**Contemporary Focus on Environmental Planning**

Faculty and staff members are needed to showcase their class and departmental efforts aimed at environmental issues during Facilities Planning’s second annual Environmental Awareness Week Oct. 25-29.

Faculty members and student volunteers are also needed to participate in planning the event and future activities.

*Last year students of English professor Melody DeMeritt worked on the ‘Cal Poly Environmental Guide’ as a class project. The comprehensive guide was included in this year’s WOW packet and is available from Ed Johnson in Facilities Planning.*

Chemistry professor Theresa Torres involved students by giving extra credit for preparing and displaying environmental information during the week.

This year Facilities Planning hopes to increase faculty support and student awareness through class projects and event involvement.

Potential student projects might include designing a product from recycled materials; designing a steam-powered bicycle; designing a product from recycled material, and building a human-powered steam-powered car.

**CAL POLY REPORT, SEPTEMBER 29, 1999**

Two-year CSEA contract approved by CSU board

The CSU Board of Trustees has approved a two-year contract, effective from July 1, 1999, through June 30, 2001, with the California State Employees’ Association for Unit 5, Operations Support Services; Unit 7, Clerical/Administrative Support; and Unit 9, Technical Support Services. Salary highlights for fiscal year 1999-2000 include:

- A 2.607 percent general salary increase effective July 1, 1999.
- A 1 percent service-based salary increase (sse) for eligible employees on their 1999-2000 anniversary date, subject to an SSI maximum.
- Market salary adjustments of 1.98 percent effective July 1, 1999, for employees in the Administrative Support Series (including Administrative Analyst Specialist classifications).
- Higher shift differential rates of $1.25 and $2.30 per hour for eligible employees who work four or more hours between 6 p.m. and midnight and between midnight and 6 a.m., respectively.

**Y2K Awareness Day to be Oct. 14 in UU Plaza**

To help the university community better prepare for possible computer-related problems that may be associated with the end of the calendar year 2000 (Y2K), Cal Poly will sponsor Y2K Awareness Day Oct. 14. The event will run from 11 a.m. to 1 p.m. in the UU Plaza. Departments from throughout Cal Poly and representatives from outside organizations and agencies will have information available on how best to plan for and prevent possible computer troubles, travel concerns, business delays and other situations.

For more information regarding Cal Poly and Y2K, send e-mail to: year2000@calpoly.edu or call the Cal Poly Help Desk at ext. 6-7000.
Elmo Keller kicks off
Computer Science Colloquia

Thursday, in the 52 Criteria for Accreditation Room, Professor Elmo Keller will demonstrate how an ordinary personal computer can be transformed into a powerful network security management workstation without modifying the underlying hardware or software.

“A Guide to Embedding the Linux Kernel” will be presented from 4:10 to 5 p.m., in Room 237 in the Deady Building.

Keller will discuss the software aspects of integrating the Linux operating system for embedded applications and describe the actual implementation of an embedded system, in this case a network security monitor.

Keller, the college’s leading expert on the Linux operating system, will demonstrate a complete Linux operating system running from a single diskette.

After the talk, refreshments will be served in Filling Computer Science classroom 252.

For more information call computer science faculty member Lew Hitcher at ext. 6-2081 or the department office at 6-2824.

S.A.F.E.R. Program needs “real” men, women

The S.A.F.E.R. (Sexual Assault-Free Environment Resource) program is sponsoring a university-wide search for 100 “best” men and 100 “best” women on campus.

“Real Men” and “Real Women,” according to the program’s sponsors, are those who demonstrate a respect for the ideal that sex should be “shared, not taken,” and understand that everyone, regardless of race, sex, or sexual orientation, deserves to be treated with consideration.

Those chosen will be trained and asked to give sexual-assault-prevention presentations to campus groups.

Students as well as staff and faculty members are encouraged to enter the contest.

Pick up applications at the Women’s Center, Room 217 in the Student Union. Applications are due Oct. 12.

For more information call ext. 6-2282.

B of Arch program wins re-accreditation

Cal Poly’s five-year professional Bachelor of Architecture program has been granted re-accreditation for a full five-year term by the National Architectural Accrediting Board.

During winter quarter 1999, a visiting accreditation team spent several days on campus reviewing student work and meeting with students, faculty and staff members, administrators and alumni. All 52 criteria for accreditation were met.

“This is a remarkable record,” said Martin Harms, dean of the College of Architecture and Environmental Design.

“As far as I know, this level of success is rarely achieved.”

