Second summer meeting of the Academic Senate in August, 1989.

VII. Adjournment: time certain 4:55pm
ACADEMIC SENATE
OF
CALIFORNIA POLYTECHNIC STATE UNIVERSITY
San Luis Obispo, California

Background Statement:

In 1988-89, the State Faculty Support Grant (SFSG) program was funded for the first time. In August of 1988, the Executive Committee of the Academic Senate approved provisional guidelines for the first grant cycle.

The Academic Senate revised its bylaws so that the Research Committee could be elected and be eligible to review SFSG proposals in the next cycle. The Senate also asked the Committee to review and revise the guidelines as appropriate, and to report on these changes.

The Research Committee has reviewed the guidelines and revised them to bring them into compliance with Chancellor's Office regulations promulgated after the interim guidelines were approved. Other than these changes, no substantive changes have been made.

AS-____-89/
RESOLUTION ON
STATE FACULTY SUPPORT GRANTS

Whereas the State Faculty Support Grant guidelines have been revised by the Academic Senate Research Committee; and

Whereas the changes have been minor, intended to bring the interim guidelines into compliance with late instructions from the Chancellor's Office; and

Whereas the interim guidelines adopted last year by the Executive Committee of the Academic Senate functioned well to assure the responsible distribution of State funds for research, scholarship, and creative activity, be it therefore

Resolved: that the Executive Committee of the Academic Senate approves the attached guidelines of the State Faculty Support Grant for distribution to faculty.

Proposed by: Research Committee
On: June 6, 1989
PROCEDURES FOR REVIEW OF
STATE FACULTY SUPPORT GRANTS

California Polytechnic State University
San Luis Obispo, California

Preliminary guidelines were drafted by the Academic Senate Research Committee and approved by the Executive Committee of the Academic Senate. After the June 14, 1988, coded memorandum AAP 88·26 clarified that the review process must be developed by an elected committee, the Academic Senate revised its bylaws to make the Academic Senate Research Committee an elected body.

The Academic Senate Research Committee (ASRC) revised the original guidelines (Attachment A). The goals of the program as defined in the criteria laid forth by the Chancellor's Office and the State Legislature guide the determination of proposals recommended for award. No set proportions are used for numbers of awards for minors, grants, summer fellowships, or quarter leaves. There are no set percentages or minimum awards for each school.

Guidelines will be issued to faculty in the Spring Quarter. Faculty will submit proposals by Monday, October 2, 1989 to the Graduate Studies, Research, and Faculty Development Office via the department chair and the school dean.

Each proposal will be reviewed first by two peer reviewers. These peer reviewers will be selected by the school/library representative on the ASRC. Copies of proposals will be sent to peer reviewers by Monday, October 9 with evaluation instructions (Attachment B: memo of instructions and evaluation form).

Peer reviewers evaluate proposals and send evaluation sheets to the Graduate Studies and Research Office by Monday, October 23. A log of proposals will be compiled and distributed to the committee with copies of peer reviewer sheets for that school. The committee convenes to discuss the proposals. If possible, one meeting is allotted to discuss the proposals from each school and the library. Schools are scheduled for presentation starting with those having the smallest number of proposals.

Each school/library representative presents a case for each proposal from that school. The representative summarizes the quality of the proposal and additional criteria for each proposal, identifying special characteristics such as lack of access to external grants, affirmative action status, stage of career/non-tenured status, cost-effectiveness of proposal, and relationship to needs of the state. The committee then judges each proposal on overall merit and grant worthiness and makes (1) unconditional recommendation to fund, (2) conditional recommendation to fund, or (3) recommendation to deny.

After all eight sets of proposals have been discussed, the unconditional recommendations are funded. If there are more unconditional recommendations for funding than dollars available, the committee will start with those that received the lowest scores for quality and eliminate according to those having the fewest special characteristics. The committee will identify alternates for awards in case some recipients turn back their awards.

If funds remain after all unconditional recommendations have been awarded, the conditional recommendations are reviewed and ranked paying particular attention to the special criteria as above. Those with the higher number of special characteristics get priority. If funds remain after these proposals are funded, another grant cycle will be initiated in the Winter Quarter, but only for summer fellowship awards.

Recommendations are made to the Vice President for Academic Affairs by Tuesday, November 21. Recommendations for reduced awards are negotiated by the Associate Vice President. Award notifications are made by the end of the Fall Quarter.
1989/90
STATE FACULTY SUPPORT GRANTS

Schedule of Events

6/15/89 Guidelines distributed.
7/18/89 Adopted by the Academic Senate Executive Committee (as Senate).
9/12/89 Meeting with faculty to discuss guidelines - Fall Conference.

10/2/89 Campus deadline.
10/3/89 Proposals sent to ASRC representatives to select peer reviewers.
10/9/89 Proposals sent to peer reviewers with rating instructions
10/9/89 - 10/23/89 Peer reviewers review proposals.
10/23/89 Peer reviewers send evaluations to Graduate Studies and Research Office.
10/25/89 Log of proposals and peer review evaluations sent to ASRC.
10/27/89 - 11/17/89 Committee discusses proposals.
11/21/89 Recommendation for awards, alternates, denials sent to Vice President for Academic Affairs
12/8/89 Award notices sent out.

Subject: STATE FACULTY SUPPORT GRANTS

Attached are guidelines for the State Faculty Support Grant competition for 1989-90. We are distributing them to you now to allow you as much time as possible to prepare your proposals before the deadline of October 2, 1989. We anticipate that the campus will have $150,000 again next year to distribute in this program.

A Fall Quarter review cycle is mandatory if we are to allow adequate time for you to spend the funds during the 1989/90 academic year. Funding is sufficient to make up to 40 awards.

