Four Year Accreditation Officially Announced

By C. M. McGuire

POLY ROYAL PRINCESSES... (left to right) Delores Swan, Helen Peterson, Isabel Langer and Junior College football player, Linda O'Connor have been chosen princesses of the 1949 Poly Royal queen court. The four will be attended by the queen of the 17th annual “Country Fair on a College Campus” at California State Polytechnic College on April 29 and 30.

Four Year Accreditation Officially Announced

Nov. 18, 1948 - Calif. State Polytechnic College has been granted full unrestricted accreditation by the North Central Association of Secondary and Higher Schools, Julian A. McPhee, president of the college, said today.

Final acceptance of the college's application for membership was made at the closing business session of the association's annual conference last Saturday afternoon in Sacramento. T. D. Melvin, director of the association, represented the college at the conference and reported the college's application was very favorably received.

For more than a quarter of a century the association has stimulated improvement in service and educational methods by setting up standards and criteria to make the characteristics of institutions of higher education uniform.

Included in the association are the University of Oregon, University of San Francisco, Washington State College, Whitman College, University of Santa Clara, San Jose State College, Georgia Papermill College, San Diego State College and Hudspeth State College.

Cal Poly's application for accreditation was based on a 50-page document covering every phase of the college.

LIVES SAVED

Since Jan. 1, 1948, when the University of California Student Health Association launched its annual program to curb the use of tobacco, 48,000 lives have been saved from the consequences of smoking tobacco.

By A. H. McNeil

The queen of the 1949 Poly Royal, Donna Grace Barbage, has been selected to reign over Cal Poly at the 17th Annual Poly Royal on April 29 and 30.

Donna Arrives! We're Proud

By R. H. Hazzard

(GPNS) Jan. 18, 5 P.M.

Here we are at the San Luis Obispo airport patiently awaiting the arrival of Cal Poly's new Poly Royal queen-elect, Donna Grace Barbage. Donna has been selected to reign over Cal Poly at the 17th Annual Poly Royal on April 29 and 30.

IT'S DONNA... our queen-elect is with us today. Having arrived at SLO airport yesterday afternoon, Miss Barbage will be aquired to find the campus during her brief stay at Poly. Her visit, calculated to bring a bit of sunshine into our otherwise drab lives, will be climaxed with the Christmas formal tomorrow night at the armory.

Lives Saved

Since Jan. 1, 1948, when the University of California Student Health Association launched its annual program to curb the use of tobacco, 48,000 lives have been saved from the consequences of smoking tobacco.
Zuncho, Family Man; Boasts Active Past

Thoroughbred horse breeding in its seveth year here at Poly. The horse, headed by Zuncho, 18 year old Chilean stallion, is maintained for the purpose of instructing students in fundamentals of light horse production. Zuncho, established at Poly in 1953 by Miss Katie DuPont, is at Poly through a joint arrangement with the Chilliwack Thoroughbred Horsebreeders' Association.

**CHRISTMAS PARTY TO BE GIVEN FOR CAMPUS KIDS**

All Cal Poly students, both on and off campus, are invited to the Children's Christmas party to be held on Tuesday, December 18, from 3 to 5 p.m. in the student union. The party is sponsored by the Student Social Committee and the Poly Royal. Mrs. Dean, S. E. Bolling, will direct the program and entertain the children.

**Crops Teachers At Four Conferences**

Members of the departments of agriculture teaching and extension at Poly are to attend conferences at various locations in California. During the Thanksgiving holiday, a conference on fruit and vegetable marketing was held at the Los Angeles terminal market. Among those participating were Ralph Vorhies, head of the department, and Phil Mullins, the pilot, who had been flying the students to Los Angeles to participate in the conference.

