Position announcement for V.P. admin. and finance

Applications and nominations are invited for the position of vice president for administration and finance.

THE POSITION: The campus is seeking an experienced senior administrator with a successful record of leadership and management accomplishments and an energetic, entrepreneurial and collegial style to serve as a member of the senior leadership team with executive responsibility for ensuring quality administrative and fiscal services. As the chief fiscal officer of the university, the vice president reports directly to the chancellor, and is responsible for all matters related to the management and oversight of the business and financial affairs of the university, including implementation of all financial policies and regulations, and the fiscal oversight of the university's auxiliary activities. The successful candidate should demonstrate a record of progressively greater responsibility in a large institution, with experience in a collective bargaining environment, and familiarity with the risks and responsibilities of running an institution. The candidate should possess strong communication skills, a demonstrated commitment to promoting the development of employment, equity, and staff development; the ability to establish and maintain a positive rapport with faculty, staff, students, alumni, business partners and other institutional constituencies; and the ability to effectively address public safety issues within the university and surrounding residential areas.

APPOINTMENT: Salary is commensurate with the background and experience of the individual selected; however, the minimum salary is $150,000. Cal Poly offers excellent fringe benefits. The Management Plan was adopted by the CSU Board of Trustees and all rights associated with the appointment.

APPLICATIONS AND NOMINATIONS: The search committee will begin to review nominations and applications on July 9. The search will continue until the position is filled. Each application should include a current curriculum vitae, the names, addresses and telephone numbers of at least three professional references, a letter of interest, and a statement, in not more than two pages, of the applicant's view on the role and responsibilities of a finance and administrative division within the university. Please refer to the California Polytechnic State University website for additional information.

For more information, contact Academic Personnel (telephone: ext. 6-2916; email: academic-personnel@calpoly.edu) or visit the website at www.academic-personnel.calpoly.edu.

Cal Poly is strongly committed to achieving excellence through cultural diversity. Qualified applicants are encouraged to self-identify as members of underrepresented groups, including the disabled. Affirmative Action/Equal Employment Opportunity.

promotion, tenure awards announced

President Baker has announced the promotion of 22 faculty members and the tenure of 18, effective in 2001-02. The promotions include eight to the academic rank of professor and 14 to associate professor. The faculty members receiving promotion and/or tenure are:

Promotion to Professor:

College of Agriculture - J. Wyatt Brown (Crop Science); Louise A. Berner (Food Science and Nutrition); L. E. Fiegel (Civil and Environmental Engineering); R. Gei (Civil and Environmental Engineering); N. Pal (Civil and Environmental Engineering); L. E. Hinchler (Computer Science).

College of Architecture and Environmental Design - William C. Epstein (Construction Management).

College of Business - Cyris A. Ramezani (Finance).

College of Engineering - Lewis E. Hinchler (Computer Science).

College of Liberal Arts - Victor M. Vallee (Environmental Studies); Michael J. Selby (Psychology & Human Development).

College of Science and Mathematics - Steven C. Davis (Physical Education & Kinesiology).

Promotion to Associate Professor:

College of Agriculture - Lynn L. Hamilton (Agriculture).

College of Architecture and Environmental Design - Clayton A. Pharcub (Architectural Engineering); Thomas Fowler (Architectural Engineering); Bruno Giberti (Architectural Engineering); W. W. Wack (Regional Planning); Barbara J. Jackson (Construction Management); Gary R. Clay (Landscape Architecture).

College of Business - Chris A. Carr (Global Strategy & Law).

College of Liberal Arts - 5. Jean Wetzel (Art and Design); Johanna E. Rubba (English); Deborah B. Schwartz (English); Henry J. "Red" Heesch (Graphic Communications).

College of Science and Mathematics - Michael A. Sutfit (Physical Education & Kinesiology).

Promotion to Assistant Professor:

College of Agriculture - Alphonso T. Fowler (Architecture); Bruno Giberti (Architectural Engineering); W. W. Wack (Regional Planning); Barbara J. Jackson (Construction Management); Gary R. Clay (Landscape Architecture); Paul W. Wack (City and Regional Planning); William C. Epstein (Construction Management); Gary R. Clay (Landscape Architecture).

