Renovation plans... Continued from page 1

soccer requirements, and improvements to the existing east-side stands.

The full project is estimated to cost between $8 million and $10 million.

The most visible piece of the renovation would be new west-side stands, which would span California Boulevard and provide approximately 2,800 chair-type seats.

"We are excited about the opportunities that exist for the renovation of Mustang Stadium," said Athletics Director John McCutcheon. "We will now take this information and see what potential there may be for funding the project in total or in phases."

The project would require private funding because student financial support will not be available for new construction.

No timetable has been established for the renovation. Phases of the project could be initiated as resources become available.

"This is a very worthwhile and much-needed renovation," said President Baker.

The stadium has supported many campuswide activities over the years, from our Centennial Celebration to commencement to athletic events. This project has my full support, and it is my hope that others will be as excited as we are about its potential.

An Athletics Centennial Council has been formed to help with fund-raising.

Employees win raffle.

Twelve employees were prizes in the recent raffle held to benefit the Cal Poly cat program.

The winners were Heidi Lorge (Budget and Analytic Business Services), Gerry Mueller (President's Office), Suzanne Kirskoan (Economics), Tom May (Facility Services), and Karen Aguilar (Foundation).

Additional winners were Rose Bowker (Biological Sciences), Joan McCarthy (Speech Communication), Marcia Carter (English), Don Lumsden (Speech Communication), Ellen Notermann (College of Architecture and Environmental Design), Chris Lortz (Facility Services) and Ed Nareto (Facility Services).

Prizes included gift certificates to El Corral, A.J. Spurs restaurant, J.D. Pet Corral, A.J. Spurs restaurant, J.D. Pet

Renovation plans revealed for Mustang Stadium

The Athletics Department has completed a study of renovation opportunities for Mustang Stadium and plans to move forward with funded-raising efforts for the project as part of the university's Centennial Campaign.

The study, prepared by RRM Design Group of San Luis Obispo, analyzed renovation and expansion potential on the current stadium location as well as estimated costs. The report indicates that the stadium has the potential to expand seating to approximately 12,700. The report also analyzed additional concessions, rooftops, lighting, press-box facilities, a widened field to accommodate NCAA football.

Bergman, Doub, Martinez named teachers of the year.

Cal Poly has selected three professors -- two from the College of Liberal Arts and one from the College of Agriculture -- to receive the university's highest teaching honor.

The winners of the 2000-2001 Distingished Teaching Awards are Sky Bergman, a professor in the Art and Design Department since 1995, William Martinez Jr., a member of the Modern Languages and Literatures Department since 1994, and Phillip Doub, who has taught in the Agribusiness Department since 1985. They were recognized at Spring Commencement ceremonies Saturday.

Bye-bye, Ben Beasley
Alumni Relations Director Ben Beasley has accepted a position at Loyola Marymount University in Southern California, and a bye-bye bash in his honor is set for 2-4 p.m. June 27 at the Smith Alumni and Conference Center. The campus community is invited to stop by to wish him well.

CPR schedule

The Cal Poly Report is published every other week during the summer. The next issue will be July 5. Articles for that issue are due to Public Affairs by June 27. Items may be e-mailed to polynews@polywell.com for faster service.

For more information, call ext. 6-1533.

IHE Department

In naming Martinez, he said, "I challenge us to think for ourselves, to express ourselves, and to apply what we find to our own lives. He has a contagious passion for teaching and learning." Martinez was included in the 2000 editions of "Outstanding People in the 20th Century," "Outstanding Scholars of the 20th Century," and "Who's Who in the West." He received the College of Liberal Arts Outstanding Service Award in 1998. Students and alumnus of the university nominated the distinguished teachers. Cal Poly has named 117 distinguished professors since the awards program began in 1964.

Staff members needed

State, Foundation and ASI staff members are invited to submit an application to fill the following vacant positions on campus-wide standing committees. Most appointments are for 2001-2003, unless otherwise noted. The numbers in parentheses indicate the number of vacancies.