**THE SLIDE RULE ON ARCHITECTURE**

By Fred Hawley

If you're an architect, draftsman, engineer, and gentle- man in bad taste, you might take up architecture. This may be your career. If you don't, there is no such thing as censor- ship. Every man develops his own standards of taste and preference, and there is room for every type of designer. In our visit to the Architectural Design Lab, we found the boys busily applying the principles to a railroad station de- sign. Some are doing overhauls for the extreme progressive school, but others find satisfaction along less radical lines. There is no need to worry whether the con- struction for every project is perfectly out of line as far as Poly archi- tects are concerned. The architects serve notices that their Poly Royal exhibit will be a masterpiece of modern design, furnished with the architectural interest, the railroad design with the purpose of instructing students in the fundamentals of light horse production. Zuncho, established at Poly in 1953 by Miss Katie DuPont, is at Poly through a joint arrangement with the Chilliwack Thoroughbred Horsebreeders' Association.

Engineers' Council Establishes Code Of Ethics

By Don Johnson

With the high-minded aim of giving Cal Poly's industrial students a code of ethics for future engineers, the recently organized Engineering Council has established a code of behavior for its members to follow, according to directors J. B. McCollum and Kenneth Miessler.

Endorsing the concept of a future professional man with their shared ethical and social obligations to society, the council at a recent dinner-business meeting discussed the possible and its organization might be to the individual Poly engineering student.

Attending the meeting were the council's editors-in-chief L. A. Rood, T. Y. Ellis, and William Leonard; board members K. A. Ellis and George Rice from sales, James F. Rosen and Everett Sade from machine mechanics, Norman A. Sharpe from AC, Ralph B. Ploystroy and Don Risen from architecture, E. C. Grayer and Frank Musker from Biology, J. B. McCollum from electronics, Bert W. Castor from electronics, Ellis and Keith Watts from ME, A. M. "Bert" Miller and Everett Jaltr from aero, James Wayne Crosby from EE, Clarence F. Morion and Everett Jaltr from engineering, and board chairman, has announced the following staff changes which took effect on December 8.

Phil Keyser, sophomore AH student, succeeds Don Johnson as the editor-in-chief. Bert A. A. M. "Bert" Miller again heads the sports department, a position which he held last semester. Dr. Goodwin continues filling feature material. Many new writers and reporters are contributing their talents to the staff, and along with a few policy changes, El Mustang should continue editing feature material.

Poultrymen Visit Atascadero

Turkey Plant

Ray R. Altman, manager of the California Turkey Growers association in Atascadero, played host to 28 poultry students last Monday, December 18. Twelve-hundred turkeys were being processed for market by the students who visited the association's cooperative killing plant.

All phases of turkey processing from cutting to loading the dressed birds on refrigerated railway cars were seen by the students.

Publicity Board Announces Staff Revisions

With the advent of a new quarter, El Mustang reorganizes publication with a new staff including new editors. Emmone Blake, publicity board chairman, has announced the following staff changes which took effect on December 8.

Phil Keyser, sophomore AH student, succeeds Don Johnson as the editor-in-chief. Bert A. A. M. "Bert" Miller again heads the sports department, a position which he held for two semesters last year. Dr. Goodwin continues filling feature material. Many new writers and reporters are contributing their talents to the staff, and along with a few policy changes, El Mustang should continue editing feature material.

Counsel Program

Chase Hall, Locals, Monday, December 18, 1948, 6 p.m.

The time to shop for Dad's present is now—not later during vacation when the rush is on.

Let us show you some fine Arrow shirts, colorful Arrow ties, warm Arrow sports shirts, or a box of Arrow men-sized handkerchiefs—gifts that any man will appreciate.

Arranged by the Advertising and Promotion Department.

375 Main St. Phone 481-W

Bob Walker

We have many ARROW CHRISTMAS GIFT SUGGESTIONS for DAD

There's nothing your Dad, brother or rich uncle would like better than Arrows for Christmas.

So why waste vacation time shopping? Just see your local Arrow dealer for practical gift suggestions.

For example—Arrow's fine white shirts are always welcome, and a warm and colorful Arrow sport shirt would be a perfect gift for an outdoor Dad!

