Enthusiastic Crowd Receives Cal Poly Home Concert

Sports Bulletin

Exploding with three triples and a home run, the Mustangs diamondball squad swept the Westmont college Warriors last Tuesday afternoon to set the Mustangs' winning record at 5-3.

Veteran catcher, Jim Eanishi, was voted the Victim of the Week, while Citro Remond, Dick Rogers, and Harry Jeter each tripled singles to conclude the Mustang hitting spree.

The Poly battery of Don Chambers, John Freddi and Paul Patrick combined mound effort with a bang. Finishing the game in the ninth inning, the Poly went ahead 2-1 to win, 7-1. The Mustangs' victory bid, Westmont's, however, was ended by the Poly's tremendous effort.

Westmont 110 000 000 0 3
Cal Poly 310 315 006 0 4

The Poly battery, finished the Mustangs' Lightweight weight chemotherapy.

President's Committee

Chandler says that this is not a recession proof but that the classes are divorced so that students and faculty will have something to work on in Poly Royal. Students are expected to be available for work almost all the time.

Class Dismissed Thursday; Not For Vacation, Says Dean

For Distribution Next Month

"The El Roden yearbook should be here for distribution by the middle of May, according to Ken Kitch, head of the Ag Journalism department.

With the theme "Growing in Poly," the book has 116 pages of Cal Poly activities, new features and a cover and form of advertising to make the book look like a better designed, widely read, 32-page summer "handbook for Poly Royal." No names for the "casting call" will be taken after the books have been printed and gone to the printers.

"This year's staff was the smallest we've had," says Kitch. "Of course, they have their experience." The staff is likely to increase to "a normal size" time this quarter or next fall.

Next quarter's work will be a 12-week project, and the Poly Royal editors Frank Reichenbacher and Bill Webster, keep the students working hours on the book to make it possible that special events could go to Bill Angell, who designed the book, and Jack Randles, who worked on the page layout. Also, Dr. Fryer, who did the design of the cover, concludes the project.

Wheelbarrow Into Town

Polytechnic Takes Secretary, Wheelbarrow Into Town

When the 16th in the series of articles on the early history of Cal Poly, the Wheelbarrow Into Town article delves into a unique moment in the school's past. It was in 1903, a year before Polytechnic was founded, that a Miss Lake, a talented musician who played the piano, was challenged to a game of musical skill against the school secretary. Miss Lake won and the secretary was forced to be pushed to town in a wheelbarrow. This incident highlights the playful and light-hearted nature of early Polytechnic life, where such events were a part of the social fabric.

During this time, entertainment and social activities were centered around the "pavilion," a large rambling structure on the northwest corner of Toro and Monterey, which served as a crude theater, a center for various performances, and an entertainment venue. It had been built for agricultural fairs, but also served as a crucible for the theatrical activities of the area. The plays were staged by road companies, and the audience was composed of a mix of students and locals.

The pavilion was located near the Musical-Square-Incident, where many social events and performances took place. The pavilion was the center of social life for many years, serving as a venue for plays, concerts, and other cultural events. The pavilion was a reflection of the social life of the time, where music, theater, and social gatherings were a central part of the cultural scene.

The pavilion remained a popular venue for entertainment until the 1920s, when it was replaced by a new structure. The new structure was a more modern and spacious venue, but it lacked the charm and character of the old pavilion. The old pavilion was a symbol of the social life of the time, and its loss was a blow to the community.

Today, the old pavilion is remembered as an important part of the community's history, and efforts are being made to preserve its memory. The pavilion is a reminder of the rich cultural heritage of the area, and its legacy continues to be felt in the community.

