Resolution #05-06

Support for Campus Leadership in Textbook Price Reduction

- Whereas: ASI is the official voice of the Cal Poly student body, and
- Whereas: According to a survey by the California Student Public Interest Research Group (CALPIRG) students spent an average of \$898 per year on textbooks in the 2003-04 school year, or almost 20% of the cost of in-state fees; and
- Whereas: According to the same survey a new textbook costs \$102.44 on average, 58% more expensive than the price of an average used textbook, \$64.80; and
- Whereas: Notices are issued to every faculty member requesting which textbooks will be required the following quarter; and
- Whereas: According to El Corral Bookstore only 15-20% of faculty respond back to these notices before the deadline causing buyback prices to be severely reduced, and
- Whereas: Textbooks often come with bundled supplemental course materials that significantly increase the overall cost of textbooks to students, and
- Whereas: CALPIRG reported that 65% of faculty "rarely" or "never" use the bundled materials in their courses; and
- Whereas: Faculty and El Corral Bookstore have power to reduce the cost of textbooks to students at Cal Poly.

Therefore

Be it resolved: Faculty are encouraged to respond to textbook requisitions in a timely manner so the bookstore can buyback used books at a higher price and make the used editions available for purchase, and

Furthenmore

Be it resolved: ASI encourages El Corral Bookstore to use all means possible to educate students about available discounts options for purchasing textbooks, and

Furthenmore

Be it resolved: ASI encourages El Corral Bookstore to use all means possible to ensure that all students receive the fairest prices on new and used textbooks, and
