TALented STARs—Heading up the entertainment for Poly Royal, April 30 and May 1, will be Bea Keny, at left, and Herb Owens. Outstanding in the radio entertainment field, these two men will be popular attractions for the annual affair.

Alumnus Of The Year

James Varian of Menlo Park who with his brother, Rus­sell, invented the Kynaton ray, the basis of radar, will receive the California State Polytechnic college "Alumnus of the Year" award, college president Julian A. McPhee announced today. Housed at the little town of Jackson in the Sierras, Varian built an open house. To be given annually by the college's Alumni association, it consists of a framed certificate and an engraving of the winner's name on a plaque.

Varian stimulated his interest in electronics while flying aircraft in World War I and later beam development work in the field of micro-waves.

A following degree study at Stan­ ford University, the Varian brothers jointly own a concern in Hana Carlos doing development work in the fluid of micro-waves.

Varian will give an account of his experiences and those of his associates in space research.

Spring Tour

"Thirteen" proved a lucky number for Cal Poly musicians, as director Harold L. Davidson, in past years, has given the band a top performance for every program.

"Thirteen" opened a busy number at Cal Poly mustang.

Relaying from the figures of their thirteenth annual working spring tour, they report a total attendance of some 12,000 at 16 programs by the elman glee club, 16-man Majors and Minor harmony groups, the banned dance band, and the glee club quartet at high schools, colleges, and army camps in the surrounding area.

Following college study at Stan­ ford University, the Varian brothers jointly own a concern in Hana Carlos doing development work in the field of micro-waves.

In announcing the selection, McPhee said that Varian will rep­resent all alumni at the student-

DURABILITY OF 'GEE' SetS Off Lively Hilltop Wagering

"Gee" not an estimation of success by the students at Cal Poly but the name given the department's most recent construction project.

As explained by R. S. Groves and Hank Meyer, architectural engineers in charge of the building, "Gee" is a demonstration in the pre-stressing of concrete— one of the newest inventions in building processes.

"Actually all the processes by "Gee" starts in the application of prestressing the concrete. The process allows for the use of thin, lighter and thinner materials.

The experiments involve lifting the steel up to 18 feet and making of more than 100 concrete blocks, each a foot long, four inches wide and two inches thick. The blocks are held together with mortar and a steel rod Is run through a hole in each block. A stainless steel spiral rod and nut, made by the Oakland shop, will be tightened onto the end of the steel rod to apply the tension.

Students are making wagers as to whether "Gee" will stand up or fall down. A "Gee" will be given as team prizes of $25 and $15 for second and third place. Entries will be accepted. The contest Is open to all interested.

Last Chance for Poly Royal

Brochures home free of charge.

All registered students may mail their brochures home free of charge. Those who are not registered must come to the Poly Royal window service center in the lower Ad. bldg. No mail orders will be accepted. All orders will be accepted at the Poly Royal window service center, 1201 E. Wilshire, on Friday, April 28. All orders that are in by 12:15 p.m. on Friday, April 28, will be mailed at a nominal cost.

ROTIC INSPECTION

The annual formal inspection of our ROTIC units will take place on Thursday, April 27, at 9 a.m. All students today are required to be in their ROTIC camps at 9 a.m. Those students that are not in their ROTIC camps at 9 a.m. will be marked as absent. All ROTIC units are to be present and ready. Those units that are not present or ready will be marked as absent.

Campus Grange Sponsors Novel Hitching Event As Activity For Poly Royal

California State Polytechnic College Granger has come up with the novel idea of bringing back the almost forgotten art of harnessing horses and hitching them to a wagon. The boys have become so proficient in the art, true, that it is now a part of the Granger's program to make sure that their wagon trains will consist of a team and a wagon.

The University of California, Berkeley, will make an announcement of the Poly Royal entertainment for April 30 and May 1. The contest will be held on the Poly Royal stage, Friday, May 1. All awards will be given to teams of two men each. Kinney will be in charge of the Poly Royal entertainment,.
Cal Poly ROTC Unit Set for Inspection  

Seventy cadets commissioned and non-commissioned officers are preparing for a formal federal inspection by Maj. H. H. Brauneteln, military historian, and tactical officer.  

