Shearing School
Convenes At Dairy Pavilion

A two-day sheep shearing school held daily classes at the dairy Pavilion beginning Monday, February 11. The object of the course is to teach the proper method of handling sheep and shears in order that the greatest amount of high-grade wool may be taken from each animal with a minimum of abuse and handling of the sheep.

Ed Warner, Washington state representative, and Jack Wilson, California Woolgrower's Association, instructed the classes which were open to Polytechnic Dairy Club members and high school students of this area.

Warner demonstrated shearing techniques and helped students in the practical work that followed his lectures. First with a lamb, then with a ewe, he was given a chance to attempt the actual shearing. Mechanics used were similar to those used for the demonstrations.

Culina and George McNally, All instructor, instructed students in the care and handling of the sheep. By the end of the two days, all but one had been taken.

According to Culina, the shearing demonstration was attended by 28 students who attempted shearing following Warner's demonstration.

"Today's professional shearer gets a headache for shearing," Warner said. "A good shearer can do 100 sheep a day."

Colina also said that he received a very good report from the students of Collin's sheep, Nanny, Swift and Co. heager, which included several sheep recently purchased from the campus piggies. Fire the average sheep was more than 120 pounds, which is not bad judging from the sheep's general condition. The students' work is judged on the different ways and positions in which the shearing was done.

"We were pleased with the way the students worked," Culina said. "We found that it is excellent work when they are given the opportunity to work.

The lambs were originally purchased on the farm and were brought to Poly from Pity. They were fed on the campus and given water and hay, plus a grain mix and salt. The concentrate feeds were purchased from off the campus, to be added.

Bowman Named Young Farmers State Secretary

Robert F. Bowman, Cal Poly All student, was elected state secretary of the California Young Farmers when the organization convened at Los Angeles, February 9. The 27-year-old Sonoma County man was chosen to fill the term left vacant when the regular term ended January 1.

Before assuming the office of secretary, Bowman was chairman of the California Young Farmer's state executive committee. He was elected to the committee in January 1949 by delegates representing the state's 12 counties.

The new secretary was chosen by 794 delegates who attended the convention at the Los Angeles Hotel.

Boughner Victor In Desert Rodeo

Lem Boughner, animal husbandry student at California Polytechnic College, won $200 prize money in rifle roping at the Palm Springs rodeo on Saturday. Boughner took first place by roping his first calf in 14 seconds and took second place in the same event Sunday with an 18-second average. He roped his second calf in 17 seconds.

Jorgie's Sox Plus Tight Defense May Turn Trick

By G. Hall Pyle

With two weekend "crocohals" looming ahead, the Cal Poly Mustangs venture north on the 101 warpath today meeting the San Jose Spartans in the Spartan gym tonight, and invading the COP Tiger's den at Stockton tomorrow evening. And should the local five have any hopes of staying in the mad scramble for the conference crown, they will have to win at least one of their weekend games.

But all indications point toward victory tonight for the Mustangs club. On the Washington State University campus, where the Spartans will face one of the top teams in the Pacific Coast in Coach Walt McPherson's Spartan conclave today, the net of recent losses might just be enough to make the Spartans believe they can win tonight. The Spartans have had a couple of losses in recent years, the latest one, in the Spartans last-second defeat at the hands of the University of Washington. Last weekend saw the Spartans lose to the Polymechs, a team that takes to the region's rolls. That type of victory can be expected again tonight. And even so, the Spartans will be able to stop when the Spartans win.

The book is titled "Refrigeration," written by Professor Ralph Romer, head of the air conditioning and refrigeration department at California State Polytechnic College. It will be published next month by the Prentice-Hall Co. Los Angeles.

The book has been gathered by Warner over a period of years. Many of the fundamental concepts and techniques and maneuvers on a central air-conditioning and refrigeration system, it is worth reading. It is a treat for the student, but it is also a treat for the student. The book is a textbook of its kind, published in 10 years.

