on five areas to best address what it considers the county's most pressing health and human-service needs:

• Promoting healthy lives;
• Supporting work and self-sufficiency;
• Meeting life's basic needs;
• 'In the county's most pressing health and human-service needs:'
• Strengthening the community,

Pledge forms, instructions and other information about the United California State Employees Campaign are being distributed to departments through cam-

pau. Foundation and ASI employees will receive their United Way forms from their department's campaign chairman.

Employees who wish to donate to vic-

tims of the Sept. 11 attacks can do so by check or online through The September 11 Fund established by the United Way of New York City and The New York Community Trust. Checks payable to United Way, 2 Park Ave., New York, NY 10016. To donate that same amount online, go to www.september11fund.org.

Anyone with questions about the State Employees Campaign can call Bob Anderson in Public Affairs at ext. 6-1511. Foundation employees should call Kim Miller in Foundation Human Resources at ext. 6-1212, and ASI employees at ext. 6-5751.

Honored Alumni ... 
Continued from page 2

Culver & Associates Inc., a real estate brokerage firm, where he still serves as president. He was one of two grand un-

shals at the 2000 Cal Poly Homecoming Parade.

University Center for Teacher Education: Don Morris earned a bachelor's degree in 1952 and a master's in 1959, both in physical education. Morris attended Cal Poly on an athletic scholarship. After earn-

ing a bachelor's degree, he volunteered for the U.S. Navy and became a naval aviator. He served for 40 years in the Navy Reserve, retiring in 1990 with the rank of com-

mander. After returning to Cal Poly, his master's work's sent him to UCLA to earn a doctorate. A longtime Cal Poly professor, Morris also served the university as person-

nel director, housing director and dean of extended education. He was recently in-

ducted into Cal Poly's Athletic Hall of Fame for setting records in hurdling as a freshman. He serves on the board of direc-

tors of the Cal Poly Alumni Association and the California State Senior Olympics. Mor-

ris and his wife, Jean, have established three endowments at Cal Poly: one in the Un-

iversity Center for Teacher Education, another in the Kinesthetic Education Department and a third in physical education.

• Honored Alumni Distinguished Ser-

vice Award recipient: Everett Chandler is a former Cal Poly professor and dean.

He earned an A.B. degree from UC Berkeley in 1939, completed graduate work at UC Berkeley in 1940, and earned a doctorate from Michigan State University in 1969. From 1940 to 1941 he served as an administrative analyst for the California State Personnel Board. After a four-year stint in the U.S. Army Air Corps, he re-

turned to work for the state of California, this time as a management analyst. The job led to his post at Cal Poly as dean of students from 1951 to 1978. Although tire-

ied, he maintains strong ties to Cal Poly and supports the Athletics and Ethnic Stud-

ies programs.

The Honored Alumni Award was estab-

lished more than 30 years ago. It recognizes alumni who have proved themselves exem-

plary in their fields or in service to the university.

• Cal Poly Alumni Association's Distinguished Service Award recognizes exceptional service to the university or the alumni association.

Position Vacancies ... 
STATE: San Luis Obispo State, United Way drives aid neighbors in need
Cal Poly's 2001 United California State Employees Campaign and the United Way campaign for State and Found-

ation employees are beginning and will run through Nov. 16.

In an effort to encourage employees to give through payroll deduction, cash or check to any tax-exempt non-

profit organization, wherever it might be.

United Way of San Luis Obispo County manages the State Campaign in the county, and donations not specified for another organization go to the local United Way. Of every dollar donated to the local United Way, almost 99 cents remains in the county. The funds are dis-

tributed among more than 50 programs that aid county residents in need.

Once again this year, the San Luis Obispo County United Way is focusing

Cal Poly selects eight Honored Alumni for 2001

Cal Poly has selected eight alumni — all leaders in their fields with close ties to the university — to be honored during Home-coming festivities Nov. 9-11. The six colleges and the University Center for Teacher Education have named their Honored Alumni for 2001, and the Alumni Association has chosen two from the College of Science and Engineering.

