Dairy Industry leaders help kick off new program

Representatives from the California Department of Agriculture and other industry professionals gathered recently to kick off a new research-and-development program designed to answer industry questions about dry milk and whey powders.

The Dairy Ingredient Applications Program, a multi-year funded program financed by U.S. dairy farmers, is intended to provide technical support to manufacturers, users and marketers of dairy-based powders and whey products such as milk and whey powders.

Carolyn Podgurski, the university's full-time dairy ingredient specialist, is equipped to answer a variety of industry questions, ranging from how much nonfat dry milk or whey powders should be used in milk replacement formulas or baked goods to the functional and nutritional benefits of dairy ingredients and the nutritional value associated with vitamins, minerals and herbs.

The Dairy Products Technology Center includes a food testing and other laboratory facilities where testing and research will be conducted to help improve the quality and transfer of technical information on the uses of dairy ingredients, to develop and demonstrate applications of dairy ingredients in food products, and to conduct specialized training on dairy ingredient applications.

Retirement planning workshop set April 26

The Public Employers’ Retirement System (CalPERS) will hold a special April 26 to help members understand their CalPERS retirement benefits.

The workshop, which lasts about two hours, will be held in San Luis Obispo.

All CalPERS members are eligible to attend on a first-to-register basis. Spouses may also attend if they register at the time the member registers.

To register, contact Laurie Jacobson at the Dairy Products Technol­

**$500,000 donation funds engineering scholarships**

Harald R. Frank of Santa Barbara has given $500,000 to fund scholarships for engineering students. It is the third-largest cash gift the College of Engineering has ever received.

Harald R. Frank Scholarship, available to all engineering students, this year will award $25,000 to five students in financial need.

"I had to work my way through two years of college without any financial support," Frank said, "so I am very interested in creating scholarships for deserving students."

- The workshop is scheduled for 9 a.m. to noon at Cal Poly, and when the seminar will be held, call Polly Harrigan at the Student Affairs office, Adm. 209. For complete details, call Polly Harrigan at ext. 6-5121.

Miklowitz nominated for "Who's Who" 2nd time
Philosophy Professor and former Department Chair Paul Miklowitz has been nominated for the second consecutive year to be included in "Who's Who Among America's Teachers." Approximately 5 percent of teachers in the United States are so honored each year, and fewer than 2 percent are included in more than one edition.

To be included in the publication, teachers must be nominated by former students who themselves have distinguished themselves by appearing in either "Who's Who Among American High School Students" or "The National Dean's List." []

Pest management conference set at Cal Poly
Issue: facing the environmental horticulture industry will be the focus of this year's Integrated Pest Management Conference scheduled for June 12-13 at Cal Poly.

Paul Helliker, director of the California Department of Pesticide Regulation, will open the conference with an analysis of future regulatory issues.

Ann Yune, a nationally recognized authority on diseases of ornamental plants, will give a presentation on mildew diseases.

Presentations on biological control issues, new-product updates, a trade show, and a sprayer equipment symposium are also scheduled.

A turf symposium will include talks on genetically-engineered turf grasses, bluegrass annaists, and other issues affecting turf managers.

The conference is certified for 17 continuing education credits by the Department of Pesticide Regulation, Golf Course Superintendents Association, International Society of Arboriculture, and California Certified Crop Advisors.

For more information visit the conference Web site at www.calpoly.edu/~env_hort/IPM_Conf.htm or call or e-mail Bob Rice of the Environmental Horticultural Science Department at ext. 6-2830 or e-mail rrice@calpoly.edu.

Credit Report changing to twice yearly
The Credit Report, the Public Affairs publication listing the professional accomplishments of the faculty, staff, emeriti and students, is becoming a bimonthly publication printed during fall and spring quarters. Please e-mail your information to pfmeriti@calpoly.edu.

The deadline for submitting items for the next issue is planned to be in early May. Watch the Cal Poly Report for more information about the deadline and possible changes in The Credit Report format.

