Engineering Dean Lee earns international award
The 1999 International Conference on Engineering Education (ICEE) recently recognized Peter Lee, College of Engineering dean, for his years of service dedicated to improving engineering education in the global environment. He received a commemorative medal at ICEE's annual meeting, held this year in the Czech Republic. More than 400 representatives from 35 countries attended the conference. Lee was recognized, in part, for his work from 1991 to 1999 on the Board on Engineering Education. Established by the National Research Council and the National Academy of Engineering, the board was charged with laying new foundations and developing long-term strategies for engineering education in the context of rapidly changing circumstances, technologies and demands. In 1995 the board issued "Engineering Education: Designing an Adaptive System," a blueprint for engineering education in the United States into the next century.
From 1996 to 1999 Lee served on the ICEE steering committee and represented Cal Poly as associate director of the National Science Foundation Engineering Education Coalition.
Lee has been the keynote speaker for many international conferences on engineering education and plans to travel to Beijing, China, later this year to give the theme speech at another meeting.

Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office or is also available on the Cal Poly home page (www.calpoly.edu; click on "Facilities"

FACULTY (Adm. 312, ext. 6-2844)

Candidates interested in faculty positions should contact the appropriate department office at the phone number listed for more information and application instructions. Applicants are asked to attach a curriculum vitae and letter stating the material documents to the department head/chair and to send copies of said materials and salary are commensurate with qualifications and experience, and timebased where applicable, unless otherwise stated.

Y2K Awareness Day

To help the university community between Y2K awareness and possible code-related problems that may evolve as the result of the changeover. The Y2K task force will sponsor Y2K Awareness Day on October 14, 1999.

The event, from 11 am to 1 pm in the UI Plaza, will be free and open to everyone. Departments from Cal Poly, as well as representatives from the IEP office, will present materials and tips on how to plan for and prevent possible computer troubles, travel concerns, business delays and other situations that Y2K experts are warning of.

Y2K Awareness Day will be an opportunity to provide answers to some of the most current and pressing concerns regarding the Y2K issue. People are encouraged to visit the Math Department Conference Room 208-B (adjacent to Faculty Offices East before the colloquium, from 3:30 to 4 pm. (Adm. 312, ext. 6-2844)

Candidates must complete all current or proposed projects or activities in which animals are used in teaching or research. For field and laboratory animals, forms, call or visit the Research and Graduate Programs office. Send proposals involving the use of animals to the committee via the Research and Graduate Programs office.

Copies of "Policies and Procedures for the Handling of Allegations of Scientific Fraud and Serious Misconduct" are available from Research and Graduate Programs, Grants Development, and Foundation Sponsored Programs, the Math and Science Building. Or call ext. 6-1508 or e-mail crooksh@calpoly.edu. for a copy.

'Science and Evolution' title of first colloquium

Is evolution just a theory? What is science?

Cal Poly physics professor Joseph Boone will answer those questions in his presentation "Science and Evolution," the first fall quarter Physics Colloquium, at 1 pm Thursday, Oct. 21, in Room 14-102 in the Math and Science Building. Boone will give his views on the methods of science and the role of scientific and nonscientific studies differ.

In his talk, Boone will briefly discuss evolution and will look at mutations to see whether they are sufficient to explain the evolution of organisms such as humans.

The presentation is sponsored by the Physics Department. For more information, call ext. 6-2448.

The faculty and staff are invited to the sessions from 4-6 pm in Science and Math, Room 114. The speakers are:

Colin Speakman and Carla Marsal from the American Institute of Foreign Studies, Monday, Sept. 27; Ken Ziogler, Centers for Academic Programs, Wednesday, Sept. 29; Rafael Hoyte, International Studies Abroad, Thursday, Sept. 30.

For more information, call Barbara Andre at IEP, ext. 6-8357.

Mathematics Colloquium set for Sept. 23

"The Fisher-Hartwig Conjecture: A Historical Account," the first fall quarter Mathematics Colloquium, will be presented by professor Estelle Basor at 4 pm Thursday, Sept. 23, in Room E-46 in the Science Building. Basor will describe the history of the conjecture, its current status, connections with operator theory, and also some generalizations.