If you have questions, please contact me at extension 1508. Further information about this competition will be given during Fall Conference at the Workshop on Professional Development Activities, 3:30 p.m. on Tuesday, September 12, in University Union 207.
GUIDELINES FOR
STATE FACULTY SUPPORT GRANTS
1989/90

The purpose of the State Faculty Support Grant (SFSG) Program is to support research, scholarship, and creative activities that will help faculty remain current in their disciplines and that will contribute to knowledge that will strengthen California socially, culturally, and economically. Faculty defined as members of Unit 3 are eligible to compete for funding. Non-tenured faculty and those in disciplines with few outside resources for research, scholarship, and creative activity are particularly encouraged to apply. Awards will seek to complement and promote the affirmative action and educational equity goals of the CSU system.

Instructional improvement grants per se are not allowed. That is, the program is intended to fund traditional research, scholarship, and creative activities. The grant activity must be related to the generation of new knowledge and learning or, in the case of the arts, to experimentation in techniques and in the production of art works. In the proposal you will need to demonstrate how the research, scholarship, or creative activity will improve you as a teacher and benefit the instructional program. For all State Faculty Support Grants, the overriding criteria for support will be how the proposed activity ultimately enhances student learning. Deadline for proposals is October 2, 1989.

Types of Support

The State Faculty Support Grant program supports activities which advance the discipline or field. These activities will use the approaches of a discipline or field to create new and generalizable knowledge, or to develop new art forms or expressions. The program offers three types of support:

- Minigrants of up to $5,000, to be expended during the 1989/90 academic year. These grants will allow faculty to test promising ideas and obtain preliminary results prior to seeking external support for an activity. Funds may be used to buy adequate computer time, to pay undergraduate and graduate students as research assistants, to purchase secretarial assistance for typing manuscripts and proposals, or for other similar purposes. Minigrants may not be used to buy equipment (i.e., items that cost more than $500 and that last more than four years), or to buy assigned time.

- One month (or in unusual circumstances, two month) summer faculty fellowships in the summer of 1990 to provide support to inaugurate, continue, or complete a project of creative scholarship or research. Summer fellowships must begin after the end of the Spring Quarter and before June 30, 1990. While you are holding the Summer Fellowship, you will not be eligible for other additional employment through the CSU or its auxiliaries. (Summer fellowships are taxable income.)

- A quarter leave at full pay in Winter or Spring Quarter, 1990, to develop or complete an appropriate activity related to one's academic discipline. Those accepting a quarter's leave will be required to teach the next two quarters in normal rotation immediately following completion of the leave. These guidelines supersede policies stated in CAM 386.6. Assigned time of less than a full quarter's leave is not an option in the SFSG competition.

You may write a proposal for a single activity that requests support from two different grant categories. For example, you can request a quarter leave, with a minigrant to supply you with materials and supplies. Please note, however, that such a request may become expensive. The review committee will consider cost as an element in its prioritizing of proposals. Also note that it may be difficult logistically to complement a summer fellowship that runs through the middle of August, 1990 with a minigrant that must be expended fully by June 30, 1990.
Criteria

Proposals will be evaluated on the following criteria:

SIGNIFICANCE: (Including the importance of the topic; role in advancing the
field or discipline; need for or anticipated benefit from the creative activity;
contribution of the creative activity in fostering excellence, vitality, and diversity
in the arts; impact on student learning; relationship to strengthening the
curriculum; contribution to knowledge that will strengthen California socially,
culturally, and economically; and relationship to the affirmative action goals of
the university.) MAXIMUM SCORE - 5 POINTS

METHODOLOGY: (Including completeness and precision in detailing such facets as
compatibility with stated objectives; overall design or organization; knowledge of
related work or implementation of newest findings, time schedule, cost
effectiveness of budget. For creative activities, criteria include adequacy of plan
for commitment of imagination, thought, and expression in an articulated
direction; demonstrated ability to sustain creativity as evidenced by previous
work.) MAXIMUM SCORE - 7 POINTS

QUALIFICATIONS OF PRINCIPAL INVESTIGATOR AND ADEQUACY OF
FACILITIES: (Including consideration of how well prepared the principal
investigator/scholar is to pursue the goals of the grant; considers qualifications,
promise, and stage of career development of the principal investigator; the
availability of facilities, equipment, or other resources necessary to meet the
objectives of the grant. For creative activities, criteria include adequacy of the
material conditions necessary to facilitate the creation, production, presentation,
or exhibition of innovative and diverse work.) MAXIMUM SCORE - 5 POINTS

POTENTIAL: (Including consideration of the project's potential for new
contributions, or promise of leading to external funding.)
MAXIMUM SCORE - 3 POINTS

Proposal Contents

Each proposal should include a detailed narrative describing the work, a time line for completion
of the project, and a statement about how the resources requested are necessary to complete
the project. With the exception of summer fellowships, all funds and salary support must be
utilized by June 30, 1990. Proposals should cover the following topics in order, as appropriate
to field or discipline:

1. A description of the project's goals and objectives in non-technical language.

2. A discussion of significance of the project. You should answer the following questions
   as they are appropriate to your proposed activity.
   a. What is the importance of the problem or need for the creative activity?
   b. How does it relate to teaching assignment? specific courses? new courses?
   c. How does what you propose enhance student learning?
   d. What role, if any, will the project play in supporting the university's affirmative
      action goals?
   e. If project is a creative activity, how will it foster excellence in, or increase
      appreciation of, the arts?
3. A detailed plan of work, including methodology, tasks, and time schedule.
   a. What previous work gives evidence of this project's feasibility?
   b. How is the design related to objectives?
   c. What are the tasks? time schedule?
   d. What facilities or material conditions are needed? are they available?
   e. What help is needed? What undergraduate and/or graduate student assistance is needed?

4. A description of how research findings will be used, whether for publication in refereed journals, for presentation in artistic exhibitions, for development of curricular materials, or for other purposes.