For more information, contact Bob Anderson at ext. 6-6532 or by e-mail.

Solicitation of sick leave, vacation
Sharlene Gregg, a lecturer in Speech Philosophy Professor and former De-partment Head of Pesticide Regulation, has qualified for personal catastrophic leave. Eligible state employees may donate vacation credit and sick leave to help her remain in full-pay status during an extended absence.

Those interested in donating leave may request the Catastrophic Leave Donation form from solicitation coordinator Roccio Alvey in Speech Communication at ext. 6-2554 or by e-mail.

CSERA employees (Units 2, 5, 7 and 9) may donate up to 32 hours, and all other eligible state employees may donate up to a total 16 hours sick leave and vacation credits per fiscal year in increments of one hour or more.

J. Kelly Moreno awarded diplomatic status
Psychology and Human Development Professor J. Kelly Moreno has been awarded status as a Diplomate of the American Board of Psychological Specialties by the American College of Forensic Examiners.

Moreno was honored for his work with mentally disordered offenders. He conducts psychological-forensic evaluations to determine if violent mentally ill persons eligible for parole are safe for release into the community.

He also provides expert witness testimony on these cases for the San Luis Obispo Superior Court.

Moreno, a licensed psychologist in California, has been teaching at Cal Poly since 1991.

Computer Science to hold colloquium Thursday
The Computer Science Department Colloquium Series will present a panel discussion on "Intellectual Property Rights," from 4:10 to 5 p.m. Thursday (March 9) in Graphic Arts Room 106.

Susan Opava, dean of Research and graduate programs, will moderate the panel, which includes: Lee Burgunder of the Global Strategy and Law Area of the College of Business; Raid Cao, Biologi-cal Sciences; Mike Fish, Grants Development; Kim Mistretta, a local attorney, and Dan Stearns, Computer Science.

Open University: What is it?
Open University, formerly known as Concurrent Enrollment, allows people who are not registered students to enroll in courses offered by Cal Poly. Here's how:

- Pick up registration forms at Extended Education, Jepson Hall, Room 101.
- Attend the first class meeting, and have the instructor and department chair sign the registration forms.
- Return completed forms with payment to Extended Education by the end of the third week of the quarter. If forms and payment are received after that day, a late fee will be charged.

Enrollment is based on space availability. For more information, call Vivian Steele at Extended Education, ext. 6-2053.

Free jazz clinic set for Saturday

Vibraphonist Charlie Shoemake, one of San Luis Obispo County’s most widely known jazz musicians, will conduct a free jazz clinic at 1 p.m. Saturday (March 11) in Room 216 in the Davidson Music Center. Shoemake, of Cambria, is appearing in concert with the University Jazz Bands that night.

The clinic is sponsored by the College of Liberal Arts, Music Department and Instructionally Related Activities program. For more information call the Music Department at ext. 6-2406.

Australian chamber group to play March 29

The Australian Chamber Orchestra, hailed as “the best chamber orchestra on earth” by The Times of London, and guest piano soloist Anne-Marie McDermott will perform at 8 p.m. March 29 in Harman Hall in the Performing Arts Center. The program will include works by Don Carlos Gesualdo, Brett Dean, Leos Janacek, Sergey Prokofiev and Dmitri Shostakovich.

Music Professor Cifion Swanson, joined by artistic administrator of the Australian Chamber Orchestra Mneurig Bowen, will give a pre-concert lecture at 7 p.m., in Philips Hall.

“We will discuss the works on the program, which range historically from music of the 16th century to the 20th, and stylistically from the European heritage to one of Australia’s most interesting composers,” Swanson said.

Founded in 1975, the Australian Chamber Orchestra consists of a core group of 17 strings.

Tickets to this Cal Poly Arts concert cost $22 to $34.