D. Anderson, Service Award recipient

• College of Agriculture: George Foster earned a Bachelor of Science degree in poultry science in 1969. He is the son of Max and Verda Foster, founders of Foster Farms, the largest poultry company in the western United States with 16,000 employees. Foster is a strong supporter of College of Agriculture programs and has contributed to the college's student scholarships, studio computer classrooms, poultry faculty positions and poultry science complex operations. He has served as a member of the Animal Science Department Advisory Council since 2000 and is currently a member of the College of Agriculture Dean's Advisory Council. His wife, Sue, is also a graduate of Cal Poly.

• College of Architecture and Environmental Design: Emanuele Barelli earned a bachelor's degree in architecture in 1970. As a principal with barelli architects inc., he is responsible for technical supervision and production of all projects. He has worked on large-scale institutional and commercial projects with varying degrees of complexity, from small townhouses to multi-story hotels and office buildings. Barelli is president of the College of Architecture and Environmental Design Foundation and serves as a member of the college's Dean's Advisory Council and Cal Poly's Alumni Board.

• Orfalea College of Business: Michael Deisenroth earned a bachelor's degree in finance administration in 1976. He began his career with Anixter as a communciation cabling specialist. In 1995 he started his own company, Conant Lk Markeering, focusing on data networking products. Although now semi-retired, he remains active as a technical consultant. He is working with SBC Communications, the parent company of PacBell, as a business analyst on new product methods and procedures. His wife, Sue, earned a bachelor's degree in biology from Cal Poly in 1976. Both Mike and Sue are strong supporters of Cal Poly and serve on the Orfalea College of Business Campaign Committee.

• College of Engineering: Paul Borden- son Jr. is a 1976 electrical engineering graduate. He is vice president of engineering and the co-founder of Broad- communications Systems Inc., a supplier of open fiber channel fabric systems that provide the "intelligent backbone" for storage-area networks. He is credited with putting together the core team that formed the company, and he was instrumental in developing the product strategy, business strategy and business plan. He has more than 20 years of industry experience at San Microsystems, Data-Link Systems and Intel. He serves on the College of Engi- neering Dean's Advisory Council and the California Engineering Centennial Committee. His recent commitment of $6 million to Cal Poly is enabling the college to build a new engineering student projects center.

• College of Liberal Arts: Margie "Peggy" Petronen earned a bachelor's degree in social sciences in 1959, a master's degree in education, a general secondary credential, and a credential in speech and personnel services. In 1988 she received the first Cal Poly President's Arts Award, recognizing her many contri- butions to the community and the university. She and her husband, Gerry, a retired Cal Poly electronics teacher, have contributed to the arts community with volunteer work and financial contributions. They have been involved with the San Luis Obispo Symphony, the Symphony Association, Cal Poly, the Arts Vocal Ensemble and the Cuesta Master Chorale. She cur- rently serves as a member of the College of Liberal Arts Advisory Board.

• College of Science and Mathematics: Libby L. Lovelace earned a bachelor's degree in physical education in 1950. He began his career in education at Imperial High School and went on to become that school's director of athletics and varsity football coach. In 1957, he became presi- dent of Culver Farms Inc., a diversified farming and cattle operation that he later sold to Fresh Pick, a subsidiary of Parex Corp. In 1958 he formed Culver Enter- prises Inc., a company that owned and managed commercial real estate properties until 1978. He founded and continues on page 6

Yahood rates Cal Poly a top-100 'wired college'

Yahoo! Internet Life Magazine has rated Cal Poly among the top 100 'wired colleges' for its internet technology and services. The campus was rated 71st among more than 200 'wired colleges' surveyed in the spring.

The magazine, which appears on the web at http://www.yahoo.com, primarily rates and ranks top-tier universities for access to high-speed internet and computer technologies. The university was rated highly for Computer and Information Technology Services, the parent company of PacBell, and for its website, http://www.calpoly.edu.

For more information, contact Anderson and Foster at ext. 6-6680 or djanders@calpoly.edu.

Emergency preparedness information now online

The campus Risk Management Office has made available online several sites that provide emergency procedures information:

A photo essay on Italy's island

Lakeman took the photos for a book she is writing with Sardinian archaeologist Giovani Lilliu, known as the father of modern archaeology on the island. She tells me that far distant time, I could manifest the spirit of an ancient island: "Terracotta Mask"

"Small Venice Oltrarno Bronze Boat with Deer and Bird Motif"

A photo essay on Italy's island of Sardinia by Architecture Professor Sandra Davis Lakeman will be published in the fall of this year. The essay is entitled "Legacy in Stone: Sardinia's Ubiquitous Towers" and will be featured in the November-December issue of Archaeology magazine.

