Positional Vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Information can also be found on the Cal Poly home page on the World Wide Web (address: www.calpoly.edu click on “General Information”).

STATE (Adm, 110, ext. 6-2262 or job line at ext. 6-1533). Official application forms must be received by 4 pm on the closing date or be postmarked by the closing date.

#94077: Coordinator of Student Development (Student Services Professional I, Housing and Residential Life – Unit 5). * – Closing date: July 7 ($1,579.38 - $1,886.88/mo., temporary, 625 time base (25 hrs/wk) with benefits - June, to 6/30/2000) (interim/on-call to 6/30/2000 with variable work hours and likely annual renewal; four positions.

#95111: Bus Driver Pool (Heavy Equipment Operator), Transportation Services (Unit 5). * – Closing date: July 7 ($2,574 - $3,251/mo.)

#99111: Secretary to the Dean (Administrative Support Coordinator II), College of Agriculture (Unit 7). * – Closing date: July 7 ($3,579.38 - $4,086.88/mo., temporary, 625 time base (25 hrs/wk) with benefits - June, to 6/30/2000) (interim/on-call to 6/30/2000 with variable work hours and likely annual renewal; one position).

#97115: Assistant Secretary to the Provost (Administrative Support Coordinator II), Athletics (Unit 7). * – Closing date: July 7 ($2,352 - $2,987/mo., temporary, full-time (variable work hours including evenings and weekends) to 6/30/2000; possible extension based on fund).

#11416: Advisor, Student Community Services (Student Services Professional I, A, Student Life – Closing date: July 7 ($2,352 - $2,987/mo., temporary, 625 time base (25 hrs/wk) with benefits - June, to 6/30/2000) no chance for permanent; variable work hours to include evenings and weekends).

No fax.

#99116: Coordinator of Student Development (Student Services Professional I, A, Student Life – Closing date: July 7 ($2,352 - $2,987/mo., temporary, 625 time base (25 hrs/wk) with benefits - June, to 6/30/2000) no chance for permanent; variable work hours to include evenings and weekends).

#99117: Stage Technician I, Cal Poly Theatre (Unit 9) * – Closing date: July 7 ($1,579.38 - $1,886.88/mo., temporary, intermittent/on-call to 6/30/2000; variable work hours; up to five positions; education or experience dependent on need).

#99118: Stage Hand (Laborer), Cal Poly Theatre (Unit 9) * – Closing date: July 7 ($1,268 - $1,377/mo., temporary, intermittent/on-call to 6/30/2000; variable work hours; up to 20 positions; education or experience dependent on need).

#119: Administrative Assistant to the Provost (Confidential Office Support II), Office of the Provost and Vice President for Academic Affairs. Closing date: July 7. Internal recruitment. Only on-campus candidates may apply. ($2,020 - $3,060/mo.)

#99120: Administrative Support Coordinator II, Office of the Vice Provost for Academic Programs (7-9) * – Closing date: July 7 ($2,574 - $3,251/mo.).

#7121: Special Event Coordinator (Administrative Support Coordinator II), Athletics (Unit 7). * – Closing date: July 7 ($2,352 - $2,987/mo., temporary, full-time (variable work hours including evenings and weekends) to 6/30/2000; possible extension based on fund).

#7122: Athletic Academic Advisor (Student Services Professional I), Athletics. Closing date: July 7. ($2,352 - $3,494/mo.) (interim/on-call to 6/30/2000; possible extension based on fund).

Note: For positions marked with an asterisk (*), qualified on-campus applicants currently in Bargaining Units 1, 2, 5 and 9 will be given first consideration.

#114: University Art Gallery Coordinator (Public Affairs Assistant I), Department of Art and Design (Unit 7). * – Closing date: July 14 ($1,579.38 - $2,511.67/mo.)

#99113: Assistant Director of Communication Services (Administrative Support Coordinator II), College of Agriculture (Unit 7). * – Closing date: July 14 ($3,579.38 - $3,994/mo.)

Applications must include three professional letters of reference and be prepared to show current (within one year) proof of typing speed. For a fee, three local agencies provide tests: American Temps at 544-4646; Castra’s Institute for Professional Development at 541-0924; and Personnel Services, Inc., at 544-1800.

Students win contest with new dairy products

If getting children to drink their milk is something of a problem, help might be on the way.

If regular tofu has too much of a "bean" flavor, a new dairy alternative could be the answer.

Thanks to the work of five graduate students, kids might soon get their calcium and vitamin D from tofu and vegetarians might soon be sampling tofu-like moofos.

The Piedmont County Children's Hospital, Beth Fryksdale, Julie Angold, Stacy Fuller and Aaron Harris won first place in a national food product marketing contest for their creations. The contest, "Discoveries in Dairy Ingredients," challenged students to develop dairy product recipes with dairy ingredients such as dry milk, dry whey, or other whey derivatives. The winning entry was moofos. Fryksdale, Angold and Harris, won in the "most creative use of dairy ingredient" category.

