Math students earn top honors in contest

Math students earn top honors in contest

A team of Cal Poly students has once again finished among the world’s best in an international mathematics competition. The team was among five that earned an “Outstanding” designation and whose solution papers are to be published in the Journal of Undergraduate Mathematics and its Applications. Also, the Mathematical Association of America chose the Cal Poly team of Jeffrey Mintz, Aaron Newcomer and James Price to present their solution paper at the joint American Mathematical Society/Mathematics Association of America meeting to be held at UCLA in August.

In addition, Cal Poly’s team was among five that earned an “Outstanding” designation and whose solution papers are to be published in the Journal of Undergraduate Mathematics and its Applications. Also, the Mathematical Association of America chose the Cal Poly team of Jeffrey Mintz, Aaron Newcomer and James Price to present their solution paper at the joint American Mathematical Society/Mathematics Association of America meeting to be held at UCLA in August.

Receptions set for dean finalists

Candidates for the position of dean of the College of Business have been invited to campus for interviews during April and May, and informal receptions have been scheduled to give the campus community an opportunity to meet them.

- As mentioned in the April 5 Cal Poly Report, Patricia Pattison, associate dean of the College of Business and chair, Management and Marketing Department, University of Wyoming, will be on campus Thursday and Friday (April 13-14). Please note that the time and place for her informal reception have been changed to 11 a.m.-noon Thursday in Room 114 in the Business Building.
- William Pendergast, dean, Fisher Graduate School of International Business, Monterey Institute of International Studies, will visit campus April 20-21. The reception is set for April 20.
- Darold T. Barnum, professor, Department of Managerial Studies, University of Illinois at Chicago, will be on campus April 27-28. The reception is planned for April 27.
- Jack A. Fuller, director, Division of Business Administration, West Virginia University at Morgantown, visits May 1-2. A reception is set for May 1.
- John C. Rogers, professor and marketing area coordinator, College of Business, Cal Poly, will be interviewing May 4-5. The reception is to be May 4. The receptions for Pendergast, Barnum, Fuller and Rogers will be from 4:30 to 5:30 p.m. in the Business Building, Room 341.

Creative writing winners to read during Open House

The student winners of the 30th annual Creative Writing Contest will read their fiction and poetry at 7 p.m. Saturday (April 15) in the Sandwich Plant as part of Open House.

This year's first-place poetry winner was journalism senior Rachel Roberts Law for her piece "No Consequence."

Second prize went to English senior Kathleen Marie Baldwin for "Running in the Halls," and third place went to graduate English student Christopher Carruthers for a work titled "The Naming of Things."

For fiction, Matthew Peyton, an education graduate student, won first prize for his short story "Visiting Day."

Second prize was awarded to Ryan Gallagher for "Poodles," and Monica Delmartini won third prize for "Lobster Quadrille." Gallagher is an English senior and Delmartini is an environmental horticultural science senior.

At the reading, "Byzantium 2000," Cal Poly's award-winning literary journal of student fiction and poetry, will be on sale. The literary annual showcases the winners and honorable mentions of the campuswide Creative Writing Contest. Refreshments will be served.

The reading is sponsored by the College of Liberal Arts, the English Department, and the WriterSpeak program.

Tschohl to retire

Pat Tschohl, accounts receivable technician in Fiscal Services, will retire April 26 after 19 years of service.

She has requested no formal retirement reception, but invites those wishing to say goodbye to stop by her office in Adm. 131 before April 26.

Abitia appointed

Fred Abitia has been appointed coordinator of the Industrial Technology Area in the College of Business through spring quarter 2002.

Abitia has been teaching at Cal Poly since 1969.

Greenpeace founder to speak Tuesday

Patrick Moore, founding member and former longtime leader of Greenpeace, the international organization that aims to bring attention to global environmental problems, will present "Trees are the Answer" at 7:30 p.m. Tuesday (April 18) in Philips Hall in the Performing Arts Center.

Moore will talk about forest ecology and explain how forests can play a powerful role in solving many current environmental problems.

He has been a leader in the international environmental field for more than 25 years. He served for nine years as president of Greenpeace Canada and seven years as director of Greenpeace International.

Recently his focus has been on British Columbia and promoting sustainability and consensus building among competing environmental concerns, according to Norm Pillsbury, chair of the Natural Resources Management Department.