Rental unit available for faculty, staff member

The Cal Poly Housing Corp., which is working to acquire single-family residences to supplement the university’s Faculty-Staff Housing Program, has a property available to rent.

The single-family residence is one of two properties managed by the corporation. It has two bedrooms, one bath and a two-car garage and includes stove and refrigerator. Lawn care, water, and trash service are included. Other utilities are the responsibility of the renter. The home rents for $1,400 a month and is available now.

The Housing Corp. plans to purchase homes that have been donated to the university if they are deemed appropriate for rental units.

“A critical component in the development of the Faculty-Staff Housing Program is the determination of eligibility criteria,” said Bob Ambach, associate executive director of the Foundation. “The Housing Corp. is in the process of establishing such criteria in concert with university personnel. Until a formal eligibility policy has been adopted, any current, full-time employee of the university, ASI or Foundation may apply.”

For more information, e-mail Ambach at ranmbach@calpoly.edu.

Open forums planned for V.P. finalists

Two candidates for the position of vice president for administration and finance will be interviewed on campus in the next several days. Students and faculty and staff members are encouraged to attend the open forums and meet the candidates.

- Gregory R. Fox, vice chancellor for finance and operations, University of Minnesota-Duluth, is on campus today and Thursday (Oct. 31-Nov. 1). An open forum is scheduled 1-2 p.m. Thursday in the Veranda Cafe.
- Kevin Attenon, vice president for finance and administration, Jackson State University, Jackson, Miss., will be interviewed Monday and Tuesday (Nov. 5-6). An open forum will be held 1-2 p.m. Tuesday in UU 220.

Motor sport to be focus of photography exhibit

A retrospective exhibit of work by internationally renowned sport photographer Jesse Alexander will be featured in the next University Art Gallery show, Nov. 5-Dec. 7.

Considered by some to be “the Ansel Adams of motor sports,” Alexander began his career in 1953, when he traveled to Mexico to photograph La Carrera Panamericana, the legendary car race held in Mexico throughout the early ‘50s. In 1954, on a trip to Europe, he photographed the Formula One races.

His work has been seen in Car and Driver, Road and Track, and Automobile magazine. In 1965 he covered Le Mans’ 24-hour race for Newsweek, and in 1967 Sports Illustrated published his photos with a feature on Giacomo Agostini, the world champion motorcyclist.

Alexander will hold a book signing 5-6 p.m. Nov. 8. An artist’s reception will follow in the University Art Gallery in the Dexter Building.

For more information on Alexander and to see some of his work, visit his Web site at jessealexander.com.

The University Art Gallery is open 11-4 p.m. every day and 5-7 p.m. Wednesdays. For more information, call the gallery at ext. 6-1571.

Friday panel to discuss journalism, terrorism

A panel discussion on journalism and terrorism will be held at 4 p.m. Friday (Nov. 2) in the first-floor rear lobby of the Kennedy Library.

Discussion will focus on aspects of terrorism and media reporting since the Sept. 11 attacks in New York and Washington, D.C.

Panelists include Sandra Duerr, vice president and executive editor at The Tribune, and Sonia Slutzki, managing editor of the Musung Daily.

The panel will be Mark Sappenfield, a correspondent with The Christian Science Monitor, who is appearing at Cal Poly in conjunction with the touring exhibit “This is woman’s hour...” - The Life of Mary Baker Eddy, on display in the library.

Hiram Davis, dean of library services, will open the program. Marceli DeLacy, international speaker on the life of Eddy, will give brief remarks and serve as moderator. She will discuss Eddy’s purpose in founding The Christian Science Monitor in 1908 when she was 87. The Christian Science Monitor has been published continuously for 93 years and has won numerous awards, including six Pulitzer prizes.

The exhibit on Eddy’s life was first displayed as an “untold story” in the Women’s Rights National Historical Park. Visitors Center in Seneca Falls, N.Y.

