Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Information can also be accessed from the Cal Poly Jobline on the World Wide Web (address: www.calpoly.edu) or by calling the Human Resources 800 number listed for each position.

STATE (Adm. 110, ext. 6-2236 or job line at ext. 6-1353). Official application forms must be received by 4 pm on the closing date or be postmarked by the closing date. (No faxes.)

FACULTY (Adm. 312, ext. 6-2844)

Candidates interested in faculty positions are asked to contact the appropriate department office at the phone number listed for each position. Applications and an application are required for consideration for all positions. For more information on various materials to the department head before any position, see the position announcement for details. The final deadline for faculty appointments is November 15, 1999. Position announcements will be posted until they are filled.

#99071: Lecturer Pool (part-time), P.E. & Kinesiology Department (756-2545). Part-time appointments possible during the 1999-2000 academic year (fall, winter, and/or spring quarters). Candidates must have an earned bachelor's degree to teach activity classes and a master's degree to teach all other classes. Assignments may include general activity classes, health education, first aid/CPR, and physical education major classes. Closing date: March 31.

#93075: Lecturer Pool (part-time), Political Science Department (756-2984). Part-time appointments teaching lecture or laboratory classes in physics, physical sciences and/or psychology possible during the 1999-2000 academic year (fall, winter, and/or spring quarters). Master's degree in physics, geology or related field required. Closing date: March 31.

#93076: Lecturer Pool (part-time), Physics Department (756-2448). Part-time appointments teaching lecture or laboratory classes in physics, physical sciences and/or psychology possible during the 1999-2000 academic year (fall, winter, and/or spring quarters). Master's degree in physics, geology or related field required. Closing date: March 31.

#93077: Lecturer Pool (part-time), Political Science Department (756-2984). Part-time appointments teaching lecture or laboratory classes in physics, physical sciences and/or psychology possible during the 1999-2000 academic year (fall, winter, and/or spring quarters). Master's degree in physics, geology or related field required. Closing date: March 31.

#93078: Lecturer Pool (part-time), Political Science Department (756-2984). Part-time appointments teaching lecture or laboratory classes in physics, physical sciences and/or psychology possible during the 1999-2000 academic year (fall, winter, and/or spring quarters). Master's degree in physics, geology or related field required. Closing date: March 31.

#93079: Lecturer Pool (part-time), Political Science Department (756-2984). Part-time appointments teaching lecture or laboratory classes in physics, physical sciences and/or psychology possible during the 1999-2000 academic year (fall, winter, and/or spring quarters). Master's degree in physics, geology or related field required. Closing date: March 31.

#93084: Lecturer Pool (full-time), Statistics Department (756-7209). Full-time position available for 1999-2000 academic year teaching undergraduate statistics courses. M.S. in statistics or equivalent graduate-level course work required. Preference for demonstrated excellence in teaching and/or industrial experience involving applied statistics. Closing date: March 31.

650 training courses now available on line

Faculty and staff members can now take a range of computer-based training courses on line as a result of a three-year contract with CBT Systems and the CSU. Sixty-five hundred and fifty courses from introductory to technical are available for academic programs, individual use, and group training at http://cbt.calpoly.edu.

The courses, all compatible with Netscape and Internet Explorer, cover Microsoft Office, Netscape, NT Server, Unix, Oracle, the Novell and Windows certification series, Java, network communications and more. CBTWeb course modules are accessible both on and off-campus using "LivePlay" via the Internet or by downloading to your PC.

At this time, the CBTWeb-browser plug-in is supported only on the Windows platform. However, Macintosh users running Virtual PC report excellent results.

In fall 1999, the CBT Systems product will "transition" to a Java-based product, creating a true versatile training tool, said Craig Schultz, interim director of user support services.

All courses offer self-testing and reporting capabilities on request and are supported by a usage and tracking system that can help Cal Poly better manage resources and establish a training inventory, Schultz said.

For more information, contact Marsha Epstein, information technology services training coordinator, ext. 6-6541 or mepstein@calpoly.edu.

Wellness Conference

(Continued from page 2)

Admission to all workshops, presentations and a luncheon. For a registration form, call Hospice of San Luis Obispo County at 544-2666.

