in business or related field plus three years of progressively responsible experience in a college bookstore, computer store or commerce. operation environment (or combination of both to equal seven years), must have knowledge of personal computing hardware, operating systems, application software, retailing, inventory management and minimum of three years of general clerical experience including one year of secretarial duties. Must type 45 wpm. Must have good written and oral communication skills. Graduation from IBM, Apple, or HP training programs preferred. Must be able to work a flexible schedule including evening and weekend hours and events requiring overnight travel.

Must have a California driver's license and a driving record acceptable to our insurance underwriters. Closing date: Position is open until filled; review of applications begins Oct. 8.

Department Buyer, El Corral Bookstore ($12.11-15.76/hour). Plan, re- search, negotiate with vendors and purchase computer hardware, software and supply products for resale within the department and in keeping with established department goals and procedures. Requirements: High school degree or equivalent. Minimum of one year experience as a buyer or in administration (with computer system buying experience preferred) including two years' inventory control and reconciliation experience. Minimum one year experience with MBS or equivalent database system required. Closing date: Position is open until filled; review of applications begins Oct. 1.

Development Writer, Corporate and Foundation Relations ($25,974-31,200 annually; part time, 32 hours weekly). Responsible for assisting in the preparation and presentation of proposals to corporations and foundations. Requirements: Must have high school degree or equivalent and minimum of four years' experience in corporate writing with demonstrated success in obtaining major corporate and foundation funding. B.S. is preferred. B.S. is preferred; related degree may substitute for three years of experience. Experience writing proposals preferred.

Must have excellent written communication skills, advanced research skills and knowledge of MSWord, Excel, Web authoring and desktop publishing.

Closing date: Oct. 8.

Administrative Support Assistant II, University Relations and Community and Government Relations ($12.10-15.12/hour). Provides primary secretarial and administrative support.

Requirements: Must have high school or equivalent and minimum of three years of general clerical experience including one year of secretarial duties. Must type 45 wpm. Must have good written and oral communication skills and familiarity with IBM PC-compatible computer hardware and software. Open Time/Opening preferred. Must possess a valid California driver's license and a driving record acceptable to our insurance underwriters.

Closing date: Oct. 1.

Baker, Bake Shop ($9.50-12.35/hour). Requirements: High school degree or equivalent. Minimum of one year experience as a journey level baker, preferably in a large-scale, variety bake shop.

Ability to bake from scratch, using ovs, mixers, dough shapers, fryers, measuring devices, common kitchen equipment. Develop and maintain successful working relationships, possess a valid California driver's license and be able to lift up to 50 lbs. Closing date: Position is open until filled; review of applications begins Oct. 1.

Foundation fuels feeding frenzy

Have you ever thought about what it takes to feed Cal Poly's 18,000 plus students, faculty members and staff members?

Last year's numbers are impressive. For example, the Foundation's Campus Dining operations baked 201,600 cookies, prepared 45,000 chicken quarters, trimmed more than 17 tons of tri-tip, and made 44,800 cups of clam chowder.

The warehouse crew unloaded and distributed more than 351,000 bottles of water, the Sandwich Plant handled 351,450 transactions and, for one lunch at Open House in April, the Campus Dining staff prepared 1,700 box lunches. And, in just one of the main food operations, the custodial crew cleaned 11.8 million square feet of floor.

Now, that's what we call "cookin'!"

Whitaker concert added

Cal Poly Arts has added international singing star and songwriter Roger Whitaker to its 1999-2000 lineup, with a concert planned at 8 pm Monday, March 20, in Harman Hall in the Performing Arts Center's Cohan Center.

Whitaker, whose early singles include "The Charge of the Light Brigade" and "Steel Men," has enjoyed a successful singing career spanning more than 35 years. Other hits include "Durbam Town," "New World in the Morning," "I Don't Believe in It Anymore," "Why," "Mammy Blue," "Albany," "Eloisa," and "The Last Farewell.

Tickets cost $28 to $50 and can be bought at the Performing Arts Ticket Office (see details on page 3). 0

POLICIES

Policies protect research subjects, deal with fraud

All project Arts and animals involved in research projects, Cal Poly requires review of all proposals for subject sex.

The university also has policies and procedures for dealing with scientific misconduct.

