Position Vacancies

STATE: The official listing of staff and management vacancies is posted at least two weeks prior to closing dates on Cal Poly's Web site at www.calpoly.edu. Select "Employment" from the Cal Poly links drop-down box. As a courtesy to our on-campus employees, job vacancies also are published in the Cal Poly Report. Positions marked with an asterisk indicate that qualified on-campus applicants in bargaining units 2, 7, and 9 will be given first consideration. Job applications must be received in Human Resources, Admin. 110, by 5 p.m. on the closing date.

#110 - Foundation Adv. Building, Job line at ext. 6-7107. All Foundation applications must be received (not just postmarked) by 5 p.m. of the closing date. (No faxes.) Assistant Supervisor, Light House, Campus Dining, $9.79-$14.19/hour. Closing date: Open until filled; review of applications begins Oct. 19. 11

Grisman...

Ag Ambassadors gather at Cal Poly

More than 60 Cal Poly Ag Ambassadors took time out from a recent training retreat on campus to pose for a picture under some of Cal Poly's Centennial Celebration banners.

'Campus Invasion' planned to promote ASI

ASI is planning a "Campus Invasion" on Monday (Oct. 15) and Oct. 18 to give students and the faculty and staff an opportunity to learn about ASI and its various programs and services.

The two-day event will feature a variety of activities, including live music, carnival-type games, virtual skateboarding, lawn bowling and free snacks.

Representatives from Poly Escapes, the McPhee's Games Area, student government, Club Services, ASI Events, Recreational Sports and Children's Programs will be on hand to provide information and answer questions.

The event kicks off at 11 a.m. Monday on Dexter Lawn, where tents will create an "ASI Village." Stop by and throw Nerf balls at a giant "moon man," get a temporary tattoo, enjoy free popcorn and lemonade, and enter the numerous drawings for a variety of giveaways.

Prom 7 to 9 p.m. Monday, two cast members from the "Real World" television show will be at the Cal Poly Theatre. Syrus from the "Real World Boston" show and Julie from "Real World New Orleans" will talk about their life experiences and the time they spent on "Real World." Their talk is intended to help college students relate to such topics as diversity, getting along in a new environment, being open to new experiences, and the value of education.

ASI Events will present the band Two-A-Day during university hour, 11 a.m. to 1 p.m. on Oct. 18 in the UU Plaza. ASI Village will be set up in the plaza area, offering another afternoon of festival-style activities.

"We're inviting the entire campus community to spend time playing, eating and seeing firsthand the programs and services that ASI has to offer," said ASI President Angie Hacker. "We want to raise awareness about ASI and its four facilities - the UU, the Recreation Center, the Orfalea Family and ASI Children's Center, and Sports Complex."

For more information, call Corey Reihl, ASI vice president, ext. 6-5826, or Diana Cozzi, ASI events coordinator, ext. 6-7007.

DATELINE

 ($) - Admission charged

Exhibits

University Art Gallery (Dexter): Art and Design Faculty Exhibit. Through Oct. 26. Hours: 11 a.m.-4 p.m. daily plus 7-9 p.m. Wednesday.

Thursday, October 11

National Depression Screening Day: UU Plaza and in front of Recreation Center, 10 a.m.-2 p.m.
Speaker: Anne Goshen (Campus Relations), "Depression: There is Hope and Help," UU 220, noon.

Friday, October 12

Speaker: Bob Flores (Agricultural Education and Communication) will facilitate a discussion, "Understanding the Future of Ag," UU 220, 11 a.m. Oct. 16, 24, Nov. 29.

Music: The Chenille Sisters, Theatre, 8 p.m. ($)

Saturday, October 13

Music: The Orfalea Family, Recreation Center, 6 p.m. ($)

Sunday, October 14

Men's Soccer: Cal State Fullerton, Mott Gym, 7 p.m. ($)

Tuesday, October 16

Telecomm Presentation: Learn about the upgrade to the university's telecommunications infrastructure, UU 220, 11 a.m. Oct. 16, 24, Nov. 29.

Wednesday, October 17

Speaker: Counselors from the San Luis Obispo Women's Shelter, "What's Love Got to Do With This?" UU 219, 11 a.m.

Thursday, October 18

Speaker: Students will participate in

Cal Poly celebrates a century of service

Cal Poly faculty members, students, staff, alumni and honored guests marked 100 years of service to California and the nation with the university's Founders Celebration on Sept. 27-28.