Still time to sign up for volleyball challenge

Sign-ups are still being taken at the Recreation Center for the Mark S. Bowling Memorial Endowment Volleyball Challenge to be played Oct. 9.

The cost is $50 per six-person team, and each team member will receive a T-shirt.

This year’s tournament will be played at the Rec Center and will have two divisions: one for faculty and staff members and student employees, to play Oct. 8, and one for members of fraternity and sorority organizations.

Proceeds from the event will add to the endowment.

For more information call Vivian Phillips at ext. 6-5279 or Joe Long, ext. 6-1366.

Raffle to be held to benefit cat program

The campus’ volunteer cat program’s fall quarter raffle is underway, with prizes that include two, one-hour massages from a practitioner at Healthy Balance and from Mobile Swedish Massage, a free animal medical examination from the Edna Valley Veterinary Clinic and the Equine Center, and editing or resume and letter writing services by English Department faculty member Melody DeMeritt.

Proceeds from ticket sales will help pay veterinary expenses and supply the campus’ resident cats.

Tickets, at $1 each or six for $5, can be bought from Geri Bolivar, ext. 6-2321, Jane Brechler, 6-2553; DeMeritt, 6-6136, Sharon Dobson, 6-5872; Edie Griffin-Shaw, 6-1533; Janice Kelly, 6-1420; Ellen Notterman, 6-1625; and Linda Patton, 6-1680.

For more information on the program, volunteer work or adoption, call Griffin-Shaw.

Room to Colloquium

Please note: All fall quarter Physics Colloquia will be held in the Science Building, Room 4-E5.

Position vacancies

Vacancy information and applications for the following positions are available from the appropriate Human Resources office. Information is also available at Cal Poly home page (www.calpoly.edu) click on General Information.

#00306: Temporary Emergency Administrative Support (Clerical) Position

This position will analyze, develop, code and document computer applications that are specific to the Admissions office.

Additionally, the incumbent will work closely with the executive director and the associate director to develop a variety of software solutions to meet the needs of the unit.

Two full-time positions: one probationary; one temporary to 6/30/2000 with renewal dependent on funds. The position provides technical support, analysis, planning, implementation, and maintenance of campus wide computer systems. Additionally, this position will provide general PC support. Must be willing to work evenings and weekends.

#00415: Employment Information Specialist (Unit 4), Closing date: Oct. 13. Salary: $5,528-$7,319/mo., temporary full-time position to 6/30/2000. This position provides assistance and guidance to all campus employees in the coordination and implementation of student retention activities, academic components and/or special projects for Student Academic Services.

Job posting information is also available at the Cal Poly home page (www.calpoly.edu).
A question of safety and Social Security numbers

Dear Editor:

With numerous stories appearing in the media lately about I.D. theft, does it make sense to have the Social Security number of each and every student and staff displayed so prominently on the front of our I.D. cards—where someone can read it right over our shoulders at the grocery store?

We all know our own S.S. numbers. Why not blank the first five digits?

Thanks for listening,
Mark Smith

Student Life, which oversees the identification card program, responds:
The use of Social Security numbers for identification purposes has been scrutinized by many organizations recently. Currently, the entire university uses Social Security numbers for all its records and identification, and the "readers" the university has escrequired to read only the Social Security numbers.

The scanning equipment that is used in various campus entities such as Campus Dining, El Corral, and the library, only recognizes a user's Social Security number.

"Piece of Mind" is for your letters about campus issues. Questions, explanations, compliments, complaints—what we want them all. Keep them brief, but keep them coming. Include name, department and phone number. E-mail to polynews@polymail, fax to ext. 6-6533, or mail to the Communications Office, Heron Hall.

The Editors

London Study Program accepting applicants

The London Study Program is accepting faculty applications for teaching in London either in fall 2000 or spring 2001. A new feature is a $3,000 stipend for a junior faculty member (one who has not reached the rank of full professor) chosen to teach in London either quarter.

During this fall quarter, a single committee will screen candidates for both sessions. The new stipends are intended to encourage participation by faculty members who have previously considered the cost of living in London to be too great. Although the curricular emphasis has been on general education courses in the humanities and social sciences, the program encourages and supports participation by teachers in the professional areas also. To date, about one-fourth of the London faculty members have come from colleges outside Liberal Arts.

The primary emphasis in the selection process will be to choose a faculty that offers a variety of options needed by the participating students. Final selection will be determined primarily by student course selection because, while faculty development is an important element of London Study, the program is driven by the curricular needs of the students.

London faculty members will come from colleges outside Liberal Arts.