Fryksdale based the moofos on a yogurt-based product.

"Children can be native to be substituted for tofu or added as a source of protein to many recipes, including soups, dry fries, and pasta salads."

Fryksdale is a second-year College of Agriculture graduate student specializing in dairy products technology and Mason earned a master's degree in agriculture at Cal Poly in 1998. Angold and Fuller are 1998 Cal Poly biochemistry graduates and current College of Agriculture graduate students.

Harris is also an agriculture graduate student.

Rafael Jimenez, a member of the Dairy Products Technology Center, advised the Moo Juice team. The center's Ph.D.-level advisor teams more than 20 advisors were awarded $1,000 in the competition.

The contest was sponsored by Dairy Management Inc., a national marketing board for the dairy industry.

**Animal Science Web site named 'best resource'**

The Animal Science Department's Web site at www.cpfoundation.org/dining/ has been selected by StudyWeb as one of the best educational resources on the Web.

StudyWeb is one of the Internet's premier sites for educational resources for students and teachers. In 1996 the organization's reviewers have been searching the Internet to identify the finest sites in a variety of subject areas. Each site in StudyWeb includes a detailed review describing its merits.

To access StudyWeb, go to http://www.studyweb.com.

**Contribution for loppiiny baby**

Robert and Misty loppiiny, both employees in the Housing and Business Services department, were thrilled to learn of a liver transplant that could save the life of their seven-month-old daughter, Molly. Molly's mother, Frances, turned to her job at Molly for help.

Donations are being sought to help pay for the medical expenses. The family is grateful for all the help they receive.

**Engineering unveils lab**

The College of Engineering has unveiled the Electronics Manufacturing Lab, founded with donations of cash and equipment from Orthodoyne.

The project is one of eight labs the college has established in the last two years. According to Industrial and Manufacturing Engineering Department Chair Senna Alptekin, approximately 200 electrical, manufacturing, mechanical and industrial engineering students will have classes in the new facility, keeping with the effective cross-disciplinary resource.

"Working in tandem with the Student Computer-Aided Design and Computer-Aided Manufacturing Laboratories, students will have the ability to create actual products from their electronic circuit designs," Alptekin said.

"And the lab will provide electronic products for the semiconductors for both electronics manufacturing and materials classes. In this way, future engineers will apply theory to gain understanding of how components operate in an active model."

"For example, students producing semi-conductor wafers in another lab will be able to connect and encapsulate the silicon "chips" and install them as components in working prototypes of products such as alarms in the new lab."

different case studies we discuss." Other students commented, "She is extremely dedicated to her students and makes herself available at all times, no matter where she is.

Frayne is a member of the College of Business Faculty Affairs Committee and serves as the faculty advisor to the Student Business Club. He also served on the Dean’s Advisory Council, the Graduate Programs Committee, and as an advisor to the student’s Business Club.

Frayne also served on Cal Poly’s University Senate Research Committee, founded and was principal investigator of the Mustang Excellence for Student Athletes program for at-risk student athletes, and was a faculty mentor for the Status of Women Council.

MacyCurdy, a 20th century American literary scholar, teaches courses in contemporary American fiction, modern Southern fiction, the early American novel, gender relations in literature, the American tradition in literature, and advanced composition.

Students call MacyCurdy’s classes a "joy." They also said, "Her courses are always engaging and challenging, and she is a great teacher and a great person." MacyCurdy has served as a member of the university’s Academic Senate, the Personnel Review Advisory Committee, the University Elections Committee and School Curriculum Committee. She was also a judge for the Cal Poly Fiction Writing Contest and chair of the Curriculum Committee and Variable Content Course Committee.

Myers is a computer scientist with significant experience in artificial intelligence. He teaches classes in the fundamentals of computer science, discrete mathematics, artificial intelligence, knowledge-based systems and data structures.

His students said, "Leonard Myers is in everything you would want in a teacher: understanding, exciting and knowledgeable." Others said, "Aspiring teachers looking for a good role model need look no further than professor Myers — he has all the characteristics of being a distinguished teacher." Myers has served on the university’s Information Resource Management Policy and Planning Committee, the College of Engineering’s Total Quality Management Committee, and the Computer Science Department’s Graduate and Undergraduate Curriculum Committees.

He served as co-director of the campus’s CAD Research Lab and department head for more than 12 years. Cal Poly has named 111 distinguished professors since the awards program began in 1964.

Children’s Center enrollment kindergartners

The AST Children’s Center is enrolling children for its development kindergarden program beginning in September. Call Dist. 6-1267 for more information.