All projects involving human subjects, including senior projects, thesis work and faculty research, must be reviewed by the Human Subjects Committee. Research proposals should be submitted to either Steve Davis, committee chair, Kinesiology Department, in the Mott Physical Education Building, Room 363, or to the Research and Graduate Programs office, Room 155 in the Math and Science Building (Bldg. 38), for referral to the committee. Guidelines for preparing proposals can be obtained from either office. Call the Kinesiology Department at ext. 6-2754 or Research and Graduate Programs, ext. 6-1508.

The Institutional Animal Care and Use Committee...
Spain Study Program to begin spring 2000

The International Education and Programs (IEP) office is establishing a universitywide, interdisciplinary Spain Study Program to begin with a small pilot program in spring 2000. Representatives from three study programs met to begin with a small pilot program in spring 2000.

The faculty and staff are invited to the sessions from 4-6 pm in Science and Math, Room 114. The speakers are Colin Speakman and Clara Marsol from the American Institute of Foreign Studies, Monday, Sept. 27, Ken Ziegler, Centers for Academic Programs, Wednesday, Sept. 29; Rafael Hoyte, International Studies Abroad, Thursday, Sept. 30.

For more information, call Barbara Andre at IEP, ext. 6-3587.

Cal Poly to bowl for Hotline Oct. 16

Faculty and staff members and students can again help raise money for Hotline during this year's Bowl-a-thon, planned for Friday through Sunday, Oct. 22-24, at Crossrides Lane in Atascadero.

Six lanes have been reserved for Cal Poly on Oct. 16. Those who can't bowl, can still support Hotline by sponsoring participants.

Cal Poly recently was awarded a trophy from Hotline of San Luis Obispo County for raising more than $1,500 during last year's Bowl-a-thon. Hotline's trained volunteer staff has offered a variety of telephone services to county callers each day, 365 days a year, since 1970. Last year Hotline handled over 26,000 calls for assistance. Cal Poly has participated in the annual Bowl-a-thon, the organization's main fund-raiser, for several years.

For more information, contact Cal Poly team coordinator Elaine Ramos Doyle at jmrogbowler@calpoly.edu or ext. 6-1740.

Mathematics Colloquium set for Sept. 23

"The Fisher-Hartwig Conjecture: A Historical Account," the first fall quarter Mathematics Colloquium, will be presented by professor Estelle Basor at 4 p.m. Thursday, Sept. 23, in Room E-46 in the Science Building. Basor will describe the history of the conjecture, its current status, connections with operator theory, and also some generalizations.

In 1948 Lars Onsager discovered a formula for the magnetization of a two-dimensional magnet. He showed that the formula decays as temperature approaches a critical value. His formula involved mathematical objects called Toeplitz determinants, and the mathematica formulation of the problem became known as the Fisher-Hartwig conjecture.

The theorem of the determinants at the time of Onsager's discovery did not rigorously cover the situation that was needed to compute the magnetization. However, in the following 40 years, progress was slowly made so that the mathematical theory became fairly complete.

In her talk, Basor will explain how the Fisher-Hartwig Conjecture became an asymptotic formula for finite Toeplitz determinants with singular generating functionals. The original motivation for the formula came from the Ising model in statistical mechanics.

Presentments will be served in the Math Department Conference Room (Room 208-B) of Faculty Offices East before the colloquium, from 3:30 to 4 p.m.

'Science and Evolution' title of first colloquium

"Science and Evolution: title of first colloquium"

Is evolution just a theory? What is science?

Cal Poly physics professor Joseph Boone will explore those questions in his presentation "Science and Evolution," the first fall quarter Physics Colloquium, at 2 p.m. Thursday, Sept. 23, in Room E-14 in the Science Building. Boone will give his views on the methods of science, science and nonscientific and scientific study differs. In his talk, Boone will briefly discuss evolution and will look at mutations to see if they are sufficiently clear to explain the evolution of organisms such as humans and chimpanzees.

The presentation is sponsored by the Physics Department. For more informa­ tion, call ext. 6-2448.

Y2K Awareness Day to be Oct. 14 in UU Plaza

To help the university community better understand possible computer-related problems that may be solved with the arrival of the year 2000 (Y2K), Cal Poly will sponsor Y2K Awareness Day on Thursday, Oct. 14.