Clarence Brown Cal Poly Gift Headquarters

Clarence Brown, Cal Poly's leading credit jeweler, now offers a special sale with a 25% discount on watches. This includes Omegars-Lincoms-Witneye, Bulova-Hamilton-Diain, and more. The sale is available on watches for Graduation-Anniversary-Birthday, with payment terms as low as $1.00 a week, no interest, or carrying charges. For more details, visit 962 Higuera or phone 1312.
Bay Area Trip

Mustangs Travel To Meet Dons, Bears and AFB

By Earl Hodges

Traveling to the Bay area the Mustang diamondmen play three games in four days. They will face the Dons of the University of California Friday, the Bears of Stanford Saturday, and the AFB of airmen on Sunday. Returning home Coach Tom Lee's men will meet Cal Wednesday.

"Many of the outstanding college teams are participating in the Intercollegiate Golf tournament this weekend," commented Lee.

Trinclads Enter Four Way Meet In Santa Barbara

Coach Jim Jensen's trinclads move into Santa Barbara tomorrow for a four-way meet with Santa Barbara College, Long Beach state and Whittier colleges.

The Mustang track squad, short on manpower in some events, has had trouble attracting support for the past few weeks. The team has been hampered by broken ankles and the lack of practice time, but are determined to make a good showing in Santa Barbara.

"If the team keeps up the pace it is now setting, I think our squad has a good chance to come first place toppers in the CCAA round robin," said Jensen. "I would say there are no real standouts on the team but our six men are a very well-balanced squad," continued Jensen.

Santa Barbara looks as the team to beat in the finals, but Cal Poly could very well repeat the upset they pulled a few weeks ago. The team has been hampered by a few practices but are determined to make a good showing in the CCAA tournament.

The Mustangs have beaten Cal State Loma Linda, 6-0; Fresno State, 5-1; and Santa Barbara, 6-4. There is no league standing for the trinclads and Jensen is pleased with the showing of distance man John Allen who took first place against San Francisco state last weekend. Junior Rudy Brooks is improving fast as he recently broke the school record in the country with a time of 8.7.

"I think the team has to have hurdlers Pete Godinez in shape for the CCAA meet scheduled for May 7 at Santa Barbara."

The Mustang coach listed the following probable tracksters for the San Diego meet: Sprints, Dick Avard; 810, Jim Goodlin, Charles Robson; distances, Allen, 440, Ted James, Bob Haffron; 440, 800, Cliff Bays, George Underschultz; pole vault, Ken Martin and Dick Laffang. Godinez has been practicing matches well.

Spartans At Poly Last Season Meet

In the last meet of the 1965 gymnastic season, Coach Glenn Noble's Poly gymnasts competed against the San Jose State Spartans tomorrow night in Grandstand gymnasium. Events are scheduled to get under way at 7 p.m., and according to announcements, there will be no admission charge.

Having been faced with a rebuild ing job this season, Coach Noble has molded his squad around Don Brundage, Bob Goodman and Bill Brodough.

"For the past few weeks we have had trouble attracting in enrollments; attendance has been worked over," said Noble. "However taking all into consideration I think the team is in good shape and I have hopes of winning the dual meet against the Spartans," commented Noble.

According to reports, Mustang rope climber Don Longridge took a fourth place in the 50 foot rope climb at the annual NCAA meet in Los Angeles. Longridge's time for the climb was 5.8 seconds which is quite good for a small college.

Another Glenn and Gold way to be honored is Bill Brodough who has shown very good form in the free exercise this season. "Headed by Bill Brodough, we also have a fine group of gymnasts for the trampoline," concluded Noble.

Wisconsin, with 16 points, won the NCAA team title in 1964. Maryland was second with 17.

COSTUMER KITTEN - Beating Master Tom Last presents Peace Goddess with the trophy for the enchanted Cat Poly hopes of the kittens. Goddess has now lighter and has won two of her first three races, and finished with a live win, three lost and one draw record.

Racquetmen Face COP Tigers On Poly Court

Cal Poly's highly ranked tennis squad will be going after its fifth win in seven matches as it meets College of the Pacific in a practice game here this afternoon. Ed Jorgenson's men have been defeated twice in six games this season. The Mustangs have won two meets this season, defeating Pomona College 11-0 and 10-0, and the University of Santa Barbara 9-0.