Community members not able to attend the conference sessions are invited to browse the free vendor showcase in the cafeteria at Cuesta's Conference Center, where representatives from local businesses and nonprofit organizations will be on-hand to discuss the ideas and solutions on a variety of health and wellness issues.

For information, call Women's Programs and Services at ext. 2-2600.

Baker, Zingg comment on chancellor's remarks

Dear Cal Poly Community Member:

You may be aware that CSU Chancellor Reed spoke to California's President's Cabinet on Sunday, March 7, and that during the question-and-answer portion of his presentation the chancellor made comments regarding the CSU faculty that have been viewed as negative. In the days following the Cabinet meeting, we have been in communication with the chancellor to seek clarification of his comments. To help the campus community better understand the full context of his remarks, Cal Poly has placed a transcript of Chancellor Reed's speech on the University's Web site, at: http://www.calpoly.edu/~com/munic/comic/comm.htm. In addition to the transcript, the chancellor has shared a response to concerns that have been raised surrounding his speech, which is available on the same Web site.

In our many opportunities to talk with the chancellor since his arrival, he has frequently stated his great respect for the faculty's hard work, extraordiry accomplishments and devotion to CSU and its students.

We would also like to reaffirm that our own sincere respect and appreciation for the commitment and contributions of the faculty continue. Cal Poly go beyond statements to this effect. For whatever we say is rooted in a fundamental respect for the nature of a university, namely, a community of people and ideas. And the high reputation that Cal Poly enjoys flows from the people who deliver our academic programs – the faculty and the form and focus of our curricula – the ideas of "learning by doing" and placing students first. We are connected in a culture of the highest quality and committed to work with all members of our university to build upon what we have already achieved together. We hope you will take the opportunity to read the full transcript of Chancellor Reed's remarks in the context of the President's Cabinet program.

Sincerely,

Warren J. Baker, President
Paul Zingg, Provost

Sen. O'Connell to ask for higher state funding

At the request of Chancellor Reed, Sen. Jack O'Connell of San Luis Obispo will ask the Legislature to provide permanent increased funding for Cal Poly's higher-cost, labor-intensive, technical programs such as agriculture, architecture and engineering. If successful, the initiative could eliminate the need to raise the Cal Poly Plan student fee by $135 per quarter.

The university, students, and Senate Committee members will work with Sen. O'Connell in presenting Cal Poly's case to the Legislature for increased revenues.

State budget allocations for 1999-2000 will be debated over the next few months. During that time, the Cal Poly Plan consultative process involving students, the faculty, and the staff will continue and will focus on each college's priorities and "investment plans." If the initiative is unsuccessful, the administration expects students to vote in the fall on their own college's plan.

"No fee increase will be implemented without a student vote at the colleges' resolutions," Baker said.

Over the past two months, the deans have consulted extensively with students, faculty, and the staff about the need for additional revenues to fully meet Cal Poly Plan goals.

Surplus farm equipment to be auctioned

The Farm Business Department will hold a sealed-bid auction from 8:30 am to 4 pm Monday, Tuesday and Wednesday, March 29-31.

During those days, items from tractor to hardware to machinery will be inspected and bids placed at the Farm Shop, Building 9. Items sold include a trencher, dump jointer, welding wire, sprockets, pulleys, gears, and more.

Successful bidders will be notified after 4:30 pm on March 31.

Farewell reception

A farewell reception for Neal Feaver, Foundation management information systems manager, is planned from 2 to 4 pm Monday, March 22, in the Foundation Conference Room (Room 124).

The new members are: Charles Chin, a senior, business administration; Justin Montecinos, a sophomore, agricultural business; Javier Palafox, a senior, business administration; and from lO am to 4 pm Saturdays and from 9 am Thursday, March 18. Faculty and staff members can register on the Web at http://www.multimedia.calpoly.edu/classes.

For more information, call Marsha Epstein, ext. 6-6541.

Wellness Conference planned at Cuesta

Educational workshops and inspirational speakers are scheduled as part of the first Central Coast wellness conference, planned from 8:15 am to 4 pm Saturday, April 10, at Cuesta College’s Conference Center.

Introduction to Reprographics will be taught by members of that department and will teach participants how to prepare high-quality, professional material. Adobe Illustrator has also been added to the class list.