- Administrative Vice Committee on Computing (2)
- Campus Diring Advisory Committee (1)
- Campus Fee Advisory Committee (2001-2002) (1)
- Coordinating Committee on AIDS and HIV Infection (1)
- Disabled Students Advisory Committee (1)
- Elderly Advisory Committee (1)
- Registration and Scheduling Committee (1)
- Resource Use Committee (1)
- Substance Use and Abuse Advisory Committee (3)
- University Committee on Committees (2000-2002) (1)
- University Diversity Enhancement Council (1)

An appointment committee, chaired by Anna McDonald, director of human resources and employment equity, will screen applications and forward recommendations to President Baker.

**Bye-bye, Ben Beesley**

Alumni Relations Director Ben Beesley has accepted a position at Loyola Marymount University in Southern California, and a byee-bye bash in his honor is set for 2-4 p.m. June 27 at the Smith Alumni and Conference Center. The campus community is invited to stop by to wish him well. A light refreshments and drinks will be served. For more information, call Jen Landers at ext. 6-2586.

**SUN: Regina, Aarne**

Cal Poly recognized 25 Outstanding Senior and 28 Outstanding Seniors for 2000-2001 during Spring Commencement ceremonies June 16. The six colleges selected students in four categories: academic excellence, contribution to the college, contribution to the university, and community service.

Course on permaculture, ecological design offered

Extended Education is offering a course on permaculture, a practical design process modeled on balanced ecosystems, 12 sessions, 9 a.m.-3 p.m. Saturdays and Sundays, July 21-Sept. 9, at the Student Experimental Farm. The fee is $480 for the entire 12-part series if paid in advance or $50 per session.

Permaculture is a holistic approach to harmonizing human activity with the natural environment. The course design process is intended to improve air and water quality, increase food production, manage waste, promote biodiversity and strengthen community relationships.

Students will learn to interpret "patterns in nature" and to apply them with insight and creativity at home, at work and in their communities. The course is designed for homemakers, commercial growers, landscape architects, local entrepreneurs and individuals interested in exploring sustainable living possibilities, gardeners, land managers, farmers, architects, planners, community service volunteers, environmental educators and students.

Hands-on workshops will be conducted at the Student Experimental Farm. Field trips to local sites will help illustrate ecological design principles in practice. For complete course description and to register online, go to www.ExtendedEducation.calpoly.edu or call ext. 6-2033.

**Position vacancies**

**SARST: For Academic Fluctuations of Employment Opportunities for Academic Staff and Management Positions, you can:**

Check the Cal Poly Web site at www.calpoly.edu. Select "Employment" from the Cal Poly Links drop-down box; Come to the HEPE office, Admin. 110, and view the posted positions; Call the HEPE Job Line at ext. 6-1533.

For a listing of new openings, check The Tribune's Sunday edition.

Application forms and job openings must be received by the Human Resources and Employment Office, Admin. 110, by 5 p.m. on the closing date.

**Ciricic appointed chair**

Longtime Electrical Engineering Professor Michael Ciricic has been appointed to a three-year term as chair of the department, effective fall quarter.

Ciricic has been teaching at Cal Poly since 1968.

**The Foundation Board to meet**

The Foundation Board of Directors has called a special meeting at 11 a.m. Monday, June 25 in the Conference Room (#124) in the Foundation Administration Building. This is a public meeting. For more information or to obtain a copy of the meeting agenda, contact Executive Director Robert Lesch at ext. 6-1171.

A copy of the agenda packet is available for review at the Kennedy Library Reference Desk or in the Academic Senate Office, Math and Science 143.

Additional winners were Rose Bowker (Biological Sciences), Joan McCarthy (Speech Communication), Marcia Carter (Economics), Don Lumsden (Speech Communication), Ellen Notermans (College of Architecture and Environmental Design), Chris Loiter (Facility Services) and Ed Naretto (Facility Services).

Academic program helps students achieve success

Cal Poly's Supplemental Instruction program, now in its 11th year, has helped nearly 8,000 students perform better academically in science and other courses.

"The program provides an opportunity for increased concept mastery and academic excellence through twice-weekly discussion sessions led by a trained peer leader," said Bill Synder, coordinator of the program. "During the sessions, students solve problems, perform critical thinking, work as a team, and review course concepts. Supplemental Instruction promotes active participation and hands-on practice."