5. For minigrants, a budget in which line items are clearly related to the activity of the grant. The budget should follow the format below, listing only the applicable categories. Include an explanation for all categories of support requesting more than $500.

| GRAND TOTAL                     | $____  |

Minigrants must be expended before the end of the fiscal year. Normal state deadline for purchase orders, paying student assistants, and so on, will require that some expenditures be encumbered well before the end of the fiscal year. Ask your department head/chair to help you plan your grant expenditures.

For a summer fellowship, the amount for a one-month award will be the same as the salary payment for the last month (June) of the current academic year. The budget line item for quarter leave salary is calculated at the replacement level; the figure of $12,850 should be used in all cases. Faculty members who receive quarter leaves, however, will receive their normal salary for the quarter.

If you have submitted or will be submitting this proposal to any other source, internal or external, for full or partial funding, please explain the circumstances fully here.
APPENDIX A:

A brief biography, including a personal bibliography, listing universities attended, years, degrees, major field, pertinent work, related research, creative activity, or scholarship. A vita or resume must be attached.

APPENDIX B:

List and explanation of the assigned time, sabbaticals, grants, both internal and external, and other monetary awards you have received in the past five years for research, scholarship, and creative activities. You should discuss the availability of grants in your field, specifically in relation to this project. Is outside funding possible at this stage? Later? You may wish to include information about other grant writing efforts you have made or plan to make in relation to your current proposal. If you received a grant for this activity already, how does this proposal differ from it and relate to that grant?

The above narrative and two appendices should be stapled to the cover page, abstract, and significance forms to complete your proposal. The proposal, with original signatures and nine copies of all materials, is due in the Graduate Studies, Research, and Faculty Development Office (Administration 317) by 5:00 p.m. on Monday October 2. If you have questions, please call extension 1508.

Review of Proposals

All proposals will be reviewed first by two peer reviewers and then by the Academic Senate Research Committee. Announcements of awards will be made by the end of the Fall Quarter. Minigrants will be effective immediately upon award. Quarter leaves will begin at the start of the leave period. Summer fellowships must begin after the end of the Spring Quarter and before July 31, 1990.

Reporting Requirements

Following termination of the grant, a final report with an extended (one to two page) abstract must be filed with the Office of the Associate Vice President for Graduate Studies, Research, and Faculty Development. This report will describe the impact of the results. The extended abstracts will be published in a collection to share the results of the projects with the academic community and others interested in the impact of the State Faculty Support Grant program.

Proposal Checklist:

- Cover page with signatures (Form SFSG1)
- Abstract (Form SFSG2)
- Significance and Impact Summary (Form SFSG3)
- Narrative
- Appendix A (Resume)
- Appendix B (Other grants)
Submit an original and nine copies to: Graduate Studies, Research, and Faculty Development Office, Administration 317, Ext. 1508

Deadline: October 2, 1989

Rev 6/5/89

SFSG 3
Memorandum

To: Peer Reviewer

Date: October 9, 1989

File No.: 

Copies: 

From: School Representative
Academic Senate Research Committee

Subject: STATE FACULTY SUPPORT GRANT PROPOSAL REVIEW

Thank you for agreeing to review State Faculty Support Grant proposals from your school. Attached you will find copies of the proposals for the State Faculty Support Grant Program from members of your school. Also attached are copies of the "Peer Review Evaluation Form" to be used to evaluate each of the enclosed proposals.

ROLE OF PEER REVIEWERS

Your role as peer reviewer is to evaluate each enclosed proposal utilizing the criteria listed on the review form, in the context described in this memo. Please fill out an evaluation form for each proposal and return all of them to the Graduate Studies and Research Office by Monday, OCTOBER 23rd, 1989. Meeting this deadline is very important because of the minimal time available to the committee to complete the review so that awards can be made by the end of the Fall Quarter.

Your evaluation and comments will be used in the deliberations of the Academic Senate Research Committee (ASRC), but will not be the sole criteria used for recommending proposals to be funded.

Please keep the proposals confidential. Since your evaluation is not used for personnel action, your written responses will be kept confidential. If a proposal is turned down, however, general comments about relative areas of weakness will be made without quotation or attribution. These comments will be drawn from the total review process, including the Academic Senate Research Committee's review, and will be shared with writers primarily so they can improve their proposals for future applications.

CRITERIA ON WHICH TO EVALUATE PROPOSALS

1. The "Peer Reviewer's Evaluation Form" itself contains the four criteria for review. Use these criteria as a checklist while reviewing each proposal. Total score possible varies for each criterion; maximum total score for a proposal is 20.

2. The overall purpose of the State Faculty Support Grant Program is to support research, scholarship, and creative activities that will help faculty remain current in their disciplines, pursue new ways to enrich
student learning, and contribute to knowledge that will strengthen California socially, culturally, and economically.

Instruction improvement grants, *per se*, are not allowed. That is, this program is intended to fund traditional research, scholarship, and creative activities of the University of California type. We are, however, required to demonstrate how such research strengthens our instructional program. Thus, the funded activity must be one relating to the instructional mission of the faculty member.

**PROCEDURES**

Please check one of the boxes near the bottom of the "Peer Reviewer's Evaluation Form" to record your evaluation of the overall quality of each proposal. If you believe a proposal is particularly strong or deficient in any of the four criteria, please note this in the "comments" section. Comments are essential for the Committee's deliberations.

Consider "quality" as an absolute term, but take it in the context of Cal Poly. That is, if you have three proposals to read, the proposals should not be rated in comparison to each other, but in terms of the quality of research you consider worthwhile and accomplishable at Cal Poly. Please do not rate all proposals high as a favor to your department or school. Last year, when some reviewers rated all the proposals they read as excellent, the university-wide review committee disregarded all their evaluations.

If you have any questions, please call me at or Bob Lucas at x1508.

