Tickets for “The Imaginary Invalid” are $8 for the public and $7 for students and faculty. The play is produced under the auspices of the College of Liberal Arts.

Position vacancies
Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Vacancy information can also be accessed from the Cal Poly home page on the World Wide Web (address: wwww.calpoly.edu; click on “General Information”).

**FACULTY**
Adm. 312, ext. 6-2844

Candidates interested in faculty positions are asked to contact the appropriate department office at the phone number listed for more information and an application. Please submit all application materials to the department head/chair unless otherwise specified. Rank and salary are commensurate with qualifications and experience, and timeframe where applicable, unless otherwise stated.

**CLOSING DATE:**
December 31

**ADVISOR/COORDINATOR (Foundation Admission), Natural Resources Management Dept.** (805/756-2702). Time-track positive; academic year appointment starting fall 1998. Duties include teaching undergraduate commercial recreation, tourism core recreation administration courses; research; leadership; and professional involvement in the tourism industry. Ph.D. in recreation, park management, tourism, natural resources, or a related field with a minimum of one post-graduate degree in recreation, park management, or tourism. Applicants should have a combination of teaching, professional and scholarship expertise in commercial recreation and tourism. Knowledge of rural recreation, sustainable tourism development and planning is required. Preference will be given to applicants who possess advanced computer literacy and instructional media expertise. Apply to Bill Hendricks, Search Committee Chair, Natural Resources Management Dept., Recreation Administration Program.

**CLOSING DATE:**
December 1

**#8307:** Part-Time Lecturer Pool, Landscape Architecture Dept. (805/756-1319). Possibility openings during winter and spring quarters 1998. Primarily lecturing in core subject areas of professional practice: site analysis, planning and design; landscape architectural construction of construction; design fundamentals; and design theory. Must have master's or bachelor's degree in landscape architecture or related field, and significant teaching experience. Position is a part time, temporary, intermittent/on-call to full time with possible extension.

**CLOSING DATE:**
November 21

**Multimedia Producer, Pow’house Media,** (805/756-3385/mo.**

**CLOSING DATE:**
November 15

Campus Dining Assistant I, II and III positions are available in the Training area, (805/756-1319). Possibility openings during winter and spring quarters 1998 to provide supervision of effectively trained employees of the social sciences in a middle school setting. Applicants have a current California Teaching Credential with a minor in the social sciences, or have experience as a ‘master teacher and teaching assistant, bestow Master's degree preferred. Send application, CV, three letters of reference, and transcript to History Dept.

**CLOSING DATE:**
November 26

**Coordinator-Prospect Research and Tracking, Major Gifts and the Centennial Campaign,** (8207-3375/mo.

**ADVANCEMENT**

**Food industry endows ag scholarship**

The Food Industry is giving a $750 scholarship to a student who has demonstrated a commitment to the food and nutrition industry. Students interested in applying for the scholarship should contact the Financial Aid Office for more information. The deadline for applications is December 15th.

---

**Wayne State University library to talk on information age**

The dean of the university libraries at Wayne State University will give a presentation on "Student Learning in the Information Age" at 3 p.m. Wednesday, Nov. 12, in the Doud Reading Room.

Patricia Brehm, a former American Council on Education Fellow, is chair of the University Libraries Information Literacy, a group of more than 65 national organizations concerned with people's needs to access and use information effectively.

At Cal Poly, Brevik will also meet with campus committees and units to explore ways to structure information competency programs for effective teaching and learning.

Brevik's visit is sponsored by Tihac Davis, dean of the library, and Paul Zing, provost & vice president for academic affairs.
Leading American poet to read Nov. 14

A leading American poet whose "poetic concerns range from the vagaries of sexuality to the pressures of mortality" will give a poetry recital Nov. 14, 8 pm at Robinson Hall. Paul Zimmer’s images and ideas seem both humorous and contemplative," says English Professor Kevin Clark. Zimmer, who is the director of the University of Iowa Press, has published 11 books of poetry. His most recent, "Crossing to Sunlight: Selected Poems," is a rich and varied collection of more than 100 poems that range across three decades, offering both a retrospective and a current look at his work.

Other events scheduled for the 14th annual San Luis Obispo County Poetry Festival include the recital and a lecture-demonstration at the Davidson Music Center.