The two-day celebration commenced Thursday evening with a colloquium, which brought together leaders from academia, government and the private sector. Cal Poly President Warren J. Baker moderated a panel discussion featuring David Baltimore, Nobel Prize laureate and president of Caltech; Gary Bloom, a Cal Poly alumnus and current and president of Veritas Software; Rita Colwell, director of the National Science Foundation; and Richard DiMillo, vice president and chief technology officer of Hewlett-Packard.

The colloquium topic, "Edu­cating a Diverse Population for the Nation's Science and Technology-based Economy," prompted a wide-ranging con­versation. Panelists brought the perspectives of national science policy, higher education and industry to bear in com­menting on this important national challenge. The panelists also discussed ways in which universities, industry and government can work to ensure that a new genera­tion of innovators, problem solvers and leaders is educated for a century increasingly dependent on science and technology.

An academic procession and convocation followed on Friday morning to com­memorate Cal Poly's rich history as a center of learning. Under a canopy on Dexter Lawn, members of the campus community, alumni and guests assembled for the Founders Convocation. The convocation celebrated Cal Poly and its special place in California and higher education. It also marked a recommitment to the fundamental purpose of American education.

The more than 1,000 participants and guests at the convocation included representa­tives from universities, colleges and institutions around the world. President Baker shared reflections on Cal Poly's first century and expressed appreciation to the university's faculty for establishing a distinctive tradition of teaching and learning that retains critical relevance to the needs of a new century. President Baker was joined in conferring honorary doctorates on David Baltimore and Rita Colwell by Laurence K. Gould Jr., chair of the CSU Board of Trustees, and CSU Chancellor Charles B. Reed. Baltimore delivered the event's keynote address, "Dual Roles for Universities: Generating Knowledge and Jobs."

An All-University Picnic, held at the Sports Complex, rounded out the festivities with music, games, sporting events, picnic fare and a 100-foot cake. More than 5,500 students, faculty and staff members, alumni, and community members joined in the afternoon celebration. (For more Founders Celebration photos, please see page 4.)
Hoffman determines age of oldest settlement in NE Asia

In collaboration with Chinese earth scientists, Physics Professor Ken Hoffman has determined that ancient stone tools found in northern China more than two decades ago are 1.36 million years old.

Fixing the age shows that the tools represent the oldest known component of human culture in Northeast Asia, according to an article published in the September issue of the Paleolithic Age, according to editors at Nature.

Hoffman was invited to Beijing in March 2001 by Professor Rixin Zhu of the Chinese Academy of Sciences after extensive research conducted by Zhu's group at the Institute of Geology and Geophysics on the ancient, lake-obsidian settlements in which the stones were found.

The true age of the tools had remained a mystery since their discovery in the remote Niwot Basin at the Xiaochanglian archaeological site.

Establishing their age proved difficult because the stone tools were missing their surrounding sediment, lacking the usual natural materials that typically allow scientists to determine age through carbon dating or other radiative isotopic dating methods.

While in Beijing, Hoffman was able to review the Chinese data and help establish the age of the stone tools using the already determined "magnetodetritus" of the sediment section.

"We know that Earth's magnetic field 'flips' polarity from time to time," Hoffman said. "It seems completely logical that we would be able to switch direction from pointing northward to pointing southward, or back again. And for the last several past millennia, the signs are quite clearly known.

Magnetic particles in each sediment layer record the direction of Earth's field at the time they are deposited and hold that direction through the age.

Hoffman determined the presence of magnetic polarity recorded in the ancient sediment section from well above to well below the layer in which the stone tools were found.

Pick Ports, director of the Human Origins Program at the Smithsonian's National Museum of Natural History, who co-authored the article, helped provide the context and determine the significance of the result.

PERSPECTIVES ON DIVERSITY TO BE FOCUS OF DISCUSSIONS

In support of the university's 1998 "Statement on Diversity," the Cultural Awareness Committee will host a series of four quarter discussions designed to elicit feedback from students about their experiences of diversity on the campus.

"It is important to explore the diversity of our campus community, can facilitate understanding and the inclusion of diverse people, ideas, and experiences," said Chris Parks, assistant professor of political science, and chair of the Diversity Resource Center.

"Now, more than ever, we need to listen to what our students have to say."

Professor Bob Flores of the Agricultural Education and Communication Department will facilitate a discussion on "Understanding Diversity: What It Really Means" noon-1 p.m. Friday (Oct. 12) in Room 241 in the Erhart Agriculture Building.

Several Cal Poly students will participate in a Student Perspectives Panel 11 a.m.-noon Oct. 18 in the BioResource and Agricultural Engineering Building, Room 123.

