Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Information can also be accessed from the Cal Poly home page on the World Wide Web (address: www.calpoly.edu click on "General Information").

FACULTY (Adm. 312, ext. 6-2844)

Candidates interested in these positions are asked to contact the appropriate department at the phone number listed below and make a formal application. Please submit all application materials to the department head/ chair unless otherwise specified. Rank and salary are commensurate with qualifications and experience, and timebase where applicable, unless otherwise stated.

Post Doctoral Research Assistant, Biological Chemistry and Biochemistry. To support the research activities of the Lactobacillus acidophilus Genome Research project utilizing the Ordered Shotgun Sequencing Requirements: A Ph.D in Microbiology, Molecular Biology or Biochemistry or related field. Position requires strong background in genome science, including PCR, cloning, sequence analysis and automation. Must have in-depth knowledge of bioinformatics tools and experience in genomic data retrieval and genome database management. Demonstrated skills in programming languages such as UNIX, Java, and C++ are desired. Closing date: Feb. 19.

Sun lab up to speak on Java Feb. 19

Michael Van de Vanter of Sun Microsystems Laboratories will give a talk on "Versioned Java Packages in the JP Programming Environment" on Friday, Feb. 19, as a colloquium sponsored by the Computer Science Department. The talk will be from 1:00 to 2:00 pm in Room 111 of the Business Building.

Grade reports on Web

With grades available on the Web, grade reports will no longer be mailed to students. Academic Records says there will be 14,000 grade look ups on Mustanginfo the week after fall quarter. Grade reports will continue to be mailed to students on academic probation, and copies of grade reports will also be distributed to academic departments.

Cal Poly Plan

The amount was established because it was considered "enough to make a visible difference." Why a total of $180 (including the current $45 academic fee)?

2nd forum on Master Plan set for Feb. 17 downtown

What will Cal Poly be like in 10, 20, 30 years? How will the needs of the university change? Will the university address the environment, effects on the city and nearby neighborhoods? These and a multitude of other questions about the university's future are up for public discussion from 7 to 9 pm Wednesday, Feb. 17, in the Open Forum on Cal Poly's Master Plan Update. All Central Coast residents interested in helping chart Cal Poly's future are being encouraged to attend. The forum will be in the Conference Room of the San Luis Obispo City-County Library at 955 Palm St.

Sunday, February 13

Baseball: San Jose State, SLO Stadium, 1 pm.

Sunday, February 14

Baseball: San Jose State, SLO Stadium, 1 pm and 6:30 pm.

Monday, February 15

Music: Reception: Marilyn Horne, Cohan Center Pavilion, 7 pm.

Tuesday, February 16

Wednesday, February 17

Vocal Master Class: Marilyn Horne, Cohen Center Pavilion, 7 pm.

Thursday, February 18

Friday, February 19

Baseball: San Jose State, SLO Stadium, 1 pm.

Music: Reception: Marilyn Horne, Cohen Center, 8 pm; benefit reception, by reservation only, after concert, PAC Founders' Lounge.

Saturday, February 20

Baseball: San Jose State, SLO Stadium, 1 pm.

Softball: San Diego State, Softball Field, noon and 2 pm.

Men's Basketball: Long Beach State, Mott Gym, 2 pm.

Monday, February 22

Baseball: San Jose State, SLO Stadium, 1 pm.

Softball: Fresno State, Softball Field, noon and 2 pm.

Music: Dance: "Spirit of the Dance," Cohen Center, 8 pm and 3 pm.

Monday, February 22

Hockey: Western Hockey League birthday party.

Tuesday, February 23

Learn-at-Lunch: Amrita Ghosh and Jeanne Hagan (Psychological Services doctoral intern), "Stress—Can't Live With It, Can't Live Without It?" Staff Dining Room, noon.

Music: Guy Budd, Backstage Pizza, noon.

Wednesday, February 24

Dinner: Dave's Deli, Badger's Pizza, noon.

Open Forum on the Master Plan Update. Conference Room, San Luis Obispo City-County Library, 955 Palm St., 7-9 pm.

不见 whom a question? look up on the Web.
Academic fee increase would aid Plan goals

Academic fee increases, and how the money would be spent, are key issues of the Cal Poly Plan. Based Academic Fee proposal currently under discussion.

The proposal would continue the vision of the 1995 plan, especially the goal of increasing students' progress toward degree completion. The proposal consists of four connected elements:

1. Campus academic fee increase of $135/quarter, phased in over two years;
2. An additional $45 in 2000-01 to $180/quarter total for full-time students ($79 for part-time);
3. An allocation of revenue primarily to instructional colleges and units (after financial aid set aside); and
4. A portion of the revenue would go to a fee-expenditure investment plan.