IEEE to convene on campus Oct. 5

From left: BFGC principals Bill Viscusi, Mark Engleman, Frank Ghazi and Dave Carnell present a ceremonial check to Richard Zweigfeld, College of Architecture and Environmental Design associate dean, Patrick Bartlett, 1999 BFGC scholarship recipient, and Allan Cooper, associate director of architecture.

BFGC Architects Planners Inc. donated $50,000 to the College of Architecture and Environmental Design to create an endowment that will support students preparing to enter the architecture profession.

A 1965 Cal Poly architect graduate, David Carnell, chief executive officer and president of the firm, said that over the last 50 years BFGC has hired at least 50 Cal Poly graduates. That realization helped forge the idea of the contribution, Carnell said.

The annual BFGC scholarships are awarded to architecture majors who have well-rounded professional and social skills, good grades, and the leadership skills necessary for an outstanding future in the profession.

Hearst Lecture Series to kick off Oct. 11

Eisenberg will present "Living and Breathing in Real Time" at 3:10 p.m. in the Rotunda (Room 213) of the Business Building. The talk will focus on encountering architecture in "real life" as opposed to a purely academic setting.

Eisenberg co-founded Koning Eisenberg Architecture Inc. in 1981 and serves as its president. The award-winning, woman-owned architecture and planning firm is known for its imaginative, site-specific and people-oriented design approach.

Her belief that design excellence can be achieved with restricted budgets and social orientation has been a driving force in the firm. The success of the company's projects nationally and internationally has helped refocus architects' attention on those designs.

The firm has created unprecedented designs, such as the Simone Hotel, the first new, single-room-occupancy hotel on Skid Row in Los Angeles in more than 30 years. It also is responsible for the groundbreaking for such community facilities as Los Angeles' historic Farmers Market.

Koning Eisenberg Architecture has received recognition for its groundbreaking work in housing and community-based projects and received the Progressive Architecture First Award in 1987 for affordable housing in Santa Monica.

Eisenberg has taught part time since 1982 at UCLA's Graduate School of Architecture and Urban Planning and has lectured extensively in the University of California and architectural design at ext. 6-5138.

For more information, call Ann Beckman in the College of Architecture and Environmental Design at ext. 6-5138.
Grants program, which supports research, helps faculty members remain current in scholarship, and creative activities that intended to strengthen California socially.

**CAL POLY REPORT, SEPTEMBER 29, 1999**

Deadlines set for faculty support grants

The faculty, staff members, alumni, friends and family are invited to an information session from 9 a.m. to 4 p.m. Oct. 10 at the Swanton Pacific Ranch at Davenport, 11 miles north of Santa Cruz.

Swanton Pacific Ranch Day will include unlimited rides beginning at 8 a.m. on the railroad from San Francisco’s 1915 Panama-Pacific International Exposition. Tours and demonstrations in sheepdog herding will also be given.

Swanton Pacific Ranch was donated by the College of Agriculture by alumnum AI Smith, who died in 1993. Smith earned a bachelor’s degree in crop science in 1944 and a master’s in agricultural education in 1956.

The 3,200-acre ranch serves as an extension of Cal Poly’s instructional programs in agriculture, forestry and other disciplines.

The barbecue costs $12 for adults and $6 for children. Reservations are due by Tuesday. To make reservations, call Ed Carnegie at 995-3659.

On Oct. 10, a chartered bus will depart from the Food 4 Less parking lot at South Higuera Street in San Luis Obispo at 6:30 a.m. and from the Target store parking lot in Atascadero at 7 a.m. Round-trip is $15 per person.

**Area students, teachers to visit College of Ag**

Community college students, high school seniors and teachers will get a look at the future of agriculture in the 21st century as the College of Agriculture opens its doors for its Fall Preview Oct. 8.

The college is hosting the one-day event to introduce prospective students to the opportunities available in agriculture. Individual department sessions, admission workshops, curriculum activities and club overviews will be included in the program.

The general session will begin at 9:30 a.m. in the Ag Courtyard in front of the Agricultural Sciences Building. Admission for the day is free, including parking. College clubs will be selling lunch items.

For more information, contact the College of Agriculture at ext. 6-2161, or visit its Web site at www.calpoly.edu/cag and select Fall Preview.

**ASl Children’s Center awarded two grants**

The ASI Children’s Center has been awarded two grants by the Art Foundation of Santa Barbara.

The first grant, from the California Department of Education, will provide $175,000 a year, indefinitely, to subsidize the cost of child care especially for low-income students who have infants and toddlers.

A second grant, which will provide $73,000 a year for the next four years, was awarded by the federal Department of Education and will allow the center to develop an ASI Children’s Day Care Network.

