Nov. 29: Dial "7" for outside telephone line

Beginning at 6 a.m. Nov. 29 campus telephones will need to dial "7" for an outside line. This will affect all speed-dial settings on digital phones, fax machines and software programs used for dialing outside lines.

Telecommunication Services advises customers to find all speed-dial settings for outside phone numbers and call in instructions manuals before Nov. 29 to update digital phone settings for digital phones can be found online at: http://www.telecomservices.calpoly.edu/ telecom/facultydechnual/instructions.htm.

On the date the change takes place, the speed-dial settings on digital phones, fax machines and software programs will need to be changed. The latter is necessary because dialing "7" for an outside line increased the number of missed and false 911 calls. Over the past year, 85 percent of the almost 1,200 emergency calls received by University Police were false.

For more information contact Telecommunication Services 6-2671, by e-mail at telecomservices@calpoly.edu or visit the Web site at: http://www.telecomservices.calpoly.edu.

Mapping Cal Poly land's physical and cultural resources has been an ongoing endeavor of many academic and administrative departments.