Ticket Information

Tickets to the performances listed in today’s Cal Poly Report are on sale at the Performing Arts Ticket Office 10 a.m.-6 p.m. weekdays and 10 a.m.-4 p.m. Saturday. Call ext. 6-2787, or fax your order to ext. 6-6088. Information on Cal Poly Arts events is available at www.calpolyarts.org.

Roger Whittaker to sing March 20

Internationally renowned singer-songwriter Roger Whittaker will perform at 8 p.m. March 20 in Harman Hall in the Performing Arts Center as an added Cal Poly Arts event.

Whittaker is known for such early hits as “The Charge of the Light Brigade” and “Steel Men.” Later popular singles include “Durham Town,” “Mamby Blue” and “The Last Farewell.”

Whittaker’s career spans nearly 40 years, and his concert tours have taken him across the United States and Canada as well as to Australia, New Zealand, Scandinavia, Holland, Belgium, France, Austria and throughout Europe.

He is a highly regarded singer-songwriter whose compositions have been recorded by such renowned stars as Elvis Presley, Ray Conniff and Cet Arkin.

His most recent recording, “Awakening,” is a collection of contemporary songs that depict one man’s journey through the four seasons of life.

Tickets to this Cal Poly Arts event cost $70 to $38.

‘Titanic’s’ Gaelic Storm to play March 22

The sights and sounds of traditional Celtic dance and music as seen “below decks” in the movie “Titanic” can be experienced again in a performance by Gaelic Storm at 8 p.m. March 22 in Harman Hall in the Performing Arts Center.

The five-member band gained instant international recognition after “Titanic” star Leonardo DiCaprio led co-star Kate Winslet to “a real party,” where jigs, reels and ballads provided the entertainment for passengers in steerage.

Producer-director James Cameron, who calls the band’s music “the heartbeat of the film,” discovered the Santa Monica-based group playing at a local pub.

Band members hail from London and Cornwall in England; Cork City, Ireland; Chicago and New York. The multi-instrumental and multi-instrumental band draws from a wealth of musical influences, sometimes combining traditional Celtic music with the sounds of polkas, sea chanteys and bluegrass.

Tickets to this Cal Poly Arts event cost $12 to $24, and student discounts are available.

‘Unwedded bliss’ topic of musical revue at Theatre

“The Charge of the Light Brigade” can be heard again in a musical revue about “unwedded bliss” and finding that perfect person, will play at the Cal Poly Theatre at 8 p.m. March 24-25 and at 3 p.m. March 26.

The fast-paced show includes songs and sketches performed by two women and two men who address issues and phases of relationships, from personal ads and singles events to the communication gap between the sexes and the road to marriage.

The play had a record-breaking seven-year run in San Francisco and became that city’s longest-running original show. It won the Bay Street Bistro Award as Outstanding Cabaret Musical when it played in New York in 1997.

The San Francisco Chronicle called it a “smart little show with infectious music and incisive lyrics that satirically but sympathetically define that misunderstood subculture called ‘singledom.’”

The Vancouver Sun said, “It’s clever without being glib, funny without being cheap, and it knows just how seriously to take itself. You could say it’s a stand-up comedy set to music, but it’s sharp comedy that draws on a broad field of references.”

Tickets to this Cal Poly Arts performance are $23 and $28, with student discounts available.

Kayak building class set

Faculty and staff and students will have an opportunity to learn the art of wood-strip sea kayak building during an intensive 14-day workshop to be held at the UU Craft Center in July.

In teams of four, participants will work alongside the instructor to build a cedar-strip kayak. The hull designs can be previewed on the Web at www.red.fish.

Two participants, chosen by a lottery, will have an opportunity to buy the boat built by their team for just the cost of materials.

Class enrollment is limited to eight. Anyone interested should call UU Program Coordinator Daren Conover at ext. 6-5721 or e-mail him at acouner@calpoly.edu.

Workshop details are still being worked out, including the cost and exact dates, but is anticipated that the cost will be between $450 and $550 per person.
$50,000 donation funds engineering scholarships

Herald R. Frank of Santa Barbara has given $50,000 to fund scholarships for engineering students. It is the third-largest gift the College of Engineering has ever received.

