I. Minutes

February 12 minutes corrected as per President Baker's memo, clarifying fund raising plans for the intercollegiate athletic program, to read:

Reports, section A, 7 - "Although originally it appeared that the budget for the Athletic Program would have to be cut back until we could generate sufficient revenues to meet previous commitments, we have been able to defer this alternative due to the establishment of SUMAT and the willingness of twenty to twenty-five supporters who have subscribed for negotiable notes worth $5,000 each in the event that this should be required to satisfy this year's obligations."

instead of:

"The President has said that funding will be cut back to a level which Mr. Strom deems realistic," as printed in the February 12, 1985 minutes of the Academic Senate.