What is the history of consultation on this project?

As described above, preliminary campus discussion began in 1990-91 and became focused in 1994 with the tentative adoption of a five-year project site plan. The campus Planning Committee was involved early in these discussions. The campus Planning Committee consulted with the Campus Landscape Advisory Committee to select a site that had ecological restoration measures. The campus Planning Committee consulted with the Campus Landscape Advisory Committee to select a site that had ecological restoration measures. The campus Planning Committee consulted with the Campus Landscape Advisory Committee to select a site that had ecological restoration measures.

Confident communications focus of Nov. 19 workshop

Learn to "Communicate with Confidence" at a Human Resources workshop scheduled for 1-4 pm Wednesday, Nov. 19, in UU 220.

Pianist to give talk-demon, recital

Seattle pianist Ryan Whitney will give a free recital at 7:30 tonight (Nov. 5) and a lecture-demonstration at 11 am Thursday, Nov. 6, both in Room 218 in the Davidson Music Center. Whitney will also play Sergei Rachmaninov's Piano Concerto in No. 2

Women's Studies plans fall quarter potluck

Students, faculty and staff are invited to the Women's Studies Fall Quarter Potluck from 6:30 to 8:30 pm Wednesday, Nov. 12, at the home of Shawn Burn, a professor in the Psychology and Human Development Department. To sign up for the potluck and obtain directions to Burn's house, call the Women's Studies Program Office ext. 6-1525.

Millennium Day is Friday, Nov. 14; the University’s annual “Day of the Dead” celebration. The event will feature a public art exhibition, a community meal, and a cultural festival.

Tickets are on sale for the Cal Poly Report at the Performing Arts Ticket Office from 10 am to 6 pm weekdays and from 10 am to 4 pm Saturdays. To order by phone, dial 6-ARTS (ext. 6-2787). For information on Cal Poly Arts events, visit its website at calpolyarts.org.

Voice-piano recital planned for Nov. 13

Mezzo-soprano and part-time Music Department faculty member Jacalyn Bower-Kreitzer and pianist Leonard Stein will give a recital featuring the works of Arnold Schoenberg at 7:30 pm Thursday, Nov. 13.

The program will include Four Songs, Six Little Piano Pieces, Three Piano Pieces, Ballade "Jane Grey," and "An Unsung Hymn" by Charles Ives.

Stein will also present a lecture and demonstration on Schoenberg's work at 11 am Thursday, Nov. 13. The recital and lecture will be in Room 218 in the Davidson Center.

Bower-Kreitzer has been described by the San Francisco Examiner as having a "voice of molten gold." She has performed with some of the world's great opera companies, symphonies, and singers, including Jessye Norman and Plácido Domingo.

She has performed under the batons of James Levine, Simon Rattle, and Zubin Mehta and recently made her Carnegie Hall debut with Loren Maazel and the Pittsburgh Symphony.

Stein, a pianist, conductor, scholar, and teacher, is recognized as one of the leading authorities on Schoenberg and his music.

He became associated with the Viennese master while a student at USC and UCLA in the mid-1930s when Schoenberg came to Los Angeles as a refugee from Nazi Germany. Their association lasted 16 years, with Stein first as student and eventually as editor of the master's texts on harmony, counterpoint, and composition.

Admission to the recital is free; however, donations will be accepted for Cal Poly's Vocal Studies Scholarship Fund.

Journals career day held on campus

The editor of the Pulitzer-Prize-winning San Jose Mercury News, Jerry Sebegosh, was the keynote speaker at the recent Journalism/Mass Media Career Day.

Aspiring journalists met and talked with media professionals from across the state about their profession and how to get jobs on newspapers and magazines and in radio, TV, public relations, news photography, and agricultural communications.

Representatives came from KEYT-TV in Santa Barbara, KNTV-TV in San Jose, KCBS-TV in Los Angeles, KFI AM in Los Angeles, the Associated Press, and the Los Angeles Times.

CRP schedule

The Cal Poly Report is published by the Communications Office every Wednesday during the academic year. Please submit items by 16 am the Thursday before you'd like them to appear.

For information, call ext. 6-1511, or e-mail articles, suggestions, and questions to polyweb@calpoly.edu. Items can also be faxed to ext. 6-6533.