In 1948 Lars Onsager discovered a formula for the magnetization of a two-dimensional magnet. He showed that the magnetization decays as temperature approaches a critical value. His formula involved mathematical objects called Teplitz determinants, and the mathematical formula of the problem became known as the Fisher-Hartwig conjecture.

The theorem of the determinants at the time of Onsager's discovery did not rigorously cover the situation that was needed to compute the magnetization. However, in the following 40 years, progress was slowly made so that the mathematical theory became fairly complete.

In her talk, Basor will explain how the Fisher-Hartwig Conjecture contains an asymptotic formula for finite Toeplitz determinants with singular generating functions. The original motivation for the formula came from the Ising model in statistical mechanics.

The presentations will be served in the Math Department Conference Room 208-B (adjacent to Faculty Offices East before the colloquium, from 3:30 to 4 pm. (Adm. 312, ext. 6-2844)

Y2K Awareness Day to be Oct. 14 in UIU Plaza

To help the university community become aware of possible computer-related problems that may be by the arrival of the year 2000 (Y2K), Cal Poly will sponsor Y2K Awareness Day on Thursday, Oct. 14.

The event, from 11 am to 1 pm in the UIU Plaza, will be free and open to everyone. Departments from Cal Poly, as well as representatives from campus groups, will be on hand to present materials and tips on how to plan for and prevent possible computer trouble, travel concerns, business delays and other situations that Y2K experts have been studying.

"Y2K Awareness Day will be an opportunity to provide answers to some of the most pressing concerns regarding Y2K," said Sally Andersen, administrative analyst/specialist and one of the event's organizers.

"Cal Poly has been working on Y2K since March 1998, and now we have the chance to share information about the steps we've taken and to bring other students to campus to share their experience and knowledge."

That year information regarding Cal Poly and other Y2K-related sites, including Cal Poly as well as the Cal Poly Help Desk at 7-6000.

---

Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office and can also be found on the Cal Poly home page (www.calpoly.edu; click Cal Poly Faculty Affairs). To be considered, submit resume, letter of interest, and names and addresses of three references, to the appropriate department office at the phone number listed for more information and application details. All applications and supporting materials to the department head/chair are due by 5 pm of the closing date. Salary and salary are commensurate with qualifications and experience and, timebase where applicable, unless otherwise stated.

in business or related field plus three years of progressively responsible experience in a college bookstore, computer store or commerce. operation environment (or combination of both to equal seven years). Must have knowledge of personal computing hardware, operating systems, application software, retailing, inventory management and minimum of three years of general clerical experience including one year of secretarial duties. Must type 45 wpm. Must have good oral and written communication skills. Graduation from IBM, Apple, or HP training programs preferred. Must be able to work a flexible schedule including evenings and weekends. Must have a California driver's license and a driving record acceptable to our insurance underwriters.

Closing date: Position is open until filled; review of applications begins Oct. 8.

Department Buyer, El Corral Bookstore ($12.11–15.76/hour), plan, search, negotiate with vendors and purchase computer hardware, software and supplies. Requires at least one year emale within the department and in keeping with established department goals and procedures. Requirements: High school degree or equivalent. Minimum of one year experience as a buyer or in administration (with computer system buying experience preferred) including two years' inventory control and reconciliation experience. Minimum one year experience with MBS or equivalent database system required. Closing date: Position is open until filled; review of applications begins Oct. 1.

Development Writer, Corporate and Foundation Relations ($25,974–31,230/annually; part time), assists with preparing proposals for submission to corporations and foundations. Requirements: Must have high school or equivalent and minimum of four years' experience as a grant writer with demonstrated success in obtaining major corporate and foundation funding for nonprofit organizations. Part time. Preferred; related degree may substitute for three years of experience. Experience writing proposals for foundations preferred. Must have excellent written communication skills, advanced research

Reporting Assistant, University Relations and Community and Government Relations ($12.10–15.12/hour), provides primary secretarial and administrative support. Requirements: Must have high school or equivalent and minimum of three years of general clerical experience including one year of secretarial duties. Must type 45 wpm. Must have good written and oral communication skills and familiarity with IBM PC-compatible computer hardware and software; Open/Office experience preferred. Must possess a valid California driver's license and a driving record acceptable to our insurance writers.

