Welcome All You Mustangs

Every year Cal Poly has a get-acquainted program for new students, and new you, the new student, with things to learn. You may be a "know-it-all" type or you may be a "total blank," but you will be shown how to find the information you need. It may be a tedious process of trial and error, but you will learn. Orientation chairman Pat N. Johnson, associate professor of mechanical engineering, and Bill Ford, science advisor, have been appointed chairman of the freshman orientation program. The program, which will start on Monday, Sept. 7, will provide you with the information you need to cope with your first semester of college. The program will be held in the Convocation and Recreation Center, and will be open to all freshmen who have been enrolled for at least one semester. The program is designed to acquaint you with the campus, to provide you with information about the various departments and programs, and to help you get started on your academic career.

El and R Initiates Car Radio Repair

The Car Radio Repair service has been added to the facility of the College of Liberal Arts, says Charles E. Rapp, department head. Before the new service was started, car radio repairs had to be taken out of the city, and the Chartered Radio Engineer was not able to make them.

The service will be offered in the College of Liberal Arts, and will be handled by the Chartered Radio Engineer, J. J. Zitta. The service will be free of charge, and will be available to all members of the College of Liberal Arts.

Audio Visual Aids

Since the Audio Visual Aids department was established, a new department has been added to the College of Liberal Arts, says Charles E. Rapp, department head. The department is charged with the responsibilities of providing audio and visual aids to the College of Liberal Arts, and will be responsible for the selection, purchase, and maintenance of the equipment.

The department has been established as a result of the increasing demand for audio and visual aids in the College of Liberal Arts. The department will be responsible for selecting and purchasing the necessary equipment, and will be responsible for the maintenance of the equipment.

The department will be responsible for the selection and purchase of the necessary equipment, and will be responsible for the maintenance of the equipment.

Student Body Cards Set At $15:
Breakdown Shown
Student body cards will cost $15 for the school year 1954-55, states Harry Winemuth, graduate manager.

The cost will be broken down by quarters. Fall quarter cards will cost $7.50, winter and spring, $7.15. Winemuth says the price is a little higher than in the past because of increased activities such as football, dinner and other campus events.

He explains that all students registering purchase a student body card, says Winemuth.

Many students ask why this fee is compulsory, says Winemuth, money derived from the sale of cards pays for the operation of the student body government and is utilized in this summer for the benefit of the students and faculty.

With portions of the card, you can enter baseball games, privileges and activities carried on by the student body, income derived from the sale of cards pays for the operation of the student body government and is utilized in this summer for the benefit of the students and faculty.

Erwin explains that the student body maintains such a card can bring an individual to the campus and must notify the security department of change of address, change of income number, or sale of the card.

For the first time in many years, parking space for every one is maintained traffic control and a fine against those persons who fail to provide a parking space for everyone, are assessed a fine against those persons who fail to maintain traffic control and a fine against those persons for violation of parking regulations.

You don’t have to be a geologist to become a prospector, says Erwin. The only tool you need is a Geiger counter. A Geiger counter is used to detect radioactive materials.

You can have a Geiger counter for a relatively small sum, and you will find that it is a useful tool in the detection of radioactive materials. It is a device that emits a small beam of particles when it is exposed to radioactive material.

In the elections, enter into competition with the student body and with the faculty, and activities carried on by the student body and the faculty. The student body and the faculty are responsible for the election of officers for the student body and the faculty.
Mustangs Point for Third Straight 2C2A Win

Grid Season Underway; 49 Mustangs Turn Out

Forty-nine prospective football players will respond to head football coach Leroy Hughes' call Aug. 15 when uniforms are handed out. Practice sessions will continue until school starts. The team will scrimmage Saturday, beginning at 9:30 until 11 a.m. and 2:30 p.m. Tuesday afternoon practices will continue until school starts. The team will scrimmage again under the watchful eyes of some 60 Pacific Coast Conference football coaches during Poly's annual practice session Aug. 27 at the stadium. The Mustangs will be seeking their third straight CCAA conference championship.