The complete training guide schedule, which includes course offerings from Information Technology Services, the Library, and the College of Business, is available on the Web at helpdesk.calpoly.edu. Click on "Download the Spring 1999 Training Guide in PDF Format for a copy.

Registration for the classes begins at 9 am Thursday, March 18. Faculty and staff members can register on the Web at http://www.multimedia.calpoly.edu/classes.

For more information, call Marsha Epstein, ext. 6-6541.

Maynard Ferguson to play with Billy Taylor Trio

Jazz legend Maynard Ferguson has been added as the special guest performer for the Cal Poly Arts Billy Taylor Trio concert at 8 pm Friday, April 16. Ferguson and the trio will perform in Harman Hall in the Performing Arts Center’s Coban Center.

Ferguson, a Grammy-award-winning trumpeter and band leader, has been a staple of the Los Angeles Times as "jazz’s greatest, most charismatic wuptet virtuoso," is credited for his vast versatility and musicality.

Keynote speaker included nationally recognized specialist Terry Tafyos and Anneta Goodheart.

Tafyos, an educator and health specialist, combines his training as a traditional Native American medicine recorder with clinical psychology and humor to address issues of mental health, human sexuality, and substance abuse. He is a member of the St. Mary's tribe and met Tafyos at the National Indian Education Association.

Goodheart has worked as a laughter therapist for 11 years and as a psychotherapist for almost 30. She is known for her book "Laughter Therapy: How to Laugh About Everything in Your Life."

In her conference presentation, she will discuss how laughter therapy teaches people that laughter is the key to living stress-free and restoring physical balance in the process.

She is also known for her humorous take on the laughter interventions to restore people's confidence.

"The laughter intervention known for bringing laughter into the lives of many for whom hope and humor are often lost," said Suzanne Kelley, a member of the conference steering committee and a Cal Poly student who is organizing the event as part of her senior project.

Goodheart has helped numerous cancer and AIDS patients, easing the grieving process for those with disability, disease and death.

The conference aims to achieve community wellness by exploring innovative health approaches, empowering those who serve in caretaker roles, examining health needs and resources, and ensuring that aging is a dignified and meaningful process.

There is a fee for the public and $15 for students. The fee includes meals, transportation and a copy of the recording session, "Billy Taylor Trio." The complete training guide schedule, which includes course offerings from Information Technology Services, is available on the Web at helpdesk.calpoly.edu.

For more information, call Marsha Epstein, ext. 6-6541.

Fiscal year ending: watch those deadlines

In anticipation of the end of the fiscal year on June 30, the Career Reprographic Services Office is sending campus departments a "year-end" memo with purchasing and business transaction deadlines.

To avoid confusion, departments are asked to examine their budgets and note the cut-off dates. After reading the memo, call Contract and Procurement Services Office at ext. 6-2322 with any questions.

Online classes at Rec Sports

Rec Sports has added new fitness classes and free workshops to its spring schedule. Non-continuing offerings include a "skeleton style of yoga" on Tuesday and Thursday and a water workout Monday, Wednesday and Friday.

Other new classes are: beginning and intermediate kickboxing and swimming. A free workshop on women’s self-defense is scheduled on Saturday, April 24, and guided nature walks through Poly Canyon are planned from noon to 1 pm Wednesdays, April 21, May 12, and June 2.

Other spring quarter classes include street dance, sport and ultimate yoga, various martial arts, swing dance and the lindy hop, and sand-volleyball.

For more information, call Kate Olafson at ext. 6-1366.

Phaklides 72

William J. Phaklides, engineering technology professor emeritus and a Cal Poly alum, delivered his March 6 address in Aydoo.

Phaklides graduated from Cal Poly with highest honors in air conditioning and refrigeration from the College of Engineering. After working in industry for a number of years, he returned to Cal Poly to work at the California Climate Change Research Office from 10 am to 6 pm weekdays and from 10 am to 4 pm Saturdays.

He received a Distinguished Teacher Award in 1973-74.

Floyd, 66

Donald Floyd, social sciences professor emeritus, died March 10 of a heart attack.