Closing date: Oct. 1.

Baker, Bake Shop ($9.50–12.35/hour). Requirements: High school degree or equivalent. Minimum of one year experience as a journey level baker, preferably in a large-scale, variety bake shop. Ability to bake from scratch, using ovens, mixers, dough shapers, fryers, meat slicers, devices, common kitchen utensils. Develop and maintain successful working relationships, possess a valid California driver's license and be able to lift and carry 50 lbs. Closing date: Position is open until filled; review of applications begins Oct. 1.

Foundation fuels feeding frenzy

Have you ever thought about what it takes to feed Cal Poly's 18,000-plus students, faculty members and staff members? Last year's numbers are impressive. For example, the Foundation's Campus Dining operations baked 201,600 cookies, prepared 45,000 chicken quarters, trimmed more than 17 tons of tri-tip, and made 44,800 cups of clam chowder.

The warehouse crew unloaded and distributed more than 351,000 bottles of water, the Sandwich Plant handled 351,450 transactions and, for one lunch at Open House in April, the Campus Dining staff prepared 1,700 lunch boxes.

And, in just one of the main food operations, the custodial crew cleaned 11.8 million square feet of floor. Now, that's what we call "cooking!!!"

**Engineering Dean Lee earns international award**

The 1999 International Conference on Engineering Education (ICEE) recently recognized Peter Lee, College of Engineering dean, for his years of service dedicated to improving engineering education in the global environment. He received a commemorative medal at ICEE's annual meeting, held this year in the Czech Republic.

More than 400 researchers representing 35 countries attended the conference. Lee was recognized, in part, for his work from 1991 to 1999 on the Board on Engineering Education. Established by the National Research and Council.

**Whittaker concert added**

Cal Poly Arts has added international singing star and songwriter Roger Whittaker to its 1999–2000 lineup, with a concert planned at 8 pm Monday, March 20, in Harman Hall in the Performing Arts Center's Cohan Center.

Whittaker, whose early singles include "The Charge of the Light Brigade" and "Steel Men," has enjoyed a successful singing career spanning more than 35 years. Other hits include "Durham Town," "New World in the Morning," "I Don't Believe in "If Anyway," "Marny Blue," "Albany," "Eloisa," and "The Last Parmwise."

Tickets cost $28 to $40 and can be bought at the Performing Arts Ticket Office (see details, page 3).

**Policies protect research subjects, deal with fraud**

All projects involving human subjects, including senior projects, thesis work, and faculty research, must be reviewed by the Human Subjects Committee. Research proposals should be sent to either Steve Davis, committee chair, Kinesiology Department, in the Mott Physical Education Building, Room 363, or to the Research and Graduate Programs office, Room 155 in the Math and Science Building (Bldg. 38), for referral to the committee. Guidelines for preparing the proposals can be obtained from either office. Call the Kinesiology Department at ext. 6-1808.

**The Institutional Animal Care and Use Program**

Continued on page 2
ASI Events to host "Global Rhythm Tour"

The Global Rhythm Tour, a unique hands-on experience that celebrates common humanity through rhythm, will be presented at 7 p.m. Thursday, Sept. 30, in the Recreation Center.

During the event, language disappears and rhythm is used to bring people together to a place where a person's race, culture, religion and sex are forgotten, where participants are simply individuals.

The evening will include a community drum circle, which involves the group's playing simple parts on a chorus of drums and percussion instruments to create an interactive and cooperative song.

The event will be led by Paulo Mattioli, an internationally acclaimed percussionist, instrument designer and music educator.

Participants should bring their own hand drums, congas, bongos, shakers, and other hand percussion instruments. Three hundred hand drums will be provided on a first-come-first-serve basis to those who don't have their own instruments.

The cost to attend is $1 for those with their own percussion instrument and $2 if a drum is provided. A picture I.D. is required to check out a drum.