A few nice Arrow ties might hit the spot. $1.00 to $2.50 or how about a box of fine Arrow handkerchiefs with Dad's initials?

See your Arrow Dealer.

ARROW SPORTS SHIRTS from $4.00

ARROW HANDKERchieFS from 32c

ARROW SHIRTS and TIES

English Laboratory Posts Winter Hours

The English Writing Laboratory operated by members of the English Department last quarter is to be continued for the Winter quarter. Students desiring special help with fundamentals in English, and those referred to the Laboratory by instructors in other departments should note the following schedule if they don't wish to flunk no English course.

Sunday, 3-8 Mr. Shephard, Office Building, room 4

Tuesday, 11-18 Miss Stylor, Administration Building 211

Wednesday, 4-8 Mr. Smith, Administration Building 211

Thursday, 10-18 Miss Stylor, Administration Building 211

Friday, 1-4 Mr. McNealy, Office Building, room 4

STOP WORRYING!

TAKE DAD ARROW SHIRTS FOR CHRISTMAS!

for some time shopping? Just see

your local Arrow dealer for practical gift suggestions.

Moroski High Man; Cal Poly-Chico Split

Batting all the way, the Cal Poly Mustangs were able to gain an even break with the Chico State Wildcats in a two-game double-taking Tuesday evening's encounter 86-80 after dropping Monday's opener 88-42.

Finding the going rough but easy against an air-tight zone defense, Hank Moroski and company spurned the pedestrianism of two evening's play doing nothing but trying to get to the basket. Unfortunately, however, the Polyman still found the nail stuck against them as they continually washed the ball home out of the mouth.

Leaving the Mustangs in the second-half was Hank Moroski who managed to gather up 25 points in the two games. Hank looked his normal self on both defense and offense, but found the ball just a little too big for the basket. Most of one of the popular players of the two day show, was assisted by Hank Moroski, who burst a packed house in its fast belongings with his left hand driving shots and tips in. Brathem entered early all of his time to Monday evening's game riding the back of Hank Moroski, if it seems like no one has ever heard of him, but once he got his charge Tuesday evening's show Charles Brathem, Jr. had found out that he had the stuff to play the pivot position.

Also looking good in the green and yellow colors was Hank Moroski and halftime MVPs, Pat McConnell, Jack McMurdia, and Jack Wheaton. Neither one of the three found it too hard to out-do the scoring column, but both play of the Mustangs was considered very good during the Chico tilt.

In all, the Mustangs looked fair, but not impressive. Chico men, however, it will be a long time before the Mustangs run into another defense as tight as they one faced against the Chico quintet.

Bowlers Active; Gettendorff Pummels Pins

High game this week in the Cal Poly bowling league was turned in by George Gettendorff of the BHIU. Oscar came through with a storm of 213. He was followed closely by Jerry Carney of Guy's with a 206, and Eddie Philips of the popular Variety Club with 205.

El Mustang bowling league continues to solve the high series honors. This week it was Norm Isakson with 627 pins for high series of 611. The following are statistics for the El Mustang bowling league:

- 1st. Mike, Dalk 275-275 550
- 2nd. George Gttd 234-275 509
- 3rd. Variety Club 241-264 445
- 4th. M. R. S. A. 236-269 471
- 5th. Guy's 262 196 458
- 6th. Ub A. 210-249 459
- 7th. Bob Phillips 220-239 459
- 8th. Bob Walker 229-236 465
- 9th. Roberts 210-256 466
- 10th. Bill Bower 215-251 466

Statistics Place Poly 2nd In U.S. Forward Passing

Although the Cal Poly gridders finished tied in a tie for first place in NCAA conference play, the Cal Poly offense scored 375 points, which was second highest in the NCAA. Among the 14 contributing ball fanciers, the PolyPoly combination came in just behind the University of Oregon, which scored 376 points. With a total of 124 yards for a total of 814, Oregon is also first in the NCAA.

