Extended Studies offers July, August courses

Space is still available in Rec Sports' summer youth swimming lessons and water polo program. Summer youth lessons are open to children 18 months to 13 years old. Certificates can be earned in six different skill levels. Classes run from July 23 to Aug. 13. 4-6 p.m. Contact Barbara for information on making a contribution. 0

Salsa contest adds spice to Stone Soup Festival

Salsa contest with both commercial and individual categories will be held in conjunction with the Stone Soup Ethnic Music Fair Aug. 26 in Grover Beach. Entrants must deliver their salsa in a sealed container to the Ramona Garden Center at Ramona Garden Park on Ramona Street between 5th and 10th streets in Grover Beach by Aug. 11.

Applications will be judged on presentation, flavor, texture and taste as well as the use of vegetable, fruit, seeds and all other ingredients. Categories will be announced. Ten of the winning entries will be awarded prizes. For more information call 752-9298.

Fitting pretty

Many individuals believe that grains are healthy and that they offer something that processed and high-fructose foods do not. Many people consume whole-grain bread, but are still confused about what constitutes a healthy grain. Is it a white rice, a flour, or a whole grain? Is it the type of wheat or corn that makes the difference? How does something like a sweet potato change the nutritional value of a meal? It is important that you understand what you are eating and why it is good for your body. While it is important to eat a diet high in carbohydrates, it is also important to eat a diet that is high in the variety of grains that are available. This is why many scientists believe that legumes are the answer to the problem of overconsumption of processed foods. Legumes can provide a good source of fiber, protein, and other nutrients that are necessary for a healthy diet.

McDonald leaves HREE; Melvin is interim head

Associate Director of Human Resources Barbara Melvin has begun serving as interim director to replace Anna McDonald, who will become associate vice president for human resources at the University of Vermont this fall. Melvin, appointed by Vice President for Administration and Finance Frank Leban, effective July 1, served as associate director for the past three years. She has been heavily involved in employee and labor relations, compensation and classification issues.

"Barbara has strong management consultative skills and looks forward to continuing her positive working relationship with the campus community," Leban said.

As interim director, Melvin will manage recruitment, employee relations, staff development and other matters involving the university's support staff. Her office also administers employee benefits for both the faculty and staff.

Melvin has been a member of the human resources staff for more than 25 years.

Wehner to lead Ag when Jen leaves for D.C.

Associate Dean of Agriculture David Wehner has been named the interim dean pending Dean Joe Jen's expected confirmation as U.S. secretary of agriculture for research, education and economics. Jen's appointment is expected to be confirmed by the U.S. Senate by the end of July.

Wehner would serve while Cal Poly conducts a national search to select a permanent dean. Wehner's appointment is through June 30, 2002, or until a new dean is installed.

"We're fortunate to have an individual with David Wehner's administrative abilities and grasp of our agriculture program available to lead the college at this time," said Provost Zenon Seguin. "He's capable of providing the leadership necessary to keep the college moving ahead in preparing students to meet the demands of a dynamic agriculture environment in California."
Proposed housing Draft EIR available for public review

A Draft Environmental Impact Report (EIR) has been completed for Cal Poly’s proposed rental housing for faculty and staff members and is available for public review.

The Draft EIR addresses the development of a maximum of 85 apartment-style dwellings. The site, known as H-8, is 5.86 acres of university-owned land north of San Luis Obispo at Santa Rosa Street and Highland Drive.

This is the first phase of faculty and staff housing proposed in Cal Poly’s new master plan to help address housing costs for new faculty—a factor that makes it challenging to recruit and retain the high-quality faculty we need to continue to provide state-of-the-art education," said Linda Dalton, vice provost for institutional planning.

A separate Draft EIR is being prepared for faculty and staff housing north of the California Department of Forestry installation on Highway 1 and will be available at a later date. In the meantime, Cal Poly is also building on new faculty/student housing, including a complex for 800 students that is under construction.

This spring, Cal Poly met with neighbors and city and county officials and invited them to help identify issues that the environment analysis of the proposed faculty and staff housing should address.

The Draft EIR looked at areas where the project could have potentially significant adverse impacts, including aesthetics, light and glare, air quality, biological resources, noise, public services, and traffic and circulation.

"The Draft EIR found that impacts on these areas would be less than significant or that the impacts can be mitigated to a level of insignificance, with the exception of aesthetics," Dalton said. "The design of the housing would include mitigation measures to lessen the impact of the housing on the views from the roadway, but the overall impact is considered significant and unavoidable because the top story would be visible from Highway 1.

"Traffic and circulation issues were studied in depth, with the finding that the street configuration at Highland Drive near Ferri Drive will need to be redesigned to reduce existing unsafe conditions," she added. "The Draft EIR also found that the proposed housing would be compatible with the surrounding neighborhood and consistent with the city of San Luis Obispo’s land use policies."