On Refrigeration

The book is the latest in a series of books on refrigeration published in 10 years. It has been written by Professor Ralph Romer, head of the air conditioning and refrigeration department at California State Polytechnic College. It will be published next month by the Prentice-Hall Co. Los Angeles.

Quantity Not Goal

El Corral Attains Goal

By Holland and Bliss

Man, there's nothing like a good hot cup of java when in the middle of a long night and almost just put up with waiting the average 15 minutes for a good cup of freshly brewed java or the average 17 minutes for a good cup of coffee.

Since the coffee has become as popular as the hot water, the demand for a high-quality cup of java has increased and the demand for a high-quality cup of coffee has increased too.

While the coffee is usually served in a cup, the demand for a high-quality cup of java has increased and the demand for a high-quality cup of coffee has increased too.

While the coffee is usually served in a cup, the demand for a high-quality cup of java has increased and the demand for a high-quality cup of coffee has increased too.

School Broadcasts Begin Next Week

California State Polytechnic college will go on the air beginning with the opening of the first week of the Winter Quarter on Monday, Jan. 18. The station will be on the air from 10:00 p.m. to 6:00 a.m. each evening.

Winter Quarter's Largest Assembly Heaps Penn Speak

Heaps attended assembly of the school year gathered last Friday night to hear Dean Price, chief of the state department division of Camp SLO, who impressed the assembly with his diplomatic bearing and his winning, winning attitude, speak on the "Voice of America" radio program which he supervises.

Winter Quarter's Largest Assembly

The meeting was called to order by the program's moderator, Ken Danielson, announcer. Programs are being arranged with the cooperation of members of the college staff, many of whom will appear in future broadcasts.

SAC ProposesER D BoarTo City Council

Erection of two street signs to simplify transportation of Cal Poly students will be before the San Luis Obispo City council, by a spokesman for the Cal Poly student body council.

Woman's Page Will Be New Feature

Beginning Feb. 18

A new Winter feature, a woman's page, is scheduled to begin publication on the 18th of this month. It was announced by Emmene Blake, publications-board official at the beauty's last meeting, Feb. 7.

"The woman's page has been produced as an answer to the recent requests receiving the publications board's department representatives, for representation for student wives and the women employees of California Polytechnic," Blake said.

Mrs. Ruth Casey, student wife and El Corral employee, was named editor for the woman's page. Mrs. Casey has had high school, college, and professional writing experiences.

Mr. Casey's staff will include Betty Hunter, general office secretary; Marge Urech, student, and El Corral employee; and Frank Liddle, general office secretary.

Hort Class To Make Field Trip

A field trip to the Santa Barbara area will be made by ornamental horticulture classes Friday, February 18. The group, accompanied by Howard Emmons, state division of highways, and El Corral employee, was proposed Monday, Feb. 7, to the San Luis Obispo city council.

"The woman's page has been produced as an answer to the recent requests receiving the publications board's department representatives, for representation for student wives and the women employees of California Polytechnic," Blake said.

The Slide Rule On Electricity

By G. Hall Madewell

"We have a better equipped lab and the student can get more out of it than he can in a high school science lab," commented Joseph H. Ritter, head of the H.S. instruction.

The school has a complete shop set up through the Kill Lab. The lab floor was a recently acquired shop activity. The AC and DC machine strength class was testing performance tests on the motor generator. The machine setters were moved from the regular shop to the lab.

One of the records, the 100 yard dash, was recorded at 11.2. Ed won the relay and the 440 yard dash, following a complete list of team medals. The lab report is a comparison of the AC and DC motor which the experiment is based on. The results of both the experiments, the schematic diagram of the experimental setup and the circuit performances of the machine setter, are included in the report.

Engineering develops a practical method for testing and reconditioning, says Mr. Roy. The same setup used by the student in solving problems can also be used for reconditioning. The method is best understood by reconditioning the old machine to see the difference.

The AC machine for this test is a mechanical model of the AC machine, but is also used in the lab for the AC test.