... Dateline

THURSDAY, NOVEMBER 12

Speaker: Paul Surette (Department of University Press), "Publishing for University Presses," Architecture 100, 7 pm.

Play: The Theatre and Dance Department presents "The Imaginary Invalid." Also on Friday and Saturday, Nov. 14-15, and Thursday through Saturday, Nov. 20-22, Theatre, 8 pm. ($)

Music: Mezzo-soprano Jacalyn Bower-Kreitzer and pianist Leonard Stein, Davidson Music Center 218, 7:30 pm.

... Sports Complex

cured by the Foundation from outside sources. President Baker has asked the Foundation not to use its own capital. The debt service on the secured loan is well within the annual private and special support capability of Athletics. It should be noted that the Sports Complex are not being taken from private sources for the university's academic program. Sports Complex funds come from those who designate their support to that facility.

As mentioned above, the cost of relocating the Sheep Unit will be paid from the Facilities Planning budget. Special Regents funds will be used to purchase, rebuild, and relocate the rodeo facility.

Finally, maintenance and utilities costs for the Sports Complex will be paid by the university. It should be noted that most of these costs would have been incurred on the fields eliminated by university construction elsewhere on the campus.

What is the history of consultation on this project?

As described above, preliminary campus discussion began in 1990-91 and became focused in 1994 with the tentative adoption of a five-year project site plan. The campus Planning Committee was involved early in these discussions. The campus Planning Committee consulted with the Campus Landscape Advisory Committee to select a site that had ecological restoration measures. The campus Planning Committee consulted with the Campus Landscape Advisory Committee to select a site that had ecological restoration measures. The campus Planning Committee consulted with the Campus Landscape Advisory Committee to select a site that had ecological restoration measures.

During the assessment and planning phases of this project, ASI also held a number of public forums in June 1996. Once the draft environmental impact report was prepared, it was opened to public review during a 60-day period, and it was formally presented to the campus opinion has been sought to concerns about the initial site selection expressed by the College of Agriculture Land Use Committee in spring 1995, the university worked with the committee to select a site that had the college's endorsement.

Campus opinion has been sought to concerns about the initial site selection expressed by the College of Agriculture Land Use Committee in spring 1995, the university worked with the committee to select a site that had the college's endorsement. Proceeds from the festival will be donated to the Literacy Council. Proceeds from the festival will be donated to the Literacy Council. Proceeds from the festival will be donated to the Literacy Council.

Pianist to give talk-demon, recital

Seattle pianist Ryan Whitney will give a free recital at 7:30 tonight (Nov. 5) and a lecture-demonstration at 11 am Thursday, Nov. 6, both in Room 218 in the Davidson Music Center. Whitney will also play Sergei Rachmaninov's Piano Concerto in No. 2

... Women's Studies plans fall quarter potluck

Students, faculty and staff are invited to the Women's Studies Fall Quarter Potluck from 6:30 to 8:30 pm Wednesday, Nov. 12, at the home of Shawn Burn, a professor in the Psychology and Human Development Department.

To sign up for the potluck and obtain directions to Burn's house, call the Women's Studies Program Office ext. 6-1525.
Sports Complex

The report calls for further study so that "...more-specific recommendations and mitigation plans can be developed to protect Cal Poly's sensitive biological resources for future generations. This will not only result in a more beautiful campus, it will provide quality outdoor laboratories, a better learning environment for all students, and make our campus more attractive to all..."

Relocation of existing agricultural facilities

The report suggests that, "...prior to construction, the exact locations be determined to provide a larger buffer zone with a goal of providing a minimal buffer zone of 50 feet" (from wetlands).

Rodeo facility: The present rodeo facility will also be displaced by the Sports Complex. The rodeo program is a student club activity. Like other club activities, it does not receive state funds. The program has historically been supported generously by private donors, and we anticipate that the rodeo program will be able to secure external donations to support relocation of the rodeo facility. A separate environmental assessment of the proposed relocation site for the facility is being undertaken.

Potential educational uses of the Sports Complex

The university can use the building of the new sports project as an opportunity to create a much better teaching environment in the form of a living biological laboratory.

The surrounding acreage can be used by students and the faculty to experiment with different methods to remediate environmental problems and, in the process, actually restore and enhance the wildlife habitats on campus.