How will the College-Based Academic Fee benefit students? Under the new plan, the money would be used to support the College of Ag, which is a center of the university's mission. By providing more funds for research, teaching, and other activities, the plan would help attract new students and faculty, improve programs and facilities, and enhance the overall quality of education.

New assignments

This spring is the first year of an annual Cal Poly Report that will list new faculty and staff members as well as new assignments for those of us already here.

The new assignments include:

- Troy Bennett, CAD Research Center, ext. 6-2673
- Christine Cobb, Foundation Human Resources, ext. 6-1151
- Dana Hix, Catering/Campus Dining, ext. 6-5043
- Lorraine Holmes, A-counts Payable, ext. 6-2218
- Jason Johnson, CAD Research Center, ext. 6-2673
- New ASI staff members:
  - Catherine Cramp, Recreational Sports, ext. 6-1366
  - Ben Johnson, ASI Audio-Visual, ext. 6-2553

New management staff member (state):

- David Conn, Academic Programs and Undergraduate Education, ext. 6-2246

New faculty members:

- Derek Gragson, Chemistry and Biochemistry, ext. 6-7154
- Richard Lee, City and Regional Planning
- Francis Villablanca, Biological Sciences, ext. 6-2207

Leaves of absence for Stan, not Diane, Smith

Employees are being asked to donate sick leave and vacation credits for Stan Smith, a building service engineer in Facility Services.

Forum participants will have an opportunity to join one or more task forces on curriculum, technology, utilities, housing, neighborhoods, land use, environmental resources, circulation, economic impact, environmental issues, and public and support services. A forum on campus Jan. 27 drew about 30 people, mostly students, faculty members, and other employees, who gave their views on general issues as well as specific topics such as campus circulation patterns, greenspace preservation, and changes that would affect the university's members.

For more information, call Deb Ryan, facilities planning information coordinator, at ext. 6-6806, or visit Master Plan site under "What's New" on Cal Poly's home page.

College of Ag seeks input on Experimental Farm

The College of Agriculture is reviewing the role its Student Experimental Farm has in its educational mission and has prepared a questionnaire to learn the views of students, faculty and staff members, alumni, and others — primarily those who have been personally involved with the farm.

Students and faculty members use the site to study various "alternative agricultural" techniques. For example, this year's 20th annual Career Symposium will be hosted by Career Services, bigger than any event, and it will take up most of the day, Feb. 18, in Room 209 of the Arts Building.

College Dining has Valentine's special

Campus Dining will offer Valentine's Day specials to win your heart — and your spare Valentine's change — especially on Feb. 12, 13 and 14. Restaurants offering student-made chocolate truffles, and other Cal Poly products are available at the Campus Market for Valentine's Day gifts.

Specials available on Friday will include a half-price drink for your Valentine at Lucky 209 of the Graphic Arts Building. Specials also will be available in the student Union.

Career Symposium to be held

The 20th annual Career Symposium hosted by Career Services, bigger than ever, will run from 10 am to 3 pm Thursday, Feb. 18, in the UV.

With 110 companies expected to be available to answer student questions, Chumash isn't big enough to hold the event and it will be held up on Union's upper level.

To help students prepare, Career Services will be on site from 11 am to 2 pm on Tuesday, Feb. 16, in Room 224 in the Career Services Building.

Charles Luckman, 89

Internationally renowned architect and businessman Charles Luckman, a great friend and supporter of Cal Poly's architecture program, died at Los Angeles home Jan. 26.

Design of the Canyons Village Center, the new Madison Square Garden in New York, the Los Angeles airport's great friend and supporter of Cal Poly's architecture program, and the career of the architect are featured in his books.

His books include "Experimental Architecture Los Angeles" and "Building Sex: Men, Women, Architecture and the Construction of Sexuality." He is a frequent contributor to the Los Angeles Times and a contributing editor for Architectural Record, ID Magazine, and Metropolitan Home.

The series of lectures is made possible by funding from The Hearst Foundation.

M aster Plan

(Continued from page 1)

...what is called "Dial Wave 2," a surfing phenome-
non of the baby boomers, and there's pressure for the campus to grow.

We need to update our Master Plan," Dalton said. "We need to see what changes, if any, in facilities and enrollment are needed to help meet the challenges ahead."

Forum participants will have an opportunity to join one or more task forces on curriculum, technology, utilities, housing, neighborhoods, land use, environmental resources, circulation, economic impact, intergovernmental issues, and public and support services.

A forum on campus Jan. 27 drew about 30 people, mostly students, faculty members, and other employees, who gave their views on general issues as well as specific topics such as campus circulation patterns, greenspace preservation, and changes that would affect the university's members.

