D. State Senators No report.

E. CSEA President
   B. Glinski gave the following report: “CSEA represents over 800 staff members in their four bargaining units, and input to matters that affect the university and its future are very important to them. The administration has established a number of advisory committees, including planning and other activities, on this campus. The plans and recommendations made by these committees affect both faculty and staff, either directly or indirectly. The faculty are represented on these committees. But there is not one authorized staff member on any one of these committees. We believe that staff input to planning and other advisory entities, when such activities affect our lives, as they most certainly do, is both necessary and valuable. The future directions the university takes affects us all, and we have made it a goal to achieve representative staff membership on such committees, and hope to have the support of the Academic Senate in this endeavor.”

F. CFA President No report.

IV. Consent Agenda:
A. Resolution on Name Change for School of Professional Studies and Education to School of Professional Studies. Passed.