The students will provide insight into such topics as: the impact of cultural issues on academic performance and social integration. Conflicts that may have arisen between the "roommates." Suggestions for improving the campus climate for students from a range of backgrounds. Jeni DeCosta, "Cultural awareness and director of campus relations," will moderate the panel.

A follow-up meeting, "What Did We Learn From Our Students?" will be noon-1 p.m. Nov. 9 in the Erhart Agriculture Building, Room 241.

At the meeting, Flores will lead a discussion of the issues identified and solutions generated by the Student Perspectives Panel.

For more information, contact Bonnie Krupski, ext. 6-5400 or Gail Simmons, ext. 6-2083.

UNIVERSITY POLICED TRAINED TO USE DEFIBRILLATORS

Members of the University Police Department have been trained to use automatic external defibrillators, electronic devices that apply a high voltage electric current to the heart in an effort to restore an acceptable heart rhythm. Two automatic external defibrillators are in police vehicles, and a third is kept in reserve for use at campus events.

"The use of such equipment, training and emergency service is expected to provide significant benefits to the community regarding serious medical emergencies," Chief of Police Tony Ahl said.

GENERAL ED TECHNOLOGY PLANNING WORKSHOPS SET

Faculty members who have ideas for courses designed to help students understand technology better are invited to one of two General Education workshops.

By 2003 Cal Poly will offer courses in General Education Area F, the upper-division technology elective. The workshops, planned for Oct. 17-18, are intended for anyone interested in proposing an Area F course for the 2004-05 catalog.

"Area F classrooms will require emerging technologies in courses that may not fit the usual curricular boundaries," said Jim Mueller, area chair of the Science, Mathematics and Technology Committee, "and provides an opportunity to address how these technologies impact society.

Courses in technology are integrative, building on the scientific and mathematical knowledge designed to inform students and are offered at the upper-level division.

For more information, contact Bonnie Krupski, ext. 6-5400 or Gail Simmons, ext. 6-2083.

CRP Schedule

The Cal Poly Report is published every Wednesday during the academic year. Send Public Affairs to Public Affairs by 10 a.m. Wednesday for the following week's edition. Items can be e-mailed to polymail@calpoly.edu, faxed to ext. 6-6532, or mailed to Public Affairs, Heron Hall. For more information, call ext. 6-1511.

WINE TASTING AMONG EXTENDED STUDIES COURSES

Extended Studies is offering 12 courses on wine and beer tasting to be taught on computer software.

Introduction to Flash 5.0, 6-9 p.m. Wednesday (Oct. 17), in Room 12, $225. This overview of Flash workshop for the beginner will cover stage, tools, layers, guides, grid and much more. Students will work with painting and drawing using the oval and rectangle tools, brushes and fills as well as exploring movie properties and using keyframes, frame rate and editing frames.

Microsoft Access for Your Office, 6-9 p.m. Thursday (Oct. 18), 9-12, $265. Learn to manage and manipulate large amounts of data, such as customer lists, employee records and product listings. Students will learn to create a database, create tables, build forms, generate queries and run reports, as well as apply wizards, properties, masks, filters, find-and-select options and shortcuts. The final three meetings will focus on customizing forms and reports, creating a main menu switchboard, and generating dozens of queries such as cross tabs, calculations, make table, delete, append, update and views. Students also will learn to import and export data to other programs such as Word and Excel.

Wines of the Central Coast - The Rising Star, 6:30-8:30 p.m. Thursdays, Oct. 11, 18, 25, $135. The Cal Poly Wine scene provides students with a plethora of new wines to taste and winemakers to meet. Students will taste numerous wines and meet special guest winemakers and wine-makers. Rhone varietals, "Cal-Itals," blends and "new clones," and techniques will be showcased. Students must be at least 21.

The Sensory Evaluation of Beer, 6-9 p.m. Tuesday (Oct. 23), 11-12, $150. An introduction to the sensory evaluation of beer and palate followed by a discussion regarding commercial production. The style of beer and ale will be compared based on their characteristics using the technique of flavor-component tasting. Students will learn some of the common flaws found in beer and ale.

Wines of the New East, 6-9 p.m. Tuesday (Oct. 30), 11-12, $150. The focus of the course will be on China, Japan, Korea and Russia.

The impact of cultural issues on a career, 6-9 p.m. Tuesday (Dec. 11), 11-12, $150. The evening will focus on the impact of diversity on the wine industry.

The impact of cultural issues on a career, 6-9 p.m. Tuesday (Dec. 11), 11-12, $150. The evening will focus on the impact of diversity on the wine industry.