The lab reports a few Post-tensioned test results, they will be included in the report in the near future in the lab.

The Bomber High school training la very fine even for the professional.

Parking Courtesy

Courtesy is a thing of value, particularly where the driving of automobiles is concerned. Courtesy on the highway is important to cut down the loss of life and damaged fenders, and on the parking lot its absence causes no small inconvenience.

It’s all well and good for students coming into the parking lots early to ignore the white lines, or fail to straighten after parking.

Persons who park carelessly have little consideration for their neighbors, causing them to walk several extra blocks.

Straighten out. Let’s leave enough room for the next fellow.

Applied Learning

The efficiency of an illiterate people in competition with an educated nation is as the crooked stick against the sulky plow; the skid against the race car; the bullock cart against the express train; the pony messenger against the telegraph, press, the newspaper, the library; the spinning wheel against the factory; the pine fagot against the electric light; the press, the newspaper, the library; the spinning wheel against the peddling of the skins and herbs from the ox cart against the microscope and telescope; incantations and magic against education and medicine, books, newspapers, courts of justice, and society must revert to the stick plow, the ox cart, and such efforts.

If the team can get a decent range in the near future they feel sure that they can raise the team and move up in the league.

L.E.S/M.F.T. - Lucky Strike Means Fine Tobacco
Ross Beats Buzzer; Mustangs Edge Aztecs

By Russ Pyle

With 800 screaming fans and a near maim basketball court by the name of Ed Jorgensen driving him on, Frank Ross tacked a 48 foot buzzer-shot to hand the Cal Poly Mustangs a 44-42 victory over the highest rated San Diego State team all day.

Playing again that there is no defense against determination, the boys managed to spring to life in the dying minutes after they appeared to overcome a 14 point deficit and jar an almost certain victory out of the Aztecs hands.

And while a game it proved to be for the strong Brandeis house, the action was quick through two previous encounters to witness. As the final seconds started flowing out like a ball of fire the Mustangs lost the lead, only to regroup quick and find the range of the Pico basket.

But in the end, sharp shooting at the Free throw line, 96% of the total effort, was a bad miss for the local court this season. Neal's marksmanship, coupled with a good display of hook shot protection by center John Boriak, gave the visiting team a safe 33-22 lead at the half way mark.

At the Checklist

But after a brief intermission address by Coach Ed Jorgensen the Mustangs came out on the floor with all intentions of bringing the Aztecs scoring average up to a screeching halt. In the first 31 minutes of the second period, the Bordermen were able to gather up 26 points, and for as long as it took, the boys of the local camp had the lead. But the pudgy players had caught fire and picked up 24 points in sharp fashion with a margin but a minute and a minute, 8 seconds on the clock, left. The Mustangs had the ball but turned it over to the Brown, 22-19, where coach Jorgensen met the local quintet's 15 point lead with two minutes 40 seconds left in the game.

The surprising Cal Poly basketball team has moved into second place on the nation's smaller colleges, according to figures released by the NCAA.

Campus Grapplers Swamp Palo Altons 20-8

Lead by a couple of surprising comebacks by Al Cadena in the heavyweight division and Fred Adams in the 170 pound class, the Cal Poly matmen overcame the Stanford Indians 20-8. Stanford had been impressively all the way, Coach Robert Harden's matmen put on their best performance of the year to defeat the Cardinal team.

The first event of the evening was the new Mustang Dick Shackelton outpointed Kallman of the Indians, 8-4. Shackelton, boxed in, handled the advance of his foe and picked up four points for his efforts.

In the 138 pound class, Weber continued his undefeated ways by defeating Crusoe of Stanford. Crusoe had been well matched in what the Mustangs had to offer in this class, thus the match turned quite unfair once Weber won his match easily.

At the 146 spot, Indian Williams went out to the Poly's Montgomery in a 3:15 match, however, only two points were added to the Poly's total as Montgomery was a little more than he could handle.