The event is presented by ASI Events. For more information, call ext. 6-7001.

Parents' Appreciation Day set for Nov. 6

All parents of currently enrolled students will be invited to Parents' Appreciation Day, set for Saturday, Nov. 6. The event will include a family session, presentations by colleges, and a barbecue, followed by the Cal Poly vs. Montana football game at 1 p.m. in Mustang Stadium.

For more information, call Polly Harrigan, ext. 6-6553.

Calvin to perform Oct. 15

Irreverent comedian-philosopher George Carlin will be bringing his latest musings to Cal Poly in two shows at 7 and 9:30 pm Friday, Oct. 15.

The Cal Poly Arts presentation will be in Harman Hall in the Performing Arts Center's Cohan Center.

A master of observation, Carlin is known as one of America's most prolific social critics, pointedly commenting on politics, religion, and consumerism.

And those who aren't familiar with his act should know that Carlin often polemizes, according to Boston Globe staff writer Michael Blown, "cut through audience complicity."

Tickets for the Cal Poly Arts event cost $25 to $44.

Orchestra Dance Company auditions to be Sept. 23

Faculty members are asked to let their students know that auditions for the Orchestra Dance Company's 30th annual dance concert will begin at 6:10 pm Thursday, Sept. 23, in the Crandall Dance Studio between the Natatorium and Crandall Gym.

Interested dancers should plan to attend an information-workout meeting at 6:10 tonight (Wednesday), also in Crandall Dance Studio. Those attending should bring dance attire and shoes.

Selected students will be enrolled in DANC 345 Choreography, sections 1 and 2, for fall quarter and DANC 346 Dance Productions, sections 1 and 2, for winter quarter.

The concert theme will be Dance 2000: Dance Legacy. Performances will begin at 8 pm Friday, Oct. 28-29, in Harman Hall in the Performing Arts Center's Cohan Center.

Theatre and Dance Department faculty members Joan Ma Jinns Suhr and Maria Junco will direct Dance Legacy.

Music Department plans concerts, master classes

The Music Department has scheduled a variety of recitals, concerts and master classes for the fall and winter quarters.

Comments, questions and suggested topics — for each concert — can be e-mailed to polynews@polyomail.ca.polo.edu (if needed), faxed to 6-6553, or mailed to the Communications Office, Heron Hall.

For information call ext. 6-5151.

Parents' Appreciation Day set for Nov. 6

All parents of currently enrolled students will be invited to Parents' Appreciation Day, set for Saturday, Nov. 6. The event will include a family session, presentations by colleges, and a barbecue, followed by the Cal Poly vs. Montana football game at 1 p.m. in Mustang Stadium.

For more information, call Polly Harrigan, ext. 6-6553.

Duke Ellington's music in Harman Hall Oct. 2

Versatile vocalist Dianne Reeves and an all-star band will perform the music of Duke Ellington from the '30s through the '70s. The event is set for 8 pm Saturday, Oct. 2, in Harman Hall in the Performing Arts Center's Cohan Center.

The performance is part of a 20-city tour marking the 100th anniversary of Ellington's birth and is a highlight of Jazz at Lincoln Center's "Centennial Festival."— a yearlong celebration of Ellington's contributions to music.

Dianne Reeves will give a pre-concert lecture on "Duke Ellington" as a Cal Poly Arts Great Performance. The concert of Ellington's pieces for smaller ensembles will feature New Orleans trumpeter and guest music director Nicholas Payton, as well as Reeves, tenor saxophonist Joe Lovano and several members of the Lincoln Center Jazz Orchestra.

The performance is part of a 20-city tour marking the 100th anniversary of Ellington's birth and is a highlight of Jazz at Lincoln Center's "Centennial Festival." — a yearlong celebration of Ellington's contributions to music.

The performance is part of a 20-city tour marking the 100th anniversary of Ellington's birth and is a highlight of Jazz at Lincoln Center's "Centennial Festival." — a yearlong celebration of Ellington's contributions to music.

Music professor Mary Rawcliffe, soprano, will be accompanied by fellow faculty members Roger Quilter, clarinet and William Terrence Spiller on piano. Special guest Paul Woodring will accompany her on harp, performed for the program's first two pieces.

