AS-647-06

RESOLUTION ON
GRADING OF CULMINATING EXPERIENCE GRADUATE COURSES

Background: Open-ended research courses that represent the culminating experience for graduate students are either Project (usually 539, 596 or 598) or Thesis (599). Completing requirements for these courses often delays degree completion for graduate students. Under the present grading policy, RP grades (Report in Progress, formerly the “SP” grade) are valid for three years, after which they are automatically changed to NC grades. This policy is a problem for many students who are unaware of it and believe that the seven-year time limit is the only deadline they have for degree completion. When an RP grade is changed to NC, the student must re-register (2-9 units) in the course(s) in order to graduate. If the student no longer lives in California, s/he must register as an out-of-state student. This is a disincentive for these students to complete their degrees. In addition, changing an NC to a letter grade is extremely difficult, even when the faculty advisors request it.

Since there is no real reason for a more restrictive time limit, the proposed resolution would eliminate the three-year time limit for thesis/project completion and allow RP grades in those courses that represent the culminating experience in the program (the specific courses noted above, as well as similar culminating experience courses that may be developed) to remain valid throughout the existing Title V-mandated, seven-year time limit for degree completion.

WHEREAS, Current policy on grading in Project (539, 596, 598) and Thesis (599) courses sets a limit of three years on the length of time that RP (Report in Progress) grades may remain without being converted to a letter grade; and

WHEREAS, If the culminating experience (539, 596, 598) or thesis (599) has not been completed within the three-year period, the RP grade converts to an NC (No Credit) and the student must re-enroll in Project/Thesis classes in order to receive credit and a grade. In addition, the units with NC grades remain on the transcript; and

WHEREAS, Graduate students are required to complete all graduate work, including Project and Thesis work, within seven years, it is recommended that RP grades in 539, 596, 598 and 599 courses be valid for the seven-year time period. If a student requests and is granted an extension of the seven-year limit, the RP grades in
those classes should remain valid until the new time limit is reached; therefore be it

RESOLVED: That RP grades given in Project (539, 596, 598 and other numbers that may be assigned) and Thesis (599) classes remain in effect during the seven-year window provided for completion of the degree; and be it further

RESOLVED: That if a student requests and is granted an extension of the seven-year limit, the RP grade in Project/Thesis classes shall remain valid until the new time limit is reached.

RESOLVED: That this policy change be applied immediately and retroactively to all students at any stage of progress toward a graduate degree.

Subject: Response to Senate Resolution AS-647-06  
Resolution on Grading of Culminating Experience Graduate Courses

This will formally acknowledge receipt and approval of the above-subject resolution. Please extend my thanks to the Graduate Studies Committee and the Academic Senate for aligning Cal Poly policies with the existing Title V-mandated, seven-year time limit for degree completion.