Since then, it has toured major metropolitan and university libraries, statehouses and museums throughout the United States. The exhibit’s stop at Cal Poly is part of a yearlong tour of Southern and Central California.

Complimentary copies of The Christian Science Monitor will be available at the reception.

The exhibit will be open during regular library hours. For more information, contact Lynda Alamo in the Kennedy Library at ext. 6-5785 or lalamo@calpoly.edu.

Ticket information

Tickets to the performances listed in today’s Cal Poly Report are on sale at the Performing Arts Ticket Office 10 a.m.-6 p.m. weekdays and 10 a.m.-4 p.m. Saturdays. Call ext. 6-2767, or fax your order to ext. 6-6008.
Molière's 'The Miser' to open theatre season

The Theatre and Dance Department will open its 2001-2002 season Nov. 8 with Molière's classic comedy "The Miser.

The story centers around Harpagon, a miser who tries to hold onto his money while his family desperately tries to spend it.

Al Schnupp, Theatre and Dance Department chair and director of the production, calls "The Miser" "one of theater's most enduring comic creations."

Performances are at 8 p.m. Thursday-Saturday, Nov. 8-10 and Nov. 15-17. Tickets cost $7-$8.

For more information call the Theatre and Dance Department at ext. 6-1465 or visit its Web site at cla.calpoly.edu/thtrdanc.

One-woman show to look at reproductive technology

University of Maryland professor and resident playwright Susan McCully will present "Cyber Becomes Electra: An Errata(c)a," a one-woman performance, at 6 p.m. Thursday (Nov. 1) in Room 218 in the Davidson Music Center.

The Women's Studies Program is presenting the event, described by the author as a "dizzying verbal ride through eight characters and their modern madness."

Moving through topics ranging from reproductive technologies to "cyborgs," McCully explores the trials and tribulations of Electra, a woman who subjects herself to increasingly technocratic forms of reproduction so that she might "be a mother."

McCully's fast-paced performance explores the seemingly limitless domination of female bodies through reproductive technology.

For more information, contact the Women's Studies Program at ext. 6-1525, stop by Room 25-H in Faculty Offices North, e-mail womst@polymail.calpoly.edu or visit the Web page at www.calpoly.edu/~womst. [10]

‘Weird science’ comes to Cal Poly Sunday afternoon

Emmy Award-winning madcap 'scientist' Paul Zaloom will perform "Beakman Live!" at 3 p.m. Sunday (Nov. 4) in the Christopher Cohan Center's Harman Hall.

Zaloom, the host since 1992 of "Beakman's World," an educational science show for children on CBS, is appearing as part of Cal Poly Arts' Family Series.

As Beakman, Zaloom plays a humorous, inquisitive scientist who answers viewers' questions about science and nature. Currently in syndication across the country, the show was nominated for numerous Emmys, including Best Children's Show.

"Beakman Live!" features large-scale, wacky science demonstrations with audience participation. As Beakman says, "We're not putting the fun in science, we're just letting the fun that's in science out."

Zaloom has received four National Endowment for the Arts fellowships, three Henson Foundation grants, and a Guggenheim Fellowship to fund additional development of his work.

Tickets are $15, with student discounts available.

Reception planned to honor Teacher of the Year

The agricultural education student organization Alpha Tau Alpha, the Agricultural Education and Communication Department, and the University Center for Teacher Education invite the campus community to a reception and barbecue Tuesday (Nov. 6) honoring San Luis Obispo County 'Teacher of the Year' Bob Cummings of Shandon High School.

The reception will begin at 5:30 p.m. in Room 203 of the Dairy Science Instructional Center. The barbecue begins at 6 p.m.

Those who plan to attend are asked to e-mail Bill Kellogg at bkellogg@calpoly.edu by Friday (Nov. 2).

CPR schedule change

Please note that the Cal Poly Report is changing the deadline for two upcoming issues because the campus will be closed for Veterans' Day, Monday, Nov. 12, and for the Thanksgiving holiday, Thursday and Friday, Nov. 22-23.

Items are due to Public Affairs by 10 a.m. Tuesday (Nov. 6) for the Nov. 14 issue and by 10 a.m. Monday, Nov. 19, for the Nov. 28 issue. Items can be e-mailed to polymail@calpoly.edu, faxed to ext. 6-6533, or mailed to Public Affairs, Heron Hall. For more information, call ext. 6-1511.