College of Business - Cyrus A. Ramezani (Finance).

College of Engineering - Gregg L. Fiegel (Civil and Environmental Engineering); Rakeh K. Goel (Civil and Environmental Engineering); Nirmal Pal (Civil and Environmental Engineering); Lewis E. Hinchler (Computer Science).

College of Liberal Arts - S. Jean Wetzel (Art and Design); Johanna E. Rubba (English); Deborah B. Schwartz (English).

College of Science and Mathematics - Christopher L. Kitts (Biological Sciences); Michael A. Sutfit (Physical Education & Kinesiology).

The successful candidate must possess strong communication skills; a demonstrated commitment to promoting the development of employment, equity, and staff development; the ability to establish and maintain a positive rapport with faculty, staff, students, alumni, business partners and other institutional constituencies; and the ability to effectively address public safety issues within the university and surrounding residential areas. The position of vice president for administration and finance is an exciting opportunity to lead one of the nation's premier public universities. opportunity to undertake truly cutting-edge projects, and especially multidisciplinary projects, because that's what industry needs today.

Bonderson is vice president of engineering for Brocade Communications Systems, a company he co-founded. He has more than 25 years of industry experience at Sun Microsystems, Data System Design and Iball, Inc.

Arnott to retire; reception to be June 22

Anne Arnott, office manager for Transportation Services, is retiring after 28 years, and a reception in her honor is set for noon-3 p.m. June 22 at Transportation Services.

Arnott began her career at Cal Poly in 1973 as a data entry clerk in the General Office. She served as department secretary in Fiscal Operations and in 1978 was promoted to her current position.

As the former coordinator of the Campus Defensive Driving program, Arnott says she's processed between more than 100 of the training classes. She was involved in the now-defunct Staff Council and for years helped organize the annual faculty and staff Service Awards Luncheon, serving as chair of the publicity committee and as a member of several other committees.

Anritsu Co. donates test instruments to EE

Anritsu Co. of Morgan Hill has donated to the Electrical Engineering Department six test instruments that will help students gain a competitive edge in the field of wireless communications.

The donated equipment, which will be used in the Master of Science in Microwave Engineering program, includes a microwave test instrument, which will allow students to create "real world environments" for the next generation of microwave-radio-frequency technology.

The gift, valued at $345,000, is part of Anritsu's engineering mentoring program. "It's quite unusual for anacorporation to have access to this type of sophisticated, expensive equipment," said Electrical Engineering Professor Chang Sun. "Our graduates will have a highly competitive edge in the growing areas of wireless communications."

GrC receives equipment to upgrade web press lab

The Baldwin Technology Co. has donated web press equipment to the Graphic Communication Department that will help students achieve better quality in color printing and increase productivity in producing the daily student newspaper.

The gift, valued at approximately $75,000, will be used to upgrade the press that is used in the graphic communications department's web press lab.

Baldwin Technology Co. provided ink bottles, a spray dampening system, and a fountain solution circulation unit for the Graphic Communication Department's web press lab.

Students in journalism and graphic communications produce the paper, the only full-color daily newspaper in the nation produced entirely on campus by students.

Cal Poly honors seven outstanding students

Seven students, recognized for their ability to balance academics and community service, were awarded the Land Family Quest for the Best Award at a recent campus reception.

The awards, new this year, combine two previous university awards: the Mr. and Mrs. Jeffrey Land Outstanding University and Community Service Award and the Quest for the Best Award.

The Land award was established in 1986 by the late Mr. and Mrs. Jeffrey Land and his wife, Carla. The Quest for the Best Award was initiated in 2000 by the office of the Vice President for Student Affairs.

The awards recognize leaders in each of the six colleges and one in student government who exemplify the core values of excellence, stewardship, collaboration, integrity and community.

Students were nominated by faculty and staff members and campus leaders.