THE DAVID GRISSMAN QUARTET TO PLAY

Contemporary bluegrass mandolinist and composer David Grisman and his band will perform in concert at 8 p.m. Oct. 27 in Harman Hall in the Christopher Cohen Center.

The David Grisman Quintet performed in 2001-02 Cal Poly Arts season.

For more information, call Mike, Randy or Joe in the Intramural Sports Department at ext. 6-1366.
Depression Screening Day Thursday at UU, Rec Center

All employees, students and family members can learn about the signs and symptoms of depression and participate in a free, confidential screening as part of National Depression Screening Day Thursday, Oct. 11.

The program is sponsored by Health and Counseling Services and the Employee Assistance Program and will be held in the UU Plaza area and in front of the Recreation Center. Representatives from those offices will be on hand 10 a.m.-2 p.m. distributing materials and administering confidential, written self-tests for depression.

Participants will learn about the causes, symptoms and treatments of depression and will have an opportunity to discuss confidentially the results of their written tests.

A presentation on depression will be given in UU 220 between noon and 1 p.m. (See related story below, right.)

Incorporating interviews with prominent scientists, documentary footage from author Rachel Carson, whose 1962 book "Silent Spring" warned of the dangers of contamination, radiation and electromagnetic exposure to find the causes of breast cancer, "Rachel’s Daughters" addresses environmental racism, inequalities in research funding and disparities in cancer rates among women of color, and the investigations of personal female battles to stay healthy. "Rachel’s Daughters" offers a scientifically rigorous and intensely affecting view of this growing epidemic," said Susanne Kelley, coordinator of Women’s Programs.

"The film underscores the dangers of industrialization and an inspiring rallying cry for those working to change current views about women’s health," Kelley said.

The program is sponsored by Student Life and Leadership, Women’s Programs, and Cal Poly Action. For more information, call Kelley at ext. 6-2600.

Julio Iglesias added to Cal Poly Arts Lineup

Grammy winner Julio Iglesias will perform as part of Cal Poly Arts’ Center Stage series at 8 p.m. Oct. 29 in the Christopher Cohan Center’s Harman Hall.

In 1983 Iglesias received the first and only Gold album awarded a male artist ever to a performer by the Guinness Book of World Records for selling more records in more languages than any other musical artist. Iglesias’ latest Spanish-language album, "Noche De Cuatro Lunas," is a collaboration with such contemporary Latin music composers and producers as Robi Rosa, Alejandro Sanz, Zenet di Espanol and Estefan.

The Latin Academy of Recording Arts and Sciences named Iglesias Man of the Year.

Tickets are $56 and $75.75.

Francis Jared Holley

Jerry Holley, former registrar and director of admissions, died Aug. 29 in Redmond, Ore. Holley served as registrar from 1961 to 1968 and as director of Admissions until 1983, when he retired. Holley graduated from Cal State Fullerton in 1959 with a bachelor’s degree in psychology and philosophy.

Holley was a member of the University Police, at ext. 6-6806 or djanderv@calpoly.edu. E

Funds available for Faculty Development

The Faculty Development Program provides an opportunity for probationary faculty members to receive funding for research and other professional development activities. The program is modeled after similar programs at other universities that have been shown to have the ultimate goal of helping them achieve tenure and promotion processes.

The Spring 2002 Faculty Development Program will accept applications Oct. 11-31. Award recipients will present "What’s Love Got to Do With It," a candid discussion about domestic violence, 1-3 p.m. Oct. 17 in 219 Counselors from the San Luis Obispo Women’s Shelter will talk about dating and violence.

Statistics show that, worldwide, one in three women experiences some form of violence, said Susanne Kelley, coordinator of Women’s Programs.

"Domestic violence is not just a husband-and-wife issue," said Kelley. "Abuse is seen in many forms other than physical; sometimes it is verbal, and sometimes it is emotional."

Participants will learn to recognize the signs of abuse and methods of prevention. The counselors will also talk about roommate abuse, an often unspoken problem for college students.

To register for the workshop, call Kelley at ext. 6-2600. D

Domestic violence to be focus of Oct. 17 event

In observance of national Domestic Violence Awareness Month, the Campus Violence Prevention Program will present "What’s Love Got to Do With It?" a candid discussion about domestic violence, 1-3 p.m. Oct. 17 in 219 Counselors from the San Luis Obispo Women’s Shelter will talk about dating and violence.

Statistics show that, worldwide, one in three women experiences some form of violence," said Susanne Kelley, coordinator of Women’s Programs.

"Domestic violence is not just a husband-and-wife issue," said Kelley. "Abuse is seen in many forms other than physical; sometimes it is verbal, and sometimes it is emotional."

