Big Rooting Section to Follow Grid 11 To SJ For Spartan-Mustang Fray

No Change in Bus

There will be no started bus to the San Jose game tomorrow night. Big, Sigg's in the AFB office were non-existent, and it seems that the Cal Poly bus will go to the game after coming from behind last night against Cal Poly, the San Jose university, 11-8.

The bus will be out to show that this past Saturday's 34-38 drubbing by Stanford should be kept in the bus. Poly bests a record of six wins and 9 losses.

San Jose had won four straight, but dropped its past two games with CofF and Stanford.

Coach of the Spartans' poten-

ty, Coach Hughes has told his players' digital 'run', "We're through being a second half team." He said, "I remind them that if they get beyond San Jose, the Cal Poly team is just too strong."

The Spartans held a six-inch edge in the overall battle between the two colleges. Plays date back to 1927. It was this initial stage of Mustang-San Jose play that Poly has been known as the 'Jerry Shumacher' and its graduates were only 63 per cent of college graduates. Enrolling in a Poly graduate could take the experience of obtaining an El Rodeo, students were non-existent, and it seems that the Cal Poly team is just too strong.

The professional registration...
News in Brief

El Mustang Deadline

There will be no classes next Friday, which is Armistice day. A four-page edition of El Mustang will come out Thursday morning, so the deadline for submitting copy has been advanced to midday Thursday. This is the final deadline for this year, unless special arrangements are made in advance.

Chilly Tour Today

Cal Poly's Air Conditioning club winds up a three day field trip concept when they tour the Higueras and Coakley Air Conditioning company in Oakland. Yesterday and today's activities also include visits to the Kodak Processing Laboratory at Palo Alto, Fraser and Johnston in San Francisco, and the Naval shipyard.

Alumni Elect New Head

Leo Rathboke, Cal Poly's poultry and agriculture and economics director, has been named national director of the California State Polytechnic College Association. John E. Jones, San Luis Obispo, is the new director.

Hot Reception

Cal Poly's fire department has had to interpret the traditional hard game three times this year due to fire restrictions. Two occurred last week on the hill near the "P", and the latest blazed up Monday night across from the A.F.L. Cancer Film Monday

Self-Best Examination.

Public service film sponsored by the American Cancer Society will be presented to all women interested in the Engineering auditorium Monday, Nov. 9, at 8 p.m.

Progress Being Made on Temporary College Union

by Alton Pryer

A big problem confronting the college union committee is choosing a site to accept for the use of students. The decision has been made to go with the old poultry store.

Reserves Fly Free

All members of the Martin Reserve will be flown free to the Union's possibility. The service will be free in every case, regardless of the type of service training the student is having, and will have been free.

Members are held on a bill of four full days pay for each weekend and the wages guaranteed by your university. All members are picked up and paid for their services. We have in mind a charge to attend the meetings there.

Cotton Tour Ends Today

Today more than two dozen Cal Poly students visited the United States Cotton Experimental Station near Bakersfield. They also visited the Kern County Land and Cattle company's rangeland in the southern part of the state.

Cotton Tour Ends Today

Yesterday students visited the extensive operations of the Kern County Land and Cattle company's rangeland just west of Bakersfield, planting topsoil to seed cotton. They also visited the Kern County Cotton Experimental Station near Shafter.

Early this morning, they stopped at the United States Cotton Inspection Station when they were given an opportunity to see the exact ways every bale of cotton produced in the state is classified.

This afternoon's activities will include a guided tour through the immense storage and grading plant of the California Cotton Cooperative Association. They will see the plants' special cotton classing and measuring laboratories, the cotton compress and its office facilities.

Fellowship Awards

Offered Students:

Dr. Robert Rankin, executive director of Rockefeller Brothers Theological Fellowship, will discuss the awarding of fellowships for theology study and teaching on Monday, November 7, at 7:00 p.m.

Fellowships are awarded for one year to qualified persons, with a second award for a second year's study. The recipient may attend any theological school fully accredited by the American Association of Theological Schools.

Applications are being received by Dr. Robert J. Rankin, director for the fellowships at Cal Poly.

Fellowship Quips

Women students attending to catch a husband at San Jose State had better transfer to more fertile ground, according to the "Stockton Daily" after inspecting the ratio between men and women. Wonder if they've heard of Cal Poly.

The "Daily Californian" made the following suggestion to reporters traveling to the U.C.L.A. games last weekend: "Take your emegency kit or its equivalent.

A Minute Case of Jistiness was the name given to a Halloween stag minor at U.C. This stuff "justiness" must be a new brand, 100 percent.

Mayor George Starch of San Jose rode the streets of Stockton on an old nag the other day, the penalty for San Jose's loss to College of Panhellenic. He pulled the lower in a cart and had to make a stop at the U.C.L.A. in Stockton metropolitan.