Academic fee increase would aid Plan goals

Academic fee increases, and how the money would be spent, are key issues of the Cal Poly Plan College-Based Academic Fee proposal currently under discussion.

The proposal would continue the vision of the 1995 plan, especially the goal of increasing students' progress toward graduation.

The proposal consists of four connected elements:
1. Campus academic fee increase of $135/quarter, phased in over two years;
2. An additional $45 in 2000-01 to $180/quarter total for full-time students ($79 for part-time);
3. Allocation of revenues primarily to instructional colleges and units (after financial aid set aside); and
4. Collage and departmental expenditures tied to Cal Poly Plan goals and principles.

Furthermore, students and other constituents on fee and expenditure/ investment plans.

How will the College-Based Academic Fee benefit students?

Don't confuse Cal Poly's academic fee increase with a Cal Poly is a conscious, deliberate choice.

Cal Poly has the reputation of being highly demanding academically, and with itsWCHEM, learning-by-doing programs, it offers a high-quality, state-of-the-art education that prepares students for professions that are demanding and quickly changing.

Cal Poly's unique curricula, learning-by-doing programs, state-of-the-art laboratories, advanced technology and other support costs should be paid for by those who benefit from the education being received.

Forum participants will have an opportunity to join one or more task forces on built environment and technology, utilities, housing, neighborhoods, land use, environmental resources, circulation, economic impact, intergovernmental issues, and public and support services.

A forum on campus Jan. 27 drew about 130 people, mostly students, faculty members, and others who wanted to give their views on general issues as well as specific topics such as campus circulation patterns, greenspace preservation, and changes that would affect the university's neighborhoods.

For more information, contact Debby Ryan, facilities planning information coordinator, at ext. 6-6806, or visit Master Plan site under "What's New" on Cal Poly's home page.

New assignments

FTF is the first of an occasional Cal Poly Report column that will list new faculty and staff members as well as new assignments for those already here.

New Foundation staff members:
1. Troy Bennett, CAD Research Center, ext. 6-2673
2. Christian Cob, Foundation Human Resources, ext. 6-1151
3. Dana Hix, Catering/Campus Dining, ext. 6-4043
4. Lorraine Holmes, A-Counts Payable, ext. 6-2218
5. Jason Johnston, CAD Research Center, ext. 6-2673
New ASI staff members:
1. Catherine Cramp, Recreational Sports, ext. 6-1366
2. Ben Johnson, ASI Audio-Video, ext. 6-5021

New management staff member (state):
1. David Dan, Agricultural Programs and Undergraduate Education, ext. 6-2246
New faculty members:
1. Derek Gragson, Chemistry and Biochemistry, ext. 6-7154
2. Richard Lee, City and Regional Planning
3. Francis Villalba, Biological Sciences, ext. 6-2207

Leaves of absence without pay:
1. St. Antony, Dianne, Smith

Leaves of absence for personal reasons will be granted for up to 12 weeks.

Leave solicitation is for Stan, not Dianne, Smith

Employees are being asked to donate sick leave and vacation credits for Stan Smith, a building service engineer in the Materials Sciences Center, the new Madison Square Garden in Los Angeles home Jan. 26.

With 110 companies expected to be on campus Feb. 18 for Lee Brown's Retirement reception, there may be enough volunteers who kiss their sweeties then and there.

Career Symposium set for Feb. 18 for Lee Brown.

An event for career Brown, technician in the Graphic Communication Department for 25 years, is planned from 2 to 4 pm Thursday, Feb. 18, in Room 209 of the Graphic Arts Building.

College of Ag seeks input on Experimental Farm

The College of Agriculture is seeking input on the college's Experimental Farm. The college is looking to establish a Student Experimental Farm. The college is looking to establish a Student Experimental Farm with the College of Agriculture. The awards are designed to:

1. Recognize student groups and individuals for outstanding service to the community;
2. Inspire student groups and individual students to address social needs in San Luis Obispo County;
3. Encourage students to enhance their education by becoming involved in programs that allow them to investigate, organize, and act on issues.

The President's Awards for Community Service will be given to an individual who has made an extensive service record to and a group of students who have demonstrated long-term service.

The Emerging Service Leader's Award honors a student who has completed service during the past year, has an additional year left to serve at Cal Poly, and shows promise of increased community service. The award also recognizes a group newly involved in volunteer activities that show promise of continuing.

The Distinguished Faculty Service Learning Awards recognize those professors who have been able to build a community service component into a curriculum to amplify a particular objective. Faculty members are encouraged to nominate themselves for these awards.

Nominations are due in the Student Life and Activities office by Friday, March 5. For a form, call the office at ext. 6-2476.