Cal Poly Report, October 10, 2001

Depression to be topic of talk Thursday at noon

Anne Goshen, an Employee Assistance Program counselor in the Campus Relations office, will talk on "Depression: There Is Hope and Help" at noon Thursday (Oct. 11) in UU 220.

"These are troubling times for all of us," said Goshen. "We may feel anxious, hopeless, powerless. For those who are already coping with their own or a loved one’s depression, it may seem overwhelming."

Anyone interested in learning more about coping with the depression that can follow traumatic events as well as understanding and managing other types of depression should plan to attend the presentation.

For more information, contact the Counseling Services Office at ext. 6-2611.

Ticket information

Tickets to the performances listed in today’s Cal Poly Report are available at the Performing Arts Ticket Office at ext. 6-2787 or by calling 1-800-888-TIXX. Call 232-2787 for group rates.

The van serves commuters working in the Santa Maria area van pool Two vacancies have opened up in the van pool from the Santa Maria area. The van serves commuters working 8 a.m.-5 p.m., and the cost is approximately $56 a month.

For more information, contact Deb Anderson, Coordinator of commuter and access services with the University Police, at ext. 6-6806 or djanderv@calpoly.edu. E

Telecom presentations set for October, November

Facilities Planning has scheduled three presentations to give the campus community an opportunity to learn about Telecom, a project to upgrade the university’s telecommunications infrastructure.

The presentations will be held 10 a.m.-noon on Tuesday, Oct. 16; 2 p.m. and 6:30 p.m. Nov. 29, all in UU 219. The presentations will be delivered by in all state-owned buildings will be upgraded over a two-year period beginning January 2002. Each classroom and computer lab will be equipped or upgraded with voice, video and data connections.

The project will affect the library, information technology center, core academic buildings, faculty and staff offices and other support services. For more information, contact Leslie Anne, project information coordinator for Facilities Planning, at ext. 6-6806 or lanne@calpoly.edu. D
CAL POLY REPORT, OCTOBER 10, 2001

Founders Celebration Colloquium, Procession

President Baker moderates the Founders Colloquium, "Educating a Diverse Population for the Nation's Science and Technology-based Economy." Panelists were Rita Colwell, director, National Science Foundation; Gary Bloom, president and CEO, Veritas Software; David Baltimore, president, Caltech; and Richard DeMillo, vice president and chief technology officer, Hewlett-Packard.

Colloquium panelists (left to right): Gary Bloom, David Baltimore, Rita Colwell, President Baker, and Richard DeMillo.

Academic Senate Choir and Industrial Engineering Professor Unny Menon carries Cal Poly's Centennial mace, crafted by Art and Design Professor Crissa Hewitt, during the procession.

The procession winds down Perimeter Road toward Dexter lawn.

Colly Baker and Jim Jamieson (right), Centennial Celebration consultant, join other university delegates in the procession.

ASI President Angie Hacker addresses the audience during the Founders Convocation.

Founders Celebration continues with food, fun and games

President Baker (front, center) with Rita Colwell, director of the National Science Foundation (left), State Sen. Jack O'Connell (rear center), and Laurence Gould Jr., chair of the CSU board of trustees.

University delegates, faculty and staff members, students and alumni attend the Convocation.

Procession marshals Sonja Glassmeyer, professor of kinesiology, and Brent Hallock, professor of soil science.

“Townball" players and spectators had a "ball."

The barbershop quartet Grand Avenue serenades students during the All-University Picnic.

**Funds available for Faculty Development**

The Faculty Development Program provides an opportunity for probationary faculty members to receive funding for research and other scholarly activities with the ultimate goal of helping them achieve tenure and promotion processes.

The 2001 Faculty Development Awards Program offers a basic mini-grant, travel to professional conferences, and for funds to assist with research for faculty members for assigned-time awards (four to eight units per quarter).

The deadline for submitting applications is Nov. 8. For program guidelines, information and applications, stop by the Campus Relations office in Room 114 in the Health Center.

**Commuters needed for Santa Maria area van pool**

Two vacancies have opened up in the van pool from the Santa Maria area.

The van serves commuters working 8 a.m. to 5 p.m., and the cost is approximately $56 a month.

For more information, contact Deb Anderson, coordinator of commuter and access services with the University Police, ext. 6-6680 or djanders@calpoly.edu.

**Film 'Rachel's Daughters' to be shown Oct. 24**

In observance of national Breast Cancer Awareness Month, Women's Programs will screen "Rachel's Daughters," a film about breast cancer, on Oct. 24.