Floyd started teaching geography at Cal Poly in 1974, after having taught for three years at the University of Maryland in Baltimore. Before his career in academia, he served for 18 years as a Lieutenant operator. He attended UC Berkeley while working as a pesteur full-time at night. He was a Korea War veteran. He was active in the American Association for the Advancement of Science, professional conferences, the American Meteorological Society, and other organizations.

Floyd’s death leaves a gap in the geography department, his colleagues said. His contributions to the field of geography are legendary, they said.

For more information, call Kate Olafson at ext. 6-1366.

"Intro to Reprographics" added to computer classes

A computer class that reaches users how to prepare documents for electronic distribution to the university's Reprographics department is one of two new training classes added to the spring quarter computer training class.

Introduction to Reprographics will be taught by members of that department's staff and will teach participants how to prepare high-quality, professional material.

Announce the class.

Applications due April 15 for building permits

The deadline for building permit applications for summer projects is Thursday, April 15.

It the size of the project, it can take from one to several months to process a permit. If applications are not received by the deadline, projects might not be approved in time for the summer construction.

For a building permit application and more information on the process, visit the site at www.facsv.calpoly.edu or call Cdy Bryan at ext. 6-3806.

Surplus farm equipment to be auctioned

The Farm Services Department will hold a sealed-bid auction from 8:30 am to 4 pm Monday, Tuesday and Wednesday, March 17-19.

During those days, items from tractors to hardware to machinery can be inspected and bids placed at the Farm Shop, Building 9.

Items include a tencher, dump truck, forklift, generator, moist meter, bolt cutters, shovels, winch, welding wire, sprockets, gears, and tools.

Successful bidders will be notified after 4:30 pm on March 11.

Farewell reception

A farewell reception for Neal Fowser, Foundation management information systems manager, is planned from 2 to 4 pm Monday, March 22, in the Foundation Conference Room (Room 124).

John Moffatt, CDFW, and Paul Wildermuth, student representatives of Cal Poly,曹操 will teach participants how to improve the quality of their lives -- the "art of living." Tafeyo, an educator and health specialist, combines his training as a traditional Native American healer with clinical psychology and humor to address issues of mental, health, sexual and substance abuse. In his talk, "Sing- ing Your Own Song: Healing, Treating and Preventing HIV/AIDS Across Cultures.," Tafeyo will focus on the verbal and non-verbal elements of cross-cultural communication that can improve or endanger HIV/AIDS.

Goodheart has worked as a laughter therapist for 11 years and as a psychotherapy counselor for almost 20.

In her conference presentation, she will discuss how laughter therapy teaches participants to look at the circumstances of life and survive physical and emotional pain.

"To laugh is intrinsically known for bringing laughter into the lives of many for whom hope and humor are often lost," said Suzanne Kelly, a member of the conference steering committee and a Cal Poly student who is organizing the conference. "Goodheart has helped numerous cancer and AIDS patients, easing the grieving process for those with disability, disease and death.

#97088: Administrative Assistant (Will change to Coordinator of Support Coordinator II on 4/1/99 in accordance with bargaining unit agreements), Provost/Vice President For Academic Affairs (Unit 9*) ($2,149 - $2,545/mo.) Closing date: March 31.

Faculty and staff members are asked to contact the appropriate department head at the phone number listed for more information and an application. Please submit all application materials to the department head's office. Faculty positions will also be advertised in the San Luis Obispo Telegram-Tribune.

FACULTY (Adm. 312, ext. 26-2844)
Volunteer opportunities in faculty positions are asked to contact the appropriate department head at the phone number listed for more information and an application. Please submit all application materials to the department head's office. Faculty positions will also be advertised in the San Luis Obispo Telegram-Tribune.

#93071: Lecturer Pool (part-time), P.E. & Kinesiology Department (756-2245). Part-time appointments possible during the 1999-2000 academic year (fall, winter, and spring quarters). Candidates must have earned a bachelor's degree to teach activity classes and a master's degree to teach all other classes. Assignments may include general activity classes, health education, first aid/CPR, and physical education major classes. Closing date: March 31.

