Orientation Program Set
For Freshmen's Benefit

Kennedy To Speak

Kennedy will speak to you. His welcome speech will stress the importance of the individual at the college.

The principal speaker for the day will be Bob Kennedy, Public Relations Director for Cal Poly.

Bob will speak on the importance of extra-curricular activities in a well rounded college education.

Tours of the campus have been planned so that you may learn, at first hand, where everything is located.

Registration

News Notes

Each student who is registered for the Fall quarter must make sure that his registration card is turned in at the Registrar's office, Administration Building 102, on September 15, 16, or 17. Students who are not registered will not be permitted to register at a later date.

Each student must have a complete set of records showing all of the new students. We wish all the students to realize that Cal Poly is their college. The administration, faculty, and all of the facilities of this college are available for just one purpose—to supply students with the highest type of educational opportunities. In return we want students to study and work hard so that the time spent at the college will be of the greatest value to each and everyone participating in our program. We also want the students to enjoy the years they spend here by entering into various extra-curricular and recreational activities which contribute greatly to the personality development of their college life.

I wish every success to each and everyone of you.

Julian A. McPhee

Mott Urges Frosh
To Enter Athletics

One of the departments of the campus that sends a cordial welcome to the new frosh is the athletic department under the direction of Athletic Director, Bob Mott. Coach Mott wants as many freshmen out for the various teams as possible and he relates that everything will be to their advantage if they get into athletic competition as soon as they start at Poly.

"All students may check out athletic equipment at any time of the day. All they have to do is sign a 'take out' card," Mott announced. "And for those living out at Camp BLO there will be, in the near future, hand-ball courts, tennis court, horseshoe pits, and a soft ball diamond."

Robert E. Kennedy

SAC Officers

Greet '53-ers

On behalf of the Associated students, we welcome you, the class of 1953, to Cal Poly. Graduation may appear to be in the far future, but actually these years need not be spent in vain.

If you enter Cal Poly with the attitude of taking full advantage of the opportunities available, you will find this to be an important stepping stone in your life.

We want to stress the importance of your taking an interest in student body government. The student body organization is designed primarily to render service to you, the individual student. In order to carry out this service to its op-
Riebel To Teach Revised Courses In Tech English

Three technical English courses, English 11, 12, and 13, will have a complete revision, according to John P. Riebel, who is in charge of the work in English here. These courses, designed for technical and vocational students, have been arranged to form an integrated series of courses, consisting of letters, reports, and speaking, with the practical situations which are to be involved in good industrial writing. In English 12, practical reports are given in the fields of sales, applications, correspondence for salesmen, and others. English 13 is designed to prepare students for oral and oral reports, both related to the students' major field of interest. This is a real innovation in technical courses, according to John P. Riebel, who originated the idea. Riebel is prepared to help the student get acquainted with the practical situations which will probably be called upon to solve by correspondence after leaving college.

Riebel, a new member of the American Business Writing Association, has taught business writing to industrial executives, and will express himself in his teaching of the courses. He is associated with many industrial concerns as an instructor in the General Motors, and is on the Board of Directors of the American Management Association. Riebel is a native of Detroit, Michigan, and was educated in the Detroit schools.

Welcome New Mustangs

Welcome to new students and welcome back returning students. Mustang Nation is ready to greet its members with open arms, and the campus is buzzing with excitement.

El Mustang is the voice of the students, representing the diverse perspectives of the campus community. Whether you're a first-year student or returning from a semester abroad, you're part of the Mustang family.

As you settle into your new academic year, remember to find your place in the Mustang family. Join a club, attend a campus event, or simply take a walk around campus to meet new friends and explore the many opportunities available to you.

We are excited to see what this academic year has in store for all of us. Mustang Nation is here to support you every step of the way.

Welcome to Mustang Nation!
High-stopping Betty Jo Bowler stole the show at many of the football games, and with good reason. Student wife Betty Jo was once a national baton twirling champion. You’ll see Betty Jo and the entire Poly band during the half-hour show at all the home football games.

Open Letter To Frosh

The Music department would like to extend a hearty welcome to all incoming Freshmen. We know that you are going to enjoy your stay here at Poly, and we hope that the music department will be able to make your stay even more enjoyable.

We would like to invite all of you who have musical talent to join our groups. There are three musical organizations on the campus in which you might be interested.

First, there is the Mustang Band, the Band is composed of from 50 to 60 men and plays for all home football games, as well as a few away, all student body assemblies, and for other events happening throughout the school year. The Band is a fast growing group as any football fan will tell you.Tickets for the Band will be held on Monday, Tuesday, and Wednesday, September 12, 13, and 14 in the music room, classroom 14 A. Pu.

Second, there is the Glee Club. The Glee Club sings at student gatherings all through the year as well as taking an annual tour of the state in the spring. Tryouts for the Glee Club will also be held on September 12, 13, and 14 in the music room, classroom 14 A.

Third are the "Collegians" Poly's well known dance orchestra. Although the orchestra has a large number of non-musicians among its members, there are openings for one or two more students. Orchestra meetings are held on the same days as the above groups in the music room at 8 p.m.