As a member of the Forest Alliance of British Columbia, Moore leads the process of developing the "principles of sustainable forestry" that have been adopted by a majority of the timber industry.

The talk is sponsored by the Natural Resources Management Department, Xi Sigma Pi Forestry Honor Society, ASI, and the Big Creek Lumber Co.

For more information, call the Natural Resources Management Department at ext. 6-2702. For information on Moore, visit his Web site at www.greenspirit.com.

Riedlsperger to talk on Haider, Austrian politics

History Professor Max Riedlsperger will talk on Austrian politics, controversial right winger Jorg Haider, and the European Union at 11 a.m. Thursday (April 13) in Fisher Science Room 286.

Riedlsperger is widely recognized as an authority on Austrian politics and Haider, governor of the Austrian state of Carinthia.

The history professor has interviewed Haider on several occasions and last year went to Austria to follow his Freedom Party campaign in state elections.

Riedlsperger has written a book and numerous chapters, articles and papers on the party and its forerunner.

"Jorg Haider is not the Nazi people make him out to be," said Riedlsperger. "The program of Haider's party is very close to the 1994 Congressional program of America's Republican Party."

The talk is sponsored by the History and Political Science departments.

For more information, call the Political Science Department at ext. 6-2984.

Friday Foundation Board meeting canceled

The Foundation Board of Directors meeting scheduled for Friday (April 14) has been canceled.

The next meeting will be the annual meeting to be held May 12.
Cal State L.A. prof to give Math Colloquium
Gerald Beer, mathematics professor at Cal State L.A., will present “Boundedness in Metric Space” at the next Mathematics Colloquium 4:10-5 p.m. Thursday (April 13) in Room 201 in the Science North Building.
For more information, call the Mathematics Department at ext. 6-2206.

Chancellor Reed approves forestry master’s degree
CSU Chancellor Reed has approved Cal Poly’s proposal for a Master of Science in forestry sciences effective spring 2000.
The program has been assigned CSU program code number 01141. The master’s program is in the Natural Resources Management Department in the College of Agriculture.

Ani DiFranco to perform at Rec Center April 20
Singer-songwriter Ani DiFranco will bring her unique brand of folk, funk and soul to the Recreation Center at 8:30 p.m. April 20.
Guest band Hammell on Trial will also perform.
DiFranco has been described as a “punk folksinger” with a “voice that can rock the boat one minute and cradle it the next.”
She has recorded 13 albums since 1990 and tours on the acoustic, college and rock-club circuit across the country.
Cal Poly students with I.D. can buy tickets for $22 at the ASI Ticket Office in the Rec Center. Advance general admission tickets at $26 are on sale at all Vallitix outlets, including the ASI Ticket Office, Boo Boo Records in San Luis Obispo and Grover Beach, and Roemer’s in Santa Maria.
Tickets may also be ordered by phone at (888) VALLITIX (888-925-5484) or on line at www.vallitix.com.
For ticket information, call the Central Coast Media Group at 786-2570.
For information on the concert, call ASI Events at ext. 6-7007.

Health, Counseling Services accredited
Cal Poly’s Health and Counseling Services unit has received a full three-year accreditation from the Accreditation Association for Ambulatory Health Care, a recognition given to fewer than 10 percent of college health centers.
“This is quite an affirmation of our efforts to deliver quality health and psychological care to the Cal Poly student body,” said Martin Bragg, director of health and counseling services.
The accreditation process included a lengthy self-evaluation followed by an on-site review by an AAAMCHC physician. The on-site review studied patient care, quality improvement efforts and the campus Health Center’s facilities.
Health and Counseling Services provides primary health care and counseling services and has on-site laboratory, pharmacy and X-ray facilities. Health and Counseling Services also has a Health Education department that provides extensive programming to promote healthy lifestyle choices in the campus community.

‘Tomato Mania’ at Poly Plant Shop
The Poly Plant Shop at the Environmental Horticultural Science Unit on Via Catta will sell unusual varieties of student-grown tomato plants from noon to 5 p.m. April 21 and 9 a.m.-4 p.m. April 22.
The plants, in nursery containers, will bear fruit that varies in size from grape-like fruit in large clusters to fruit that can weigh more than 5 pounds. Almost 40 varieties will be available, including some that are white, pink, green, yellow, orange, purple, black, striped and, of course, red.
Some are sweet enough to use for wine, according to Environmental Horticultural Science Professor Dave Hanings.
“There are drying tomatoes, paste tomatoes, slicing tomatoes, salad tomatoes, sauce tomatoes, and generally just good eating tomatoes,” Hanings said. Most are heirloom varieties, some are modern hybrids, one gets 25 feet tall, and several have strange shapes. Quantities are limited.