#93072: Lecturer Pool (part-time), Physics Department (756-2448). Part-time appointments teaching lecture or laboratory classes in physics, physical sciences and/or geology possible during the 1999-2000 academic year (fall, winter, and spring quarters). Master's degree in physics, physical sciences or geology field preferred, doctoral degree preferred. Send letter, resume, completed application and names of four references to Professor John Epstein at Physical Sciences and Engineering, Physics Department. Closing date: March 31.

#93092: Lecturer Pool (part-time), Political Science Department (756-2984). Part-time appointments possible during the 1999-2000 academic year (fall, winter, and spring quarters) to teach lower or upper division courses. Specialties in American politics, international relations, political theory, and public administration required. M.P.A., M.A. or Ph.D. in political science or related field preferred. Apply to Chair, Political Science Department. Closing date: March 31.

#93096: Lecturer (full-time), Statistics Department (756-7209). Full-time position available for the 1999-2000 academic year teaching undergraduate statistics courses. M.S. in statistics or equivalent graduate-level course work required. Preference for demonstrated excellence in teaching and/or industrial experience involving applied statistics. Send letter, resume, and three letters of recommendation to Jay Devore, chair, Statistics Department, for application, or email resume to calpoly.edu. Closing date: May 14.

650 training courses now available on line
Faculty and staff members can now take a range of computer-based training courses on-line as a result of a three-year contract with CBT Systems and the CSU. Six hundred and fifty courses from introductory to technical are available for academic programs, individual use, and group training at http://cbt.calpoly.edu.

The courses, all compatible with Netscape and Internet Explorer, cover Microsoft Office, Netscape, NT Server, Unix, Oracle, the Novell and Windows certification series, Java, networking, communications and more. CBTWeb course modules are accessible both on and off-campus by using "LivePlay" via the Internet or by downloading to your PC. At this time, the CBTWeb-browser plug-in is supported only on the Windows platform. However, Macintosh users running a Virtual PC report excellent results.

In fall 1999, the CBT Systems product will "transition" to a Java-based product, creating a more versatile training tool, said Craig Schulz, interim director of user support services. All courses will be self-testable and testing capabilities on request and are supported by a usage and tracking system that can help Cal Poly better manage its resources and establish a training inven­tion, Schulz said.

For more information, contact Marsha Epstein, information technology services training coordinator, at ext. 6-6541 or mepstein@calpoly.edu.

Baker, Zingg comment on chancellor's remarks
Dear Cal Poly Community Member:
You may be aware that CSU Chancellor Reed has spoken to the President’s Cabinet on Sunday, March 7, and that during the question-and-answer portion of his presentation the chancellor made remarks about the CSU faculty that have been viewed as negative. In the days since the Cabinet meeting, we have been in communication with the chancellor to seek clarification of his comments. To help the campus community better understand the full context of his remarks, Cal Poly has placed a transcript of Chancellor Reed’s speech on the University’s Web site, at: http://www.calpoly.edu/~communications/comm.htm. In addition to the transcript, the chancellor has shared a response that has been raised surrounding his speech, which is on the same Web site.

We are open to and encouraged by any faculty members to seek clarification of his comments. To help the campus community better understand the full context of his remarks, Cal Poly has placed a transcript of Chancellor Reed’s speech on the University’s Web site, at: http://www.calpoly.edu/~communications/comm.htm. In addition to the transcript, the chancellor has shared a response that has been raised surrounding his speech, which is on the same Web site.

In our many opportunities to talk with the chancellor since his arrival, he has frequently stated his great respect for the faculty’s hard work, extraordinary accomplishments and devotion to the CSU and its students.

We would also like to reaffirm that our own sincere respect and appreciation for the contribution and the commitment of the faculty of Cal Poly go beyond statements to this effect. For whatever we say is rooted in a fundamental understanding of the nature of a university, a community of people and ideas. And the high reputation that Cal Poly enjoys, in large part, we owe to these people from the delivery of our academic programs – the faculty – and the form and focus of our curriculums – the ideas of "learn by doing" and placing students first. We are connected in a culture of the highest quality and committed to work with all members of our university to build upon what we have already achieved together. We hope you will take the opportunity to read the full transcript of Chancellor Reed’s remarks in the context of the President’s Cabinet program.

Sincerely,
Warren J. Baker, President
Paul Zingg, Provost