Homecoming...

Continued from page 1

conflicts will take place at the UU Mus­

Two events were added this year on Nov. 11 to honor Cal Poly faculty members. The College of Architecture and Environ­

mental Design will host a gathering in celebration of the life of founding Dean George Hauslein. The event runs 11 a.m.-

1 p.m. in the College of Architecture and Environmental Design Gallery, Room 105.

The Orfalea College of Business is hosting a gathering at Vista Grande 11 a.m.-

12:30 p.m. to honor Eugene O'Connor for his 38 years of distinguished service. Reser­

vations are required. For reservations, e-mail sedar@calpoly.edu or call ext. 6-2951.

Check out the full schedule of events for Homecoming 2001 online at the Cal Poly Alumni Association Web site: www.calalumni. calpoly.edu
Yahool rates Cal Poly a top-100 'wired college'

Yahoo! Internet Life Magazine has ranked Cal Poly among the top 100 'wired colleges' for its internet technology and services. The campus was ranked 71st among almost 700 institutions with 10,000 'wired colleges' surveyed in the spring.

The magazine, which appears on the Web and in print, gave Cal Poly top marks for technical support and good marks for online resources available to students, Internet-based instruction and e-learning, and ease of access to information through the Web. Vice Provost for Information Technology Services Jerry Hanley said being recognized as a university leader in the use of technology was a 'great achievement, although we can do better'.

'While Cal Poly is nationally recognized for the quality of its academic programs,' Hanley said, 'this shows we can compete with other universities on the basis of the access to technology we offer students.' He said he values the survey because it 'really emphasizes the student perspective.' He said his office will use the survey as one way to measure the service it provides and as a benchmark for improvement.

Infrastructure and wireless access were two areas in which Cal Poly scored lower. The university's wireless-access technology, for example, was not online when the survey was taken. A pilot system is now on hand in the Kennedy Library to help identify what support, including security, must be in place before wireless technology can be expanded to other areas.

The campus has also introduced a 'Web portal' (http://my.calpoly.edu) that individual students and eventually employees can personalize to gain direct access to the electronic information and services they want and need most often.

In addition, this year Cal Poly will significantly improve its computing network and develop a strategy to upgrade its student computing labs. The state of these labs was a factor contributing to the lower infrastructure rating.

The 'Wired Colleges' 2001 article, included in Yahoo! Internet Life's October edition, is available on the Web at http://syl.com/wiredcolleges/.

Commuters needed for North County van pool

'Some seats are available in a North County van pool that serves employees who work 8 a.m. - 5 p.m. The van picks up commuters at two locations in Atascadero: at St. William's Church at 7:20 a.m. and the Santa Rosa Park's Bldg at approximately 7:27 a.m. The maximum cost per month is $30 during the Cuesta Grade construction, which is expected to last another two years. According to Deby Anderson, coordinator of commuter and access services with the University Transportation, an average cost to drive alone is $228 per month, not including a parking permit.'

For more information, contact Anderson at ext. 6680 or danderson@calpoly.edu

Flu shot clinic to be Nov. 14

The Employee Assistance Program is sponsoring a flu shot clinic for employees and family members 11 a.m. - 1 p.m. Nov. 14 in UU 220. The cost is $15 per shot and can be paid by cash or checks. For more information, call Anne Goshen at ext. 63027.

Cal Poly selects eight Honored Alumni for 2001

Cal Poly has selected eight alumni — all leaders in their fields with close ties to the university — to be honored during Homecoming festivities Nov. 9-11. The six colleges and the University Center for Teacher Education have named their Honored Alumni for 2001, and the Alumni Association has chosen a couple for the John and Kaye Endowed Service Award recipient.

• College of Agriculture: George Foster earned a Bachelor of Science degree in poultry science in 1959. He is the son of Max and Verda Foster, founders of Foster Farms, the largest poultry company in the western United States with 10,000 employees. Foster is a strong supporter of College of Agriculture programs and has contributed to the college's scholarship fund, studio computer classrooms, poultry faculty positions and poultry science complex operations. He has served as a member of the Animal Science Department Advisory Council since 2000 and is currently a member of the College of Agriculture Dean's Advisory Council. His wife, Sue, is also a graduate of Cal Poly.