2. Academic Planning Committee

a. Functions

The Academic Planning Committee is advisory to and reports to the Vice President for Academic Affairs. The committee is charged with the development of a comprehensive planning process for the ongoing assessment of both internal and external factors which influence the University. It is to provide advice and recommendations regarding the goals of the University and the most effective and orderly ways in which to achieve those goals. Specifically, the committee should strive to recommend any needed clarification and articulation of the philosophy of the University and its educational purposes; recommend mechanisms for systematically incorporating into the planning process pertinent internal and external data; propose programs, structures and support systems which are derivatives of the planning processes; recommend appropriate reference points for the evaluation of academic planning; and advise and recommend on other matters as requested.

b. Membership

Associate Vice President, Academic Affairs and University Dean (Chairperson)
Two faculty at large, chosen by the University President
Four administrators chosen by the Academic Vice President
Three faculty nominated by the Chair, Academic Senate
One student representative nominated by ASI President (annual appointment)

The term of office shall be three years. To ensure continuity of service, initial appointments will be for either one-, two-, or three-year periods. Subsequent appointments shall be for three-year periods.

c. Meetings

To be established by the committee.
Animal Welfare Committee

A. Functions

The Animal Welfare Committee (AWC) will:

1. Make written recommendations to the Associate Vice President for Graduate Studies, Research and Faculty Development regarding policy for Cal Poly's animal facilities and/or personnel training program, and reviews concerns involving the care and use of animals.

2. Review at least semiannually the institution's program for humane care and use of animals and inspect at least semiannually all of the institution's animal facilities, including satellite facilities.

3. Review and approve applications or proposals to the Public Health Service (PHS) related to the care and use of animals, or to proposed significant changes in the use of animals in ongoing activities, and suspend approval for the conduct of research involving animals that violates the campus principles for humane care.

4. Prepare reports of the Animal Welfare Committee evaluations and submit them to the Public Health Service via the Associate Vice President.

b. Membership

The Animal Welfare Committee is appointed by the President, and reports directly to the Associate Vice President as the President's designee. The Animal Welfare Committee membership consists of a minimum of the following:

1. Chairperson, nominated by the Associate Vice President for Graduate Studies, Research and Faculty Development.

2. One Doctor of Veterinary Medicine, with training or experience in laboratory animal science and medicine, who has direct or delegated program responsibility for activities involving animals at the institution, nominated by the Dean of the School of Agriculture.

3. Two practicing scientists experienced in research involving animals, one member to be nominated by the Dean of the School of Science and Mathematics and one to nominated by the Dean of the School of Agriculture.

4. One member whose primary concern is in a non-scientific area (for example, ethicist, lawyer, member of the clergy). This member is nominated by the Chair of the Academic Senate.

5. One individual who is not affiliated with Cal Poly in any way other than as a member of the Animal Welfare Committee, and is not a member of the immediate family of a person who is affiliated with the institution. This member is nominated by the Associate Vice President for Graduate Studies, Research and Faculty Development.

6. Campus Environmental Health and Safety officer (ex officio, non-voting)

An individual who meets the requirements of more than one of the above six categories may fulfill more than one requirement. However, the Animal Welfare Committee may not consist of fewer than five members.

The terms of service are three years, to be staggered so that no more than one half of the Animal Welfare Committee membership is new at any one academic year. Any member of the Animal Welfare Committee may be eligible for reappointment to multiple terms of office, consecutive or otherwise.
3. Athletic Advisory Commission

a. Functions

The Athletic Advisory Commission serves as an advisory body to the Vice President for Academic Affairs and the President. The commission shall be responsible for insuring that the goals of the athletic programs are consistent with the educational objectives of the University and that the educational pursuits of student athletes maintain priority over their involvement in intercollegiate sports. The commission shall inform the President of the state of the athletic programs and shall submit recommendations regarding any needed revisions in both policy and practice as they pertain to the programs.

Specifically, responsibilities of the commission shall include: 1) conducting a yearly review of both short and long-range plans of the intercollegiate athletic program including acquisition and allocation of resources; 2) reviewing the relationship between the Physical Education and Recreation Administration Department and Intercollegiate Athletics Department; 3) reviewing and making recommendations as appropriate to insure that the intercollegiate athletics program provides equity of opportunity for women and men; 4) reviewing the academic status and progress of intercollegiate athletes toward a degree and recommending any special programs designed to aid athletes in their educational pursuits; and 5) reviewing the athletic recruitment program.

b. Membership

The commission appointments are made annually by the University President from nominations as indicated below. The commission elects its own chairperson. Appointments may not include staff members of the intercollegiate athletics program or students participating on an intercollegiate team. Commission membership is as follows:

One representative from Academic Affairs area, selected from nominations by the Vice President for Academic Affairs
One representative from Administration, appointed by the President
One representative from the Student Affairs Division, selected from nominations by the Dean of Students Affairs
Six representatives from the Associated Students, Inc., selected from nominations by the ASI President
Three representatives selected from nominations by the Chairperson of the Academic Senate (at least two of which shall be teaching faculty)
The Head of the Physical Education and Recreation Administration Department
Faculty Athletic Representative(s)
The following are designated as ex officio nonvoting members:

(1) The Director and Associate Directors of the Intercollegiate Athletics Program.

(2) The Title IX Coordinator.

(3) Women's Primary Athletic Administrator.

The term of office will be two years. To ensure continuity of service, initial appointments will be for either two- or three-year periods. Subsequent appointments will be for a two-year period. No appointee will serve for more than six consecutive years.

c. Meetings

Meetings shall be held quarterly during the academic year or more frequently as scheduled by the commission chairperson. It is expected that the commission will meet at least once a year with the University President.
4. Campus Planning Committee

a. Functions

Each state university and college was required by resolution of the Trustees on May 12, 1961, to establish a committee whose basic membership and functions were prescribed by the Trustee action. The committee's primary function is to assist the President in the coordination, development, and control of a long-range plan for the physical development of the campus, within a framework of policy established by the Trustees of The California State University. The committee serves in an advisory capacity in relation to the following:

(1) Development and maintenance of a long-range plan for the physical development of the campus.