The Draft Environmental Impact Report is being circulated for public review to provide parties the opportunity to comment on the analysis of potential environmental consequences.

Anyone who wishes to comment on the Draft EIR is encouraged to do so. Written comments must be submitted by Sept. 7 to Bob Kramera in the Facilities Planning office. Copies of the draft report (and documents referenced in the report) are available at Facilities Planning at the Kennedy Library, the City-County Library, and on the Web at http://www.cphpcilight.org.

Police honored for efforts to reduce drunk driving

For their efforts to reduce drunk driving, the University Police Department has won a $1,000 award from the Auto Club of Southern California and a Cal Poly officer has received a plaque from Mothers Against Drunk Driving.

The Auto Club check recognized a Cal Poly program begun earlier this year. The aim of the program is to notify students arrested for drug- and alcohol-related crimes if counseling is available on campus. It also serves to make students aware that the community and university have noticed their behavior, said Police Chief Tony Aeilts.

University Police Investigator Ray Berrett checks bookings at the County Jail to find Cal Poly student names.

Berrett combined video and sound from most of the county’s police agencies, including interviews with drunk drivers, victims and families, to deal with both legal and personal aspects of drunk driving.

University Police are distributing copies to county police agencies for use in schools and other locations.

For more information, contact Aeilts at ext. 6-2281.

CPR published every other week during summer

The Cal Poly Report is published every other Wednesday during the summer. Articles are due to Public Affairs by 16.5: July 15 for the Aug. 1 issue. Items can be e-mailed to polynews@polymail, faxed to ext. 6-6533, or mailed to Public Affairs, Heron Hall. For more information, call ext. 6-1531.0

CAL POLY REPORT, JULY 18, 2001
Housing Corp. to meet

The Board of Directors of the Cal Poly Housing Corp., a non-profit auxiliary charged with developing faculty-staff and student housing, will hold an organizational meeting at 10 a.m. Friday (July 20) in the Foundation Administration Building, Conference Room 124. This is a public meeting. For information or a copy of the agenda, contact Bob Ambach, associate executive director of the Foundation, at ext. 6-1131.

Debra Miller, a faculty member in the Natural Resources Management Department, will retire Aug. 31. Miller was appointed interim department head effective July 25.

Lovejoy to retire; July 25 reception set

The university community is invited to join Foundation staff members at a retirement reception July 25 in honor of Lynda Lovejoy, administrative assistant to the executive director of the Foundation. The event will begin at 1:30 p.m. in the Veranda Cafe Conference Room. For more information, contact Cheryl Edgerty at ext. 6-1455.

Series of evening walks aims to raise funds

The campus community is invited to join in a series of 1 1/2-hour summer evening training walks scheduled by staff members planning to participate in the Avon Breast Cancer 3-Day Walk this fall.

CPR published every other week during summer

The Cal Poly Report is published every other Wednesday during the summer. Articles are due to Public Affairs by 3:20 p.m. Tuesdays for the Aug. 1 issue. Items can be e-mailed to polynews@polymail, faxed to ext. 6-6533, or mailed to Public Affairs, Heron Hall. For more information, call ext. 6-1531.

Police honored for efforts to reduce drunk driving

For their efforts to reduce drunk driving, the University Police Department has won a $1,000 award from the Auto Club of Southern California and a Cal Poly employee has received a plaque from Mothers Against Drunk Driving.

The Auto Club check recognized the department's high-tech forensic specialist. In another case, he helped the Paso Robles Police Department identify teenagers who were e-mailing threats to a schoolmate.

For more information contact Aeilts at ext. 6-2281.

Pliroto appointed interim NRMD head

Douglas Pliroto, a faculty member in the Natural Resources Management Department, has been named interim department head effective Aug. 31. Pliroto will serve until a permanent heading is appointed.

Leave solicitation

Kate Bounds, an administrative support assistant in the MESA Engineering Program, has qualified for personal call leave. Eligible state employees may donate up to 32 hours vacation credit and/or sick leave to help her remain in full-pay status during an extended absence.

Those interested in donating leave may request the Catastrophic Leave Donation form from solicitation coordinator David Cantu at ext. 6-5429 or by e-mail. CSEA employees in units 2, 5, 7 and 9 plus "academic professionals" in unit 4 may donate up to 32 hours total. All other state employees may donate up to 10 hours sick leave and/or vacation credits per fiscal year in increments of one hour or more.

Proposed housing Draft EIR available for public review

A Draft Environmental Impact Report (EIR) has been completed for Cal Poly's proposed rental housing for faculty and staff members and is available for public review.

The Draft EIR addresses the development of a maximum of 85 apartment-style dwellings. The site, known as H-8, is 5.86 acres of university-owned land north of San Luis Obispo at Santa Rosa Street and Highland Drive.