The Mustangs last year were the highest scoring team in the nation, compiling 366 points to their opponents' 35.

With 20 returning lettermen and a hard high school junior college schedule ahead, the 1964 football season looks bright.

With scouting coach Howie O'Donnell keeping an eye on high school talent, Hughes will have a tough job trying to replace men like halfback Alex Bravo, fullback Bob Lawson, and Little All-American center Dick Mathias. Bravo and Mathias were drafted by the Los Angeles Rams and Lawson was picked by the world champion Detroit Lions.

Assistant coach Sheldon Harden will put the boys through conditioning drills and Coach Harden will have 14 ends from which to pick his starters for the games.

Assistant coach Howie O'Donnell will put the linemen through drills and help five centers, eight guards, and 10 tackles to get ready for the season opener.

All-Veteran

The prospective first eleven lists a complete squad of lettermen and in some cases are backed up by others.

Clive Remund may get the starting call at center. Clive is a San Luis Obispo boy and was prep All-American in 1961. He lettered at Cal Poly in 1963 but injured his ankle and did not return last year.

Position-by-position rundown as follows:

All left guard, Vic Bucola, three-year letterman at Poly, Vic Bucola will be at right guard, Joe Bosnich will be right guard. Bosnich is a three year letterman.

All left tackle, Mathias plays guard or tackle. He has been used as "utility" in past seasons.

Bob Heaton will start at right tackle. Heaton was All-CCAA honorable mention in 1963, All-CCAA honorable mention '58, All-Southern California honorable mention '58. Bob Chadwick will be at left end. Chadwick was Little All-Coast, honorable mention in '59, All-Southern California honorable mention in '58, second team All-Southern California small college.

All fullback or Jim Cox will be at fullback. Cox lettered at Poly prep school football in New York. Cox is a transfer from Antelope Valley JC where he was a most valuable player in '63.

All right end, Morty played at Poly prep school football in New York. Morty was honorable mention All-Southern California junior college and in '62.

Neal Colling

The talented Bobby Neal will be at quarterback. Neal has played football since he was a child.

He was honorable mention All-Southern California small college in '63. Ready for his fourth year as Mustang quarterback, Neal has developed the poise that comes with experience.

Four-game Fresh Football Slate Announced By Hughes

A four game Cal Poly freshman football schedule has been announced by Leroy Hughes, athletic director.

Hughes states one more in being sought to round out the freshman campaign.

Fresh Coach Tom Lee estimates 150 former high school gridironers are expected to report Sept. 1 for full fall drills. The freshman will work with the varsity until the first of October.

Sept. 14 Santa Maria Junior college at Santa Maria, 8 p.m.

Oct. 2 College of Sequoias at Visalia, 8 p.m.

Nov. 6 Hartnell college at Salinas, 6 p.m.

Nov. 12 Coalinga Junior college at Coalinga, 8 p.m.
Calendar—Fall Quarter

(All Dates Inclusive)

Monday, Sept. 13—Beginning of Academic Year (Faculty Only)

Wednesday, Sept. 15—Beginning of Fall Quarter

Friday, Sept. 17—Registration and scheduling of new students

Saturday, Sept. 18—Distribution center in the Library and Mall delivery and pickup is twice a day.

Sunday, Sept. 19—Move day for Poly students

Tuesday, Sept. 21—Beginning of Fall Quarter

Wednesday, Sept. 22—Last day to enroll for Fall Quarter

Thursday, Sept. 23—Last day to return registration books

Friday, Sept. 24—Last day to add courses

Monday, Sept. 27—Last day to drop courses

Tuesday, Oct. 2—Last day to withdraw from courses

School holidays:

Monday, Oct. 18—Thanksgiving—Academic Holiday

Friday, Dec. 11—Christmas—Academic Holiday

Monday, Dec. 14—Last day to add courses

Wednesday, Dec. 16—Last day to withdraw from courses

Wednesday, Dec. 23—Last day to cash your checks

Monday, Jan. 11—Jan. 1—Beginning of Spring Quarter

Tuesday, Jan. 12—Registration and scheduling of new students

Campus Postoffice Plays Vital Role

Freshmen at Cal Poly will receive extra dollars from dad or a scholarship, now delivers the administration of 8700 students, says Philip McMillan, head postmaster.