The event, from 11 a.m. to 1 p.m. in the UU Plaza, will be free and open to everyone. Departments from Cal Poly, as well as representatives from area organizations and businesses, will participate in the event and present materials and tips on how to plan for and prevent possible computer troubles, travel concerns, business delays and other situations that Y2K experts have been studying.

"Y2K Awareness Day will be an opportunity to provide answers to some of the most pressing and concerning questions regarding computer science," said Sally Anderson, administrative analyst/special­ istic and one of the event's organizers. "Cal Poly has been working on Y2K since March 1998, and now we will have the chance to share information about the steps we've taken and to bring other specialists to campus to share our experience and knowledge."

This year, in addition to extending Cal Poly e-mail to 2000@ calpoly.edu or call the Cal Poly Help Desk at 6-7000.

Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Application information is also available on the Cal Poly home page (www.calpoly.edu/ohr). For more information, contact the appropriate department office at the phone number listed for more information and application instructions.

Employment opportunities

行政部门秘书 (Assistant Administrative Secretary, University Relations and Community and Government Relations ($12.10-15.12/hour). Provides primary secretarial and administrative support. Requirements: Must have high school or equivalent and minimum of three years of general clerical experience including one year of secretarial duties. Must type 45 wpm. Must have good written and oral communication skills and familiarity with IBM PC-compatible computer hardware and software. Open. Time/Place: Must have a California driver’s license and a driving record acceptable to our insurance underwriters. Closing date: Position is open until filled; review of applications begins Oct. 8.  

开发和维护成功工作关系

Cal Poly has established department goals and procedures. Requirements: High school degree or equivalent. Minimum of one year experience as a journey level baker, preferably in a large-scale, variety shop bakery. Ability to bake to scratch, using ovens, mixers, dough shapers, fryers, meatball and other devices, common kitchen equipment. Develop and maintain successful working relationships, possess a valid California driver’s license and be able to lift and carry 50 lbs. Closing date: Position is open until filled; review of applications begins Oct. 1.  

没有想过它会需要

Have you ever thought about what it takes to feed Cal Poly’s 18,000- plus students, faculty members and staff members? Last year’s numbers are impressive. For example, the Foundation’s Campus Dining operations baked 201,600 cookies, prepared 45,000 chicken quarters, trimmed more than 17 tons of tri-tip, and made 44,800 cups of clam chowder. The warehouse crew unloaded and distributed more than 351,000 bottles of water, the sandwich Plant handled 351,430 transactions and, for one lunch at Open House in April, the Campus Dining staff prepared 1,700 box lunches. And, in just one of the main food operations, the custodial crew trimmed 11.8 million square feet of floor. Now, that’s what we call “cookies”!”

Comedy: Roger Whitaker  
Whitaker concert added
Many Poly Arts has added international singing star and songwriter Roger Whitaker to its 1999-2000 lineup, with a concert planned at 8 pm Monday, March 20, in Harman Hall in the Performing Arts Center’s Cohan Center.  
Whitaker, whose early singles include “The Charge of the Light Brigade” and “Steel Men,” has enjoyed a successful singing career spanning more than 35 years. Other hits include “Durham Town,” “New World in the Morning,” “I Don’t Believe in ‘Il,” “Why,” “Mammy Blue,” “Albany,” “Eloisa,” and “The Last Farewell.” Tickets cost $28 to $40 and can be bought at the Performing Arts Tickets Office (see details, page 3).  

Engineering Dean Lee earns international award
The 1999 International Conference on Engineering Education (ICEE) recently recognized Peter Lee, College of Engineering dean, for his years of service dedicated to improving engineering education in the global environment. He received a commen­memorative medal at ICEE’s annual meeting, held this year in the Czech Republic. More than 400 students representing 35 countries attended the conference. Lee was recognized, in part, for his work from 1991 to 1999 on the Board of Engineering Education. Established by the National Research Council and the National Academy of Engineering, the board was charged with laying new foundations and developing long-term strategies for engineering education in the context of rapidly changing circum­stances, technologies and demands. In 1995 the board issued “Engineering Edu­cation: Designing an Adaptive System,” a blueprint for engineering education in the United States into the next century. From 1996 to 1999 Lee served on the ICEE steering committee and represented Cal Poly as associate director of the National Science Foundation Engi­neering Education Coalition. Lee has been the keynote speaker for many international conferences on engineer­ing education and plans to travel to Beijing, China, later this year to give the theme speech at another meeting.