• College of Architecture and Environmental Design: Emanuele Barelli earned a bachelor's degree in architecture in 1970. As a principal with Ankrom Moisan Associates Inc., he is responsible for technical supervision and production of all projects. He has worked on large-scale institutional projects such as high-rise buildings, oil platforms and nuclear-containment vessels. He has been involved in development of institutional, commercial, industrial and residential projects with varying degrees of complexity, from small-scale residential to luxury hotels and office buildings. Barelli is president of the College of Architecture and Environmental Design Foundation and serves as a member of the college's Dean's Advisory Council and Cal Poly's Alumni L. On the side, he is a real estate broker.

• Orfalea College of Business: Michael Deisenroth earned a bachelor's degree in finance administration in 1976. He began his career with Anixter as a communications cable installer in 1975. In 1978 he started his own business, Cal Poly ComLink Marketung, focusing on data networking products. Although now semi-retired, he remains active as a technical consultant. He is working with SBC Communications, the parent company of PacBell, as a business applications analyst. His wife, Sue, earned a bachelor's degree in biology from Cal Poly in 1976. Both Mike and Sue are strong supporters of Cal Poly and serve on the Orfalea College of Business Campaign Committee.

• College of Engineering: Paul Bonderson Jr. is a 1978 electrical engineering graduate. He is vice president of engineering and the co-founder of Broadband Communications Systems Inc., a supplier of open fiber channel fabric systems that provide the 'intelligent backbone' for storage-area networks. He is credited with putting together the core team that formed the company, and he was instrumental in developing the product, strategy and business plan. He has more than 20 years of industry experience at San Microsystems, Data-Comm Sales and Intel. He serves on the College of Engineering Dean's Advisory Council and the Orfalea Campaign Committee. His recent commitment of $6 million to Cal Poly is enabling the college to build a new engineering student projects center.

• College of Liberal Arts: Margie "Peggy" Peterson earned a bachelor's degree in social sciences in 1959, a master's degree in education, a general secondary credential, and a credential in physical education. Peterson earned her bachelor's degree in elementary education while working with the University Police, the average police officer making $5.50 per hour. She holds a master's degree in educational administration from Fullerton College.

• College of Science and Mathematics: Dr. Ron Culver earned a bachelor's degree in physics in 1960 and a master's degree in physics in 1968. He began his career in education at Imperial High School and went on to become that school's director of athletics and varsity football coach. In 1977, he became president of Culver Farms Inc., a diversified farming and cattle operation that he later sold to Fresh Pick, a subsidiary of Purex, Inc.

Lakeman took the photos for a book she is writing with Sardinian Professor Giovanni Lilliu, known as the father of modern archaeology on the island. The book is titled "Sardinia, the Spirit of an Ancient Island: The Art and Architectures of the Prehistoric and Nuragic Civilizations." The Nuragic period was 1800-238 B.C., ending when the Romans conquered the island.

"It occurred to me that if I captured the images with the same lighting conditions that appeared during that far distant time, I could manifest similar situations and set the same ambience as felt and enjoyed by the ancient Nuragic," Lakeman said.

Emergency preparedness information now online

The campus Risk Management Office has made available online several sites that provide emergency preparedness information.

Information on how to assemble a family emergency kit can be found on the office's "Family Disaster Supplying Calendar" page. The Personal Emergency Supplies publication provides information on assembling vehicle and workplace emergency kits, and a list of supplies recommended for each campus department is also included in the "Department Emergency Supplies Kit" site.

To access the information, go to the Risk Management Web page at http://risk.calpoly.edu and click on "Emergency Management Planning" on the left.

For more information, contact Anderson at ext. 6680 or danderson@calpoly.edu.

Flu shot clinic to be Nov. 14

The Employee Assistance Program is sponsoring a flu shot clinic for employees and family members 11 a.m. - 1 p.m. Nov. 14 in UU 220. The cost is $15 per shot and can be paid by cash or checks. For more information, call Anne Goshen at ext. 63027.

Cal Poly, Flextronics unveil new lab

A partnership between the Industrial and Manufacturing Engineering Department and Flextronics, an electronics manufacturing services provider with headquarters in Singapore, is helping students learn the intricacies of building electronic products.