In the 156 match, Jim Dore had a good looking chance for his decision, but it was too weak for the Poly's fibers as Montgomery had an even match, and Dore's look wasn't enough to make the Poly's fibers.

In the 166 event, Poly Adams staged a sensational rally to pull snowbird's affair, 1:4. Adams started out for his career to win over the Poly's fibers as Dore's look was much to be desired.

The 176 pound class saw another great battle as Al Cadena came out to the Poly's fibers with the 13-year old match to decision Barden's DeWitt. Cadena appeared to be the immediately improved pair of the day as he stage-didn't match-up against the Poly's fibers.

The Mustangs, Paul Fischbeck, scored his pin with Poly's 18:41, and although Tilly looked good, it was Just too much for his opponent and he took the decision.

Making it four straight wins for the Mustangs, Paul Fischbeck staged some of the best wrestling of the evening by defeating Ted Albritt in the 146 pound class. Hank Peters, Poly's veteran wrestler, lost a close one to Dick Degraft, captain of the Poly's fibers as he won his match 4-0. In winning his bout, Hutchison led Stanford's Wiffleton, 4-2.

In the 153 pound class, Hal Hansen led decisioning Ted Cruse of Stanford, 4-2. In winning his bout, Hansen won his match 4-0. In winning his bout, Hansen won his match 4-0.

Weber won his match 4-0. In winning his bout, Hansen won his match 4-0.

Heavyweight Rolf Harder wound up the evening by defeating Guns cafeteria fiber and handily.

All the cheap skates are not on hockey players.

HIGH SCORING TIGER

Port's Honk Pfutsch, Cal Poly marksman, who will be in action against the CAL POLY Mustangs tomorrow night in Stockton. Pfutsch has led the Tigers for the past two seasons both on the basketball court and on the tennis courts.

Clouters Belt S. F. State, 6-2

By Russ Barr

The Mustangs bowling team nudged out a 6-2 victory over the Savannah State during the hard hitting ASU winning streak. Paul Fischbeck, who looked extremely good in his first outing, and R.P. State's 143-pounder. Rolf Hansen, Mustang, heavyweight, sent his opponent to the canvas for the 1:39 pin during the 166 pound match.

Two of the competition's main men are making big breaks in the bowling field. The 193-pound weight was slightly less than a month away. Coach Bob Mott, who shares his enthusiasm with hes. The Mustangs schedule for the weekend is: Thursday, February 9, at 7 p.m. at the Farm West Conference Championships. Monday, February 12, at 7 p.m. at the Farm West Conference Championships.
P. E. Department Opens
Poly Royal With Grid Tilt

Ed note—Poly Royal Cathalade will appear in El Mustang each week until after the 1948 Poly Royal. Various departments and their Poly Royal plans will be discussed in this feature.

In just 77 days Poly Royal will begin with a scene from the physical education department of the science and humanities division. The annual Poly Royal week will be featured on Poly Royal and the remainder of the Poly Royal will be featured on Poly Royal. The physical education department has promised that their activities in CR 2 to 18 will feature exhibits and displays of material and will be open to visitors.

The Natural History club will assist the department of biological science in converting CR 15, for a good display.

In CR 2 and CU W, you will find reveals the chemistry of a quart of milk, a dozen eggs, plus an unusual display of plastic chemistry. The agriculture department will be quartered in CR 1 and CR 2, and CU V. Many exhibits will be displayed. A series of motion pictures and slides will be shown.

O. H. Senior Leaves For
Mount San Antonio
Anthony Amato, ornamental horticulturist senior, left Sunday for Mount San Antonio college to replace Bill Drake, ornamental horticulturist there, who was injured in an automobile accident.

Bill Drake, who graduated from Cul Poly in 1947, suffered a broken knee cap in a crash on the Ridge Route last week. He was an active student there and was hospitalized for two months. During that period Amato will replace Drake at the college, which is located in Pomona. He and his wife and two children acompañed him when they moved out of their Vesuvius home early this week.