Winners will be selected by representatives from city and county government, a non-profit organization, and the university's Associated Students Inc. and Academic Senate.

Career Symposium set for Feb. 18 for Lee Brown.

An event for career Brown, technician in the Graphic Communication Department for 25 years, is planned from 2 to 4 pm Thursday, Feb. 18, in the UU.

Charles Luckman, 89

Design of the Carpet Canaveral Space Station, the new Madison Square Garden in Los Angeles home Jan. 26.

Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Information can also be accessed from the Cal Poly home page on the World Wide Web (address: http://www.calpoly.edu click on "General Information").

FACULTY (Adm. 312, ext. 6-2844)
Candidates interested in any positions are asked to contact the appropriate department office at the phone number listed for more information and an application. Please submit all application materials to the department head/chair unless otherwise specified. Rank and salary are commensurate with qualifications and experience, and timebase where applicable, unless otherwise stated.

Post Doctoral Research Assistant, Biological Science. Applicants are requested to support the research activities of the Lactobacillus acidophilus Genomic Research project utilizing the Ordered Shotgun Sequencing Requirements: A Ph.D in Microbiology, Molecular Biology or Biochemistry or related field. Position requires strong background in genome science, including PCR, cloning, sequencing, sequence analysis and automation. Must have in-depth knowledge of bioinformatics software and genomics and database management. Demonstrated skills in programming languages such as UNIX, Java, and C++ are desirable. Closing date: Feb. 19.

Sun lab pop to speak on Java Feb. 19

Michael Van de Water of Sun Microsystems Laboratories will give a talk on "Versioned Java Packages in the J2C Programming Environment" on Friday, Feb. 19, as a colloquium sponsored by the Computer Science Department. The talk will be from 1:10 to 2 pm in Room 111 of the Business Building.

Grade reports on Web

With grades available on the Web, grade reports will no longer be mailed to students. Academic Records says there were 18,000 grade look-ups on MustangMail the week after fall quarter. Grade reports will continue to be mailed to students on academic probation and copies of grade reports will also be distributed to academic departments.

CAL POLY REPORT, FEBRUARY 10, 1999

CAL Poly Plan. The amount was established because it was considered "enough to make a visible difference."

Won't state funding for the university be reduced in proportion to the money raised through the College-Based Academic Fee? No. The university has a firm agreement with the Chancellor's Office that this will not happen.

What consultation rather than a referendum?

The consultation that is taking place now will engage many more students in discussions about investment priorities in the Cal Poly College than has occurred past referendums. The consultation will provide students with a forum for questions and answers, an opportunity to express their opinions, share different viewpoints, and interact with other students, their dean and the faculty and staff of their college, and a chance to directly shape how funds would be spent.

Contacts for more information or answers to questions:
Check the Cal Poly Plan Web site for all Cal Poly Plan information (access through the Cal Poly home page at www.calpoly.edu; click on "Cal Poly Plan"). Questions can be e-mailed to instidyty@calpoly.edu or polypplan @an.calpoly.edu.

Calendar for proposal and consultation:
• Jan. 15 and 22 - Cal Poly Plan Steering Committee authorization of consultation
• Jan. 25 to Feb. 28 - Consultation (interval consultation on proposal process, Feb. 12)
• Early March - Refinement of proposal by Academic Deans' Council based on consultation; recommendation by Cal Poly Plan Steering Committee to President Baker; referral by President to campus Committee for Advisory Committee.
• Late March/April - Decision by President Baker 0

What is the impact of the additional revenue that will be required. (The university will simultaneously work to expand support from corporations, private donors and government grants.)

High number of students show interest in teaching

About 150 of the interested students will be invited to a "Welcome to Teaching" orientation session on Wednesday, Feb. 17, from 7 to 9 pm. A second forum will be held on Cal Poly's Master Plan Update. All Central Coast residents interested in helping chart Cal Poly's future are being encouraged to attend. The forum will be in the Conference Room of the San Luis Obispo City-County Library at 995 Palm St. The survey, believed to be the first of its kind in the California State University systems, is being conducted winter quarter by Programmed Solutions Inc., a leading research group. Of the 15,765 responses, 5,768 indicated an interest in becoming a schoolteacher, about half at the elementary school level and half in secondary schools. "That a difference the job market makes," Roper said. "Certainly the supply and demand picture explains some of the response, but other factors become apparent when I speak with young people. Usually I often hear the word 'burnout' and am back in the '60s when I hear the idealism, the passion, the making of difference, and the handing off of the baton to reach out and teach someone.'"

Roper said Cal Poly is seeking to recruit bright and motivated students for the teaching profession.

For more information, call Roper at ext. 6-2844.