Paulo Younse, a mechanical engineering senior representing the College of Engineering, received the University Honors award, the highest honor. He has worked in Student Community Services, founding two programs: Hunger and Homelessness Awareness Week, now a successful annual event, and the new Computer Friends program, which pairs Cal Poly students as tutors to homeless people and seniors who want to learn computer skills.

Additional winners:
- Kamina Rosenstiel, a senior agricultural business major, won the College of Agriculture award.
- Rosenstiel has been a leader in the Ag Ambassadors organization, the Ag Student Council, and the Agribusiness Management Club.
- Craig Chinn, an architecture senior, was the recipient of the College of Architecture and Environmental Design Award. He was honored for his efforts to help a student chapter of the Construction Specifications Institute. He has also been active on the College of Architecture and Environmental Design Student Council and represented his college during Open House weekend.
- Melissa Vocack, a business administration senior, was honored by the College of Business. Vocack is the current chair of the ASI Board of Directors and will serve on the executive board of the Poly Reps student organization in 2001-2002.
- Ryan Trammell, a senior social sciences major, won the College of Liberal Arts award. He is active in social justice and political causes. Trammell served as an officer of MEChA (Movimiento Estudiantil Chicano de Aztlán), an organization dedicated to promoting cultural, political and social awareness to the Chicano and Latino community. He also was part of The Cultural Crisis Coalition, which helped organize students in support of a university outreach and recruitment program.

June 16 is last work day for Work-Study students

The last day students can work through the Federal Work-Study Program for 2000-01 is Saturday, June 16.

During finals week, students may work up to 20 hours per day, but they must be on campus to work by 8 a.m. Students, however, must work no later than 8 p.m., and 20 hours must be worked up to 20 hours through that date.

The Baldwin Technology Co. provided ink bottles, a spray dampening system, and a fountain solution circulation unit for the Graphic Communication Department's web press lab.

Students in journalism and graphic communications produce the paper, the only full-color daily newspaper in the nation produced entirely on campus by students.

Cal Poly Report schedule

This is the final spring quarter edition of the Cal Poly Report. The first summer issue will be out June 20. Items for that issue are due 10 a.m. today to Public Affairs. Articles can be e-mailed to polygon@calpoly.edu, faxed to ext. 4-6533, mailed to Public Affairs, Herot Hall.

Cal Poly's student newspaper will be published every other Wednesday. The deadline is 10 a.m. Wednesday for the following week's edition, unless otherwise noted.

The summer schedule is:

**Issue Deadline**
June 20 June 13
July 5 June 27
July 18 July 11
Aug. 1 Aug. 25
Aug. 15 Aug. 8
Aug. 29 Aug. 22

**Adjusted for Independence Day**
For more information call ext. 6-1511.
Agriculture Secretary ... Continued from page 1

Agriculture Secretary Veneman has served on the university's advisory President's Cabinet and has provided strong public support for Cal Poly.

"Throughout her distinguished career, she has fought to advance the interests of America's farmers in the world marketplace, while pioneering programs and partnerships to enhance food safety, pest and disease prevention and control, international trade, and agricultural education," says the citation she is to receive. "Secretary Veneman embodies the integrative vision, global reach and commitments to excellence to which Cal Poly's 20th century-old program in agriculture has committed itself."

Krieger came to teach at Cal Poly in 1971 as he was completing his doctorate in African and modern European history from UC Davis. He has become perhaps the best-known, contemporary historian of San Luis Obispo County. writing a weekly column for the San Luis Obispo Tribune and serving as president of the county Historical Society from 1978 to 1981 and again from 1993 to 1997. Author of "Looking Backward into the Middle Kingdom: An Illustrated History of San Luis Obispo County" and co-author of "War Comes to the Middle Kingdom: A History of the Central Coast, 1940-1953," Krieger is also co-author, with his wife, Liz, of numerous articles and two book sections dealing with the Japanese-American experience in California.

In his writings, Krieger has given special attention to the place Cal Poly occupies in the history of the central coast, and, coinciding with the Centennial Celebration, will share his thoughts about that history.

