State Hatcher Men
Finger Wrong Guy

Jocks with nickels in the state legislature have probably felt the same urge of 50 years ago it is felt for it is passed. To wit, the following letter just received at Cal Poly, which is a ripping well-written letter in its entirety . . .

To whom it may concern:
A petition was recently issued to Norma utc. for your perusal, and your action is requested.

Mrs. Mortlady, who has been active in the state legislative body for the past three years, has always been recognized as one of the few leaders of the Republican party. She has been a consistent and zealous supporter of the cause of education, and has always been willing to lend her support to any worthy cause.

The petition is a request for additional funds for the public schools of San Luis Obispo County. As you know, the schools are facing a difficult financial situation and are in need of additional funds to continue their important work. The petitioners believe that the state legislature should take action to provide the necessary funds.

We urge you to support the petition and to take the necessary steps to ensure that the schools receive the funds they need.

Sincerely yours,
[Signature]

ANNA HOGAN

PROPOSED MEMORIAL - Design for a memorial to Wilbur "Ted" Howe.

MEMORIAL

From the time of Wilbur "Ted" Howe's death, there has been a growing demand for a permanent memorial to his memory. Although no active campaign for funds has been carried out, publicity through staff bulletin* has raised $100 to be turned in to the accounting officer in order to be held in a fund for the Ted Howe* memorial.

A total of $600 is required, but it is felt that it should be raised without a drive. To do this, Paul Diehlert, crops depart­ ment instructor, has had an article in the form of a quoter in the June 1954 issue of the "California" with a picture of Rodda, the 

Hillcrest Lounge
Potential Activity Center

"From this day on we will have a growth in the activities of Hillcrest Lounge. Miss Sally Stevens, assistant student activities director, has heard with enthusiasm that it was always a great place for Hillcrest students to meet, and that it was always a popular place for Hillcrest students to meet, and that it was always a popular place for Hillcrest students to meet, and that it was always a popular place for Hillcrest students to meet, and that it was always a popular place for Hillcrest students to meet, and that it was always a popular place for Hillcrest students to meet, and that it was always a popular place for Hillcrest students to meet. The lounge is being run by the Hillcrest student body, and it is a popular place for the students to meet and socialize.

Hillcrest Lounge (next Monday, that is) is at noon at the Edna Farm Center, and the lounge has been made possible by the generosity of the students and faculty of Cal Poly.

**FRIDAY, JANUARY 29, 1954**

**Interviews for Engineers**

The placement office, Allen 180, is now scheduling interviews for engineering seniors with both Bechtel and Westinghouse representatives on the following dates:
- Tuesday, Feb. 9, Bechtel corporation, ME and EE majors;
- Thursday, Feb. 11, 4 p.m., Westinghouse Electric corporation, group meeting; Friday, Feb. 19, Westinghouse Electric corporation, individual interviews with ME, EE, and EL majors.

Interviews, as usual, will be in order of registration.

**Retroactive Pay For PL 550 Vets Acting Now**

Latest word from VA is that veterans who applied for PL 550 (Korean bill) after they began school will be paid back to the date they began school if their applications are received by the VA within 10 days. This will be good news to those veterans who filed late last month.

Also from the VA is a reminder to Korean veterans separated from the service after Aug. 30, 1953, that the deadline date for GI training is Aug. 30, 1954, for those not enrolled under the bill. Veterans in this category who want GI training must enroll in and begin training no later than the second summer session this year.

**Vet May Interrupt After one starting GI training, veterans may interrupt it for a period of six months back under the bill. Veterans separated from service after Aug. 30, 1953, have from date of separation to enroll in and begin GI training. Make your application at the VA office, 146 Santa Rosa street. Office hours are from 8 to 4:30 daily except Saturdays, Sundays, and holidays. Any check problems you have can be handled at this office by Howard E. Barlow, auto charger.**

**Soils Techniques**

To Be Shown By Cal Poly Majors

George LaRoi, Glenn Shrader, and Joe Sheffield, elk majors, and Dr. Logan Carter, head of the department, will demonstrate, land judging techniques in Monterey tomorrow.

The demonstration will be for the benefit of the California Association of Soil Conservation districts at their annual convention in that city. The demonstration will consist of determining the physical properties and nutrient levels of the soil. The use of this knowledge will be applied to suggested management practices for keeping the land in good production and conserving it for future generations.

College Men!

Fly with the Finest in the Air Force

QUALIFIED APPLICANTS WANTED FOR WINGS, AIR FORCE LEADERSHIP TRAINING, EARN OVER $8,000 A YEAR!