(2) Selection of sites for each new building and other physical facilities on any university-owned property.

(3) Review the work of the architects during the schematic drawings phase.

(4) Review of recommendations on the five-year and other long-range building programs.
(5) Review of all proposed projects to be constructed on the campus that will have an architectural and/or environmental impact. These projects will include, but are not necessarily limited to, structures, roads, walks, signs, etc.

(6) Study and review such other areas as may be delegated to it by the University President.

(7) Work with city and county planning commissions on matters related to campus development, zoning in areas surrounding the university, streets and highways leading to and from the campus, and other matters.

b. Membership

President (Chairperson)
Vice President for Academic Affairs (Vice Chair)
Vice President, University Relations
Dean of Student Affairs
One representative from School of Agriculture nominated by Dean
One representative from the School of Architecture and Environmental Design nominated by the Dean
Vice President for Business Affairs
Consulting Architect
Executive Dean, Facilities Administration (Secretary)
Facility Planner, Chancellor's Office
Representative, Academic Senate (nominated by the Chairperson of the Academic Senate)
Representative of the staff (appointed by the President)
Chairperson, Student Planning Commission
Director of Community Development, City of San Luis Obispo
Chairperson, Landscape Advisory Committee

Campus membership is appointed by the University President.

c. Meetings

Campus Planning Committee meetings are scheduled quarterly or more often if necessary.
26. Child Care Advisory Committee

a. Functions

The Child Care Advisory Committee serves as an advisory body to the President. The Committee shall be responsible for:

1. Developing policy for approval by the President regarding child care on campus.
2. Implementing Trustee policy regarding child care on campus.
3. Keeping the President apprised of child care needs of students, staff, and faculty.

b. Membership

The Committee appointments are made annually by the President from nominations indicated below. The Committee elects its own chairperson. Committee membership is as follows:

One representative from Business Affairs to be selected from nominations by the Vice President for Business Affairs.

One representative from the Student Affairs Division selected from nominations by the Dean of Student Affairs.

One representative from Academic Affairs, selected from nominations by the Vice President for Academic Affairs.

One representative selected from the faculty, nominated by the Chairperson of the Academic Senate.

One representative selected from nominations by the Children's Center Board of Directors.

One representative who is a student parent, selected by the Parents' Advisory Committee of the ASI Children's Center.

Two student representatives selected from nominations by the ASI President; at least one must be a current member of the ASI Finance Committee and one student, at large.

The ASI Business Manager or a representative from that office.

The following are designated as ex officio nonvoting members:

1. The Children's Center Director
2. A representative from the Psychology and Human Development Department.

Terms of office shall be for two years, except for the ASI student appointments. To ensure continuity of service, half of the initial appointments shall be for two-year appointments, and half shall be for three years; subsequent appointments will be for a two-year period. The student Finance Committee representative, whenever possible, should have a two-year term. The ASI student appointment designated as "at large" will be for a one-year term.

c. Meetings

Meetings shall be held quarterly during the academic year or more frequently as scheduled by the committee chairperson.

Added March 1988
10. El Corral Bookstore Advisory Committee

a. Functions

To assist in evaluating the effectiveness of bookstore operations and make recommendations on policy and major procedures for bookstore operations.

b. Membership

El Corral Bookstore Manager (Chairperson)
Vice President of Business Affairs
Two faculty representatives nominated by the Chairperson of the Academic Senate; to provide continuity, one faculty member will be nominated each year for a two-year term
One staff member appointed by the President for a two-year term
Four student members nominated by the President of the ASI; to provide continuity, each year two student members will be nominated for two-year terms

The committee is appointed by the University President and reports to the Foundation Board of Directors through the Foundation Executive Director.

Term of office shall be two years. It is recommended that no appointee serve more than two years.

c. Meetings

Monthly or more frequently as scheduled by the committee chairperson.
11. Energy Conservation Committee

a. Functions

The primary function of this committee is to solicit, evaluate, and recommend implementation of energy conservation practices for the entire university.

b. Membership

The membership of this committee is appointed by the University President and reports to the Executive Dean. The Director of Plant Operations is to be the Chair.

Director of Plant Operations (Chair)
Two representatives nominated by the Chair of the Academic Senate
One representative of Academic Affairs nominated by the Vice President for Academic Affairs
One representative nominated by the Dean of Student Affairs
One representative of the housing staff nominated by the Dean of Students Affairs
One representative of the University Union nominated by the Dean of Student Affairs
One representative nominated by the Vice President, Business Affairs
One representative nominated by the Executive Director, Foundation
Three representatives nominated by the ASI President

As other special purpose university energy conservation groups are formed and approved, they may make nominations for consideration by the University to serve on the Energy Conservation Committee.

With the exception of ASI representatives and the Chair, appointments will be for two-year terms with initial appointments by lot for one or two-year terms to provide staggered terms and continuity of representation.

c. Meetings

On call as the need arises
15. Foundation Food Service Advisory Committee

a. Functions

To assist in evaluating the effectiveness of campus food service operations and to make recommendations on policy and major procedures for food service operations.

b. Membership

Foundation Food Service Director (Chairperson)
One representative nominated by the Director, Health Services
One representative nominated by the Vice President, Business Affairs
One faculty representative nominated by the Chairperson of the Academic Senate
One staff member appointed by the President
Two student members nominated by the ASI President; to provide continuity, each year one student member will be appointed for a two-year term
Two campus resident students, nominated by the chairperson of the Interhall Council (annual appointment)

The committee is appointed by the University President and reports to the Foundation Board of Directors through the Foundation Executive Director.