Clarification

Food Science and Nutrition Professor Mary Pedersen was the faculty advisor to agriculture graduate student David Tellelon, second-place prize winner at the recent CSU Student Research Competition at San Jose.

New service window now open for students

Please help spread the word: A new, combined "Records and Evaluations" window is now open at Admin. 222. The window will be open longer hours, 10 a.m.-4 p.m. Monday-Friday. Phone hours will continue to be 10 a.m.-4 p.m. for students and 8 a.m.-5 p.m. for the faculty and staff.

CRP instructor, alum elected fellow

City and Regional Planning instructor, Cal Poly alumnus, and former county planning director Paul Crawford has been elected to the College of Fellows of the American Institute of Certified Planners (AICP), one of the highest honors that can be bestowed on a member.

Crawford, the 1981 College of Architecture and Environmental Design Honored Alumnus, was among 56 planners to be named as fellows.

"The induction of Paul Crawford into the College of Fellows of the American Institute of Certified Planners is a fitting recognition of the exemplary career Paul fashioned as a city planner," said City and Regional Planning Department Head Bill Siemendsa. "Throughout his career as an urban planner, Paul has shown great dedication in achieving livable, pedestrian-oriented, distinct communities," Siemendsa said. "The process and results of his planning have benefited communities by linking environmental and economic sustainability with social equity."

In addition to lecturing part-time at Cal Poly, Crawford is president of Crawford Multari & Clark, a planning consultant firm he founded in 1990. Crawford served as director of planning and building for San Luis Obispo County from 1980 to 1990. Fellowship is granted to an AICP member for excellence in professional practice, teaching and mentoring, research, public and community service and leadership.

Advancement wins third international award

Cal Poly has won a top award from the international organization of educational fund-raisers in recognition of private, corporate and foundation contributions totaling $24.6 million during the 1999-2000 year.

Cal Poly was one of only two universities of its type nationwide to receive a Circle of Excellence in Educational Fund-Raising Award from the Council for Advancement and Support of Education (CASE) for the campus's overall performance in development.

This is the third consecutive year Cal Poly has won such an award.

"Since 1994-95, Cal Poly has increased its annual private support 112 percent," said Vice President for University Advancement Bill Boldt.

"And this year, as we proceed into the public phase of our $225 million Centennial Campaign, the CASE award gives us renewed incentive to continue building the resources that support the outstanding educational experience Cal Poly offers its students."

The money raised last year is part of the $134 million credited so far to the Centennial Campaign, which began counting Jan. 1, 1998, and was publicly launched in April.

Quarter horses bring in $52,000 for Rodeo Program

Cal Poly's Rodeo Program has benefited from the sale of nine registered quarter horses.

The horses, donated by Jack and Phoebe Hearst Cooke of Needles, were bought in more than $52,000 at a quarter horse sale held recently at the Madonna Inn.

The proceeds will be used to help student rodeo athletes.

"We're trying to build the program back up to what it once was with the help of generous individuals like Phoebe and Jack," College of Agriculture Associate Dean Mark Shelton said.

Jack Cooke was recognized as the San Luis Obispo Cattlemen of the Year for his management of the Hearst Ranch in San Simeon and the Jack Enoch in Cholame, the largest cow-calf operation in San Luis Obispo County. He also was named California Cattlemen of the Year.
Dairy students place first in regional show in Utah

The Dairy Cattle Judging Team claimed first place overall at the recent Regional Spring Show in Richmond, Utah, against teams from six other colleges and universities. Michigan State and Oregon State finished second and third.

Team members were agricultural business junior Vicky Deniz, dairy science junior Rod Jorrissrna, dairy science freshman Aaron Matheron, and animal science junior Susete Oliveira.

The Cal Poly team earned the top spot with a first-place tie in oral reasons and a second in overall placement of the dairy cattle.

Individually, Olivera was ranked third, Deniz fourth, and Jorrissrna sixth. Dairy Science Professor Stan Henderson coached the team.

"This is the second competition of the season and the team has placed first in both of them," Henderson said.