The network will involve contracts with local home-day-care-providers who want to become affiliated with the ASI Children’s Center. The providers will receive ongoing training, resources and referrals. In turn, they will save a certain number of slots for children of Cal Poly families.

The grant will also provide funding to institute a sliding fee scale for parents who cannot otherwise afford child care.

The grant applications were initiated by Tonya Iversen, director of the ASI Children’s Center.

**Personal info can be restricted in directory**

Every year ASI publishes a Student Directory that includes their name, phone number, major, class level and e-mail address.

Anyone who does not want to have personal information included can use the Mustang Info Web site, www.mustang.info.calpoly.edu, to restrict information access. Go to Student Directory Information Restrictions.

Students can also complete the process at the Academic Records office, Adm. 222. All modifications to information restrictions must be completed by Nov. 12.

**Jazz Master Class planned for Oct. 9**

A jazz master class with the 1977 Monterey Jazz Festival’s Most Valuable Musician, string bassist David Friesen, and guitarist Sid Jacobs will be held from 3 to 5 p.m. Oct. 9 in Room 216 in the Davidson Music Center.

Friesen, whose release “Through the Looking Glass” was voted by the Los Angeles Examiner one of the 10 best jazz albums of the ’70s, has racked up considerable praise.

Critic Ken Rattenberry called him a “miracle” with “a rounded, powerful tone, a splendid sense of time, which contributes hugely to the rollicking, powerful swing that he generates throughout every measure. His pizzicato technique has, literally, to be heard to be believed; his solo creations are unbelievable in their logic and completeness... (he demonstrates) a complete mastery of the art of playing in tune.”

**Deadlines set for faculty support grants**

It’s time to think about submitting proposals for the State Faculty Support Grants program, which supports research, scholarship, and creative activities that help faculty members remain current in their fields. The work should also be intended to strengthen California socially, culturally, and economically.

Faculty members in Bargaining Unit 3 are eligible to compete for funding. Priority will be given to non-tenured faculty members and to projects likely to attract external funding.

The four types of support are:

- Mini-grants of up to $5,000, to be expended during the academic year.
- Assigned time for research, creative or academic scholarship.
- Assigned time for full pay to develop or complete an appropriate activity related to one’s academic discipline.
- One- or two-month summer fellowships to initiate, continue, or complete a creative or scholarly research project. Awards will be made only to faculty members who will return to Continued on page 5

London Study Program accepting applicants

The London Study Program is accepting faculty applications for teaching in London either in fall 2000 or spring 2001. A new feature is a $3,000 stipend for a junior faculty member (one who has not reached the rank of full professor) chosen to teach in London either quarter. During this fall quarter, a single committee will screen candidates for both sessions. The new stipends are intended to encourage participation by faculty mem­bers who have previously considered the cost of living in London to be too great. Although the curricular emphasis has been on general education courses in the humanities and social sciences, the pro­gram encourages and supports participation by teachers in the professional areas also. To date, about one-fourth of the London faculty members have come from colleges outside Liberal Arts.

The primary emphasis in the selection process will be to choose a faculty that offers the students needed by the partici­pating students. Final selection will be determined primarily by student course selection because, while faculty develop­ment is an important element of London Study, the program is driven by the cur­ricular needs of the students. Cal Poly's London campus is in the academic heart of the Bloomsbury district, in the two blocks of the British Museum.

Applications have been sent to all desks offices and are also available from the International Education and Programs (IEP) office, Room 108 in the Math and Science Building. Applications must be submitted in duplicate by Oct. 29 for departmental approval, or mailed to the IEP by Oct. 29.

Applications will be considered for one-year contracts, renewable for up to two years, with review of the program every second year.

A question of safety and Social Security numbers

Dear Editor:

With numerous stories appearing in the media lately about I.D. theft, does it make sense to have the Social Security number of each and every student and staff displayed so prominently on the front of our I.D. cards—where some­one can read it right over our shoulders at the grocery store? We all know our own S.S. numbers. Why not blank the first five digits?

Thanking for listening,
Mark Smith
Library

--- Student Life, which oversees the identi­fication card program, responds: The use of Social Security numbers for identification purposes has been scrutinized by many organizations recently. Currently, the entire university uses Social Security numbers for all its records and identification, and the "readers" the university has are equipped to read only the Social Security numbers.

The scanning equipment that is used in various campus entities such as Campus Dining, El Corral, and the library, only recognizes a user's Social Security number.