Brauneteln points out that ROTC cadets are eligible for selective service deferment throughout their training. Those completing the program are eligible for deferment for 24 months.  

Two weeks are spent in the field and the mounted color guard, Brauneteln added. 

"Branch generals assist all cadets in the same program with assignments to particular branches following completion of their training," Brauneteln points out. "ROTC cadets are eligible for selective service deferment throughout their training. Those completing the program are eligible for deferment for 24 months."

Montary is April 14 and 15.  

California Farmer  

Publishes Article by Meyer  

Robert Meyer, senior in field crops, has an article published in the California Farmer, a weekly publication circulated throughout the state. 

The 23-year-old member of Gamma Pi Delta wrote, "The Mechanical Bean Harvester," a thesis subject which was eventually embodied into the article published by the magazine. The article explained the operation of a modern machine that puts labor costs through the state.

The Important Thing Now Is the Home Movie. Thursday and Friday evenings, April 22, and 23, at 8 p.m. in the San Luis Obispo high school auditorium. Those of you who feel that it is usually acceptable to come late will be in for a disappointment, as far as seating is concerned. People who want good seats usually have to come about an hour early, and bring a book or magazine to pass the time.

Tickets, if you haven't acquired them yet, are available from all the members of the athletic department.

Turkish Students Featured At IRC Meeting

Point Loma's Turkish Studies program will feature speakers at a meeting of its International Relations club to be held Monday at 7:30 p.m. in Loretto Hall. The next meeting was announced earlier.

Ahmet Alav and Necat Gokmen will open the meeting with a short description of Turkey. This will be followed by a question-and-answer period. A musical program of Turkish songs and two one-act plays will complete the entertainment.

At the conclusion of the meeting, refreshments will be served.

Faculty, students and townspeople are cordially invited to attend.

Cal Poly Now Leads USA Ag Engineers

California State Polytechnic College now has the largest agriculture engineering department in the nation, according to statistics released by the U.S. Department of Agriculture.

Cal Poly topped the list with an enrollment of 186 students, while Clemson College of Agriculture, South Carolina, ranked second with 181 students.

The statistics are included in a report on the agricultural education programs of the states released by the National Agricultural Education Research and Extension Service.

In the report, the department at Cal Poly is described as having a "well-organized and well-equipped" program.

Overland Scholarship Received by Marshall

Jack Marshall, this year's winner of the Enid Overland scholarship was presented with a $500 check by President Julian A. McPhie here recently.

Marshall, a journalism freshman from Klamath Falls, Oregon, was announced as recipient of the scholarship by Paul Senior, chairman of the scholarship committee.

Ben Overland, Hilsford rancher sponsors the scholarship annually. Receiving the news for ag journalism, Overland made the scholarship open to Franklin majoring in ag journalism.

Student Enrollment Takes Jump Ahead

California State Polytechnic college enrollment last year shows more than an 8 per cent increase over spring quarter attendance last year.

A total of 8090 students have started classes on the Cal Poly campus while last year's enrollment was 7877 students.

Paul Winner, admissions officer, estimates that final registration will pass the 8100 mark.

Spring quarter registration shows that 168 are new students, 1877 old students and 80 are graduate students.

The spring quarter will end June 19 with final examinations running from June 18-18. Commencement will be held June 19. Easter holiday will be from April 14-18.

The student group attended in the capacity of observers with the possibility that Cal Poly may become a member. Workshops on academic subjects and recreation will be held.

Delegates from Cal Poly were led by Dr. Overland, Dean of Students, John Bratson, Bob Johnson, Herb Voelker, Bruce Gallihale, Dale Hall, Jim Voshon, George Weigle and William Clovis.

A group of students, chosen because of their active interest in student government, attended the National Students association regional meeting at Mills college last week end.

Tennis Team Meets Redlands Bulldogs

Dropping their first league match of the season, the Mustangs lost to the Santa Barbara Gauchos by a 2-6 count Saturday on the Poly courts.