McMillan emphasized his up-to-date mail system by pointing out the 1500 mail boxes that form the walls of his office and Margaret Hoyt, his assistant, said that 2000 letters were processed daily. McMillan estimated his staff will handle 450000 letters this fall quarter.

The post office is located near the central part of the campus. Mall delivery and pickup is twice a day.

During the summer months, a new campus mail system was established. The walls of his office are approximately 6 feet high and 10 feet wide.

The post office is located near the central part of the campus. Mall delivery and pickup is twice a day.

This year the boys come in as freshmen and leave as seniors," he said.

A Welcome To New Poly Men

Cal Poly was founded by a state legislative act which defined purpose of the school as "to furnish to young people of both sexes mental and manual training in the arts and sciences, including agriculture, mechanics, engineering, business methods, domestic economy, and such other branches as will fit the students for the nonprofessional walks of life."

Under the name of the California Polytechnic School, Poly opened its doors to students for the first time October 1, 1909. When the cornerstone for the administration building was laid on January 81 of that year, the road to the campus was a wagon track through a muddy field. On the opening day the main building was not completed and the debris left by the builders had not been cleared from the dormitories. Nevertheless, director and Mrs. Leroy Anderson moved into the dormitory and called together the three faculty members and 15 students in the unfinished finish of the building.

In 1921 it was found necessary and desirable to raise the level of instruction to that of a junior college. In 1929, enrollment of new students was limited to men. In 1938 the institution was changed to a junior college to a two-year technical college, offering terminal instruction in agricultural and industrial fields. A third year of terminal instruction was added in 1938 and, in 1940, a fourth year, and the college was authorized by the State Board of Education to grant the bachelor of science degree. First baccalaureate exercises were held in 1942.

Poly, with its famous "learn-by-doing" approach, last year served 2,239 students of whom 887 were in agriculture, 1,039 in engineering and 423 in liberal arts. The enrollment represented 83 per cent from 63 California counties, 87 per cent from 22 other states and 7.6 per cent from Brazil and foreign countries.

Poly's system of student government is one that controls the range of campus activities. Four boards of control operate the college-wide activities—athletics, music, publications, the Poly Royal, two-day open house staged by students in the spring of the year.

Poly Royal features work and facilities of the college departments, a country fair carnival, barbecue, stock judging contests, intercollegiate rodeo and many other attractions. Poly Royal annually attracts thousands of visitors to San Luis Obispo.

This year, you, the student, have been made aware of some of the past history and the present philosophy of Cal Poly. During the next four years, your school will continue to grow to meet the demands of ever-increasing enrollment. Your first year will mark completion of the $5,000,000 science building; the beginning of your third year will probably see Cal Poly a coeducational institution.

**Lunches $1.75 Every Day**

"Big enough to fit every appetite!"
"Delicious hot soup with every meal"
Cafeteria Staffers

Lloyd Richardson, cafeteria operations supervisor, and his staff are now preparing to feed an estimated 2,700 students a day in the fall term.

"Our goal," announced Richardson, "is to provide better food and more efficient service."

Meals staggered

Bertram announces that through a new system of staggering meal hours they will be able to provide longer and more convenient eating periods. For instance, between the two cafeterias there will be a two hour breakfast period between 6:30 and 8:30. As shown from past years the cafeteria was busiest from 6:30 to 7:00. Bertram predicts that by having longer eating periods he will be able to eliminate the jams at each meal thus making it possible to provide faster and more efficient service. There should be less time wasted waiting in long slow lines.

Cafeteria No. 1, which has just been painted and new rugs have been put in, will provide extra milk, potato, and dessert bars and atmosphere music will be played during the meals in a varied program being planned.