As for the sports fields themselves, they will give students a hands-on laboratory that will provide practical experience that is important in a Cal Poly education. For example, students and faculty can use the site to evaluate the use of different grasses and other plants to see if they are suited for use in a recreational area while also experimenting with irrigation practices, fertilizers, etc.

How is the complex funded?

The report says that the proposed sports-complex site and the surrounding acreage currently show environmental problems owing to land-use practices started many decades ago and that, in the process of building this complex, efforts could and should be made to mitigate that earlier damage.

The report suggests that, "Prior to construction, the exact locations were staked in the field for our examination. We will work with the developer and the University to provide a larger buffer zone with a goal of providing a minimal buffer zone of 50 feet" (from wetlands).

The report goes on to say that the Cal Poly Sports Complex will result in unavoidable impacts to wildlife and wildlife habitats, especially wetlands, on and around the project site. However, by using a combination of on-site and off-site mitigation, we believe the impacts can be mitigated.

Poly Forum to take a peek at Rose Float

Want to get a sneak preview of Cal Poly’s contribution to the 1998 Tournament of Roses parade? You can at the next Poly Forum from 7:30 to 9 am on Tuesday, Nov. 18.

The float is the latest product of a joint venture, the molecular sciences plan.

The front half of the float, including its drive system, is built by students in San Luis Obispo, who spend a year of weekends working on the project. The structure is moved to Pomona on Thanksgiving weekend to be joined with the rest of the float.

The theme for this year’s float is “Countrywide Joyride” and features frollicking farm animals.

Poly Forum participants will get a peak at the front half of the 1998 float, talk to the students who built it, and learn how it will be finished, decorated, and driven.

The forum, part of Rose Float Week, will be held at the Rose Float Flower Field. (If rain, the forum will be held in the Performing Arts Center.)

Tickets are $10 if bought by Friday, Nov. 14, and $14 thereafter. Breakfast and parking are included. To reserve by phone, call ext. 6-1590.
Solicitation of vacation leave

Employees are being asked to donate vacation credits on behalf of Stephanie Allen, assistant vice president in Computer Engineering, who must take several months off for her newborn son who is undergoing surgery.

Donated vacation credits will help her receive full pay during her absence. Anyone interested in donating leave credits can contact Ellen Stier in Computer Science at ext. 6-5525 or e-mail estier for the Catastrophic Leave Donation Form.

For family care catastrophic leave, only vacation credits may be donated. Eligible state employees are allowed up to 16 hours of vacation credit per fiscal year in increments of one hour or more.

Evaluating teaching topic of videoconference

Faculty members are invited to participate in an interactive videoconference designed to improve college teaching and enhance the evaluation process.

"Evaluating Teaching Performance" is scheduled from 10 a.m. to noon, Nov. 14, in Room 25 in the Business Building.

The program will be presented by Peter Seldin, distinguished professor of management in the Lubin School of Business at Pace University in New York, and Thomas Angelo, professor of educational and psychological studies and coordinator of the Higher Education Program at the University of Miami.

The workshop will focus on student ratings, peer review, self-assessment, teaching portfolios, mid-course feedback, and the relationship between teacher evaluation and student learning. It will include a variety of short presentations, demonstrations, visuals, role playing, and dialogue.

Participants will:
• Review the latest research
• Discover what works, what doesn't, and why

See and hear examples of the best practices.

• Learn strategies to improve teacher evaluation.

George Stanton from the Assessment and Testing Center will lead a discussion after the videoconference, and lunch will be provided to those who register with Janine Engel at ext. 6-5935.

Two students win in best-paper contest

Two environmental horticulture science students split the $250 first-place award in a statewide competition for papers on pest control.

Shelly Head wrote about the use of reflective mists to control whistled bugs, and Till Tietze submitted a paper on a new whitefly insecticide.

The contest was sponsored by the California Agricultural Production Consultants Association, an organization of professional pest-control advisors.

Robert Rice, who teaches integrated pest management in the Environmental Horticulture Science Department, said that Cal Poly is the state's biggest source of pest-control advisors. He noted that a Cal Poly crop science student won last year's competition.

More than 70 students studying abroad

Seventy-one Cal Poly students are studying in 12 foreign countries as part of the university's 1997-98 International Programs.