ASI Events to host "Global Rhythm Tour"

The Global Rhythm Tour, a unique hands-on experience that celebrates common humanity through rhythm, will be presented at 7 pm Thursday, Sept. 30, in the Recreation Center.

During the event, language disappears and rhythm is used to bring people together to a place where a person's race, culture, religion and sex are forgotten, where participants are simply individuals. The evening will include a community drum circle, which involves the group's playing simple parts on a chorus of drums and percussion instruments to create an interactive and cooperative song.

The event will be led by Paolo Mattioni, an internationally acclaimed percussionist, instrument designer and music educator.

Participants should bring their own hand drums, congas, bongos, shakers, and other hand percussion instruments.

The cost to attend is $1 for those with their own percussion instrument and $2 if a drum is provided. A picture ID is required to check out a drum.

The event is presented by ASI Events. For more information, call ext. 6-7011.

Orchesis Dance Company auditions to be Sept. 23

Faculty members are asked to let their students know that auditions for the Orchesis Dance Company's 30th annual dance concert will begin at 6:30 pm Thursday, Sept. 8, in the Crandall Dance Studio. Those attending should bring dance attire and shoes.

Selected students will be enrolled in DANC 345 Choreography, sections 1 and 2, for fall quarter and DANC 346 Dance Productions, sections 1 and 2, for winter quarter.

The concert event will be Dance 2000: Dance Legacy Performances. Begin at 8 pm Friday, Oct. 28, and 9:30 pm Friday, Oct. 15.

Several hundred hand drums will be placed on a free-for-all basis throughout the campus and students, beginning with university affairs, to the Communications Office, Heron Hall.

For information call ext. 6-3511.

Parents' Appreciation Day set for Nov. 6

All parents of currently enrolled students will be invited to Parents' Appreciation Day, set for Saturday, Nov. 6.

The event will include a welcome presentation, presentations by colleges, and a barbecue, followed by the Cal Poly vs. Montana football game at 1 pm in Mustang Stadium.

For more information, call Polly Harrigan, ext. 6-5553.

Carlin to perform Oct. 15

Irreverent comedian-philosopher George Carlin brings his latest musings to Cal Poly in two shows at 7 and 9:30 pm Friday, Oct. 15. The Cal Poly Arts presentation will be in Harman Hall in the Performing Arts Center's Cohan Center.

The acclaimed Carlin, known as one of America's most prolific social critics, pointedly commenting on religion, politics and consumerism. And those who aren't familiar with his act should know that Carlin often goes off on tangents, according to Boston Globe staff writer Michael Blown, "cut through audience complacency."

Tickets to this Cal Poly Arts event cost $25 to $44.

Diane Reeves

Versatile vocalist Diane Reeves and an all-star band will perform the music of Duke Ellington from the '30s through the '60s at 8 pm Saturday, Oct. 2, in Harman Hall in the Performing Arts Center's Cohan Center. The concert, presented as part of Jazz at Lincoln Center's "Centennial Tour," will be a highlight of Duke Ellington's music in Harman Hall Oct. 2.

A varied program of music by Monteverdi, Beethoven and Schubert will highlight the first Music Department recital of the season at 8 pm Saturday, Oct. 2, in Mt. Carmel Lutheran Church in San Luis Obispo.

Music professor Mary Rawcliffe, soprano, will be accompanied by fellow faculty members Virgil Wright, clarinet and William Terrence Spiller on piano. Special guest Paul Woodring will accompany her on harp, which is the program's first two pieces.

The program will include Claudio Monteverdi's "Exulte Filia," Henry Purcell's "Lord, What is Man?," Ludwig van Beethoven's "Ecco quell'istoria," "Stabat Mater" and "Te Deum" and Franz Schubert's "Der Hirt auf dem Felsen."

Tickets cost $3 and $10. For details, call ext. 6-2406 or visit the Music Department's Web page, http://www.calpoly.edu/-mu.

All publications should be reviewed

The Communications Office reminds departments that all university publications going off campus should be reviewed by Darlene Slack, director of communications, before printing and mailing.