After the film, which shows at 5:30 p.m. in Phillips Hall in the Performing Arts Center's Christopher Cohan Center, attendees are invited to stay for refreshments and a discussion.

"Rachel's Daughters" was made by the Oscar-winning filmmakers of "In the Shadow of the Stars," a documentary that follows a group of women breast-cancer activists who are either fighting or have survived the disease and are on a mission to spread the word about the causes of breast cancer.

The result is "Rachel's Daughters," a documentary that has been called an engrossing detective story that details and analyzes the science and politics of this epidemic that strikes one in eight women.

"Seeing themselves as "spiritual heirs" of author Rachel Carson, whose 1962 book "Silent Spring" warned of the dangers of DDT exposure, the women in the film focus on issues such as chemical contamination, radiation and electromagnetic exposure to find the causes of breast cancer.

"Rachel's Daughters" addresses environmental racism, inequalities in research funding and disparities in cancer in women of color, and tracks the effects of social biases on cancer incidence and health care delivery.

"Interpreting incorporators with prominent scientists, documentary footage from high-cancer-rate areas, and the investigations of personal experiences to battle healthy, 'Rachel's Daughters' offers a scientifically rigorous and intensely affecting view of this growing epidemic," said Susanne Kelley, coordinator of Women's Programs.

The film is a powerful look at the epidemic and an engaging detective story that details and analyzes the science and politics of this epidemic that strikes one in eight women.

The program is sponsored by Student Life and Leadership, Women's Programs, and Crime Action Now. For more information, call Kelley at ext. 6-2600.

**Domestic violence to be focus of Oct. 17 event**

In observance of national Domestic Violence Awareness Month, the Employee Assistance Program will present "What's Love Got to Do With This?," a candid discussion about domestic violence, 11:30 a.m. to 1 p.m. Oct. 17 in 210 Counselors from the San Luis Obispo Women's Shelter will talk about dating and violence.

"Statistics show that, worldwide, one in three women experiences some form of abuse," said Susanne Kelley, coordinator of Women's Programs.

"Domestic violence is not just a husband-and-wife issue," said Kelley. "Abuse is seen in many forms other than physical; sometimes it is verbal, and sometimes it is emotional."

Participants will learn about recognizing the signs of abuse and methods of prevention. The counselors will also talk about roommate abuse, an often-ignored problem for college students.

The Employee Assistance Program will be offered in Room 114 in the Health Center.

**Leaves needed for California military leave program**

Easy eligible state employees may donate vacation credit and sick leave to help him remain in full-pay status during an extended absence.

Those interested in donating leave should contact Edith Griffin-Shaw in Faculty Services at ext. 6-5220 or by e-mail.

CSEA employees in units 2, 5, 7 and 9 can also donate leave. The cap for medical donors is 30 hours. Other state employees may donate up to 16 hours sick leave and/or vacation for a fiscal year in increments of one hour or more.

**Francis Jared Holley**

Jerry Holley, former registrar and director of admissions, died Aug. 29 in Redmond, Ore. Holley served as registrar at Cal Poly from 1961 to 1968 and as director of Admissions until 1983, when he retired.

Francis Jared Holley

Ticket information

Tickets to the performance are $65 and $75. For information, call Kelley at ext. 6-2600.

**Depression Screening Day Thursday at UU, Rec Center**

All employees, students and family members can learn about the signs and symptoms of depression and participate in a free, confidential screening as part of National Depression Screening Day Thursday in Philips Hall.

The program is sponsored by Health and Counseling Services and the Employee Assistance Program and will be held in the UU Plaza area and in front of the Recreation Center. Representatives from those offices will be on hand 10 a.m.-2 p.m. distributing materials and administering confidential, written self-tests for depression.

Participates will learn about the causes, symptoms and treatments of depression and will have the opportunity to discuss confidentially with a mental health professional the results of their written tests.

A presentation on depression will be given in UU 220 between noon and 1 p.m. (See related story below, right.)

**Depression Screening Day**

National Depression Screening Day, held each day during Mental Health Awareness Week, inaugurated the concept of mental health screenings.

"Depression is a medical illness, not a weakness, and treatments are available," said Kelley.

Those who are clinically depressed often feel that the pleasure has gone out of their lives, have thoughts of death or suicidal behavior and have trouble sleeping or eating. Additional symptoms can include thoughts of death and suicide, loss of interest, inability to concentrate, and restlessness or decreased activity.

A presentation on depression screening, contact the Employee Assistance Program at ext. 6-40-05 (6-0372) and Counseling Services at ext. 6-2511.