Herald R. Frank Scholarship, available to all engineering students, this year will award $25,000 to five students in financial need.

"I had to work my way through two years of college without any financial support," Frank said, "so I am very interested in creating scholarships for deserving students.

I am very pleased with the employees I recruited from the College of Engineering," he said, "and my son also had a wonderful educational experience at Cal Poly. Now, I want to help even more engineering students by making this additional gift."

In 1973 Frank established what was originally called the Herald R. Frank Applied Magnetics Corp. Scholarship. His son James graduated from Cal Poly in 1973 with a degree in aeronautical engineering.

For information on making donations to the College of Engineering, contact contact Mike McCall, director of Planned Giving and Endowment Development, at ext. 6-7125 or mcall@calpoly.edu.

Appointments

- Professor Allen Shiers has been appointed coordinator of the Economics Area of the College of Business through the end of spring quarter.
- Shiers has been teaching at Cal Poly since 1971.
- Lisa Nunes has been appointed campus programs clerk for the Foundation Fiscal Services office.
- The search engine created within the calpoly.edu domain plans to help campus departments with discretionary, restricted, and special activity accounts.
- She can be reached at ext. 6-6116.

Nominations sought for new scholarship

The Courier Elizabeth Smyth Memorial Scholarship Committee is seeking nominations for a unique $1,000 scholarship intended to recognize students who have overcome adversity and personal hardship.

The scholarship was established by the family of former business administration major Susan Smyth, who was posthumously awarded a bachelor's degree.

The scholarship committee is looking for "nominations for individuals who have overcome personal tragedies, adversity or hardship, all of which suggest an inner strength in the commitment to maintain academic progress."

Nominations can include students with medical, psychological or family problems, those able to balance outside employment and academics, and whose college grades have markedly improved their high school GPA.

One student will be selected each year.

The finalist will be announced during Fall Conference week.

Eligible students are required to be currently enrolled as a full-time student for the 2000-2001 academic year.

Letters of nomination should include the name and Social Security number of the student, a description of his or her personal hardships and potential for success, and provide insight into the candidate's character and his or her ability to exceed under personal hardship or adversity.

Nominations are due April 12 to the Student Affairs office, Adm. 209. For complete details, call Polly Harrison at ext. 6-5121.

Tips on using Cal Poly Web search engine

Information Technology Services offers the following tips for searching the Cal Poly Web site. These tips can also be used when searching almost anywhere on the Web.

- If you are looking for Cal Poly search engine, go to the Cal Poly home page and select "PolySearch" (http://search.calpoly.edu/).
- The search engine is created within the calpoly.edu domain plus others used at Cal Poly. Its search methods are very similar to most search engines on the Internet, and those tips will work with most of them.
- The search engine will perform what is called an "Internet-style search," and will find all documents that contain any of the words you type in the search box. For example, if you type in the words "housing" and "department" to find a "housing department," several thousand documents will be listed — all documents that contain one or both of the words "housing" and "department," ranked by the number of occurrences of the words within each document and their proximity to each other.

To narrow a search, use quotes around the words "housing department." This will limit your search to sites with both words "housing department" as two words next to each other.

To search even more, use the quotes and capitalize "Housing Department." This will limit your search even more. The quotes and capitalization will force the search engine to treat the words as a "title," thus narrowing the possibilities.

It's important to note that the search engine is not designed to interpret meaning of a search phrase. For example, when looking for the "Housing Department," it will not know to look for Housing and Residential Life — the Cal Poly department's real name — although this may be what you mean.

For additional on-line help with the Cal Poly search engine, select "Try the Quick Search Tips" from the PolySearch menu. For information on finding advanced searches, go to "Help with Advanced Searches."

For general information about the search engine — for example, what kind of information are included in the collection — select "About PolySearch."