ITS offers more software for less money
Cal Poly is working to make more software titles available to campus computer users while saving money for the institution through “KeyServer,” a program that eliminates the need for buying individual software licenses.
Information Technology Services (ITS) is offering faculty members free access to such software programs as Photoshop, PageMaker, Illustrator, Acrobat, Dreamweaver, Director, Fireworks, Delta Graph, and Sound Edit.
Access to KeyServer is free to faculty members and is available to non-faculty personnel for a nominal annual charge.
“KeyServer is being implemented to take advantage of concurrent software licensing to better meet the needs of our customers,” said Marshas Epstein, ITS training coordinator. “KeyServer works in much the same way as a library, with software licenses being checked in and out automatically.”
There is no noticeable difference in response time between “keyed” and regular software because each keyed software package still resides on the computer’s local hard drive. Over the Cal Poly network, the user’s computer will immediately get a “key” from the KeyServer to allow the desired application to run.
The major benefit is that a software license is not connected to a specific machine. When a user quits the application, its license is relinquished back to the central pool of software for use by others.
KeyServer is intended to increase use and save money by allowing a large number of people to use the same software without having to buy individual licenses.
To get access and to learn more about KeyServer, contact the ITS KeyServer administrator at keyserver@polymail.calpoly.edu or ext. 6-6050 or visit the KeyServer Web page at http://keyserver.calpoly.edu.

E-mail to Credit Report
A reminder: All information submitted to Public Affairs for the next edition of The Credit Report must be sent by e-mail to polynews@polymail@calpoly.edu. An on-line form should be ready soon as an alternate way to submit information.
Photos are welcome. Please send those through campus mail to Public Affairs.
The deadline is May 1.
Math students aim to increase condor numbers

A team of math students is helping to increase the California condor population with a project that has also earned them top honors in the 1999 MathServe Mathematical Community Service Projects Competition.

Last year students Judy Fehly, Joel Fish, Jeff Gray, Jeff Mintz, David Mintz, Andy Oster, Brian Miceli and Ryan Tully-Doyle and faculty advisor Professor Thomas O'Neil became involved with the Ventana Wilderness Society's California Condor Restoration Project at Big Sur.

The team developed a mathematical model and is using a computer simulation to make population projections, which "will benefit the overall California condor project in terms of deciding on the most effective restoration strategy," said Kelly Morrison, wildlife restoration coordinator.

The students are also creating a database that includes information on every living condor, both captive and wild, and all that have died since 1987.

"Critical to any population projection program is good survival rate data," O'Neil said. "Little is known about how California condors hatched and reared in captivity and in the wild." The students' project earned the highest designation - "Outstanding" - from the MathServe Mathematical Community Service Projects Competition, sponsored by the Consortium for Mathematics and its Applications and designed to provide mathematical support to a public or nonprofit agency.

Solicitation of sick leave, vacation

Patricia Vargas, administrative support coordinator in Health Services, has qualified for personal catastrophic leave. Eligible state employees may donate vacation credit and sick leave to help her remain in full-pay status during an extended absence.

To donate leave, request the Cata­strophic Leave Donation form from solicitation coordinator Vivian Phillips, Health Services, ext. 6-5279 or by e-mail.

CSEA employees (Units 2, 5, 7 and 9) may donate up to 32 hours and all other eligible state employees may donate up to a total 16 hours sick leave and vacation credits per fiscal year in increments of one hour or more.

Friday, April 14 (continued)

Music: Travis Larson, Backstage
Pizza, 6:30 p.m.

Music: Shoal Experience, Cal Poly
Theater, 9:30 p.m. (S)

Heard Lecture: Michael Sorkin,
"Architecture as News," Chumash,
3 p.m.

Saturday, April 15

Open Mic: Campuswide, all day.

Heard Lecture: Peter Bohlin,
"Architect for Bill Gates," Chumash,
3 p.m.

Reading: Creative Writing Contest
student winners to read poetry, fiction, Sandwhich Plant, 7 p.m.