The campus, as a whole, has been exploring different possibilities for identifying faculty and staff members and students and hopes to move to another system in the future.

"Piece of Mind" is for your letters about campus issues. Questions, exclama­tions, compliments, complaints—we want them all. Keep them brief, but keep them coming. Include name, department and phone number. E-mail to polynews @polymail, fax to ext. 6-6533, or mail to the Communications Office, Heron Hall.

---

**Elmo Keller kicks off Computer Science Colloquia**

On Thursday, in the North Wing of the Science Center, Computer Science Colloquium, professor Elmo Keller will demonstrate how an ordinary personal computer can be transformed into a powerful network security management workstation without modifying the underlying hardware or operating system.

"A Guide to Embedding the Linux Kernel" will be presented from 4:10 to 5 p.m. in Room 257 in the Design Building.

Keller will discuss the software issues of adapting the Linux operating system for embedded applications and describe the actual implementation of an embedded system, in this case a network security monitor.

**Changes in Workers' Comp insurance carrier**

A new contract with Ward North America Inc. to provide CUW Employees' Compensation requires that all injuries be reported to that organization for processing. Ward North America replaces the State Compensation Insurance Fund (SCIF) as the insurance adjusters for all workers' compensation claims. All Cal Poly workers' compensation files have been sent to Ward North America.

This will not change the process of reporting injuries at Cal Poly. Sierra Vista Hospital's Emergency Room and the Cal Poly Health Center (for first aid and minor injuries) are still the pre-authorized facilities for initial medical treatment for a work-related injury or illness. All reporting timelines for supervisors remain the same.

New claims forms will be distributed as soon as they are received, along with the revised internal forms. Until then, units should continue to use their current supply.

Questions should be directed to Mike Steinbeck in the Human Resources and Employment Equity office at ext. 5-6427 or by e-mail at msteinbeck@calpoly.edu.

**Changes in facilities for initial medical treatment for Art and graphic design students**

For more information on the program, forener@calpoly.edu, or call ext. 6-1533. Additional positions specific to the Admissions office is committed to supporting a diverse, inclusive, and respectful workplace.

**New Arch program wins re-accreditation**

At Cal Poly’s five-year professional Bachelor of Architecture program has been granted re-accreditation for a full five-year term by the National Architectural Accrediting Board.

During winter quarter 1999, a visiting accreditation team spent several days on campus reviewing student work and meeting with students, faculty and staff members, administrators and alumni. All 52 criteria for accreditation were met. "This is a remarkable record," said Martin Harms, dean of the College of Architecture and Environmental Design. "As far as I know, this level of success is rarely achieved." D

**S.A.F.E.R. Program needs "real" men, women**

The S.A.F.E.R. (Sexual Assault-Free Environment Resource) program is seeking to sponsor a universitywide search for the "10 best men and 10 best women on campus."

"Real Men" and "Real Women," according to the program’s sponsors, are those who demonstrate a respect for the idea that sex should be "shared, not taken," and understand that everyone, regardless of race, sex, or sexual orientation, deserves to be treated with consideration.

Those chosen will be trained and asked to give sexual-assault-prevention presentations to campus groups.

Students as well as staff and faculty members are encouraged to engage in the contest. Pick up applications at the Women's Center, Room 217 in the University Union. Applications are due Oct. 12. For more information call ext. 6-2282.

**Raffle to be held to benefit cat program**

The campus’ volunteer cat program’s fall quarter raffle is under way, with prizes that include two, one-hour massages from a practitioner at Healthy Balance and from Mobile Swedish Massage, a free animal medical examination from the Edna Valley Veterinary Clinic and the Equine Center, and editing or resume and cover letter writing services by English Department faculty member Melody DeMeritt.

Proceeds from ticket sales will help pay veterinary expenses and supply the campus’ resident cats. Tickets, at $1 each or six for $5, can be bought from Cee Cee Bolivar, ext. 6-2321; Jane Brechler, 6-2553; DeMeritt, 6-6136; Sharon Dobson, 6-5872; Edie Griffin-Shaw, ext. 6-2824; and Ellen Notermans, 6-1625; and Linda Patton, 6-1080.

For more information on the program, volunteer work or adoptions, call Griffin-Shaw, 6-1080.

**Room change for Colloquia**

The Computer Science Colloquia will be held in the Science Building, Room 45-01. A Guide to Embedding the Linux Kernel will be presented from 4:10 to 5 p.m. in Room 257 in the Design Building.

Keller will discuss the software issues of adapting the Linux operating system for embedded applications and describe the actual implementation of an embedded system, in this case a network security monitor.