1. Pilot training begins at Langley Air Force Base, where Aviation Cadets get 5 months of instruction.

2. It's a hard grind, but Cadets also feel good at home.

3. In primary training the Cadet flies his first plane, a Piper Cub, and that T-6 later he will fly the advanced T-33.

4. After flying conventional planes, he moves on to jets...

5. He wins his wings as an Air Force pilot earning over $8,000 a year.

6. Then winds up his training and flies his most recent plane in the air.

7. He's now those silver wings... and won the respect and admiration of everyone on board.

Disaster struck Coach Tom Lee's Mustang boxing squad early this week when two of his finest men were forced out of last night's ring action with San Jose State as a result of injury. The loss of 185 pound Myron Moses and middleweight Bob Crolley put a very dim outlook in the Poly's intramural basketball.

Mitt Squad Hit With Injuries

The call for a fast, exciting and rewarding career, make your home in the sky as an Air Force pilot. As a college student, you are now able to join that small, select band of young men who ride the wind in Air Force jets. You'll have the same opportunity to learn, advance and establish yourself in the growing new world of jet aviation.

My son of one the best

The pilot training you get in the Air Force is the best in the world—the kind that makes jet men. You'll learn to fly the fastest, most dangerous planes in the air and do it safely and well. Those who look to the Air Force will look to you for leadership and confidence.

Into a brilliant future

You'll graduate as an Air Force lieutenant, earning over $8,000 a year. Your Air Force wings will serve as credentials for important positions both in military and commercial aviation. Air Force wings mark you as the very best in the flying profession.

Wrestlers Face San Jose

Wrestling Coach Sheldon Harden announced a revamping of the Mustang lineup for the local grapplers third match of the season—against rugged San Jose State tonight in "Prune Valley." Past improving Norm Geiger will drop to the 183 pound division tonight, while Manuel Elias will forsake his regular 187 pound class to wrestle at 180. Moving in to strengthen the 187 pound class is Dick Farnham, a letterman who has missed the first two matches (Alameda, N.A.B. and Portland) because of illness.

Coach Harden listed his probable lineup for tonight's matches as follows: 180, Norm Geiger; 185, Manuel Elias; 197, Dick Farnham; 220, Tom Hall; 187, Werner Driep; 187, Ron. Brattain; 177, Charles Aud; and heavyweights, Bill Wolfe or Bob Heaton.

SAILOR TAKES A DIVIDE... The lid on the bottom of the pile is Alameda N.A.B. wrestler Bob Spencer—and about to pin him is Poly's terrific 147 pound grappler Tommy Hall. In his first bout of the '54 season, Hall continued his winning ways with a pin-win over Spencer in 4:23 minutes.

By San Jose

The high riding Gauchos from the coastal region of Santa Barbara invade Crandall gym tonight for a crucial CCAA basketball tilt with the Mustangs. The contest will get underway at 8 p.m. Sporting one of the finest records in the southland, the charges of Coach Wilson are currently sitting atop the CCAA standings with a winning season over the Poly boys. In addition to the Gauchos' win over the Poly, they also upset the Mustangs, 66-62 on opening night of the season. The Gauchos are expected to give the Poly boys a hard time tonight, with the Poly boys looking for payback from the Marschi's. The Gauchos are blessed with Bill Walek or Bob Heaton.

Cagiers Host Hot Gauchos In Crandall Gym Tonight

Kappa Alpha Mu Sponsors Photo Contest

The sixth annual International Collegiate Photography Contest sponsored by the Kappa Alpha Mu national honorary fraternity in photoinjournalism is open to entries now.

The contest is open to all college and university students, and pictures sent in must be postmarked no later than April 1, 1968. No entry fee is required.

Pictures will be judged in four classes: News, feature, sports, picture story or photobuild. Pictures must have been made since April 1, 1967. Each photographer may enter ten pictures, but not more than five in any one class.

First prize winners in each class will receive a $20 government bond.

Judging will take place in Houston, Texas, just prior to Kappa Alpha Mu's ninth annual convention. The $60 best prize will be awarded to the students, as determined by the contest. The pictures will be displayed at college libraries in all parts of the nation.

All pictures will remain the property of the maker.

For entry forms or additional information, write to Philip Bowers, Room 110, school of journalism, University of Houston, Houston, Texas, or to Ken Pink, K.A.M. Secretary, 13 Allen Street, University of Illinois, University of Missouri, Missouri University.

CONTRIBUTORS THANKS

Mr. and Mrs. John J. Shubes, 275 Main Street, Caledonia, N.Y., for the purchase of Brainle books for the contest.

Alumni Tour Slated For Poly Officials

Julian A. McPhce, president of California State Polytechnic college, will visit southern California on the second annual alumni tour, Feb. 16, 1968, to be announced later by alumni officials. The trip will end Feb. 1.

Last year the college president participated in a series of central California dinners. McPhce will select students for ranches and in their places of business in order to become better acquainted with the accomplishments of their alma maters.