Position vacancies

STATE: For a complete listing of employment opportunities for state staff and management positions, you can:
• Check Cal Poly's Web site at www.calpoly.edu. Select "Employment" from the Cal Poly links drop-down box;
• Come to the HREE offices, Adm. 110, and view the posted positions;
• Call the HREE Job Line at ext. 6-1533.

Please note that applications for job openings must be received (not just postmarked) in the Human Resources and Employment Office, Adm. 110, by 5 p.m. on the closing date.

FACULTY Candidates are asked to contact the appropriate department office at the phone number listed for more information or to request an application. Additional information and qualifications for each position may also be obtained online at http://www.academic-personnel.calpoly.edu. Please submit all application materials to the department head/chair unless otherwise specified in the ad. Rank and salary are commensurate with qualifications and experience (and time base where applicable), unless otherwise stated.

Readvertisement #13134: Part-Time Lecturer Pool 2001-02, Soil Science Department (ext. 6-2161). Closing date: June 29.

Architecture grad overcomes quadriplegia

A diving accident in the Malibu surf 13 years ago left contractor Dan McCormick a quadriplegic. At one point he was told he had 72 hours to live.

On June 16 McCormick will graduate with a degree in architecture, several job offers, and an ability, Architecture Professor Tom Fowler says, to draw building designs on a computer faster than most students using more-traditional methods.

Persistence and talent — as well as the support of his family and of teachers and administrators at Moorpark College and Cal Poly — brought McCormick close to his goal of "creating things mentally." He first manipulated a computer mouse by turning his head and blowing into a tube.

Then new technology helped him to complete his degree — and made it possible for him to achieve what he'd never dared imagine: "a kind of freedom from his disability."

Two years ago, Fowler and Computer Science Professor Lew Hitchner invited McCormick to don a set of virtual reality goggles and participate in the development of a project that was to become known as immersive visualization.

"I was apprehensive at first, not knowing what to expect," McCormick said. "But it quickly became fascinating. I could just let go and not think about anything around me but what was in front of me. This gave me a wonderful sense of freedom and of being on my own."

"It was the first time I was able to have the feeling that I was immersed inside of a project that I designed," he said. "As I moved, I started to cry."

Having tasted the possibilities technology offers not just to the disabled but to everyone in his new profession, McCormick chose as his senior project to design a hypothetical virtual-reality research environment (and time base where applicable), unless otherwise stated.

Extended Ed to offer three new courses

Extended Education is offering classes in information technology, business writing, and Adobe Photoshop.

• Introduction to Information Technology, 6:30-9:30 p.m. Mondays, beginning June 18-Aug. 20 (10 class meetings), $360. The fundamental concepts, theory and technology involved in information systems will be explored. Topics will include client-server technology, computer organization, operating systems, basic programming concepts, and Internet technologies.

• Business Writing (part of the Management Certificate Program), 9 a.m.-5 p.m., Tuesdays, June 26-Aug. 7 (seven class meetings), $155 for certificate enrollees; $165 for others. Students will improve their business writing by learning to create clear, concise and effective communications. Participants will produce business letters and memos; create positive, negative and persuasive messages; develop flyers, brochures and news releases; and set up formats for agendas and minutes. Proper grammar and punctuation will also be reviewed.

• Adobe Photoshop 6.0 Un­marked, 6:30-9:30 p.m. Tuesdays and Thursdays, July 10-Aug. 2, (eight class meetings), $280. Participants will learn to use Adobe Photoshop 6.0, a powerful image-editing software program that uses painting, editing and image-composition tools for adjusting images for print and the Internet. Students will learn how to use the software skillfully to enhance the visual appeal of written content, and how to do so as an integral part of the design process.

For complete course descriptions and to register online go to Extended Education’s Web site: www.ExtendedEducation.calpoly.edu, or call ext. 6-2053.0

Anritsu Co. donates test instruments to EE

Anritsu Co. of Morgan Hill has donated to the Electrical Engineering Department six test instruments that will help students gain a competitive edge in the field of wireless communications.

The donation was used in the Communication Microwave Lab, which will allow students to create "real world environments" for the next generation of microwave radio-frequency technology.