Slack also needs to approve requests for mailing labels as well as the material to be mailed. Labels can be ordered from User Support Services and Advanced Services.

Send material to be approved to the Communications Office, Heron Hall, or fax them to Slack at ext. 6-0886. For more information or to discuss a proposed publication, call Slack at ext. 1511.

Parents' Appreciation Day set for Nov. 6

All parents of currently enrolled students will be invited to Parents' Appreciation Day, set for Saturday, Nov. 6.

The event will include a welcome presentation, presentations by colleges, and a barbecue, followed by the Cal Poly vs. Montana football game at 1 pm in Mustang Stadium.

For more information, call Polly Harrigan, ext. 6-5553.

Cal Poly Choirs Fall Concert, with Polyphonics and the University Singers and Cal Poly Vocal Jazz, Oct. 30.

Bandfest '99, Nov. 20.

Jazz Night, May 13.

Wind Orchestra Spring Concert, June.

A free master class with David Prasad on the harpsichord. Rawcliffe on the harpsichord.

Tickets for all ticketed events can be purchased at the Performing Arts Ticket Office. Reservations are not required for free events.

Music Department plans concerts, master classes

The Music Department has scheduled a variety of recitals, concerts and master classes for the United Nations, faculty, students and members, beginning with the department's benefit Faculty Recital at 8 pm Saturday, Oct. 2. (See related story on the story.)

The recital, at Mt. Carmel Lutheran Church in San Luis Obispo, will feature music professor Mary Rawcliffe, soprano, and fellow faculty members Virginia Wright, clarinet, and William Terrence Spiller, piano. Special guest Paul Woodring will accompany Rawcliffe on harp, which is the program's first two pieces.

The program will include Claudio Monteverdi's "Exulte Filia," Henry Purcell's "Lord, What is Man?," Ludwig van Beethoven's "Ecco quell'istoria," "Stabat Mater" and "Te Deum" and Franz Schubert's "Der Hirt auf dem Felsen."

Tickets cost $3 and $10. For details, call ext. 6-2406 or visit the Music Department's Web page, http://www.calpoly.edu/~mu.

The recital is sponsored by the College of Liberal Arts and Music Department and will benefit the Music Department Scholarship Fund.

Duke Ellington's music In Harman Hall Oct. 2

A varied program of music by Monteverdi, Beethoven and Schubert will highlight the first Music Department recital of the season at 8 pm Saturday, Oct. 2, in Mt. Carmel Lutheran Church in San Luis Obispo.

Music professor Mary Rawcliffe, soprano, will be accompanied by fellow faculty members Virgil Wright, clarinet and William Terrence Spiller on piano. Special guest Paul Woodring will accompany her on harp, which is the program's first two pieces.

Cal Poly Fact Book now on the Web

The 1998-99 edition of the Cal Poly Fact Book is now available on the Web, via the Institutional Planning and Analysis home page (www.calpoly.edu/inststdy/). The Web Fact Book uses the Adobe Acrobat format that allows the user to view the document on line or print the document while retaining the formatting. The book also provides interactive links to many other resources on and off campus.

The Institutional Planning and Analysis Web site also includes the Fall PolyView, the quarterly Infobriefs of enrollment highlights and admissions and scheduling information published each quarter, the Common Data Set, which provides answers to frequently asked questions, and a link to the Final Exam Schedule.

Institutional Planning and Analysis invites comments and questions about the data or accessing the Fact Book on line. Call ext. 6-2461.

Campus maps on the Web

Campus maps, formerly supplied by the Communications Office, can now be downloaded from the Web and duplicated by individual departments and offices. Reprographics can fill requests for large quantities.

To download and print campus maps from the Cal Poly home page, select "A to Z Index" in the left margin, click on "Facilities Planning," then "Information & Resources," where you will see "Campus maps and floorplans." For help in downloading and printing the image, call Deby Ryan of Facilities Planning at ext. 6-6806 or Rex Wolf, Facilities Planning, ext. 6-2581 or e-mail him at rwolf@calpoly.edu.

CSU, UC save $3.5 million in energy costs

The CSU and the University of California together saved $3.5 million in the first year of a four-year agreement with Enron Energy Services (EES), according to a news release from the Chancellor's Office.