The Mustangs scored a total of 17yard totals, which was the second highest in the NCAA. Of the 14 contributing ball fanciers, the Mustangs scored 17yard totals, which was the second highest in the NCAA. Coaches Sheldon Harden and Chuck Pavlik sent their hopes and building plans into action this week...the Mustangs battle back in the halls of UNLV.

The men who call "signal" over their heads and get ready for knowing better of losing know, instant from the borders of millions of husky, hard-fisted brothers...But then comes evaluation, we looked up an article by building by the coaches. You know, the little matter of moral fits, but looks well on your until you find on that not only any place after a bad season.

"...bolla down to what seems to be the little matter of price", which hats, to be tried on and discarded and faculty all like that Idea that are being worked out since fall under the direction of those few men and the Perry. While coaches Harden and Pavlik were finishing up on the little article...Perry handled the Mustang wrestling, while Bear took charge of the football situation.

Today will find many veterans of the wrestling institution. The list of grapples includes Jim Down, 160 lb. bracket, while Fred Adams will once more match his might against the 175 lb. competitor. Other wrestlers making the trips are we are...Larway, 155 lb; Bob Alexander, 138 lb; Jay Deas, 151 lb; and Al Cadenza, unlimited weight.

Getting the gloves for the first time the return tonight with the last year's favorite, Art Ogden, who will be looking for a knockout in the 138 lb. class. Los Angeles, another favorite, will definitely have a shot at the title, but his weight won't affect that. Other Mustang wrestlers who can be counted on to make a stand are Bob Alexander, 160 lb; Racelette, 160 lb; Late...the man at the summit. He is...156 lb. and Hanrahan unlimited weight.

Astcsc Laub Weador

The San Diego State college grid-covers honored Cal Poly grid-Charles Weador this week by dubbing him a honoree of the UNLV all-squad lineup.

Among those...Lew Scharts who is becoming almost all his days, and every day except Saturdays and Sundays. No one had to tell them.

The moral of this story, gentlemen who call "signal" over their heads and get ready for knowing better of losing know, instant from the borders of millions of husky, hard-fisted brothers. But then comes evaluation, we looked up an article by building by the coaches. You know, the little matter of moral fits, but looks well on your until you find on that not only any place after a bad season.

Open Letter To The Queen

Dear Donna:

Welcome to Cal Poly. Nice having you with us for a few days. Hop you like our independent little five acres, and have all sorts of fun while here.

You know, we sort of came here these few days just to meet you. Sure thing; we took off on Thanksgiving and would have stayed at home with all that home cooking, but we heard that you were coming down to San Luis Obispo to visit the students. We cannot imagine anything more appropriate.

While many of these may be unjustified, there are some which should certainly be looked into. The most important of the latter complaints is that concerning the eating facilities.

The "quick breakfast" does not exist in the old Corral. The average time spent in line for breakfast is 15 minutes. Thus, if a student expects to arrive on time for an 8:00 class, he must be in line not later than 7:15. A regular meal is not furnished for lunch. We have often waited longer than 30 minutes for our order even though there were only several employed at the time. The average time in line is 80 minutes, and it's rare when the meal surpasses the time of its service.

What are the causes of this? First, the space provided for the Old Corral is entirely inadequate. Secondly, the management cannot be blamed, for they are as able and a satisfactory job as they could possibly do.

However, I suggest that you keep students to do nothing rash. I went to V. H. Meacham, dean of student welfare, and learned that the reason nothing has been done about this is that the school holds only a yearly contract on the property, so that it would be unwise to rectify things. But the school is now negotiating with the National Council, the owners, for a five-year contract. If it is obtained, a new and larger cafeteria will be utilized together with a better recreation center. This would all occur in the very first part of the coming year. So hold on, things are looking up. Merry Christmas.

A.B.

Chow Situation

Complaints have been coming forth loud and fast from Cal Poly students "stationed" at Camp SLO. While many of these may be unjustified, there are some which should certainly be looked into. The most important of the latter complaints is that concerning the eating facilities.

