British, one French, and the remainder are American films. Louis B. Shephard, supervisor for society, states that the films are rented from the Society of Modern Arts, New York, and that the film have been re-ridden for home projectors. An effort has been made to omit much of the talking which was peculiar to early film programs.

Approximately 70 seats are still remaining for sale to students and faculty members. Shephard also reports, Mrs. Herb Winn, student wife, will play piano accompaniment for the silent films presented on the first three programs of the series.

---

**GAME TRAFFIC GOOD**
Says Security Staff

Security department have extended their thanks to students and faculty members for their cooperation with the department at the recent night football games.

"Although over 8000 vehicles must be parked in a comparatively small area, the traffic handling has progressed quite smoothly due to the cooperation of officers and E. A. Schyler, security officer.

Schyler also asked that faculty and student drivers about "Hoch" drive very slow, to the traffic director who will then move the cellular carriages to parking lots A and B. It is difficult to see the Poly white shield stickers at night.

Visitors' cars will be restricted to the California blvd., parking area.

Big Time Calls Collegians; Band Hires Male Thrush

Nothing new about our music department. Now that Poly is the third largest state college in California and the largest in percentage of male students...now that all that has happened...to say nothing of the new bleachers being built...the music department has looked around for a way to improve their already tops college dance band.

What they do—Put Bucket on a diet? No, they discarded that lack of public appeal. Put Mouse on forced feeding? No, they discarded that as too costly. Instead they located a song-spinner, a croaker, a singer. See what we mean. George Tollman, the poor man's Franklin Sinatra is now fronting for the band, and in his own small way is attempting to give the female college a large charge with his soft vocalisations of not so old tunes.

Tollman is no stranger to the music world. He used to play second shotgun in Spike Jones' eug phrogation. At Poly he is still a big shot in the music department. Maestro Davidson has been heard to say, "I could not get along without Georgia...but I'd like to try..."

The dove of peace may be hiding in a United Nations pigeon hole.

Horses are no trouble if you monopolize the conversation yourself.

—Franklin P. Jones