The term of office shall be two years, unless specified otherwise.

c. Meetings

Quarterly or more frequently as scheduled by the chairperson.
Executive Order No. 290

THE CALIFORNIA STATE UNIVERSITY AND COLLEGES
Office of the Chancellor
400 Golden Shore
Long Beach, California 90802

Executive Order No.: 290
Title: Instructionally Related Activities Fee
Effective Date: March 28, 1978
Supersedes: No Previous Executive Order

This Executive Order is issued pursuant to action of the Board of Trustees in RFIN 1-78-1 part of which is codified in Title 5, California Administrative Code, Section 41800.2. The following procedures shall govern implementation of the Instructionally Related Activities fee in accordance with guidelines adopted by the Board of Trustees:

1. Upon a timely request therefor by the campus President, the Chancellor shall establish an Instructionally Related Activities (IRA) fee for the campus effective with the fall term 1978.

2. When so established, the fee shall be assessed of all regularly enrolled students. The fee shall be waived in cases where the Student Services fee is waived.

3. All funds collected by the campus shall be allocated to that campus and used solely for the support of instructionally related activities as defined in Education Code Section 89230 and by systemwide policy.

4. Income from the IRA fee as distinguished from other revenues shall not be expended on matters which are tuitional. Thus such income shall not be used to support faculty positions.

5. The level of the fee shall be established for each campus by the Chancellor upon recommendation of the campus President. Initially, the fee shall not exceed $10 per academic year and shall not be increased beyond the $10 level before the fall term 1981.

6. An advisory committee on instructionally related activities shall be formed on each campus to advise the campus President regarding both the level of the fee and allocation of fee revenue. The President shall establish the advisory committee with the number of students equaling the number of faculty and administrators combined. Faculty and administrators shall be appointed by the campus President after appropriate consultation. Student members shall be appointed by the President of the Associated Students according to established campus procedures. The President of the Associated Students or designee, as one of the student representatives, shall serve as Chair. On those campuses lacking an Associated Students' organization, procedures shall be developed by the campus President to provide for elected student representatives to serve on the advisory committee.

7. Should the campus wish to increase the fee beyond $10 per academic year in or after fall 1981 a student referendum, called by the advisory committee, shall be held. The referendum shall be advisory to the committee and the campus President. Referenda to augment or reduce the fee shall be held no more than once in three years.

8. The Associated Students will no longer be expected to provide support for instructionally related activities on a regular basis. Any contracts between the Associated Students and the
Executive Order No. 290

Campus concerning such funding should be reconsidered in light of the Instructionally Related Activities fee. It is understood, however, that the Associated Students may, at their discretion, support individual instructionally related projects.

9. When an IRA fee is implemented for a campus, the cost of insurance for extramural athletic activities formerly borne by the Associated Students of that campus (Education Code, Section 32220 et seq.; RFIN 61-3, October 6, 1961) shall be paid from the fee revenue.

10. Should any major change in instructionally related activities programming occur, the Chancellor, upon recommendation of the campus President, may reduce the fee to an appropriate support level.

11. Procedures for the collection and allocation of the IRA fee shall be developed by the Chancellor and issued by coded memoranda.

The provisions of this Executive Order and implementing procedures are to be reviewed by the Chancellor not later than fall 1981, and a report thereon is to be provided to the Board of Trustees.

Glenn S. Dumke, Chancellor

Date: March 28, 1978
20. Public Safety Advisory Committee

a. Functions

To make recommendations regarding safety policies and procedures which should be adopted to eliminate adverse health and accident producing conditions; to consider campus facilities and aspects of those facilities relating to safety hazards and recommend corrective actions prior to inspection visits by the responsible safety enforcement agencies; to review and recommend action on reports and requests made by the inspectors of safety enforcement agencies; to initiate and maintain a traffic management plan responsive to the needs of the campus and residential community contiguous to the campus and provide the campus with an annual appraisal of this plan; to evaluate and use statistics related to traffic movement and parking on campus toward making recommendations on policies for traffic safety; to promote a general awareness of campus vehicular and pedestrian traffic problems and traffic management plan changes; to promote compliance with all applicable state and local legislation pertaining to traffic safety; to evaluate available state and federal grant programs for promoting safety in all of its aspects both environmental and traffic; to review complaints and recommendations pertaining to traffic, parking, and other related safety issues; to recommend the establishment of programs to develop safety consciousness in the members of the campus community; to review other general campus law enforcement issues as appropriate.

It is anticipated that this committee will have two permanent subcommittees, one of which will deal primarily with environmental health and safety functions and the other which will deal primarily with parking and traffic safety matters.

The committee reports and makes recommendations to the President's Office.
b. Membership

Vice President, Business Affairs (Chair)
Executive Dean, Facilities Administration
Civil Engineering Department faculty member with traffic engineering expertise - nominated by the Dean of the School of Engineering
Director of Public Safety
Assistant Director, Police and Parking
Assistant Director, Fire Section, Public Safety Department
Director, Plant Operations
Assistant Director, Environmental Health and Safety Section, Public Safety Department
Assistant Director, Radiation Safety
Academic Senate - two representatives nominated by Academic Senate Chair
Staff - two representatives appointed by the President
Associated Students - two representatives nominated by the ASI President
Student Affairs Representative - nominated by Dean of Students
CSEA (Unit 2) representative - nominated by CSEA President
CSEA (Unit 5) representative - nominated by CSEA President
CSEA (Unit 7) representative - nominated by CSEA President
CSEA (Unit 9) representative - nominated by CSEA President
Foundation Representative - nominated by Foundation Executive Director
Academic Affairs Representative - nominated by the Vice President for Academic Affairs
Faculty member - nominated by California Faculty Association President

Terms of committee members, other than members by virtue of position held, are for two years.