Accompanying President McPhce will be John J. A. Van, secretary-treasurer of the alumni association and place officer of the college, and Jack s. Goddard, the director of alumni relations.

The president's party will attend meetings in San Bernardino, Ventura, Panorama City, Studio City, Pasadena, Los Angeles, Santa Monica, Whittier, Pomona, Santa Ana, Long Beach, and Santa Barbara.

The party's trip will be arranged by Los Angeles Wholesale Travel, 1150 Park Ave., Inglewood, to be charged to the tour arrangements.

Peruvian Engineers Acquiring Special Techniques at Poly

By Ted Plisler

“In Peru, there are about 80 American companies in the petroleum industry, alone, and it has been my experience that a feeling of genuine mutual friendliness and cooperation exists between you and mine.”

Thus did Julian Garibertto Castello, personable young agricultural engineer from Peru, express to the assembled students his American-American relations. He, in turn, saw the picture of an American company in the country and asked, “I have nothing but admiration for the way you conduct yourselves and your business.”

Four-Month Visit

Castello, along with Alberto P. Cedron and Julian A. McPhce, president of California State Polytechnic college, visited Los Angeles for a four-month period for a study tour of the United States under the auspices of the Peruvian government, of the operations of Foreign Operations Administration.

In the course of a speech at the University of California, Los Angeles Polytechnic college, Castello outlined his special instruction in sales and operation of form machinery, farm tractors and farm equipment generally. His explanation also included the organization and operation of farm machinery pools, and techniques used in building and equipping a farm shop using California Poly's famous team-by-building method. To over 1,000 students representing 50 different colleges.

“My work at home is primarily to the agricultural extension service in this country.”

He pointed out that the major agricultural problem in his area was farmers lack of necessary funds to buy farm machinery, and their unfamiliarity with operation of such equipment. Therefore, government set up pools of agricultural machinery, and the Polytechnic college took care of 6,000 farmers in one year. Castello also detailed his work by adding that he has "many other important tasks to perform, including soil conservation and soil improvement."

Poly Selected

Because chemical training has been primarily in general agriculture, Castello applications for a Polytechnic college largest agricultural engineering school to the west, was granted. The Polytechnic college engineers specialized training in farm machinery and agricultural mechanics, and were given practical experiences in dealing with a wide variety of engineering problems commonly associated with farm machinery. Dean of Agricultural Vidal Shepard, who has seen many years in the business of training future agricultural leaders.

At 8,000 acres California, Poly's entire farming college is used as a laboratory, well-equipped farm machinery shops in addition to machine shops. Additional training will be offered to students, even those not enrolled at Poly, through field trips to surrounding California areas, to observe problems and their solution under actual farm conditions.

Further Study

At the conclusion of their on-the-job training at California Poly, Castello and Cedron will travel to Phoenix, Arizona, to study irrigation techniques under private guidance, and then on to Pacifia, Illinois, and south Bend, Oregon, for more specialized farm machinery training before returning home.

Jim says, "This is a Poly special for the entire year. I realize the financial problems of college students and want to help you pick pennies. Service is my business.

Jim's Shell Service

Pomona and Santa Ana
Did You Toss Away Your Future?

Information received from the Dean of Students' office reveals that while some students are still in class, many others have had their days cut short by prompt dismissal of the classes at 3:15 p.m. This year, more than ever before, the college, the Associated Students, and the college faculty have determined that this tenor of fighting for the future must be maintained.

The returns are now in—"the red hot" who is now in the University's official student government committees, are aware of this opinion, has been pushing a study of some time. Its findings were presented to the students, and the affairs committee last November.

Since then there has been much additional study and discussion, in which has resulted in some good ideas, among them:

1. That a dormitory council be formed, one representative to be elected by each dormitory, to be known as the Associated Students, California State Polytechnic College, and to house in the Adm. building. Bruce Hammon is the elected chairman and the student affairs committee.

2. That the Associated Students, California State Polytechnic College, will lend his desires, foster his abilities, and develop the talents of the community.

3. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

4. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

5. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

6. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

7. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

8. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

9. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

10. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

11. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

12. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

13. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

14. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

15. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

16. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

17. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

18. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

19. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

20. That the Associated Students, California State Polytechnic College, will, through the Associated Students, California State Polytechnic College, and through the Associated Students, California State Polytechnic College, lend his desires, foster his abilities, and develop the talents of the community.

The Associated Students, California State Polytechnic College, is proud of its past, and it is proud of its present. It is proud of the Associated Students, California State Polytechnic College, and it is proud of the Associated Students, California State Polytechnic College. It is proud of the Associated Students, California State Polytechnic College, and it is proud of the Associated Students, California State Polytechnic College. It is proud of the Associated Students, California State Polytechnic College, and it is proud of the Associated Students, California State Polytechnic College.