The deal, in which Enron is the sole provider of electricity to most of the CSU and UC campuses, saved $1.36 million for the CSU and $2.13 million for the UC.

The EES agreement is the largest direct-access electrical energy contract in the country, worth an estimated $300 million to $500 million in electricity sales. The agreement is expected to save the systems an estimated $15 million during the four years.

EES also hopes to reduce the 31 CSU and UC campuses' consumption of electricity by developing strategic energy plans.

CPR schedule

The Cal Poly Report is published every Wednesday during the academic year. Articles are due in the Communications Office by 10 am on Thursday for the following week's edition. Items can be e-mailed to polynews@calpoly.edu or mailed to the Communications Office, Heron Hall. For details call ext. 6-1111.

Your Questions Answered Here

Q: Will student fees be increased this year to help fund Cal Poly Plan projects?

A: No. Working with state Sen. Jack O'Connell, the CSU again will explore the feasibility of obtaining additional State General Fund support for several CSU programs vital to the future of California's economy, including agriculture, architecture, engineering and nursing. If State General Fund resources are allocated for programs in 2000-2001, Cal Poly will not have to return to students to request additional help in funding the goals of the Cal Poly Plan. The present Cal Poly Plan academic fee of $45 per quarter continues to fund existing Cal Poly Plan projects and faculty positions.

Q: What is the status of the campus Master Plan update?

A: This is the beginning of the second year of a three-year process to update Cal Poly's master plan. Last spring, 10 campus and community task forces were formed to develop ideas for general planning principles. The task forces submitted reports containing more than 500 items. Those items were organized and analyzed over the summer and presented to university senior administrators, in August. The group emphasized that all guiding principles must reinforce Cal Poly’s mission, vision, values, and broader leadership role in higher education. An administrative draft of the Master Plan is being written and internal reviews should begin in December. The draft plan is scheduled to be released for public comment in March 2000.

Q: Is the campus going to build more student housing?

A: Plans are under way to build more on-campus student housing. The complex will house about 800 students and be located just north of the Continued on page 6

Revised academic calendar through spring 2000

Fall Quarter 1999

Sept. 13 Monday Beginning of fall term (faculty only)

Sept. 20 Monday Instructional Planning Day

Sept. 21 Monday Fall term classes begin

Oct. 4 Monday End of second week of instruction; last day to drop a class

Oct. 5 Tuesday Last day to add a class; last day to register late and pay late registration fee

Oct. 11 Monday End of third week of instruction; census date

Nov. 8 Monday End of seventh week of instruction

Nov. 11 Thursday Academic holiday – Veterans’ Day

Nov. 24-Nov. 28 Wednesday–Sunday Academic holiday – Thanksgiving

Dec. 3 Friday Last day of classes

Dec. 6-10 Monday–Friday Final examination period

Dec. 11 Saturday Mid-Year Commencement

Dec. 13 Monday Evaluation day; end of fall term

Dec. 14-Jan. 2 Tuesday–Sunday Academic holiday

Winter Quarter 2000

Jan. 3 Monday Beginning of winter term; winter term classes begin

Jan. 14 Friday End of second week of instruction; last day to drop a class

Jan. 17 Monday Academic holiday – Martin Luther King Jr. Birthday observed

Jan. 18 Tuesday Last day to add a class; last day to register late and pay late registration fee

Jan. 24 Monday End of third week of instruction; census date

Jan. 26 Wednesday End of winter quarter

Feb. 22 Tuesday Academic holiday – George Washington’s Birthday observed

Feb. 23 Wednesday Last day of classes

Mar. 10 Monday End of fourth week

March 13-17 Monday–Friday Final examination period

March 17 Friday End of spring term

March 18-26 Saturday–Sunday Academic holiday

Spring Quarter 2000

March 27 Monday Beginning of spring term; spring term classes begin

April 7 Friday End of second week of instruction; last day to drop a class

April 10 Monday Last day to add a class; last day to register late and pay late registration fee

April 14 Friday End of third week of instruction; census date

May 12 Friday End of seventh week of instruction

May 29 Monday Academic holiday – Memorial Day observed

June 2 Friday Last day of classes

June 5-9 Monday–Friday Final examination period

June 10 Saturday Commencement; end of spring term; end of university year (faculty only)

June 11–18 Sunday–Sunday Academic holiday