The students represent more than 20 academic disciplines. They pay the same fees as those studying on campus, but a result of past and current construction of academic and support buildings on campus.

Why build the Sports Complex?

Replacement of lost fields

The major reason for the complex is to replace fields that have been lost as a result of past and current construction of academic and support buildings on campus.

The Performing Arts Center and the student Recreation Center were built on-campus sites used for sports and recreation.

The Tennis Engineering Building also took some green space devoted to sports and recreation.

The College of Engineering's Advanced Technology Laboratories will soon go up northwest of the library on campus.

Grass and landscaped areas around the fields that will be available for picnics and other informal recreation. (No tables, benches, barbecue pits or other amenities are planned now, but could be added later.)

Why didn't we reduce the size of the project when the city dropped out?

Before the city left the project, the planned number of fields had already been reduced to the number that ASI considered the minimum acceptable. With both campus and city use, six fields would serve the university's needs and meet the minimum needs of clubs and other structured recreation programs.

They would not conflict with informal recreation. Now, without the city, there will be fields available for open play. In addition, if we built fewer fields, we would lose the economy of scale; because of the site's characteristics, the cost of earth moving, building four or five proper fields would cost about the same as building six. While the size of the project wasn't reduced, one softball field was reconfigured as a picnic area to suit campus needs.

What are the environmental issues?

Choice of the site

From eight alternatives, the Campus Planning Committee in 1994 initially approved a site for the Sports Complex at the corner of Highland and Highway 1, a site identified on the Land Use Diagram for recreational use. When the College of Agriculture and Environment Design had commissioned a class to look at alternative sites for a sports complex.

Eight potential sites were identified, including the site originally selected by the Campus Planning Committee, the present site, and six other sites that were on Class 1 agricultural land.

Environmental impact evaluation

The university commissioned an environmental impact report on the project with Fugro West Inc. The first document, called an initial study and notice of preparation, was prepared for the proposed project in July 1996.

• A draft environmental impact report (EIR) was completed and submitted for public review on October 1, 1996.

• A 45-day public review period was extended by the university for two additional weeks to accommodate interested reviewers.

• A final environmental impact report (PEIR) was prepared, incorporating comments received through the public comment process.

The PEIR identified potential impacts associated with implementation of the Sports Complex project, and recommended mitigation measures.

• In addition, the CU Physical Planning and Development staff studied

(Continued on page 6)
Sollicitation of vacation leave

Employees are being asked to donate vacation credits on behalf of Stephanie Allen, an instructor in computer science, who must take several months off to care for her newborn son who is undergoing surgery. Donated vacation credits would help her receive full pay during her absence.

Anyone interested in donating leave credits can contact Ellen Stier in Computer Science at ext. 6-5525 or e-mail the Catastrophic Leave Donation Form.

For family care catastrophic leave, only vacation credits may be donated. Eligible state employees may donate up to 16 hours of vacation credit per fiscal year in increments of one hour or more.

Evaluating teaching topíc of videoconference

Faculty members are invited to participate in an interactive videoconference designed to improve college teaching and enhance the evaluation process.

"Evaluating Teaching Performance" is scheduled from 10 to 11 a.m. Friday, Nov. 14, in Room 25 in the Business Building.

The program will be presented by Peter Seldin, distinguished professor of management at the Lubar School of Business at Pace University in New York, and Thomas Angelo, professor of educational and psychological studies and coordinator of the Higher Education Program at the University of Miami. The workshop will focus on student ratings, peer review, self-assessment, teaching portfolios, mid-course feedback and the relationship between teacher evaluation and student learning. It will include a variety of short presentations, demonstrations, visuals, role playing and dialogue. Participants will:

• Review the latest research,
• Discover what works, what doesn't, and why,
• See and hear examples of the best practices.

Two students win in best-paper contest

Two environmental horticultural science students split the $250 first-place award in a statewide competition for papers on pest control.

Shelly Head wrote about the use of reflective mists to control thistle and weeds, and Tina Thomas wrote a paper on a new whitely insecticide.

The contest was sponsored by the California Agricultural Production Consultants Association, an organization of professional pest-control advisors. Robert Rice, who teaches integrated pest management in the Environmental Horticultural Science Department, said past and current construction of educational weeks to accommodate interested students.