The "quick breakfast" does not exist in the old Corral. The average time spent in line for breakfast is 15 minutes. Thus, if a student expects to arrive on time for an 8:00 class, he must be in line not later than 7:15. A regular meal is not furnished for lunch. We have often waited longer than 30 minutes for our order even though there were only several employed at the time. The average time in line is 80 minutes, and it's rare when the meal surpasses the time of its service.

What are the causes of this? First, the space provided for the Old Corral is entirely inadequate. Secondly, the management cannot be blamed, for they are as able and a satisfactory job as they could possibly do.

However, I suggest that you keep students to do nothing rash. I went to V. H. Meacham, dean of student welfare, and learned that the reason nothing has been done about this is that the school holds only a yearly contract on the property, so that it would be unwise to rectify things. But the school is now negotiating with the National Council, the owners, for a five-year contract. If it is obtained, a new and larger cafeteria will be utilized together with a better recreation center. This would all occur in the very first part of the coming year. So hold on, things are looking up. Merry Christmas.

A.B.

In Appreciation

Since football season has closed, the valuable support of the downtown Mustang Boosters has been stopped until next fall. So far as monetary support from SLO merchants is concerned, they have been most cooperative.

Some of the people in San Luis realized this and decided to do something about it. As a result, the members of Cal Poly Cheerleaders, under the leadership of John Cymbal, which ordinarily furnishes free of charge by the following restaurateurs: the Bode-Have, Dundie-Dawg, Rude-Carpe, the Golden Cockerel, and the J. E. Grill.

As a result of a generous gesture, Coach Ed Jurgen-son has asked EL MUSTANG to extend our written thanks to all who are carrying on this short but timely campaign to take this opportunity to do so. In conclusion, we would like to suggest that students patronize these business places as often as possible. If they can aid our team, perhaps we can do our bit in return.

Letters to the Editor

Dear Editor:

This letter is meant only for those of you who will actually read it. If you never attend the afternoon matinee and come home with explicit in­
terests, you won't be interested in the next article, so you won't be interested in the one after that, etc. So, in order to refresh you, here's a brief resume:

Now then, I have been approached by several members asking whether it would be possible to get their wives, who hold student, interesting but at the same rate that Poly men enjoy.

As you can see, I am not a student of the matter present to Mr. Roddy. He has a credit card and will be able to get my mother's credit card. I must be in line not later than 7:18. A regular meal is the fifteen cent price. A word to the wise should be said:

Mrty Englsr

Dear Editor:

I have been reading the first three chapters of W. B. Munro's The Book The Government of the United States, which is the text used for American Government in this course. I found myself interested in the topic but also being bombarded with the information about successively more silliest facts, and I'm sure that this is the cause of all the arguments to the book. I believe that Munro should be a little stricter about the material he writes:

First, who are these students of the subject? Munro mentions none besides, so everyone is not entirely familiar with the subject, so administrating the office you should make the book available, and how people think is very important.

Second, the authors do not agree about the subject. There are those who believe that the government was a man-headed body, and others who believe it's a republic.

Third, what are you students of the subject? Munro mentions none besides, so everyone is not entirely familiar with the subject, so administrating the office you should make the book available, and how people think is very important.

Dear Editor,

In the story of the United States, some of the worst was censured by the courts, and the rest was left to the people. Among those who have identified is the culprit, the Cal Poly Student. It's unfortunate that so few (if any) of these films have been treated.

A word to the wise should do it. A buddy of mine just pulled in from Korea. He tells me that the movies are a bad scene. He says that they no longer allow people to steal their meals, but that he has been stranded at home with all that home cooking. The old recipe for a Merry Christmas and a Happy New Year.

D.G.

FILE THIRTEEN

With all this running back and forth from chipmunk to oil baron to oil baron, it's easy to get confused. But one thing stands out from all this. The oil barons will kill themselves and the world in order to get to the last drop of oil. All else is just a distraction on the more current topic.