The program will include Claudio Monteverdi's "Estin' Blu," Henry Purcell's "Lord, What Is Man?," Ludwig van Beethoven's "Ecco quello istante," Gailanne Doizetti's "L'Amore e fe," and Franz Schubert's "Der Hirt auf dem Felhen."

Friends of the Music Department will also feature their performers in the program:

Peter Warlock's "Sleep" and "Captain Stratton's Fancy," Roger Quilter's "Now Sleeps the Crimson Petal," "Fair Jack," "Mesia's "L'Amour de Ricochet," Francis Poulenc's "C" and "Violon," and Phyllis Tate's "Three Songs (Elsie Marley, Died of Love, Quayside Shaver)" from "Scenes from Tyneside."

Tickets are $35 and $10. For details, call ext. 6-2406 or visit the Music Department's Web page, http://www.calpoly.edu/-mu. Ticket information

Tickets to the performances listed in today's Cal Poly Report are on sale at the Performing Arts Ticket Office, Heron Hall, or at the ticket booth at Mustang Stadium. Tickets are available through our Community Theatre Telephone Service and from the Ticket Office Monday through Friday 10 a.m. to 6 p.m. Tickets cost to $30 and $180.

Music Department to hold benefit recital Oct. 2

A varied program of music by Monteverdi, Beethoven and Schubert will highlight the first Music Department recital of the season at 8 pm Saturday, Oct. 2, in Mt. Carmel Lutheran Church in San Luis Obispo.

Music professor Mary Rawcliffe, soprano, will be accompanied by fellow faculty members Roger Quilter, clarinet and William Terrence Spiller on piano. Special guest Paul Woodring will accompany her on harp, performed for the program's first two pieces.

The program will include Claudio Monteverdi's "Estin' Blu," Henry Purcell's "Lord, What Is Man?," Ludwig van Beethoven's "Ecco quello istante," Gailanne Doizetti's "L'Amore e fe," and Franz Schubert's "Der Hirt auf dem Felhen."

Friends of the Music Department will also feature their performers in the program:

Peter Warlock's "Sleep" and "Captain Stratton's Fancy," Roger Quilter's "Now Sleeps the Crimson Petal," "Fair Jack," "Mesia's "L'Amour de Ricochet," Francis Poulenc's "C" and "Violon," and Phyllis Tate's "Three Songs (Elsie Marley, Died of Love, Quayside Shaver)" from "Scenes from Tyneside."

Return of the Pink Prize Patrol

They’re back! And as pink as ever. As an incentive to encourage ridesharing, the Pink Prize Patrol has returned to give away gifts to those who don’t drive alone on Tuesdays. Those who car pool, bike, walk, take the bus or van pool are helping to mitigate the parking congestion caused by the loss of 150 parking spaces during parking structure construction, and, in so doing, are eligible for prizes.

Every Tuesday morning during fall quarter, the Pink Prize Patrol will be lurking somewhere on campus — in a parking lot, at a bus stop, near a bike rack, or at an entrance to campus. Ridersharees who “see pink” are invited to stop and claim a gift. Those eligible for prizes include faculty and staff members and students who car pool, bike, walk, the bus, or van pool Tuesdays between 6 and 10 am.

The patrol advises: Think pink ... think rideshare.

Cal Poly Fact Book now on the Web

The 1998-99 edition of the Cal Poly Fact Book is now available on the Web, via the Institutional Planning and Analysis home page (www.calpoly.edu/inststdy/). The Web Fact Book uses the Adobe Acrobat format that allows the user to view the document on line or print the document while retaining the formatting. The book also provides interactive links to many other resources on and off campus.

The Institutional Planning and Analysis Web site also includes the Fall PolyView, the quarterly Infobriefs of enrollment highlights and admissions and scheduling information published each quarter, the Common Data Set, which provides answers to frequently asked questions, and a link to the Final Exam Schedule.

Institutional Planning and Analysis invites comments and questions about the data or accessing the Fact Book on line. Call ext. 6-2461.