Agricultural business McCorkle earns national honor

Robert E. McCorkle, a longtime agricultural professor, has been honored by a national organization for his efforts on behalf of the Peace Corps and his knowledge of international agricultural economic development issues. McCorkle is one of 200 national leaders in agriculture and natural resources to be named to Alpha Zeta's Centennial Honor Roll in celebration of the group's 100th anniversary.

Other honorees include a Nobel Prize-winner and three former U.S. secretaries of agriculture.

McCorkle is senior advisor for the Cal Delta Chapter of Alpha Zeta, the nation's oldest professional agriculture honorary society. He consults internationally on economic development issues and has encouraged international volunteer efforts by developing Peace Corps strategy contracts for Cal Poly facilities.

He has taught at Cal Poly since 1962.

More than 70 students studying abroad

Seventy-one Cal Poly students are studying in 12 foreign countries as part of the University's 1997-98 International Programs.

The students represent more than 20 academic disciplines and 11 colleges and will conduct research to nutritional science to computer engineering. They are studying in Denmark, France, Germany, Israel, Italy, Japan, Mexico, New Zealand, Spain, Sweden, Taiwan and the United Kingdom.

Cal Poly is one of 23 CSU campuses to participate in the International Programs. This year more than 400 CSU students were sent to study abroad.

The international scholars continue to earn academic credit toward their degree during their year abroad.

Students pay their own transportation, housing and food costs, plus home campus fees.

International Programs provides an affordable opportunity for students to study in more than 70 centers of higher education in 17 countries. The programs help fulfill one aspect of the CSU's mission of development of international communication and international understanding among its students.

NCAA survey results

To comply with the CSU CAL-NOW consent decree, all Cal Poly students were asked the following question when they registered for classes fall quarter:

"Do you have the interest and ability to participate in NCAA athletics?" The results were:

Yes……………………………………...30%
No……………………………………..63%
Decline to answer………………………………………7%

Students will be asked this question each year to comply with the Consent-mandated ruling.

CAL POLY REPORT

November 5, 1997

HOT TOPIC OF THE WEEK

Special Report on the Sports Complex

The proposed Sports Complex north of Highland Drive has been the subject of discussion for some time. The issue came to a head recently with the ASI decision to extend student funding and the issuance of a preliminary report by the Biology Advisory Committee. With the way clear for the project to proceed, the president's executive assistant, Dan Howard-Green, in consultation with members of the Campus Planning Management Staff, has prepared this special report on the issues raised by the project.

What does the Sports Complex include?

• Six general-purpose fields.
• Baseball stadium.
• Softball field.
• Parking for about 200 cars.
• Grass and landscaped areas around the fields that will be available for picnics and other informal recreation. (No tables, benches, barbecue pits or other amenities are planned now, but could be added later.)

Why build the Sports Complex?

Replacement of lost fields

The major reason for the complex is to replace fields that have been lost as a result of past and current construction of academic and support buildings on campus.

• The Performing Arts Center and the Recreation Center will displace tennis courts and recreational softball and soccer.
• The College of Engineering's Administrative Building also took some green space devoted to sports and recreation.
• The Performing Arts Center and the Recreation Center will displace tennis courts and recreational softball and soccer.

Why didn't we reduce the size of the project when the city dropped out?

Before the city left the project, the planned number of fields had already been reduced to the number that ASI considered the minimum acceptable. With both campus and city use, six fields would be needed to meet the minimum needs of clubs and other structured recreation programs. If the city had pulled out, we would lose an important resource for informal recreation. Now, with the city there will be fields available for open play. In addition, if we built fewer fields, we would lose the economy of scale; because of the site's characteristics and the cost of earth moving, building four or five proper fields would cost about the same as building six. While the size of the project wasn't reduced, one softball field was reconfigured as a picnic area to suit campus needs.
**Sports Complex**

Concerns raised by several individuals, including faculty and staff from the Cal Poly Biological Sciences Department, after the extended public review period. The CSU review determined that these individuals had not introduced information sufficient to delay approval of the FEIR or the project, and they were encouraged to participate in the campus administration regarding follow-up to their concerns.

- The design of the complex and the EIR were developed simultaneously. As problems were identified, the scope of the building was modified to mitigate environmental concerns.

The CSU Board of Trustees approved the FEIR and the Sports Complex proposal at its March 1997 meeting.