**Scholarship winners choose College of Agriculture**

Cal Poly's College of Agriculture is the college of choice for several of the 2001 Calcot-Seitz Directors' Award winners.

For 22 years, the Calcit-Seitz Foundation of Bakersfield has awarded scholarships to incoming Cal Poly students majoring in agriculture from California and Arizona.

This year, of the record 17 scholars totaling $51,000, six were awarded to incoming Cal Poly students.

Two of the Cal Poly winners earned the Calcit-Seitz Directors' Award, which honors the top students from each state.

Jason Ghilarducci and Blake Wilbur each received a scholarship and a Directors' Award.

Ghilarducci, a junior transfer student from Tulare Western High School, is majoring in agribusiness.

Honorree Greg Gonzalez, Michael Newo, Dimitri Ramirez and Peter Rinklerek also joined the College of Agriculture this fall quarter as Calcit-Seitz scholars.

"We may feel depression, we may feel hopeless, we feel poweress, for who are already coping with their own a loved one's depression, you may feel overwhelmed," said Holley.

Anyone interested in learning more about coping with the depression that can follow traumatic events as well as understanding and managing other types of depression should plan to attend the presentation, part of the university's observation of National Depression Screening Day.

Gholley's talk will explain how to recognize the symptoms of depression and the factors that can cause depression, how to help those -- including yourself -- who are suffering, and how to determine if professional help is needed.
Hoffman determines age of oldest settlement in NE Asia

In collaboration with Chinese earth scientist, Professor Ken Hoffman has determined that ancient stone tools found in northern China more than two decades ago are 1.36 million years old.

Fixing the age shows that the tools were made by human beings, not animals, and marks the earliest known presence of people who have suffered cardiac arrest. When applied to the patient's chest, the device allows the nurse to assess the heart rhythm and—if appropriate—prompts the user to deliver a "biaphasic" electronic shock in an attempt to restore an acceptable heart rhythm.

Two automatic external defibrillators are in police vehicles, and a third is kept in reserve for use at campus events.

"The use of such equipment, training and emergency services is expected to provide significant benefits to the community regarding serious medical emergencies," Chief of Police Tony Ailts said.

**Choirs to perform fall concert Oct. 27**

The Cal Poly choirs will perform selections in a variety of styles at their annual fall concert Oct. 27.

The concert, at 7:30 p.m. at the First Baptist Church in San Luis Obispo, will feature PolyPhonics, The University Singers, Cal Poly Vocal Jazz, and the barbershop quartet Here Comes Treble and Grand Avenue.

The program, which will include works by Mozart, Brahms, Stephen Chatman and Gabriel Faure and spirituals arranged by Moses Hogan, Music Professor Thomas Davies, will be accompanied by Susan Azarett Davies and the University Singers will be accompanied by Katherine Harvey, both members of the Music Department.

The concert is sponsored by the Music Department, College of Liberal Arts and Instructional Related 4-credit vehicles. For more information, call ext. 6-2406.

**Wine tasting among Extended Studies courses**

Extended Studies is offering October and November workshops ranging from wine and beer tasting to computer software.

- **Introduction to Flash 5.0**, 6-9 p.m. Wednesday, Oct. 17, will focus on), cover stage, tools, symbols, grids, guides and layers. Students will work with drawing and painting using the oval and rectangle tools, brushes and fills as well as exploring movie properties and using keyframes, frame rate and editing frames.
- **Microsoft Access for Your Office**, 6-9 p.m. Wednesday, Oct. 24, will cover database design and database creation techniques.
- **Microsoft PowerPoint**, 6-9 p.m. Thursday, Oct. 25, will cover database design and database creation techniques.
- **Microsoft Word**, 6-9 p.m. Thursday, Oct. 25, will cover database design and database creation techniques.

The first workshop, on Oct. 17, will be 6-9 p.m. The second, on Oct. 18, will be 11 a.m.-noon. Both workshops will be in Room 229-E in Faculty Offices East.

For more information on Area Ethnicology, go to the General Education Web site at www.calpoly.edu/gened for descriptions of courses.

**J.P. Morgan, Latin, jazz and gypsy influences**

The combination of styles spawned by J.P. Morgan, Latin, jazz and gypsy influences has produced "dawg" music, a blend of swing, bluegrass, Latin, jazz and gypsy influences...
Position Vacancies

STATE: The official listing of staff and management vacancies is posted at least two weeks prior to closing dates on Cal Poly's Web site at www.calpoly.edu. (Select "Employment" on the Cal Poly links drop-down box.) As a courtesy to our on-campus employees, job vacancies also are published in the Cal Poly Report. Positions marked with an asterisk indicate that qualified on-campus applicants in bargaining units 2, 7, and 9 will be given first consideration. Job applications must be received in Human Resources, Admin. 110, by 5 p.m. on the closing date.