Reading through the "Downey Star," publication of Santa Maria's students, following in their account of Santa Maria's Homecoming weekend at Cal Poly:

"However, at meal times in the campus cafeteria they were particularly good and not at all. Credit this week..."

Why do more college men and women smoke Viceroy's than any other filter cigarette?

Because only Viceroy gives you 20,000 filter traps in every filter tip, made from a pure natural substance—cellulose—found in delicious fruits and other edibles!

1. You, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.

2. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.

4. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip... and Viceroy costs only a penny or two more than cigarettes without filters!

That's why more college men and women smoke Viceroy's than any other filter cigarette... that's why Viceroy is the largest-selling filter cigarette in the world!
This Thing Humor . . .

El Mustang, in the eyes of some campus inhabitants, is a failure. The reason: no humor. Admittedly, our humorous touch has "scarcely been." Humor, for the most part, is not such.

In searching through nearly 100 college publications from throughout the state that have come through our weekly four to eight pages is satire, risque humor.

Mustang—like so many of its campus cousins—is a practical publication, designed to serve and we hope please a particular group of campus inhabitants, is 

El Mustang is not alone on this stand; in fact, it would require the purchase of another; for all or any of these three weeklies.

Sign up today at the campus bookstore or with your college agent.

ESPECIALLY FOR YOU

A full year's subscription to any one of these three great weekly magazines: these reduced prices are for college students only. Take This, The Weekly Newsmagazine, for less than 6 weeks, or Life, America's favorite pictorial for less than $1 a copy...or SPORTS ILLUSTRATED, the first national sports weekly, for less than $1 an issue.

The purchase of one magazine does not affect the purchase of another; your subscription is guaranteed to all for any of these three weeklies.

FLOODLIGHTS ON SAC

By Bob Flood

Major item of debate at the Student Affairs council Tuesday night: new student fee. This fee is supposed to provide the necessary funds for the Student Affairs Committee.

Mr. Russell, the council chairman, said the idea of a student fee was a good one, but he was not sure if it was necessary.

The council also discussed the possibility of a new student activities center. This center would be used for social and cultural events.

Munger is Example Of Cal Poly Product

Gordon R. Munger, 80, a former student at Cal Poly, is now the president of the Greater Los Angeles Chamber of Commerce. Munger is a native of California and has been active in the business world for many years.

This large business organization will help Munger establish a close relationship with the community. Munger has many friends in the business world and his presence at Cal Poly will be a great asset to the student body.

remedial English 10:00 a.m. T 12 10:00 a.m. T 12

Poly Band Puts In Many Hours Behind The Scenes

By Larry Litchfield

Cal Poly's 46-piece marching band puts in over 400 man-hours a week; though often displaying the finished product before the public eye in just a few minutes. Though taken pretty much for granted, there would probably be many a howl if these 46 men showed up at a football game in civilian clothes, left their instruments at home and proceeded to watch the game as a normal spectator.

Football games are not the band's only activity. It also appears at rallies, assemblies and parades. The Poly Gymn Band concert is a highlight of the year. Difficulties in organizing the band in September lie in three categories:

(1) There is a big difference on the part of members who have never marched before and those who have. Different types of bands. For example: It takes a lot of time to teach the band not to blast, to out step in unison, to stand tall and to walk in straight lines.

(2) It is hard to get the men to march together. Many have never marched before, particularly in a band. Beginners need much practice before they are good. It is even more difficult to practice when the band is divided into two or more sections. Practice must be held when all sections are present.

(3) Difficulties arise in scheduling of blocks, as the band is never present "on purpose" except at the evening's performance. Because of this, same men come only twice a week, while others have jobs which limit their participation. Mayor Phil Johannesen of Arroyo Grande has a never-ending job. No band is a success without top-notch officers. These are the men who make the plans and help carry them through. This year the president is Jerry Taylor from Redding. Other officers include managers: Dick Reed of Anaheim; vice president, Lee McAlpin; secretary, James D. Flick; and treasurer, Rt. Rev. Wilfred Williams. Music Board representatives are Don Hill of San Luis Obispo and Jerry Wicks of San Luis Obispo.

Band men will tell you that they have to work hard. For in the three days a week they must, they must be able to learn at least six marches, ten novelty tunes, four school songs and the "Rose Bowl Marcher". They must develop stunts, with the special winter months usually spent in practice.

In the first boat of the mass must develop stunts with the special winter months usually spent in practice. The Poly Band's past record is the songs, "Happy Birthday" and "Jingle Bells". Though taken pretty much for granted, there would probably be many a howl if these 46 men showed up at a football game in civilian clothes, left their instruments at home and proceeded to watch the game as a normal spectator.

At the same time he must stand straight, watch the drum major for signals, and play the music correctly.