c. Meetings

At least once a quarter, on call by the Chairperson.
25. University Union Advisory Board

a. Functions

The function of the University Union Advisory Board is to review and recommend policy, and give general direction to union management. The detailed responsibilities and background on the UUAB are contained in Administrative Bulletin 87-2, University Union Advisory Board Operational Guidelines.

b. Membership

The UUAB is a 19-member board comprised of 15 voting members, nine of whom are students, with six non-student voting members. There are four nonvoting members representing the Foundation/University Union management:

- UEC Chair or Designee
- ASI President or Designee
- One representative from each School Council (7)
- University Business Affairs
- Staff representative
- Student Affairs representative
- Two Academic Senate representatives
- Alumni representative

The following are designated as nonvoting members:
- ASI/UU Director
- President's representative
- Foundation representative
- UEC representative

c. Meetings

Regular meetings to be scheduled by the UUAB chair.
Article I. Preamble

The Associated Students, Inc. as leaseholder for the University Union, hereby establishes the Union Executive Committee (UEC).

It is the intent of the UEC to:
1. Provide for well-informed and timely student input and access to Union management decisions.
2. Clarify the Union's management structure.
3. Provide direct supervision of the Union Director, and checks and balances of adherence to Union policy by management.

Article II. Legal Structure

A. There shall be a single organization established whose mission is to oversee the operation and management of the University Union. This committee shall be known as the Union Executive Committee (UEC).

B. The authority of the University President as established according to Title V shall be upheld at all times.

C. The UEC, being a representative of the Associated Students, Inc. shall constitute a committee of the Board of Directors.

D. Legal requirements of the state shall be met.

E. Operational and management policies established by the University Union Advisory Board (UUAB) shall be upheld at all times.

F. Financial responsibilities shall be in accordance with state law and trustee policy.

Article III. Membership

A. The authority of the UEC is vested in a committee of twenty-seven members, sixteen of whom shall be voting members with a term of two years. At the end of their first year, the Human Resources Committee shall evaluate the performance of each member. Following completion of two-year terms, voting members, excluding reps, may be reappointed for a term of one year by the Selection Committee, contingent upon approval by the UEC and the Board of Directors.
10. A minimum of a 2.3 Cal Poly cumulative GPA is required of all members at time of selection. All members shall maintain a 2.0 GPA as verified by the Chair.

11. Active participation on subcommittees is required and lack of attendance/participation will be considered grounds for dismissal subject to UEC discretion.

Article IV. Non-Voting Members

A. It is the intent and rationale of the non-voting members to advise and provide University, staff and faculty input in the management of the Union.

B. The faculty member shall be nominated by the Academic Senate. The staff member shall be nominated by the Dean of Students, soliciting recommendations from program managers. This member shall not be a representative of Student or Business Affairs. The faculty and staff members shall be approved by the President of the University or a designee.

Article V. Responsibilities of the Union Executive Committee

A. Subject to the approval of the University President, the UEC shall possess the following powers:

1. To oversee the operations and management of the University Union (including but not limited to):
   a. Programs and services for the University Union and recreation facility.
   b. Building Use - including alterations, expansion and major repair and maintenance, as recommended by the UUAB.
   c. Budget - including reserves.
   d. Space allocation and utilization.
   e. Funding for staffing requirements.

2. The UEC shall have the responsibility to:
   a. Review and recommend to the University President via the Board of Directors, subleases within the Union.
b. Review and recommend proposed space assignments as vacancies occur under Union jurisdiction.

c. Request reports regarding policy affecting the University Union from the University President via the UUAB.

3. Through their Chair, and within the policies established by the University via the UUAB, the UEC shall direct and supervise the Union Director, in the management and operation of the University Union. This direction and supervision shall include (but is not limited to):

   a. Written reports reviewing the process of policy implementation and management which shall be submitted on a quarterly basis to the Board of Directors and the University President.

   b. Written recommendations to the Union Director (to be prepared as needed) regarding policy implementation and management.

   c. Annual job evaluation of Union Director to the ASI Personnel Committee.

4. Personnel actions shall be referred to the ASI Personnel Committee including any personnel action recommendations regarding the Union Director.

Article VI. Executive Officers, Qualifications, & Responsibilities

All officers shall be student members and must carry a minimum of seven (7) units, maintaining a 2.0 GPA throughout their term of office.

Nominations for Chair, Vice Chair, RSPE Operations Chair, Union Operations Chair and Controller shall be announced and accepted by the Chair during the third week of April. Nominations from the floor shall be accepted and elections will be held the first week of May. The officers shall be elected by a majority of the voting members of the UEC.

Officers shall be elected for a one-year term and shall take office at the end of the last meeting of Spring quarter. Only those students who have served as a voting member for at least six (6) months can be considered for the position of Chair.
Background statement:

Indirect costs have been traditionally used at Cal Poly to cover administrative costs of sponsored programs in the Foundation and university Business Office and sponsored programs development in the Grants Development Office. Indirect costs remaining after these costs have been met have been distributed according to a formula that sends 50 percent to the Academic Research Committee for CARE grants, 40 percent to the department responsible for the award to assist in the continued development of that grant and similar ones, and 10 percent to the principal investigator for her/his professional development. This formula was most recently reviewed by the Academic Senate and revised in 1987.

Grants are normally conducted in campus facilities which are currently supported by the instructional program. A faculty member may use her/his own office, or a portion of a laboratory when it is not used for a classroom activity. As such, the research activity may encounter only minimal problems in getting set up.

When the School of Engineering vacated building 04, the facility was then identified for Applied Research and Development Facility and Activities (ARDFA). When the Engineering departments relocated to building 13, they removed from building 04 many useful appurtenances and relocated their programs to the new building. In doing so, they left what is essentially a warehouse. Building 04 has now been made available to the School of Engineering as an applied research and development facility. A previous three-year attempt to develop this building as a university-wide research facility failed.