Music: Open House Festival Wind
Orchestra and University Jazz Bands,
Harman Hall, 6 p.m. (S)

Sunday, April 16

ReMEmber Week: A variety of activities through April 20. Call ext.
6-2600 for details.

Music: Open House Festival Wind
Orchestra and Cal Poly Brass Chorus,
Harman Hall, 2:30 p.m. (S)

Tuesday, April 18

Music: John Krause, Backstage
Pizza, 8 p.m.

Music: Pianist Louis Goldman (artist-in-
residence), Davidson Music Center
218, 7:30 p.m.

Speaker: Patrick Moore (Greenspirit
consulting), "Trees are the Answer,"
Pizza, 6:30 p.m.

Wednesday, April 19

Music: Travis Larson, Backstage
Pizza, noon.

Unveiling: ReMEmber quilt unveiling,
San Luis Lounge, 5:30 p.m.

"Take Back the Night" Speaker:
Deanna Gale on surviving violence
and sexual assault, Chumash, 7 p.m.

Thursday, April 20

Physics Colloquium: Derek Gragos
(Chemical Laser Studies of Surfaces),
Science E-45, 11 a.m.

Reading: Out High by High, author
Phil Petrovic (Political Science), "The Moral Animal" by Robert Wright, Ventura
Café, noon.

Baseball: CSU Fullerton SLO
Stadium, 5 p.m.

Music: Singer-songwriter Ania
Difranco and guest band Hannibal on
Theatre, 9:30 p.m. (S)

Friday, April 21

Music: Nicola Gordon, Backstage
Pizza, noon.

College of the Agriculture recently sponsored two workshops for all faculty members titled "Critical Thinking: The Cornerstone of Education.”

The program was part of a U.S. De­partment of Agriculture Higher Education grant awarded to Cindy Heiss, a faculty member in the Food Science and Nutrition Department.

Jeff Johnston of the Department of Educational Services at St. George’s Univer­sity, located on Grenada and other Caribbean islands, conducted the work­shops, designed to help faculty members teach their students to think critically.

The premise of the workshops was based on John Chaffee’s book “The Thinker’s Way,” where he said, “you can shape yourself into the person you want to be, and you can construct an effective and fulfilling life. In order to do so you will have to think critically, live creatively, and choose freely.”

The grant was a collaboration between Cal Poly and the University of Idaho. For more information, contact Mary Pedersen, professor of food science and nutrition, at ext. 6-6130 or by e-mail at mpedersen@calpoly.edu.

Professor Mallareddy Included in ‘Who’s Who’

Harap Mallareddy, longtime civil and environmental engineering professor, has selected inclusion in the sixth edition of “Who’s Who Among America’s Teachers, 2000.”

Approximately 2.5 percent of teachers in the United States are so honored each year.

To be included in the publication teachers must be nominated by former students who have cited for academic excellence by themselves or by members of the College of the Agriculture, whose students have earned an “Outstanding” designation and whose solution papers are to be published in the Journal of Undergraduate Mathematics and its Applications.

Also, the Mathematical Association of America chose the Cal Poly team of Jeffrey Mintz, Aaron Newcomber and James Price to present their solution paper at the joint American Mathematical Society/Mathematics Association of America meeting to be held at UCLA in August.

This year, of the more than 700 teams that began the competition, only 495 submitted a solution paper.

The competition, sponsored by the Consortium for Mathematics and its Applications, last 89 grueling hours. The contest begins on a Friday at 12:01 a.m., when each team is given two problems from which to choose one. The team must submit a typed solution paper for judging by 5 p.m. Monday.

The ReMEmber quilt, a project created as part of ReMEmber week at Cal Poly, will be unveiled in a special ceremony at 5:30 p.m. April 19 in San Luis Lounge.

The quilt, dedicated to the memory of former students Rachel Newhouse, Andraud Crawford, Kristin Market and victims and survivors of sexual violence, consists of 51 blocks that include the names of 80 victims and survivors.

The quilt unveiling will be part of ReMEmber Week. (See related story on page I.)
Position vacancies

Below are the all new, previously unadvertised employment openings at the university. You may access full information about these and other, previously advertised positions at www.calpoly.edu/HR/edude, or to request an application. Additional information and qualifications for each position may also be obtained on line at https://www.academic-personnel.calpoly.edu. "The application review process will begin May 15. Anticipated starting date: July 3.