Discussion groups are offered in biology, chemistry, physics, business statistics and soil science.

"Almost 90 percent of the students who have enrolled in Supplemental Instruction have earned A's, B’s or C’s," Synder said.

Supported by Student Academic Ser- vices, the program is modeled after a program that was developed at the University of Missouri 25 years ago. II

Diversity Department

The IME Department wins Diversity Award

The Industrial and Manufacturing En- gineering Department has been awarded Cal Poly's fifth annual President's Diver- sity Award for its success in recruiting and retaining women and other under- represented minorities.

"The IME Department has shown ex- ceptional commitment to pursuing the value of cultural diversity," said President Baker in announcing the award. "Through its educational outreach programs and workshops, the department has made sig- nificant contributions to the university's recruitment of students from underrepresen- ted groups and raised awareness among the campus community of the need for cultural diversity."

"And for the past 10 years the depart- ment's commitment to outreach and recruitment has been fostered and encour- aged by two dedicated leaders," Baker said.

Professor JoAnne Freeman led the department from 1991 to 1997. Professor Sema Alptekin has served as chair since 1997.

"The department was recognized for a long history of presenting workshops and conducting outreach programs to increase student diversity, providing role models and mentoring for women, and increasing the number of degrees awarded to women by 10 percent in the last four years."

A recent example is a daylong work- shop for 100 junior high school girls and their parents, con- ducted by the department's faculty and student volunteers. Another is bi-monthly classes in engineering and science for third-grade girls.

Diversity Award selection committee chairman Harry Hellenbrand, dean of the College of Liberal Arts, said the panel was impressed with "an array of excellent programs," both in engineering and other colleges. One he said the committee hoped would become more widely known is the Cal Poly Diversity Web site, which chronicles the diversity in Cal Poly's student body.

Bergman, Doub, Martinez named teachers of the year

Cal Poly has selected three professors - two from the College of Liberal Arts and one from the College of Agriculture - to receive the university's highest teaching honor.

The winners of the 2000-2001 Distin- guished Teaching Awards are Sky Bergman, a professor in the Art and Design Depart- ment since 1995, William Martinez Jr., a member of the Modern Languages and Literatures Department since 1994, and Phillip Doub, who has taught in the Agribusiness Department since 1985. They were recognized at Spring Commencement ceremonies Saturday.

- Bergman teaches photography and digital image-making. One student nomi- nation said Bergman is "very concerned for her students' welfare and does what- ever she can - going beyond the normal call of duty. She pushes students to reach their potential." Bergman's photos have appeared on the covers of books and have been shown in San Francisco, England and France. Her photographs illustrated an article about Brussels' Royal Greenhouses in the March issue of Smithsonian Magazine; one was on the cover. Bergman is on her third sabbatical traveling around the world.

- Doub, currently serving as chair of the Food Science and Nutrition Depart- ment, teaches courses in the Agribusiness Department, including agribusiness mar- keting and agribusiness strategy, formulation, and managing cultural diver- sity in agricultural labor relations. He has extensive experience overseas in market- ing strategy and techniques. Doub was credited with "providing strategies to solve problems and obtain goals." He was also praised for his "tireless work ethic." He is creator and coordinator of Cal Poly's wine and viticulture minor, a joint initiative of four departments in the College of Agriculture. He also created and coordinated the Wine Certificate Program and the Wine Marketing Program.

Renovation plans revealed for Mustang Stadium

The Athletics Department has com- pleted a study of renovation opportunities for Mustang Stadium and plans to move forward with fixed-raising efforts for the project as part of the university's Centen- nial Campaign.

The study, prepared by RRM Design Group of San Luis Obispo, analyzed renovation and expansion potential on the current stadium location as well as esti- mated costs. The report indicates that the stadium has the potential to expand seat- ing to approximately 12,700. The report also analyzed additional concessions, restrooms, lighting, press-box facilities, a widened field to accommodate NCAA football games, and possible seating upgrades for the student section.
