Ruthie Elected Homecoming Queen

Ruthie Halbrook (see picture) was chosen 1955 Homecoming queen last night at a ceremony held in the Engineering auditorium.

The more than 250 ballots cast selected Missie Kirk and Audrey Cowman as princesses for the celebrations set here for October 22. All three are students of Santa Maria's Highcock college.

The three candidates had been chosen last week by a special Cal Poly committee, who traveled to Santa Maria and took part in the final judgment.

Included on the ballot were Ruthie Halbrook, Ruthie Manley, Missie Kirk, and Audrey Cowman.

The committee which chose the queen set the following standards for the candidate: student, good standing, good cooperation, and good example to others.

Included in the voting were: Ruthie Halbrook, Ruthie Manley, Missie Kirk, and Audrey Cowman.

Their trinkets were financed by the Student Affairs council as a reservation of the Association of College Unions in Logan, Utah.

They returned with a permanent student union on the campus.

The students are expected to have a chance to enter a "Come on and See Us" box at the post-Marine-Movin' show Tello-Test and a special "Come on and See Us!" program.

The fact that only 560 of the 2,150 students were enrolled is the number of students who are involved.

The Cal Poly delegates were inspired by the 40-minute show and the "Come on and See Us" program.

Mustangs—Still Undefeated—Host Marine Eleven Tomorrow

Hughesmen Must Cope With 220 Pound Recruit Depot Line; Seek Fifth Win

By William E. Thomas
Sports Editor

One has to face it—should Poly subdue San Diego Marine Depot’s eleven tomorrow night here, it’d be a major feat, for the Mustangs are by no means geared to thrust through or halt a Marine end-to-end line of 220-pound average. With the game set for 8:15 p.m., the local green and gold will play, nonetheless, toward a unit which has four straight triumphs of 1954.

Although the Mustangs have emerged victors in Fort Ord and Santa Barbara, they have taken only a few runs in playing the Sea Lions, whom they have defeated, once three times in the past. They will have to find that team cohesiveness if we want to hit the win column during the remainder of the season.

The Silver Fox said, too, that he would be stronger in the front line, but that the Mustangs should do better than we have in the back. Expecting trouble from a schedule that goes tonight every weekend. Coach Hughes noted.

Santa Fe Presents Three Scholarships To Future Farmers

Three California State Polytechnic college students have been awarded Santa Fe scholarships for outstanding agricultural achievement in the Future Farmers of America.

The three are Douglas Tatreau of San Isidro, Robert Lamina of Gorman and Douglas Maddox of Laton.

The Santa Fe awards are made on the basis of leadership, scholarship and development of home and school projects under FFA rules.

Gordon Tatreau, a junior at Cal Poly, is a member of the college's dairy cattle judging team and is to receive the California state dairy FFA award to be held at Kansas City.

Tuition Fee

Don Nelson, college business manager, announced that state veteran students attending public law 660 will have to pay non-resident tuition fees from allotments.

"By veterans Administration regional office, Nelson explains, "has asked for a legal opinion from the central office as to whether or not the Veterans Administration can pay tuition for trainees under PL laws 116 and H 141.

United Nations Dance

A 10th anniversary dance will be sponsored by the Newman Club in the Old Mission Hall at 8:30 p.m. Monday, Oct. 17, in observance of the United Nations and United Nations day.

The dance is semi-formal with themes and refreshments providing an international atmosphere. The charge will be 25 cents to cover cost of refreshments.

Clare Gard

Do you throw it away or make it pay?

"You've heard it said that necessity is the mother of invention?

" Seems to me plain everyday American initiative is pretty inventive, too. Take the way Union Oil got into the dry ice business.

"Union, you know, supplies much of the natural gas used in Southern California. Well, some years back, we needed to increase the heating value of our gas as it came from the field.

"We had a choice. We could enrich our product by adding other gases to it. Or we could accomplish the same thing by removing the CO2, or carbon dioxide, from it. It was purely a matter of economics.

"We experimented removing the carbon dioxide with a process that had, till then, been used for quite a different purpose. It proved so effective it paid us to take out the carbon dioxide, even if we were to throw it away after we got it out of the gas.

"But that's the point. Instead of throwing the CO2 away, we surveyed the dry ice industry, built an $800,000 plant at Santa Maria, and converted our waste carbon dioxide into dry ice.

"That was 1948. Since then we've produced and sold over 102,000 tons of dry ice. And the plant's about paid for. See what I mean by American initiative?"

"Part of the initiative and inventiveness was Gard's, certainly. He was Process Engineer on the Santa Maria project.

A subsidiary company of ours has since built an ammonia plant which also makes dry ice. Union Oil is now the largest producer of this product west of the Mississippi.

So long as you and Gard and all of us continue to enjoy the encouragement and rewards of America's free competitive economy, this kind of inventive initiative will thrive.

YOUR COMMENTS ARE INVITED. Write: The President, Union Oil Company, Union Oil Bldg., Los Angeles 17, Calif.

Torchlight Parade...

Friday night's torchlight parade into downtown San Luis Obispo brought out more of the old traditional college spirit than has been seen around here in a long time.

We do not go along with the few who term the event a riot...a demonstration of "mob hysteria." But, unfortunately, some of the activities did become destructive.

A few of the business establishments suffered minor damage, and as a result, the student body is rightly footing the bill. one that may run anywhere from $200 to $400.

Dean of Students Everett M. Chandler expressed this feeling before the Student Affairs council Tuesday night. "A few things like burning books, emptying fire extinguishers, and torch burning are being received by city police. This is what we expect in the future."

The rally proved to be a great shot-in-the-arm for our school spirit. Where these bounds lie might be a debatable question, but it is our opinion that the college owes no apologies for the event itself, though not condoning the infractions of the minority.

Dean of Students Everett M. Chandler expressed this sentiment. He has been in the hospital since the Saturday nightYLour team came from behind to walk, emptying fire extinguishers, and torch burning are being received by city police. This is what we expect in the future."