Up till last week's encounter, the men of Coach Gene Smith had chalked up wins over San Jose State, Los Angeles State and Pepperdine. They now have a total of six victories and four defeats, the latest loss an improvement over college competition.

The match began on a fine note, but the coastal town had too much for the home boys, as Poly points came in the bottom of the singles and doubles.

Francis Antin and Walt Net- pher won in the singles for the Green and Gold, while Vaughn Wright and Mark Halpin claimed the doubles for the only other Poly victory.

Eye on Results

But the men have been working long and hard under the eye of Coach Smith, in order to hand Redlands a reverse of their last encounter. The two teams will meet tomorrow at 11 on the Poly courts. The final tally in their last match was 11-1 in favor of Poly.

UPI

Ramping Horsehiders

To Host Gauchos Today

Mustang baseball fans get their first spring quartet look at Poly's high-flying baseball team this afternoon at 2 p.m., when Coach Bob Mott's fabulous gang hosts the tough Santa Barbara Gauchos in a CCAA hit. The boys from the famed beach town make up one-half of the loss-blotch in Poly's impressive 19-win, 12-loss record, as taking the hill in this league rascal is Tony Frank Hammers. The green and gold's checker is Bill Worthney.

Today's Event:

More toe-to-toe baseball action is on tap here tomorrow, when the Mustangs go against Los Angeles State for a doubleheader, with Poly having the edge of last week's clash. Santa Barbara, in a twirl- hied start to start at 1:30. With five league games on the menu, the locals will need all the blessings support they can get—"If we win our four and one, said Coach Mott, "we'll have a comfortable hold on the top spot in the CCAA pennant race." That should be enough for Mott's charges to turn out five to six wins.

Tomorrow's line-up:

Paul Patrick at catcher; Joe Mueller at second; Al Nloora at shortstop, and Dave Rye on first base. In the outfield, it's Ben Montoya in left field, Tony Nunes in center, and Bob Smith in right field.

Bowlers Still Roll

The four-team Cal Poly student bowling league opened its spring quartet last week with the annual name as the "Fighting Cocks" currently enjoying a comfortable to the championship race.

Nearest team to the league leaders are the "Five Strike"—a club with 12 wins and 12 losses as against the "Fighting Cocks" impressive 17-7 record. A team representing the M.S. society is in third place with a 9-26 slate, while the fourth league squad is a 9-26 season record.

Bowlers in action this weekend include: Paul Nevins of the "Five Strike," and both teams lead the averages with 180 score.

Record: The Dr. Joseph O. Middleton, representing the Capri Supper club, is Covid his place with past Poly golf squads.

Bowling Tournament

Trophies will be on display for all Poly students showing interest next Thursday, April 11. Reps from Cal Poly's four-weekly bowling tournament are urged to attend a special meeting next Wednesday noon in the gym. "We're going to have over 100 present,

Bowlers from the "Five Strike"—a club with 12 wins and 12 losses as against the "Fighting Cocks" impressive 17-7 record. A team representing the M.S. society is in third place with a 9-26 slate, while the fourth league squad is a 9-26 season record.

Tracksters Face LA State In Southland CCAA Dual Affair

Showing some signs of rounding into shape in last Saturday's 72-58 win over Santa Barbara, the Cal Poly track team heads south tomorrow for a dual meet against the Los Angeles State Coliseum in the heat of the Los Angles State Coliseum's track and field meet. The meet, which is held in the same stadium where the Cal Poly Pomona meet was held last weekend, will feature both men's and women's events.

The INSIDE OUTLOOK

By Frank Town, Jr.

Last week's dual meet against Santa Barbara was a slow start for the Mustangs, but after a few minutes of well-planned strategy, the tracksters pulled ahead to win by a comfortable margin.

The INSIDE OUTLOOK

By Frank Town, Jr.

The next dual meet will take place on Saturday, April 16, against San Jose State. The Mustangs are looking forward to a strong performance in this meet, as they have been working hard on their form and technique.

UCLA Natators to Test Post Poly 

In Mustang Plunge

Cal Poly's young and active swimming team will be facing UCLA's Natators in a dual meet tonight. UCLA is one of the top teams in the country and will be a tough opponent for the Mustangs. However, the Mustangs are determined to give their best and show UCLA the true meaning of a Mustang meet.

