Position vacancies

Weird AI' Yankovic to appear Sept. 22

Weird AI' Yankovic, rock 'n' roll's supreme parodist and its reigning "King of the Accordian," will appear on Wednesday, Sept. 22, as a 1999-2000 Cal Poly Arts Center Season event.

Yankovic will perform his traditional tune of polka medleys and original tunes for an evening in Harmony Hall in Performing Arts Center.

Yankovic's career began in 1979 when, as a Cal Poly architecture student, he recorded his first parody, "My Bologna," in the "acoustically perfect" men's room across the hall from Registration Office.

After a student essays a list of the courses he or she wants, along with any restrictions, POWER checks class availability and creates student schedules from a list of open sections that is updated every five minutes.

The new system was developed by the technical staff of Academic Records as a supplement to the CAPTURE telephone registration system.

Additional summer issues will be out Aug. 4 and 18 and Sept. 1.

For information, call ext. 6-1511.

POWER lets students build schedules anytime

This summer, in what is believed to be the only scheduling program of its kind, students can build class schedules via the Web 24 hours a day, seven days a week, and then officially register on line weekdays from 7 am to 7 pm.

POWER (Poly Web Registration) creates student schedules from a list of open sections that is updated every five minutes.

The college will receive $80,000 to support three freshmen for four years and USDA, said, "These funds allow us to provide financial support. It also supports our diversity of the food, agricultural, scientific, and professional workforce, and the United States, Canada and Europe.

The scholarships, known as the All-American Scholarships, are awarded to individuals who have been awarded a grant and been named a score of at least 1150.

James Nash, 74
James Nash, a physician and former director of Cal Poly's Health Services, died from complications of diabetes July 1 in San Luis Obispo.
Nash came to Cal Poly as a medical officer in 1971. In 1981, he became di­rector of Student Health Services, where he continued until his retirement in 1991. He contributed to furnishing medical services to 16,000 students and overseeing a 20-bed, 24-hour-a-day infirmary, he wrote the 1985 Campus AIDS/HIV Guidelines and was a member of the Radiation Safety Committee.
During Nash's tenure at Cal Poly, he also served on the staff at French, Sierra Vista and General hospitals.

PRAGHREPHOTOGRAPHS OFFERS SELF-ADHESIVE LABELS
Cal Poly Self-adhesive mailing labels printed in green ink are available from Repographics. Each sheet contains eight laser- and inkjet-compatible labels at a cost of 32.2 cents per sheet.

Regographically offers self-adhesive labels
Regographics offers self-adhesive mailing labels printed in green ink are available from Regographics. Each sheet contains eight laser- and inkjet-compatible labels at a cost of 32.2 cents per sheet.

Hendricks
(Continued from page 1)
Hendricks received the award. He was selected from among individ­uals in such diverse disciplines as biology, ecology, botany, paleo­ontology, philosophy, anthropology, natural resources, econom­ics, sociology, psychology, geology, phi­losophy and psychology.
College of Agriculture Dean Joe Jen said, "This is a non-budgetary award that gives students the opportunity to pursue their dream careers. Hendricks was an outstanding student and will undoubtedly be a future leader in the field of health care."

PAY DAY!
Friday, July 30

United States
(Continued from page 1)
advance the educational achievement of all Americans by providing grants to eligible colleges and universities for undergraduate scholarships. Although the program continues to emphasize attracting underrepresented minorities into the food and agricultural sciences, it has been modified to conform to current federal regulations regarding the use of race as a factor in higher education scholarships. Students from all racial and ethnic groups are now eligible for "scholar­ships.
Dean of the College of Agriculture Joe Jen said, "We strongly support this program and its efforts to increase diver­sity in agriculture.
"Hispanic and Latin in Higher Educa­tion ranked our college as the second largest provider of baccalaureate degrees to Hispanics in the nation. We're very proud of this fact and we will strive to continue — and improve upon — this tradition," Jen said.

The awards committee includes architects, designer-builders, landscape designers, artists and planners. The 17-year 37 awards were chosen from among 85 nominees. 

Belle of the Ballroom
(Continued from page 1)
Belle of the Ballroom, "Weird AI" isinating, and entertaining. The show features a variety of dance styles from all over the world, including hip hop, salsa, and ballroom.

The show will take place on July 30th, at 8pm, in the campus center ballroom. Tickets are $10 in advance and $15 at the door.

Tickets can be purchased online at the website of the Performing Arts Ticket Office, or in person at the box office.

Finally, we would like to express our gratitude to all of our sponsors, without whom this event would not be possible. Thank you for your support.

ence in Missoula, Mont., where Hendricks received the award.

He was selected from among individuals in such diverse disciplines as biology, ecology, botany, paleontology, philosophy, anthropology, natural resources, economics, sociology, psychology, geology, philosophy and psychology.

College of Agriculture Dean Joe Jen said, "This is rare news with people striving for all their lives. Here is a tenure-track faculty member who has achieved the highest national honor bestowed by his profession. It's quite an accomplishment, and we are very proud of him."

Hendricks received the honor for two studies he conducted on undergraduate education programs: a survey of wilderness educators determining the effectiveness of the programs and a study on grammar-school children to examine the programs' effect on short-term behavioral intentions.

James Nash, long-time Cal Poly employee and former director of Student Health Services, died at age 74 on July 1. Nash was a member of the Radiation Safety Committee.