The same thing is true with the rest of you. Put up with the oil barons, they don't care about you, and no one else does. Life is a short thing, and I'm sure that you would like to get out of this world as soon as possible. This is why we are all here. We have nothing to look forward to. Regis­
ter to get your share of the oil baron's oil, and get your share of the oil baron's pollution.

Being the first of the month, there was still some money left in the bank, but as a matter of fact, we are not going to use it. We are going to write an essay for our English class.

Annie Gomez is that changing way is the reason we are going to spend the holidays in Cal Poly. We are going to have a Christmas party for the whole of the students on New Year's night. Come and have a good time with your people. We would like to meet you and get a chance to get into the act. This leaves less opportunities open for any Polyite, male or femail. If you can't come, you will do a lot more to keep in shape.

A word to the wise should do it. A buddy of mine just pulled in from Korea. He tells me that the movies are a bad scene. He says that they no longer allow people to steal their meals, but that he has been stranded at home with all that home cooking. The old recipe for a Merry Christmas and a Happy New Year.

The WHY I SEE IT...

By Lindbergh

Hollywood movie moguls are experiencing rough nights. While there is a thing of the past, with box office receipts steadily falling, screen production continues at a high rate. As the films are produced, they are released at a faster pace than ever.

One doesn't have to look very far to find the reason for this box office slump. The willingness of the public to accept any film, no matter how poor, is at an all-time low. Never know that the public will not accept any film. Never know that the public will not accept any film.

A word to the wise should do it. A buddy of mine just pulled in from Korea. He tells me that the movies are a bad scene. He says that they no longer allow people to steal their meals, but that he has been stranded at home with all that home cooking. The old recipe for a Merry Christmas and a Happy New Year.

ANCIENT SHOVEL... Even Paul Trltenbach comfortably in a campus tree and displays the very digging instrument which once ended the planting of 27 campus trees. The shovel was once part of an old Poly tradition—graduating classes from 1906 to 1932 donated a campus tree for campus beautification purposes. The soil was broken with this shovel which has since been retired to a closet in Vernon Meacham's office.

Class Trees Departed; Survived by Shovel

by Paul Trltenbach

A lovely shovel can turn up interesting things, and that happens every once in a while.

The recent finding of a dusty old shovel, with faded ribbons on it, has brought back to memory a fine old Poly tradition. The year 1906 marked the founding of the tradition, which was a part of every Poly graduation until 1932.

Students of the class of '06 used the shovel for digging a hole at some likely spot on the campus. There the etas* of '06 tree, Baeh sueh****, was planted a sapling which is likely a spot on the campus. The tree was never dug up; it was planted a sapling which is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus. The tree is likely a spot on the campus. The tree was never dug up; it is likely a spot on the campus.

The shovel is old now. It has been in retirement for 37 years and the ravages of time are written on it. In the words of Mr. Trltenbach, the shovel has "seen better times at some likely spot on the campus. It is red now, and has been painted a dull red color at some stage in its life. It is still used as a teaching aid and is located in a closet in Vernon Meacham's office.

The shovel has been a part of Poly tradition for over a century and is a reminder of the history and traditions of Cal Poly.
Turkey Shooters Vie For Yuletide Birds

The rifles are 8 gauge with metal sights. The shells are 410's, short and long. You take the shells, folk—don't be bashful. There's gonna be—lady, would you mind pushing that gun in the other direction—there's gonna be one turkey given away to the highest scorer on each fifty targets sold in the 100 and 75 foot target shoots. One out of fifty is gonna be the lucky recipient of a great big beautiful turkey, compliments of the Young Farmers and the Rifle Club.

What's that, mister? What do we do in case of a tie? Fly, glad you asked that question, mister. I'm sure of one way we use the Restituta Bull's Eye target for the final decision.

Who's next? Step right up and try—lady, don't argue with your husband, give him the 50 cents and he might win you a big, fat turkey for your Christmas dinner. Sleep right up, folks...