CAM 543 places limitations and restrictions on the use of project funds: "Because indirect costs are real expenses, funds recovered through indirect costs reimbursement are not available to provide additional support for the direct expenses of a project," (CAM 543.1). Since the ARDFA facility no ongoing instructional program to use as a base for the development and maintenance of its research facilities, it is proposed that the indirect costs recovered from Foundation ARDFA Sponsored Projects be used in assisting ARDFA development.

In order for the School of Engineering to properly use the building for the purposes intended, funds are required to renovate and install equipment which can be used for research grants and contracts.

RESOLUTION ON CAM 543 REGARDING INDIRECT COST SHARING (ARDFA FACILITIES)

WHEREAS, Indirect cost recovery is intended to assist the university in the development and maintenance of research facilities; and

WHEREAS, The current overhead sharing plan does not allow for advances to a grant or a contract to assist in the development of facilities; and
RESOLUTION ON CAM 543 REGARDING INDIRECT COST SHARING (ARDFA FACILITIES)

Page Two

WHEREAS, The current guidelines for CARE grants recognizes the development of research facilities as an important method for encouraging research on campus; therefore, be it

RESOLVED: That the Academic Senate endorse the concept that up to 40 percent of the indirect costs recovered on Foundation Sponsored Projects using the applied research and development facility exclusively, may be utilized for the development, operation, and maintenance of the facility. This concept will be an administrative exception to the Campus Administrative Manual Section 543 for a three-year trial period with annual review by the Research Committee. The concept should ensure that the committee receives from the projects utilizing the ARDFA facility a percentage for CARE grants not less than the percentage of total campus indirect costs allocated for CARE grants in AY 1988-1989.

Proposed By:
Research Committee
July 18, 1989
Indirect Costs--Definition

Indirect costs are defined by the Department of Health and Human Services (DHHS) as those costs incurred in the development, administration, and running of sponsored programs that go over and above the direct costs of any specific project. These costs include expenses for space and facilities, office and laboratory equipment, maintenance, utilities, library use, accounting functions, departmental and school administration, university administration, and program development, as they are incurred on government and privately sponsored research, development, instructional, training, service, and demonstration projects.

The indirect cost rate is negotiated periodically with the DHHS and changes to reflect shifts in costs. Project developers should consult the Grants Development Office to determine current rates before discussing indirect costs with prospective sponsors.

Policy on Indirect Cost Recovery

The university will seek full indirect costs reimbursement for each sponsored activity, whether administered through the university or through the Foundation. Because indirect costs are real expenses, funds recovered through indirect costs reimbursement are not available to provide additional support for the direct expenses of a project.

Utilization of Indirect Funds

As indirect cost reimbursements for projects administered fiscally either by the university or by the Foundation are accumulated, they may be utilized by the respective business offices to pay for the financial administration of the projects according to the approved rate. All other funds shall be placed in appropriate Foundation or university trust accounts designated "Unallocated Overhead," which is to be used for covering associated costs as well as for sharing throughout the university.

Report on Expenditure of Indirect Costs and Proposed Utilization

At the beginning of each fiscal year (or more frequently if required) the Associate Vice President Graduate Studies, Research, and Faculty Development in cooperation with the Vice President for Business Affairs and the Foundation Executive Director will develop a summary statement that will include the following:

A. Indirect cost income during previous fiscal year, including any balance of unused indirect costs reimbursements remaining in the trust accounts.

B. Charges during the previous fiscal year for:

1. University fiscal administration
2. Foundation fiscal administration and reserves

C. The Associate Vice President for Graduate Studies, Research, and Faculty Development will use the above statement as the basis for developing a proposal for the use of unallocated overheads during the current year. The proposal will be developed in consultation with the Academic Senate Research Committee. Its objective shall be to fund adequately each of the following in priority:

1. Supplementary budget support for the Grants Development Office;
2. Reserve for program development/contingency; and

Revised June 1988
3. Uncommitted funds for use by the university, including funds remaining after the termination of fixed-price contracts.

The above summary statement and proposal will be reviewed and endorsed by the Vice President for Academic Affairs and sent to the President for approval.

543.4 Policy for Maintenance and Utilization of Reserve for Program Development/Contingency

The goal of the reserve for program development/contingency is a level sufficient to assure adequate resources for the continuing support of the grants development activity. Its use will be restricted generally to costs associated with major proposal development or grant negotiation and to reserves necessary to ensure continuity in funding for the Grants Development Office. Recommendations for expenditures are made by the Director of Grants Development and approved by the Associate Vice President for Graduate Studies, Research, and Faculty Development.

543.5 Policy for Allocating Uncommitted Indirect Cost Reimbursements

Uncommitted overhead funds approved for allocation will be distributed in the following manner and for the following purposes.

Fifty percent of uncommitted indirect cost reimbursements will be available to the Academic Senate Research Committee, which will solicit proposals from the faculty for research, development, and other scholarly and creative activities and recommend grants subject to the approval of the Vice President for Academic Affairs. The program under which the Academic Senate Research Committee recommends proposals to the Vice President for Academic Affairs is called CARE, for Creative Activity/Research Effort.

Forty percent of the uncommitted overhead will go to the administrative unit directly sponsoring the project (e.g., department, dean's office, institute, or center). These funds are not discretionary, but are restricted funds, intended to be used to reinforce and foster such activities as those that led to the grant that earned them, including additional support to the individual project investigators. Ten percent will go to the individual project director for professional development activities.

544 Patent Policy and Procedures

The university, by its very nature has an obligation to serve the public interest. In order to do this effectively, it is necessary that the university have a patent program which will make inventions arising in the course of university research available to the public interest under conditions that will promote effective development and utilization.

The university also recognizes its need to assist faculty and staff members of the university in all matters related to patents based on discoveries and inventions developed in situations such as those in which the university has no vested interest, i.e., those which are developed by a faculty or staff member on personal time and without the use of university facilities.

Revised June 1988