SUMMER CAMP SCHEDULE

Welcome to the first summer edition of the Cal Poly Report, to be published every other week during the quarter.

Additional summer issues will be published on July 7 and 21, Aug. 4 and 18, and Sept. 1. Articles are due in the Communications Office by 10 am on Thursday for the following week’s edition.

Items can be e-mailed to polynews@polynews.com (add. calpoly.edu if needed), faxed to Dist. 6-6533, or mailed to the Communications Office, Herron Hall.

For information call Dist. 6-1511.

Contributions sought for loppini baby

Robert and Misty Loppini, both employees in the Housing and Business Services department, are seeking news of a liver transplant that could save the life of their seven-month-old daughter, Molly. Loppini is an eighth-month-old from her job for care for Molly.

Donations are being sought to help pay hospital bills and related expenses for the family, who have to face surgery if Molly again exhibits symptoms of trouble.

Baptism is selected for the special collection because its cover and artistic design were directly influenced by "The Book of Kells," one of the finest surviving examples of medieval Monastic and Celtic art as literature, according to Byzantium managing editor and Cal Poly grad Kevin Luttrell.

Primarily designed as a book of worship, "The Book of Kells" blends Celtic images with the 12 gospels of Christ. The book is alleged to have been started on the Isle of Iona, off present-day Scotland, around 800 AD, but the manuscript was moved to a monastery in Kells, Ireland, because of Viking raids.

The book, which has survived several fires, battles and sackings of the Kells monastery, is regarded as a window into the development of the Middle Ages. Dassault Systemes, a subsidiary of France’s Aerospatiale, has funded the students in publishing Byzantium.

For more information on the 1996 Byzantium text, write Mary Willi, dist. 4-296, or via e-mail at mwilli@calpoly.edu.

Folk music trio Peter, Paul & Mary will perform Saturday, Sept. 25, at the Cal Poly Access Center as part of the ’99-2000 Cal Poly Arts season. The show is a benefit for local artists and the local arts group.

The ASI Children’s Center is enrolling children for its development kindergarden program.

Animal Science Web site named ‘best’ resource

Position Availables

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Information can also be found on the Cal Poly home page on the Worldwide Web (address: www.calpoly.edu click on "General Information").

STATE (Adm., ext. 6-2246 or job line at ext. 6-1533). Official application forms must be received by 4 p.m. on the closing date or be postmarked by the closing date.

No fees.

#94077: Coordinator of Student Development (Student Services Professional I), Housing and Residential Life – Closing date: First-year position. The selected candidate will be responsible for the pre-employment background check including fingerprinting.

#9114: University Art Gallery Coordinator (Public Affairs Assistant I), Department of Art and Design (Unit 7). - Closing date: July 7 ($2,574 - $3,251/mo.). The selected candidate must be an assistant with all the experience and responsibilities required by a public art gallery.

#9115: Secretary to the Dean (Administrative Support Coordinator I), College of Agriculture (Unit 7). - Closing date: July 7 ($2,574 - $3,251/mo.). The selected candidate must be an assistant with all the experience and responsibilities required by the position.

#9116: Advisor, Student Community Services (Student Services Profession­al I, A, Student Life – Closing date: July 7 ($2,352 - $2,585/mo., temporary). Student Life has six positions, beginning 9/1/99 to 6/30/00, no chance for permanency; variable work hours to include evenings and weekends.

#9117: Stage Technician I, Cal Poly Theatre (Unit 9*- Closing date: July 7 ($15.83 - $19.01/hr., temporary, intermitt­ent/on-call to 6/30/00, variable work hours; up to five positions; exter­nally dependent on need).

#9118: Stage Hand (Laborer), Cal Poly Theatre (Unit 9*- Closing date: July 7 ($12.68 - $13.77/hr., temporary, intermittent/on-call to 6/30/00; variable work hours; up to 20 positions; exter­nally dependent on need).

#9119: Administrative Assistant to the Provost (Confidential Office Sup­port II), Office of the Provost and Vice President for Academic Affairs. Closing date: July 7. Internal recruitment. Only on-campus candidates may apply.

#9120: Administrative Support Coordinator II, Office of the Vice Provost for Academic Programs (Unit 7). - Closing date: July 7 ($2,574 - $3,251/mo.).

#9121: Special Event Coordinator (Administrative Support Coordinator II, Athletics) (Unit 7). - Closing date: July 7 ($2,352 - $2,987/mo., temporary, full-time (variable work hours including evenings and weekends) to 6/30/00; possible extension based on funds).

#9122: Athletic Academic Advisor (Student Services Professional II), Athe­letics. Closing date: July 21. $2,870 - $3,449/mo.). The selected candidate must be an advisor with all the experience and responsibilities required by the position including fingerprinting.