Service in Domes

For the convenience of the students, placing glasses and wooden spoons in the domes permanently is in the way it is hoped to prevent another loss of an estimated $250 worth of utensils suffered by the foundation last year. "It is like taking a stake out of your own mouth," comments Bertram.

Meal tickets will again be $5.

This sum will buy three meals a day for 41 days. A bonus is thus provided for those students who will not use price of their meals off.

Breakfast will be served with the three meals individually with the student having a choice. Lunch and dinner will be purchased at a set price of $5 cents and 40 cents respectively. However, if the student wishes he can skip the entire and purchase a cheaper meal of just vegetables, potatoes, and dessert. Milk will come with each meal and will be free for students with a milk extra.

For 2,700 Students

Six-day Service

Cafeteria No. 1 will be open six days a week. It will be closed Mondays. Breakfast will be served between the hours of 6:30 and 8:30, with lunch from 11:15 to 1:00. Lunch will be served from 11:00 to 1:00 and dinner from 4:00 to 7:00.

Cafeteria No. 2 will be open Monday through Saturday. Breakfast will be served from 6:00 to 8:00. Lunch from 11:30 to 12:30 and dinner from 4:30 to 6:30.

For the information of the freshmen each cafeteria No. 1 is located across the street from the football field and No. 2 is located in the Memorial Recreation building.

SMITH NOT RETURNING

Word has been received that Bill Smith, chairman of the music, board last spring, will not be returning to Poly for fall quarter. A successor will be chosen by the music board at their first regular session.

'47 Poly Grad Receives
Wisconsin Fellowship

Cal Poly graduate of 1947, was a recent campus visitor bearing news that he has been granted a fellowship from the University of Wisconsin. Graduates of Fowler high school, Wisconsin, will study for his master of science in home economics. While at Poly he was editor of Mustang and president of the student body.

For seven years he has been county agent at C.A.K. I.A. M., county club and a member of the faculty at Oregon State college, Lincoln, Montana, in an editorial capacity, was a county agent in Oregon. Mr. Smith is engaged in his profession and is affiliated with his former school for his work in Horticulture.

The former Cal Poly student married a Miss Louis Bunch and is the daughter of Mr. and Mrs. John Bunch, 618 North street. They have two children,

WEDNESDAY, SEPTEMBER 1, 1954
Poly Health Center Gives Students Medical Protection

The principal problem in operating a health center is to keep the students interested in it. At Cal Poly, students are required to undergo an orientation period before entering the Poly Health Center. This period is designed to familiarize students with the services available and to encourage them to utilize these services on a regular basis.

Dr. K. D. Lovett, chief health officer, stresses the importance of preventive medicine. He emphasizes the necessity of regular check-ups and the importance of good hygiene. He also points out the benefits of exercise and a balanced diet.

In addition to the health center, the Poly Housing Department has established a dormitory health program. In this program, each dormitory is assigned a health officer who is responsible for keeping track of the health of the students in the dormitory. This program is designed to catch problems early and to prevent them from becoming serious.

Dr. Lovett also discusses the importance of mental health. He emphasizes the need for students to seek help when they are feeling down or stressed.

Overall, the Poly Health Center and Poly Housing Department are working together to keep students healthy and happy.
Frosh Orientation Schedule

**Tuesday — September 14:**
- 4:00 p.m.— 5:30 p.m. Gym and Pool Open — Frosh Dorms

**Wednesday — September 15:**

**Sunday — September 19:**
- 4:00 p.m.— 5:30 p.m. Gym and Pool Open — Frosh Dorms

Library Plays Important Part in Students’ Academic Habits

The library is staffed with a group of competent librarians who are willing and eager to lend assistance to the student in finding the exact type of material or books he desires.

We are equipped to handle 10,000 books and are actively using up to 7,000 books. If possible, says Franklin B. Allen, library assistant, who estimates that approximately 60,000 volumes are on the shelves at any given time. Copies of about 5,000 new books are on the shelves at any time.

The 10,000-volume capacity should be reached within the next eight years.