Ag Ambassadors gather at Cal Poly

More than 60 Cal Poly Ag Ambassadors took time out from a recent training retreat on campus to pose for a picture under some of Cal Poly's Centennial Celebration banners.

Grisman . . .

'Campus Invasion' planned to promote ASI

ASI is planning a "Campus Invasion" on Monday (Oct. 15) and Oct. 18 to give students and the faculty and staff an opportunity to learn about ASI and its various programs and services.

The two-day event will feature a variety of activities, including live music, carnivals, games and virtual skateboard, lawn bowling and free snacks.

Representatives from Poly Escapes, the McPhee's Games Area, student government, Club Services, ASI Events, Recreational Sports and Children's Programs will be on hand to provide information and answer questions.

The event kicks off at 11 a.m. Monday on Dexter Lawn, where tents will create an "ASI Village." Stop by and throw a Frisbee to get a temporary tattoo, enjoy free popcorn and lemonade, and enter the drawings for a variety of giveaways.

Prom 7 to 9 p.m. Monday, two cast members from the "Real World" television show will be at the Cal Poly Theatre. Syra from the "Real World Boston" show and Julie from "Real World New Orleans" will talk about their life experiences and the time they spent on "Real World." Their talk is intended to help college students relate to such topics as diversity, getting along in a new environment, being open to new experiences, and the value of education.

ASI Events will present the band Two-A-Day during university hour, 11 a.m. to 1 p.m. on Oct. 18 in the UU Plaza. ASI Village will be set up in the plaza area, offering another afternoon of festival-style activities.

ASI: "We're inviting the entire campus community to spend time playing, eating and seeing firsthand the programs and services that ASI has to offer," said ASI President Angie Hacker. "We want to raise awareness about ASI and its four facilities—the UU, the Recreation Center, the Orfalea Family and ASI Children's Center, and Sports Complex.

For more information, call Corey Reihl, ASI vice president, at ext. 58526, or Diana Cozzi, ASI events coordinator, ext. 67-0077.

DATELINE

($) Admission charged

Cal Poly celebrates a century of service

Cal Poly faculty members, students, staff, alumni and honored guests marked 100 years of service to California and the nation with the university's Founders Celebration on Sept. 27-28.

The two-day celebration commenced Thursday evening with a colloquium, which brought together leaders from academia, government and the private sector. Cal Poly President Warren J. Baker moderated a panel discussion featuring David Baltimore, Nobel Prize laureate and president of Caltech; Gary Bloom, a Cal Poly alumnus and president and CEO of Veritas Software; Rita Colwell, director of the National Science Foundation; and Richard DeMillo, vice president and chief technology officer of Hewlett-Packard.

The colloquium topic, "Edu­cating a Diverse Population for the Nation's Science and Technology-based Economy," prompted a wide-ranging conversa­tion. Panelists brought the perspectives of national science policy, higher education and industry to bear in commenting on this important national challenge. The panelists also discussed ways in which universities, industry and government can work to ensure that a new generation of innovators, problem solvers and leaders is educated for a century increasingly dependent on science and technology.

An academic procession and convocation followed on Friday morning to commemorate Cal Poly's rich history as a center of learning. Under a canopy on Dexter Lawn, members of the campus community, alumni and guests assembled for the Founders Convocation. The convocation celebrated Cal Poly and its special place in California and higher education. It also marked a recommitment to the fundamental purpose of American education.

The more than 1,000 participants and guests at the convocation included representative­es from universities, colleges and institutions around the world. President Baker shared reflections on Cal Poly's first century and expressed appreciation to the university's faculty for establishing a distinctive tradition of teaching and learning that retains critical relevance to the needs of a new century. President Baker was joined in conferring honorary doctorates on David Baltimore and Rita Colwell by Lawrence K. Gould Jr., chair of the CSU Board of Trustees, and CSU Chancellor Charles B. Reed. Baltimore delivered the event's keynote address, "Dual Roles for Universities: Generating Knowledge and Jobs."

An All-University Picnic, held at the Sports Complex, rounded out the festivities with music, games, sporting events, picnic fare and a 100-foot cake. More than 5,500 students, faculty and staff members, alumni, and community members joined in the afternoon celebration. (For more Founders Celebration photos, please see page 4.)