"If the team keeps up the pace it is now setting, I think our squad has a good chance to come first place toppers in the CCAA round robin," said Jorgenson. "I would say there are no real standouts on the team but our six men are a very well-balanced squad," continued Jorgenson.

Films In Library Would Stretch To Santa Barbara

If all the motion picture film in the Cc Poly audio-visual library were laid out in a continuous strip, it would stretch from San Luis Obispo to Santa Barbara.

"There are over 600 films in the library and this estimate is in the neighborhood of 600,000 feet of film. Marvelous silent, audio-visual libraries.

Futuristic Theme Displayed By Poly Flowermen

"Imagination at Work" will be the theme of the actual flower show to be held on the campus in conjunction with Poly Royal next week.

The overall design of the flower show will be futuristic and will have two feature displays: An inside waterfall entitled "Flying Saucers" and courtyard display consisting of a water fall and pool.

ELECTRONICS MAJOR DEVELOPING DEVICE FOR BETTER PHOTOS

Rene DeLaBrindade, senior electronics engineering major from Van Nuys, is designing his senior project and "fit it" with photography.

Rene is developing a combination photo-density meter and interval timer for his senior project.

"Good pictures," says Rene, "depend on the experience and guess work of the photographer. This device will select the correct type of photographic paper and automatically adjust a timer for the correct exposure. This eliminates guess work and makes it possible for a fairly experienced photographer to make good pictures.

After graduation Rene hopes to market his device. If he can apply it to color photography, he feels that it will have considerable commercial value.

Full Support For Bob Grime

For the first time since 1961-62 Cal Poly has an engineering student for student body president. The student body elected Robert E. Grime, junior electrical engineering major from Glendale, to assume the duties of his new position at the end of this school year in June.

Junior animal husbandry major Ron Kellogg topped the vice-presidential ballot with a slim victory. In the race for scribe, it was junior animal husbandry major from Salinas. Ron Kollogg.

Neither did Martinos until he began taking notes. The stamp is either a valuable freak or a poacher counterfeit. ’

For the educational angle, he suggests that stamp collecting can be a hobby ia educational as well as practical: "If you point out that philately is a hobby and a source of historical, political, and geographical knowledge," he adds, "it is a reasonable chance of coming across something of value."

"Valuable stamps may be lying dormant on old letters up in your attic. Martine, who makes a point of telling students who place an ancient automobile or a pipe, or crossed eyes, on a source of historical, political, and geographical knowledge."

"Stamp collecting again their value generally through scarcity, age, cancellation, or Freak prints. Martine's first became interested in 1840, at the very inception of this program in the United States."

Graduate of 1907 To Receive Annual Alumnus Award

George Wilson, 1907 Poly graduate and recently retired vice-president of the International Correspondence schools, will receive the "Alumnus of the Year" award for 1955, according to Letter from Cal Poly Alumni association.

Wilson, a former teacher in the temple, will be the second recipient of the award, which consists of a framed certificate and an engraved plaque.

FOOD FOR THOUGHT

Cantaloupe—This popular fruit derives its name from Cantalupo Castle, in the town of Arona, Italy. It was first grown on that estate from seeds imported from Armenia.

"I've got it...and I'M's got everything!"

Stamps gain their value generally through scarcity, age, cancellation, or freak prints. Martine notes.

This might suggest that if the stamp on the next letter you get shows Thomas Jefferson with a pipe or crossed eyes, or a poacher counterfeit, you might be philatelists. His beginning collection from his grandfather. Since then he has acquired thousands of dollars. All stamps can be found in the stamp catalogue to allow for estimates the value of any.

Wanted to run the United States post office for over 2,000 years he became a hobby ia educational as well as practical: "If you point out that philately is a hobby and a source of historical, political, and geographical knowledge."
