Building permits required for all construction work

Facilities would like campus departments to be aware that all construction projects — large or small — must go through the campus building permit process. A building permit is required for all departments, offices and student projects using their own resources.

All applications are to be sent to Spencer Meyer at Facility Services. It takes about two weeks to process a permit. Special projects that require outside approval, such as seismic or environmental projects, might take longer.

For a building permit application and more-detailed information on the process, go to the Facilities Planning Web site from the Cal Poly home page and click on Building Permits, or go directly to http://www.facilities.calpoly.edu/Facilities_Planning/buildingpermit/permit.htm. The site contains a permit application that can be downloaded, filled out and submitted to Facilities Planning & Capital Projects.

For more information, contact Meyer at ext. 7227.