The new "Product and Manufacturing Engineering Automation Laboratory" exposes engineering students to processes and procedures by which electronic products are built. The facility was funded by $100,000 in contributions and pledged gifts from Flextronics.

"Flextronics was instrumental in helping us develop the $500,000 in state-of-the-art electronics-automated manufacturing equipment from companies such as DEK and Heller Industries," said Mark Cooper, director of corporate relations for the College of Engineering.

"Because of our productive partnership with Flextronics, our students will gain an understanding of the specific electrical, mechanical, and manufacturing engineering and project management challenges involved in re-configuring a state-of-the-art assembly facility to manufacture a specific product." Cal Poly now has four electronic manufacturing engineers, manufacturing a modern surface-mount assembly facility.

Cal Poly volunteers raise $14,000 in walk

Cal Poly's "Team SLO But Sure" recently completed the Avon Breast Cancer Three-Day Walk and raised more than $14,000 for breast cancer research and education.

The Cal Poly team, sponsored in part by Women's Programs, included the father of modern archaeology on the island. The book is titled "Sardinia, the Spirit of an Ancient Island: The Art and Architectures of the Prehistoric and Nuragic Civilizations." The Nuragic period was 1800-238 B.C., ending when the Romans conquered the island.

"It occurred to me that if I captured the images with the same lighting conditions that appeared during that far distant time, I could manifest similar situations and set the same ambience as felt and enjoyed by the ancient Nuragic," Lakeman said.

Honored Alumni

Continued from page 2

Culver & Associates Inc., a real estate brokerage firm, where he still serves as president. He was one of two grand shalts at the 2000 Cal Poly Homecoming Parade.

University Center for Teacher Education: Don Morris earned a bachelor's degree in 1952 and a master's in 1959, both in physical education. Morris assisted Cal Poly on an athletic scholarship. After earning a bachelor's degree, he volunteered for the U.S. Navy and became a naval aviator. He served for 40 years in the Navy Reserve, retiring in 1990 with the rank of commander. He returned to Cal Poly in 1981 to assist his master's work and obtain a doctorate. A longtime Cal Poly professor, Morris also served the university as personnel director, housing director and dean of extended education. He was recently inducted into Cal Poly's Athletic Hall of Fame for setting records in hurdling as a freshman. He serves on the board of directors of the Cal Poly Alumni Association and the California State Senior Olympics. Morris and his wife, Jeannine, have established three endowments at Cal Poly: one in the University Center for Teacher Education, another in the Kinesiology Department and a third in the Athletic Operations.

• Honored Alumni Distinguished Service Award recipient: Everett Chandler is a former Cal Poly professor and dean. He earned an A.B. degree from UC Berkeley in 1939, completed graduate work at UC Berkeley in 1940, and earned a doctorate from Michigan State University in 1969. From 1940 to 1941 he served as an administrative assistant for the Michigan State Personnel Board. After a four-year stint in the U.S. Army Air Corps, he returned to work for the state of California, this time as a management analyst. The job led to his post at Cal Poly as dean of students from 1961 to 1978. Although tired, he maintains strong ties to Cal Poly and supports the Athletics and Alumni programs.

The Honored Alumni Award was established more than 30 years ago. It recognizes alumni who have proved themselves exemplary in their fields or in service to the university.

Culver & Associates Inc. Alumni Distinguished Service Award recognizes exceptional service to the university or the alumni association. I

Position Vacancies

•*3954 Tenure-Track, Department Head (12­month), Agriculture and Crop Science Department (ext. 2016). Closing date: Feb. 1, 2002.

State, United Way drives aid neighbors in need

Cal Poly's 2001 United California State Employees Campaign and the United Way campaign for CASF and Foundation employees are beginning and will run through Nov. 16.

The Cal Poly Foundation's annual campaign is designed to enable employees to give through payroll deduction, cash or check to any tax-exempt, non-profit organization, wherever it might be. United Way of San Luis Obispo County manages the State Campaign in the county, and donations not specified for another organization go to the local United Way. Of every dollar donated to the local United Way, almost 99 cents remains in the county. The funds are distributed among more than 50 programs that aid county residents in need.

Once again this year, the San Luis Obispo County United Way is focusing