We would also like to invite you new mem-

The Passing Of A Champion

(With Apologies to Robin Service)

By Paul Nelson

A bunch of the boys way whooping it up in the El Corral one noon.

The Juke box in the corner was solting a bap-

The picture below the bar was not the usual-sized picture. The picture was the face of Dangerous Dan McIbrahim.

At the billiard table, with a crooked cue, stood Dangerous Dan McIbrahim.

Watching his ball he was a crowd, and the air with smoke was blue.

"Yes, you're right, I'm the champion."

"Sure Kid," he said, as the class bell rang, "but nobody ventured to go for the ball.

For Dan was the champ, but the kid was grim, and this might mean a show.

And the boys all knew that the game would be close, as they knocked in ball after ball.

Now the freshman, a shot, and a roar went up, the game was through.

The ball was the last one for Dan McIbrahim.

"Then he slammed it home, and there wasn't a doubt but what the game was through."

But what was chief—The crowd went wild.

For Dan had missed by a hair.

Now the freshman, a shot, and a roar went up, the game was through.

"For he made the eight, in the pocket ball had come." That was the shot that counted, and Dan drew back his hand.

"But what was chief—The crowd went wild, for Dan had missed by a hair.

Now the freshman, a shot, and a roar went up, the game was through.

"And now, this story has a moral: as all good stories should—"

You know that you think that a freshman's game, you had better knock on wood.

In stop in at classroom 1 if there is something we could do for you. If you just want to be same time, come in and look at the pictures of past games, and let us show you how to improve your game.

Herald F. Danielson

Director of Music

You are welcome to all of you, and we will broadcast to you.

GLenn A. Noble

Campus Personality

If we had to make a list of faculty members of highly interesting background, Dr. Glenn A. Noble, Chairman of the Department of Biological Sciences, would certainly be on the front page.

The son of an American missionary, Noble spent his early years in Korea and learned the native language in his early childhood. After graduation from Harvard University of California to study medicine, earning a B.A. and M.D. at Berkeley, and a Ph.D. at Stanford University.

While he was acting as consultant for the American Military Government in Korea, Noble gave his own time to teach lepers who are confined to a mission in South Korea. Noble was for ten years head of the Department of Biology at San Francisco City College and has done research in the chemical properties of plant extracts. Confirmation of his high standing as a scientist is the fact that he has been listed in "American Men of Science."

Married and with three daughters, Noble has built his own home in San Luis Obispo. He has a twin brother who has followed the same career, and is Chairman of the Department of Biology at San Francisco City College and has done research in the chemical properties of plant extracts. Confirmation of his high standing as a scientist is the fact that he has been listed in "American Men of Science."

With fall quarter just around the corner, Noble says his present work and believes that Cal Poly with its combination of academic and practical training, has an ideal educational program. Noble thoroughly understands the needs of a growing student body.

Grid Team Prepares For Season

Head football coach, Charles Pavelko, opened the 1949 football season last Thursday when more than 50 grid players reported for fall drills.

Pavelko, along with assistants, Bud Hindle and Bill Hare, former California All-Americans and two assistants, has been busy with his team since last year planning and preparing for the new season.

Charley W. Hall, not only co-captain, but also a member of the All-California team, is back in the Mustang fold after a two-year absence.

Back in the Mustang fold also are Vernon "Pinky" Bahamas, all Cal student-athletistic, and several other former All-American standouts.

Vernon "Pinky" Bahamas, all Cal student-athletistic, and several other former All-American standouts.

The Men's Faculty club has contributed to another section of the loan fund. Moneys have been made available for loans especially to the Wounded' Wrasse Trust Fund when no other sources are available for loans especially to the Wounded' Wrasse Trust Fund when no other sources are available.

The Student Welfare office would like to acquaint the student body with details concerning the operation of the student loan funds.

The money comprising the student loan funds arrive from several sources. Part has been the contribution of various individuals to the Memorial Loan Fund. The Women's Faculty club has contributed to another section of the loan fund.

The moneys available for short term loans amount to $8,000. These funds are augmented by the 66¢ service charge which accompanies each loan, and by the delinquent charges which have been made when the due date of a particular loan has past.

During the academic year 1948-49, a total of 201 individual loans were made totaling $11,012.06. This indicates an average loan of approximately $55.00. From these figures it would appear that about three and a half times during the school year.

The capacity of the loan fund, while not large, has served a very heavy drain on the loan funds. Of course at present the veteran students are experiencing in not receiving substancial allowance has created a very heavy drain on the loan funds. It is hoped that these funds will not be able to tide over those most in need.

The Student Welfare office is in the store and intends to continue your GI Bill education in a different school, you should apply as soon as possible for a supplemental certificate of eligibility.

The S.O.P. for Vets

Veterans who intend to go to school this Fall under the GI Bill are advised by the Veteran's Administration that the loan funds are augmented by the 66¢ service charge which accompanies each loan, and by the delinquent charges which have been made when the due date of a particular loan has past.

The first meeting of the Cal Poly Collegiate F.F.A. Chapter will be held on Tuesday night, Sept. 12 at 7 p.m. in room 304 of the Administration Building. It is by Rumblingham will outline the new 1950 program for all interested Ag. men, and Dr. Hargens will outline the possible requirements for a Master in Agriculture.