State: For a complete listing of employment opportunities for state staff and management positions, you can:
- Check the Human Resources and Employment Equity Web site at www.calpoly.edu/HR/edude, Employment Opportunities;
- Come to the HREE office, Admin 110, and view the posted positions;
- Call the HREE Job Line at ext. 6-1533.

For a listing of new openings, check The Tribune's Sunday edition. If you have questions, please call HREE at ext. 6-2237.

FACULTY

Candidates are asked to contact the appropriate department office at the phone number listed for more information or to request an application. Additional information and qualifications for each position may also be obtained on line at https://www.academic-personnel.calpoly.edu. Please submit all application materials to the department head/chair unless otherwise specified in the ad. Rank and salary are commensurate with qualifications and experience (and time base where applicable), unless otherwise stated.

#03046: Part-Time Lecturer Pool, Mathematics (ext. 6-2206). Closing date: May 19.
#03067: Assistant/Associate Professor, Bioresource and Agricultural Engineering (ext. 6-2378). Closing date: June 1.

FOUNDBATION

Foundation Adm. Building, job line at ext. 6-7497. All Foundation applications must be received (not just postmarked) by 5 p.m. of the closing date. (No faxes.)

#04074: Part-Time Lecturer Pool, Exotic Nutrition (ext. 6-2206). Closing date: May 19.

Reading antidepress: Project Director, Mesa Agricultural Initiative, College of Agriculture. $39,480-46,422/year. Closing date: Open until filled.

#03066: Assistant/Professor, Community Services and was the Outreach Coordinator Amy Troisi, $39,480-46,422/year. Closing date: Open until filled.

#03067: Professor, Bioresource and Agricultural Engineering (ext. 6-2378). Closing date: June 1.

ASSOCIATED STUDENTS INC.

is accepting applications for the following positions:
- Complete position descriptions and applications are available at the ASI Business Office, University Union, Room 212, M-F, 8 a.m.-5 p.m., ext. 6-5800. All applications must be received by 5 p.m. of the closing date. AA/EOE.

Coord: Coordinator for Rose Float, $45,235-$56,048/year. Closing date: Open until filled; review of applications begins May 15. Anticipated starting date: July 3.

... ReMember Week

Continued from page 1

Street in San Luis Obispo. The concert is sponsored by the university's Sex Assualt Recovery Center and ReMember.

The first of a two-part series of self-defense classes, designed to teach women how to protect themselves, will be given 10 a.m. to noon Monday (April 17) by Sexual Assault Recovery and Prevention Outreach Coordinator Amy Troisi, $39,480-46,422/year. All self-defense classes will be in the Martial Arts Room in the Rec Center. Registration is recommended; call the Women's Center at ext. 6-2600 to reserve a place.

The San Luis Obispo Economic Opportunity Commission will present a ReMember "Speak-Out" 11 a.m. -1 p.m. Tuesday (April 18) in Chumash Auditorium to provide an open forum for men and women to discuss sexual and gender issues. A "Red Handprint Ceremony," in which a symbolic handprint will be painted on a large piece of cloth. The group served in Nueva Esperanza, a community 90 miles southwest of Tegucigalpa that needed help in building a drainage ditch and a trash incinerator. The drainage ditch will reduce the amount of stagnant water that serves as a breeding ground for mosquitoes that cause malaria.

During their stay, the group experienced the daily life of the Nueva Esperanza residents. "Each student came away with the knowledge and appreciation of a culture that is strikingly kind, generous, and appreciative," Huy said. "The children were amazingly beautiful and innocent beyond measure, and the group spent nearly every free moment with them."

"Traveling and volunteering abroad can be an amazing experience for personal insight, cultural exchange, and great acquisition of perspective," said Marcy Ryan, a human development student. She described the trip as "an inspiring experience that will forever change the way I view the world." For more information, call Student Community Services at ext. 6-3834.

ReMember Week aims to increase personal safety

Cal Poly's ReMember Week, set for April 16 through April 20, will include activities ranging from self-defense classes and a community concert to a candlelight walk and safety awareness demonstrations — all designed to help spread the message of personal safety.

The ReMember program started in spring 1999 to support all survivors of sexual assault and as a response to growing violence and sexual assault.