#9123: Note: For positions marked an asterisk (*) qualified on-campus applicants currently in Bargaining Units 2, 5, 7 and 9 will be given first consideration.

FOUNDATION (Foundation Adm. Building, job line at ext. 6-7107). All Foundation applications must be received by 4 p.m. on the closing date or be postmarked by the closing date.

Maintenance Manager, Campus Dining – Position is open until filled; review of applications will begin July 6, 1999. We are seeking a motivated individual with an A.A. or equivalent in technical/vocational training, and a minimum of 4 years of experience (preferably in food service operation) managing a maintenance operation, including two supervisory/managerial experiences of equivalent. Must have knowledge of work methods and related code requirements for chemicals, tools, equipment, health/safety regulations; principles, practices, and procedures of building and equipment maintenance, including elec­tronic, electrical, plumbing, and asbestos abatement; mechanical systems, natural gas and propane, refrigeration, and HVAC equipment; operations, and project management and planning; and proper handling and storage of hazardous material. Licensed or ability to obtain license to work with asbestos abatement in accordance with EPA, AHERA, and NESHAPs and to handle refrigerants. Possess a valid California driver’s li­cence with a driving record acceptable to our insurance underwriters. Offered: competitive salary, benefits package, merit pay and advancement at one of the West’s top universities. 

... CASE (Continued from page 1)

Cal Poly was one of three public comprehensive institutions to receive the award.

In 1997-98, Cal Poly raised more than $21 million. This represents an almost 45 percent increase over 1996-97 and an 80 percent increase over 1995-96.

A “record number of alumni, parents, friends, corporations and foundations provided these funds to advance the academic programs at Cal Poly and en­hance the university’s “learn by doing” mission,” Boldt said.

Boldt will be presented with the award at the June 5, 1999 Assembly, to be held in Boston in July.

The winning institutions are selected based on a variety of criteria that in­cludes the pattern of growth of total sup­port, an evaluation of what contributed to the total support figure, overall breadth and pattern of growth in program areas, pattern of donor growth among alumni and other donors, total support in relation to the alumni base, and the type of institution.

For more information, call Boldt at ext. 6-1946. For information on CASE and its awards program, visit its Web site at www.case.org.

Engineering departments receive $2.5 million gift

By using this computer-generated, paperless environment, designers and manufacturers—even those in different geographical locations—can collaborate on virtual, finely-tuned prototypes while reducing production time and cutting costs.

We chose CATIA over other soft­ware for several reasons,” said mechan­i­cal engineering faculty member Fred Friedman, “including the fact that a lot of the employers hiring our graduates, such as Boeing, Raytheon, and others, use CATIA. Many of the high-tech corpora­tions in California actively seek Cal Poly students and graduates, and having CATIA training is a real plus for our job candidates.”

“We are proud to provide our CATIA software to a nationally ranked engineering university,” said Philippe Frayne to approximately 3,400 graduates and more than 20,000 family members and friends.

Cal Poly wins CASE fund-raising award

Cal Poly has won a national fund­raising award from the Council for Advancement and Support of Educa­tion (CASE). The 1999 Circle of Excellence in Edu­cational Fund-Raising Award recognizes development efforts during the last three fiscal years, 1995 to 1998.

According to a CASE official, Cal Poly is “among an exceptional group of colleges, universities and independent schools named to the Circle of Excellence for their exemplary performance in fund-raising.”

Vice President of University Advance­ment Bill Boldt said he was extremely gratified that Cal Poly was recognized.

“We have an outstanding team of advan­ce­ment staff members who have worked hard to make this award possible,” Boldt said. “The Circle of Excellence award brings national recog­nition to our efforts and is a testament to the efforts of all the people involved in fund-raising at Cal Poly. I’m very proud to be a part of this distin­guished group of professionals.”

According to (Continued on page 4)

PAGE 4

Three Distinguished Teachers named

Business professor Collette Frayne, English professor Carol MacCurdy, and computer science professor Leonard Myers were named Cal Poly’s 1998-99 Distinguished Teachers.

Frayne has taught in the area of Glob­al Strategy and Law in the College of Business since 1982. MacCurdy has been a member of the English Department since 1987, and Myers has been a com­puter science teacher at Cal Poly since 1984. They were recognized at com­memoration ceremonies June 12.

Frayne and MacCurdy are distinguished professional business and international man­agement and interac­tional human resource management. In 1997, Myers was named a Cal Poly ‘97 Teacher of the Year.

By using this computer-generated, paperless environment, designers and manufacturers—even those in different geographical locations—can collaborate on virtual, finely-tuned prototypes while reducing production time and cutting costs.

We chose CATIA over other soft­ware for several reasons,” said mechan­i­cal engineering faculty member Fred Friedman, “including the fact that a lot of the employers hiring our graduates, such as Boeing, Raytheon, and others, use CATIA.