This is the first phase of a residential and staff housing project proposed in Cal Poly's new master plan to help address housing costs for new faculty—a factor that makes it challenging to recruit and retain the high-quality faculty the university needs to continue to provide state-of-the-art education," said Linda Dalton, vice provost for institutional planning.

A separate Draft EIR is being prepared for faculty and staff housing north of the California Department of Forestry installation on Highway 1 and will be available at a later date. In the meantime, Cal Poly is also building a new on-campus student housing, including a complex for 800 students that is under construction.

This spring, Cal Poly met with neighbors and city and county officials and invited them to help identify issues that the environmental analysis of the proposed faculty and staff housing should address.

The Draft EIR looked at areas where the project could have potentially significant adverse impacts, including aesthetics, light and glare, air quality, biological resources, noise, public services, and traffic and circulation.

"The Draft EIR found that impacts on these areas would be less than significant or that the impacts can be mitigated to a level of insignificance, with the exception of aesthetics," Dilion said. "The design of the housing would include mitigation measures to lessen the impact of the housing on the views from the roadway, but the overall impact is considered significant and unavoidable because the top story would be visible from Highway 1.

"Traffic and circulation issues were studied in depth, with the finding that the street configuration at Highland Drive near Ferrii Drive will need to be redesigned to reduce existing unsafe conditions," she added. "The Draft EIR also found that the proposed housing would be compatible with the surrounding neighborhood and consistent with the city of San Luis Obispo's land use policies."

The Draft Environmental Impact Report is being circulated for public review to provide parties the opportunity to comment on the analysis of potential environmental consequences.

Anyone who wishes to comment on the Draft EIR is encouraged to do so. Written comments must be submitted by Sept. 7 to Bob Krammer in the Facilities Planning Office. Copies of the draft report (and documents referenced in the report) are available at Facilities Planning office, the Kennedy Library, the City-County Library, and on the Web at http://www.calpolyhousing.org.

Pilobolus returns to Cal Poly for last time

An organization begun by University Police Chief Tony Aeilts is helping investigators in four counties track down cybercriminals.

The group's dues-paying members include personnel from almost every police agency in San Luis Obispo County plus others from Santa Barbara, Kings and Kern counties and the FBI. Internet service providers and Cal Poly faculty members also participate.

Members share computer expertise and information with law enforcement agencies and when necessary seek additional help from Cal Poly professors and other experts. The group can provide help that the agencies might have to wait months to get from the state's Department of Justice.

University Police have added in 12 such investigations so far, including an Ojai case of child molestation and pornography that began on the Internet and a San Luis Obispo case of electronic identity theft.

Office Jeff Jonty has become the department's high-tech forensic specialist. In another case, he helped the Paso Robles Police Department identify teenagers who were e-mailing threats to a schoolmate. For more information contact Aeilts at ext. 6-2281.

Salsa contest adds spice to Stone Soup Festival

A salsa contest with both commercial and individual categories will be held in conjunction with the Stone Soup Ethnic Music Fair Aug. 26 in Grover Beach. Entrants must deliver their salsa in a sealed container to the Ramona Garden Center at Ramona Garden Park on Ramona Street between 9th and 10th streets in Grover Beach by Aug. 11. Entries will be judged on presentation, color, taste and texture by "celebrity" judges and by people attending the fair. For an entry form call the Grover Beach Chamber of Commerce at 489-4941. Entry forms can also be downloaded from the Web at www.groverchamber.com.

Rec Sports offers summer youth programs

Space is still available in Rec Sports' summer youth swimming lessons and water polo program. Summer classes are open to children 18 months to 13 years old. Certificates can be earned in six different skill levels (bibs, patterns with children 18 to 20 months, starfish, dolphins, barracudas, marlins and sharks. Classes run for 40 minutes, and each session is 10 days. Session 3 runs July 23-Aug. 3; session 4 is Aug. 6-17. Youth water polo clinics, for swimmers 9 to 16 years old, serve as an introduction to the game of water polo. Participants learn the game’s concepts and rules on the fly. Both beginner and intermediate levels are offered. Classes meet for one hour, five days a week, for three weeks. Session 2 runs July 30-Aug. 16. To register, stop by the Recreation Center or call ext. 6-1366.

Extended Studies offers July, August courses

Extended Studies (formerly Extended Education) is offering an introductory class in Dreamweaver July 30-Aug. 27 and Microsoft Access starting Aug. 15. Call the HREE Job Line at ext. 6-5923 for information on the Microsoft Access class. The group, called Team WOW (Work On Waterpolo), will be held in conjunction with the Stone Soup Ethnic Music Fair Aug. 26 in Grover Beach. Participants learn the concepts and rules of the game. Both beginner and intermediate levels are offered. Classes meet for one hour, five days a week, for three weeks. Session 2 runs July 30-Aug. 16.