Spring Grid Drills To Start In May

With 16 Lettermen

In-filling, it's usually said, starts when they go to college and an athlete's performance begins to rise. This year, however, the Mustangs will be looking for something called "spring grid drills," which will allow the team to test their skills against strong opponents.

FRIDAY, APRIL 9, 1954

EL MUSTANO

FRIDAY, APRIL 9, 1954

Julian A. Mitchell, chairman, Tom J. Ikeda, James Murray, John Jones, interventor, followed by a policy change by Foundation authority, Poly's cafeteria set-up this week, resulting in considerable student intervention, followed by a policy change by Foundation authorities. Cal Poly's Foundation, whose membership consists of President Julian A. McPherson as chairman, Tom J. Ikeda, James Murray, John Jones, C. G. McDowall and William Wilson, operates under a lease from the state of California, according to Glenn Breirling, who acts as manager of the program. Unsubsidized by state or federal funds, the operation remains a self-supporting unit, and the decision made by the Foundation to operate under a lease was based on the need for increased funds to operate the cafeteria. The Foundation has now taken over the operation of the cafeteria, and the lease agreement with the state, which was signed last year, will expire on June 30. The agreement provides for a self-supporting operation, with the Foundation receiving a share of the profits and the state receiving a share of the losses. The lease agreement also includes provisions for the cost of operation, including labor, food, and overhead. The decision to operate the cafeteria under a lease agreement was made after extensive discussions with the state and the Foundation. The lease agreement will provide a more stable financial basis for the operation of the cafeteria, and will allow the Foundation to make necessary improvements and changes to the cafeteria operations. The Foundation has already made several improvements to the cafeteria, including the installation of new equipment and the construction of additional seating areas. The Foundation is committed to the continued improvement of the cafeteria, and will continue to work with the state to ensure the best possible operation of the cafeteria for the students.

Making Flowers of Yesterday and Today Theme For Ornamental Horticulture Flower Show

By Harold Speake

"Growing Flowers and more Flowers!" That's what people will be saying when they attend the sixth annual Poly Royal Flower show this Saturday afternoon. The show has been put on and entirely funded by the Ornamental Horticulture club. No admission will be charged to those attending. The show will be held this Saturday afternoon from one to five o'clock in the main gymnasium which is now being remodeled. There are two rooms in the main gymnasium which will be used for the flower show. There are two rooms in the main gymnasium which will be used for the flower show.

The theme for the show will be "Yesterday and Today." The show has been enlarged and will have more divisions than last year. There are the specimen and arrangement divisions which are open to every student. There are also two new divisions which are open to Cal Poly students only. A sweepstakes prize will be awarded in each of the divisions and special awards will go to the outstanding specimen and arrangements. According to Long, the judges, top men in their field, have not been announced as yet, but judging will take place between 2 p.m. and noon, April 8. "The theme exhibit will be designed and constructed under the direction of Ralph Barnes, sophomore from Princeton. California," says Long. It will be a waterfall over a mossy bank into a pool set in a field of Baby Tans. There are the usual displays of the kind in the central California area and it is the largest attendance prize at Cal Poly. Says Bill Long, sophomore in agronomy, "Our theme is Journalism major, Long. Bob Cooper, sophomore in agronomy with Rob Cooper, sophomore Oll major from Fresno, will be floor managers." There are the division and arrangement divisions which are open to the tri-county area and the floor display which is open to Cal Poly student only. A sweepstakes prize will be awarded.

In fact, if they had time to check with Everett Dorrough, El Corral manager, they would find out that about 36 dozen doughnuts and 17 pounds of coffee are used every day. Taking a slide rule in hand, one can soon discover that as the current rate, Cal Poly students will consume more than 44,000 doughnuts and 774 pounds of coffee a year!! Students who pass up breakfast, for that extra forty winks of sleep and drive into El Corral, Cal Poly's coffee shop, probably have to their credit the doughnuts consumed and coffee drunk in El Corral.