The gift, valued at $345,000, is part of Anritsu's engineering mentoring program.

"It's quite unusual for undergraduates to have access to this type of sophisticated, expensive equipment," said Electrical Engineering Professor Chang Sun. "Our graduates will have a highly competitive edge in the growing area of wireless communications."
Position announcement for V.P. admin. and finance

Applications and nominations are invited for the position of vice president for administration and finance.

THE POSITION: The campus is seeking an experienced senior administrator with a successful record of leadership and management accomplishments and an energetic, entrepreneurial and collegial leader to serve as a member of the president's senior leadership team with executive responsibility for ensuring quality administrative and fiscal services. As the chief fiscal officer of the university, the vice president reports directly to the university president for all matters related to the management and oversight of the business and financial affairs of the university, including implementation of all fiscal policies and regulations, and the fiscal oversight of the university's auxiliary organizations. The vice president is responsible for developing and supporting a high-quality service orientation and ethic within his or her areas of responsibility, which include: budget and analytic business services; administrative software systems implementation and operation; contract and professional project planning, design and construction; facility maintenance; fiscal services; human resources and employment equity; reprogramming and mail services; risk management; and university police. As one of four vice presidents, the vice president of administration and finance is a member of the president's executive management staff and plays a key role in the development of university policy; represents and acts for the president on matters of established policy within the university and The CSU system; represents the campus in dealings with other universities and with the local communities in matters of mutual interest and concern; and oversees a number of smaller support units within the university. Please reference Recruitment Code #141M141 on all correspondence. The preferred starting date for the position is January 1, 2004. Applications and nominations will be addressed to: Dan Howard-Greene, Executive Assistant to the President, Cal Poly.

For more information, contact Academic Affairs at academicaffairs@calpoly.edu, ext. 6-2916, phone ext. 6-2844, or visit the Web site at www.academic-affairs.calpoly.edu.

Cal Poly is strongly committed to achieving ethnic diversity through cultural diversity efforts and actively encourages applications and nominations of women, persons of color, and candidates from other underrepresented groups, including the disabled. Affirmative Action/Equal Employment Opportunity.

Promotion, tenure awards announced

President Baker has announced the promotion of 22 faculty members and the tenure of 18, effective in 2001-02. The promotions include eight to the academic rank of professor and 14 to associate professor. The faculty members receiving promotion and/or tenure are:

Promotion to Professor:

College of Agriculture - J. Wyatt Brown (Crop Science); Louise A. Kerner (Food Science and Nutrition).

College of Architecture and Environmental Design - William C. Epstein (Construction Management).

College of Business - Cyrus A. Ramezani (Finance).

College of Education - Lewis E. Hitchner (Computer Science).

College of Liberal Arts - Victor M. Valdés (Cultural Studies); Michael J. Selby (Psychology & Human Development).

College of Science and Mathematics - Steven C. Davis (Physical Education & Kinesiology).

Promotion to Associate Professor:

College of Agriculture - Lynn L. Hamilton (Agribusiness).

College of Architecture and Environmental Design - Clayton A. Phuarach.

College of Engineering (Architectural Engineering); Thomas Fowler (Architecture); Bruno Giberi (Architectural Conservation), William W. Wack (Regional Planning);

Barbara J. Jackson (Construction Management); Gary R. Clay (Landscape Architecture).

College of Business - Chris A. Carr (Global Strategy & Law).

College of Engineering - Richard S. Sandige (Electrical Engineering and Computer Science).

College of Liberal Arts - S. Jean Wetzel (Art and Design); Johanna E. Rubba (English); Deborah B. Schwartz (English); Henry J. "Red" Heesch (Graphic Communication).

College of Science and Mathematics - Michael A. Sutliff (Physical Education & Kinesiology).

Tenure:

College of Agriculture - Andrew J. Egel (Animal Science); Louise A. Berner (Food Science and Nutrition).

College of Architecture and Environmental Design - Clayton A. Phuarach.