**Biology faculty study**

In the meantime, the administration encouraged an independent, ad hoc committee formed by the Biological Sciences Department to study the project and its implications for instruction at Cal Poly. The university’s Biology Advisory Committee last week presented a report titled "Preliminary Biological Study of the Impacts of the Cal Poly Sports Complex".

- The report says that the proposed sports-complex site and the surrounding acreage currently show environmental problems owing to land-use practices started many decades ago and that, in the process of building this complex, efforts could and should be made to mitigate that earlier damage.

- The report notes that, prior to construction, the exact locations of the Farmstead in the field for our examination.

We will work with the developer and the University to provide a larger buffer zone with a goal of providing a minimal buffer zone of 50 feet" from wetlands.

- The report goes on to say, "The Cal Poly Sports Complex will result in unavoidable impacts to wildlife and wildlife habitats, especially wetlands, and around the project site. However, by using a combination of on-site and off-site mitigation, we believe the impacts can be mitigated."
Annual Baroque Concert planned for Nov. 19
Lovers of 18th century music will enjoy the sounds of a bright, cheerful Antonio Vivaldi piccolo concerto as well as the sounds of George Philipp Telemann horn concerto at the Annual Baroque Concert on Wednesday, Nov. 19.
Featuring the Cal Poly Polyphonics, a baroque orchestra, and soloists, the concert will begin at 8 pm in the Cohan Center's Harman Hall. The evening will include both familiar and rarely performed works conducted by music professor Clifton Swanson and Thomas Davies.

Voice-piano recital planned for Nov. 13
Mezzo-soprano and part-time Music Department faculty member Jacalyn Bower-Kreitzer and pianist Leonard Stein will give a recital featuring the works of Arnold Schoenberg on 7:30 pm Thursday, Nov. 13.
The program will include Four Piano Pieces, Sallade "Jane Grey," and "Pianoforte," with pianist Leonard Stein on the organ and Alan Boehmer, harpsichord; "Good News, Mortals" ("Altrijcas, Mortales"); and "You Heavenly Hosts," with soprano (Miličića) by Manuel de Sumaya, performed by the Polyphonics.

Leaving American poet to read Nov. 14
A leading American poet whose "poetic concerns range from the vagaries of sexuality to the pressures of mortality" will read on Friday, Nov. 14.
Paul Zimmer's images and ideas seem both humorous and contemporary," says English professor Kevin Clark.
Zimmer, who is the director of the University of Iowa Press, has published 11 books of poetry. His most recent, "Crossing to Sunlight: Selected Poems," is a rich and varied collection of more than 100 poems that range across 35 years, offering both a retrospective and a current look at his work.
Other poetry reading events include the "Family Reunions," which won an Award for Literature from the American Academy and Institute of Arts and Letters, and "The Great Bird of Love," which was selected for the National Poetry Series. The reading will be held in the Cal Poly Arts Center in the Davidson Music Center. Tickets are $2 for students and $3 for the public.

Journalism career day held on campus
The editor of the Pulitzer-prize winning San Jose Mercury News, Jerry Sevasti, was the keynote speaker at the recent Journalism/Mass Media Career Day.
Aspiring journalists met and talked with media professionals from across the state about their profession and how to get jobs on newspapers and magazines and in radio, TV, public relations, news photography, and agricultural communications.

Pianist to give talk-demo, recital
Seattle pianist Ryan Whitney will present a free recital at 7:30 tonight (Nov. 5) and a lecture-demonstration 11 am Thursday, Nov. 6, both in Room 218 in the Davidson Music Center.

Confident communications focus of Nov. 19 workshop
Learn to "Communicate with Confidence" at a Human Resources workshop scheduled from 1 to 4 pm Wednesday, Nov. 19, in UU 220.
Professor Fred Stults of the Psychol­
gen Department will present the workshop, which is designed to help participants identify roadblocks to communicating more effec­
tively.
The workshop is open to all faculty and staff. To register, call John Land, Human Resources, ext. 6-5663 or e-mail jland.