Campus maps on the Web

Campus maps, formerly supplied by the Communications Office, can now be downloaded from the Web and duplicated by individuals departments and offices. Reprographics can fill requests for large quantities. To download and print campus maps from the Cal Poly home page, select “A to Z Index” in the left margin, click on “Facilities Planning,” then “Information & Resources,” where you’ll see “Campus maps and floorplans.” For help in downloading and printing the image, call Deby Ryan of Facilities Planning at ext. 6-8606 or (760) 382-6103. Facilities Planning, ext. 6-2581 or e-mail him at rwolf@calpoly.edu.

CSU, UC save $3.5 million in energy costs

The CSU and the University of California together saved $3.5 million in the first year of a four-year agreement with Enron Energy Services (EES), according to a news release from the Chancellor’s Office.

The deal, in which Enron is the sole provider of electricity to most of the CSU and UC campuses, saved $1.36 million for the CSU and $2.13 million for the UC. The EES agreement is the largest direct-access electrical energy contract in the country, worth an estimated $300 million to $500 million in electricity sales. The agreement is expected to save the systems an estimated $15 million during the four years.

EES also hopes to reduce the 31 CSU and UC campuses’ consumption of electricity by developing strategic energy plans.

CPR schedule

The Cal Poly Report is published every Wednesday during the academic year. Articles are due in the Communications Office by 10 am on Thursday for the following week’s edition. Items can be e-mailed to polynews@calpoly.edu or faxed to 6-6533. For details call ext. 6-1151.

Your Questions Answered Here

Q: Will student fees be increased this year to help fund Cal Poly Plan projects?
A: No. Working with state Sen. Jack O’Connell, the CSU again will explore the feasibility of obtaining additional State General Fund support for several CSU programs vital to the future of California’s economy, including agriculture, architecture, engineering and nursing. If State General Fund resources are allocated for those programs in 2000-2001, Cal Poly will not have to return to students to request additional help in funding the goals of the Cal Poly Plan. The present Cal Poly Plan academic fee of $45 per quarter continues to fund existing Cal Poly Plan projects and faculty positions.

Q: What is the status of the campus Master Plan update?
A: This is the beginning of the second year of a three-year process to update Cal Poly’s master plan. Last spring, 10 campus and community task forces were formed to develop ideas for general planning principles. The task forces submitted reports containing more than 500 items. Those items were organized and analyzed over the summer and presented to university senior administrators, in August. The group looked at the master plan and presented its findings to university senior administrators, in August. The group emphasized that all guiding principles must reinforce Cal Poly’s mission, vision, values, and its broader leadership role in higher education. An administrative draft of the Master Plan is being written and internal review should begin in December. The draft plan is scheduled to be released for public comment in March 2000.

Q: Is the campus going to build more student housing?
A: Plans are under way to build more on-campus student housing. The complex will house about 800 students and be located just north of the

Cal Poly Report, September 22, 1999

Revised academic calendar through spring 2000

Fall Quarter 1999

Sept. 13 Monday Beginning of fall term (faculty only)
Sept. 20 Monday Instructional Planning Day
Sept. 21 Monday Fall term classes begin
Oct. 4 Monday End of second week of instruction; last day to drop a class
Oct. 5 Tuesday Last day to add a class; last day to register late and pay late registration fee
Oct. 11 Monday End of third week of instruction - census date
Nov. 8 Monday End of seventh week of instruction
Nov. 11 Thursday Academic holiday - Veterans’ Day
Nov. 24-Nov. 28 Wednesday-Sunday Academic holiday - Thanksgiving
Dec. 3 Friday Last day of classes
Dec. 6-10 Monday-Friday Final examination period
Dec. 11 Saturday Mid-Year Commencement
Dec. 13 Monday Evaluation day; end of fall term
Dec. 14 Jan. 2 Tuesday-Sunday Academic holiday

Winter Quarter 2000

Jan. 3 Monday Beginning of winter term; winter term classes begin
Jan. 14 Friday End of second week of instruction; last day to drop a class
Jan. 17 Monday Academic holiday - Martin Luther King, Jr. Birthday observed