College of Engineering (Architectural Engineering); Thomas Fowler (Architecture); Bruno Giberi (Architectural Conservation), William W. Wack (Regional Planning)

College of Business - Brian C. Gligic (Construction Management).

College of Business - Cyrus A. Ramezani (Finance).

College of Engineering - Gregg L. Piegel (Civil and Environmental Engineering); Rakesh K. Goel (Civil and Environmental Engineering), Nirupam Pal (Civil and Environmental Engineering), Lewis E. Hitchner (Computer Science).

College of Liberal Arts - S. Jean Wetzel (Art and Design); Johanna E. Rubba (English); Barbara J. Jackson (Construction Management).

College of Science and Mathematics - Christopher L. Kitts (Biological Sciences); Michael A. Sutliff (Physical Education & Kinesiology).

The successful candidate must possess strong communication skills; a demonstrated commitment to promoting cultural diversity in employment, and staff development; the ability to establish good working relationships with faculty, staff, students, alumni, business partners and other constituencies, and the ability to effectively address public safety issues within the university and surrounding residential areas.

COMPENSATION: Salary is commensurate with the background and experience of the individual selected; however, the minimum salary is $150,000. Cal Poly offers excellent fringe benefits. The Management Personnel Plan, adopted by the CSU Board of Trustees governs all rights associated with the appointment.

APPLICATIONS AND NOMINATIONS: The search committee will begin to review nominations and applications on July 9. The search will continue until the position is filled. Each application should include a current vita, the names, addresses and telephone numbers of at least three professional references, a letter of interest, and a statement, no more than two pages, of the applicant's view on the role and responsibilities of a finance and administrative affairs division within the university. Please refer to Recruitment Code #141M141 on all correspondence. The preferred starting date for the position is January 1, 2004. Applications and nominations will be addressed to: Dan Howard-Greene, Executive Assistant to the President, Cal Poly.

For more information, contact Academic Affairs at academicaffairs@calpoly.edu, ext. 6-2916, phone ext. 6-2844, or visit the Web site at www.academic-affairs.calpoly.edu.

Cal Poly is strongly committed to achieving ethnic diversity through cultural diversity efforts and actively encourages applications and nominations of women, persons of color, and candidates from other underrepresented groups, including the disabled. Affirmative Action/Equal Employment Opportunity.

U.S. Agriculture Secretary to speak, receive doctoral degree

U.S. Secretary of Agriculture и former California Secretary of Food and Agriculture, Mike Nifong, will address the audience to speak to candidates for graduation and receive an honorary doctorate at the morning ceremony of Spring Commencement Saturday (June 16). About 1,200 candidates from the colleges of Agriculture, Architecture and Environmental Design, and Engineering, as well as those with thousands of friends and family members, are expected to attend the 9 a.m. ceremony in Mustang Stadium.

At the ceremony, students in business, liberal arts, science, mathematics, education, and the Statewide Nursing Program will gather in the stadium at 2 p.m. Cal Poly History Professor Dan Krieger will deliver the afternoon commencement address.

More than 3,200 degrees and certificates are to be symbolically conferred at the two ceremonies.

A Central Valley attorney raised on a peach farm near Modesto, Veneman in January became the first woman to hold the position of Secretary of Agriculture. She led California's Department of Food and Agriculture from 1995 to 1999.

The honorary Doctor of Laws degree is the capstone senior project, which today often replicates the same kind of team-based, multidisciplinary projects that our graduates encounter in industry.

"The Bonderson Project Center will provide large, flexible work space enriched with the latest technology and applicable to every major in the college," Lee said. "This gift truly takes us to the next level of leadership and excellence in engineering and computer science education."

Bonderson, a senior project at Cal Poly, led to his first job.

"I designed and built an electronic clip-on device for collecting traffic information, and Trekonix, a small company that distributed traffic signals and manufactured signal controllers, was quite interested," Bonderson said.

"They hired me and bought my design for $1,500. I thought I was rich," he said.

"My goal in giving this gift to Cal Poly is to foster the same kind of creative engineering projects that was so useful to me. I want students today to have the