Women's Studies plans fall quarter potluck
Students, faculty and staff are invited to the Women's Studies Fall Quarter Potluck from 6:30 to 8:30 pm Wednes­
day, Nov. 12, at the home of Shawn Burn, a professor in the Psychology and Human Development Department.
To sign up for the potluck and obtain directions, call Burn's home, 7:30-7:45 pm, or call the Women's Studies Program Office ext. 6-1525.
Position vacancies
Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Vacancy information can also be accessed from the Cal Poly home page on the World Wide Web (address: webcalpolyedu-click on "General Information").

FACULTY
(Adm. 312, ext. 6-2844)
Candidates interested in faculty positions are asked to contact the appropriate department office at the phone number listed for more information and an application. Please submit all application materials to the department head/chair unless otherwise specified. Rank and salary are commensurate with qualifications and experience, and timescale where applicable, unless otherwise stated.

CLOSING DATE: December 31
#35128: Assistant Professor in Recreation Administration, Natural Resources Management Dept. (805)756-2702. Three-track position; academic year appointment starting fall 1998. Duties include teaching undergrad and graduate recreation courses; graduate core recreation administration courses; relevant research; and professional involvement in the tourism industry. Ph.D. in recreation, park management, tourism, natural resources, or a related field with a minimum of one post graduate degree in recreation, park management, or tourism. Calendar
Annual Holiday Luncheon tickets on sale Nov. 10
Tickets for this year's annual Holiday Luncheon, set for Wednesday, Dec. 3rd, will be on sale from Monday, Nov. 10, through November 25th. Tickets are $5 and will be sold on a first-come basis. Employees are urged to buy tickets early.

The buffet will include rosemary roasted chicken or feta-tribbed Boulangeral, garlic mashed potatoes, vegetable medley, mixed green salad, and Wafels and jicama orange salad, breads, beverages, and apple swizzle.

Staff members will provide the entertainment. Canmed gifts and cash donations will be collected at the door. To reserve tickets, call Kay Riedel at ext. 6-1314; Gen Boll at ext. 6-2321; Sydney Francis, ext. 6-5492; Anne Arnett, ext. 6-2341; Barbara Fenske, ext. 6-2361; Joanne Ruiz, ext. 6-5767; Chris Lanceketti, ext. 6-2226; Sondra Gorman, ext. 6-2131; Angela Von Raumer, ext. 6-1121; Maria Gomez-Juarlegui, ext. 6-5896; Dawn Annoni, ext. 6-0299; Lynette Klooster, ext. 6-7993.

Tickets for "The Imaginary Invalid" are $8 for the public and $7 for students and staff. The play is produced under the auspices of the College of Liberal Arts.

Food
Food industry endows agr scholarship
The California Medical Association—the largest association of food industry executives has endowed a scholarship at the College of Agriculture.

The Foodsters, an organization whose membership includes many Cal Poly alumni, established the scholarship fund with $12,000. The organization is committed to raising the figure to $50,000 within a few years, according to Jack Kooker, chairman of the scholarship committee and director of the United Agribusiness League.

"This year $750 will be awarded to a student in the Food Science and Nutrition Department interested in working in the food processing industry in the northern part of the state. "We want to be able to contribute to building the industry here in Northern California," Kooker said.

When the scholarship fund reaches $50,000, the annual student award will be $2,000. Kooker said.

The Foodsters' endowment will be managed by the Medical Alumni Scholarship Foundation, whose board of directors includes Cal Poly alumni and industry executives. A $5,000 sum from the Foundation will be placed in the scholarship fund, which is $25,000 from the Foodsters.

The scholarship committee includes several members of Cal Poly's alumni board. For more information about the scholarship, contact Kooker at ext. 5-7808.

Campus facilities info available in 'Plan Room'
The Facilities Planning Department Room, upstairs in the Facility Services Warehouse Building, provides access to resources that the faculty and staff can use for classes and other general university purposes.

Materials include campus maps and general-purpose building and room maps, as well as blueprints and plans of current campus projects. Room layouts, available in 8 1/2 x 11" size, can be helpful when units remodel, or simply reorganize furniture in an office.

The information is also made available to senior project students. Other students should obtain these items from the Media Resource Center in the Architecture Building, Room 101; the Kennedy Library Maps and Documents section; the SCARAB Print Room in Engineering West, Room 232; and the Facilities Home Page (via Cal Poly Home Page) on the Web for digital versions.

For an appointment to access these resources, please call Debby Ryan at ext. 6-6806.
